Discover the 22nd Edition of the Britpart Accessory Catalogue

We're excited to introduce the latest edition of the Britpart Accessory Catalogue, its 22nd edition - packed with over 350 new parts to explore!

From the newest Land Rover models to timeless classics, this edition offers a wide range of accessories to help you customise your Land Rover exactly how you want it. Whether you're upgrading for performance, practicality, or style, there's something for every enthusiast.

In addition to accessories, we also stock a comprehensive range of repair parts, many of which are featured throughout this catalogue. These essential components help Land Rover owners worldwide keep their vehicles running strong- on the road and off it.

We're constantly expanding our product line, so be sure to visit www.britpart.com for the latest updates and new arrivals. And if you don't see a product image in the catalogue, check our website - we've got a full gallery of product photos and additional details online.

OUR GUARANTEE TO YOU...

Britpart 24-Month Guarantee – Quality You Can Rely On

For over four decades, Britpart has been the trusted name for parts and accessories for Land Rover users across the globe. We're proud of our commitment to quality with a 24-month guarantee on all* Britpart parts and accessories.

Backed by a multi-million pound investment in premium products, skilled personnel, advanced equipment, and enhanced processes, this guarantee reflects our ongoing mission to deliver excellence. Our dedication to quality is also underlined by our ISO 9001:2015 certification from Lloyd's Register Quality Assurance.

Covering over 28,000 parts - from springs and clutches to winches and shock absorbers- our guarantee gives end users complete peace of mind. If a product is found to be defective due to faulty materials or workmanship, it will be replaced free of charge after inspection by our expert quality team.

Whether you're maintaining a classic Series 3 or upgrading a new Range Rover, every Britpart component is backed by the same trusted 24-month guarantee. It's a clear signal to users that they're fitting their Land Rover with the best parts available.

Look out for the Britpart Guarantee logo-your assurance of quality, reliability, and performance that lasts.

*Subject to our standard terms and conditions. Proof of purchase required by the original point of purchase. Excludes reconditioned gearboxes & engines. This guarantee does not affect your statutory rights.

Britpart - The Trusted Name in Parts & Accessories for Land Rovers

With over 40 years of experience, Britpart is the leading independent wholesaler of parts and accessories for Land Rovers, trusted by over 1,000 stockists worldwide-from government agencies to trade outlets.

CERTIFIED ISO 9001

Our name stands for quality, reliability, and innovation, backed by our 24-month guarantee and ISO 9001:2015 certification.

One-Stop Shop for Your Land Rover
From o-rings to engines, Britpart stocks over 28,000 items, including Genuine Land Rover, OEM, and Britpart branded parts, all competitively priced. Whether you're servicing, restoring, or rebuilding, our stockists have access to everything you need.

We also offer an extensive range of accessories for all Land Rover models - perfect for personalisation, overlanding, or performance upgrades. We stock trusted brands like ARB, Ring, Corbeau, Dynamat, and more.

Fast, Global Distribution
From our HQ in Shropshire, UK, our vast warehouse and dedicated fleet deliver across the UK, Europe, and beyond. We also partner with major global carriers to reach customers wherever they are.

Global Reach, Local Support
Britpart has a growing international presence, including Britpart España, France, Belgium, Brazil, USA, and Poland - and we're always seeking new partners in the Land Rover parts community.

Exceptional Customer Service
Our specialist sales teams for Home, European, and Export markets provide expert support in multiple languages. With deep industry knowledge and a passion for Land Rovers, our team goes the extra mile every day.

Crafted with Care
Our in-house Trim Shop produces handmade seats and interiors to the highest safety and comfort standards. Our Lock Shop Team also handles light engineering work for bespoke solutions.

PARKING SENSOR KIT

Add an extra set of 'eyes' when reversing...

*Note: Not suitable for vehicles with metal bumpers.

DA4511
These bumper* mounted sensors will detect the distance between your vehicle and any rear obstruction and warn the driver to any potential obstructions. An advanced parking solution for obstacle detection at the rear of your vehicle. Reduce the risk of collision during reversing and reverse parking manoeuvres with this kit.

As the reverse gear is engaged, a sound indicates that the reverse sensors are activated. Any obstacle at the rear of the vehicle is then detected and signalled to the driver through a progressive sound whose frequency increases when moving closer to the obstacle. Enhance your safety through obstacle detection, even when objects are out of the driver's field of vision. Improve comfort through easy parking manoeuvres. Suitable for 12v cars, SUVs and light commercial vehicles.

Kit contents include -
4 x Bumper fit sensors
1 x Warning buzzer
1 x Control unit
1 x Wiring harness
1 x Cutting tool
1 x Fitting accessories
1 x Installation instructions

DA7533

Rock Slider/Side Steps

DA7533 Discovery 3 / Discovery 4 Black finish

The best of both worlds with these fitted to your Discovery!

Rock Slider - an essential purchase for any off road use. They prevent damage to the underside sill of the vehicle and allow for safe passage over rocky and rough terrain.

Side Steps - users often fit side steps to enable easy access to and from the car - this is a problem when going off-road as they bend, break and cause snagging. These heavy-duty side steps are made from 5mm steel plate with 50mm tube backed up by an additional 2 x 40mm tube supports. The joints are TiG welded for a smooth finish.

DA7534B

Rock Sliders

DA7534B Discovery 3 / Discovery 4 Black finish

These rock sliders (sill protectors) are manufactured from 6mm 5083 aluminium and come completely machined and drilled ready to fit. An essential purchase for any off-road use as they prevent damage to the underside sill of the vehicle and allow for safe passage over rocky and rough terrain. Attaches to your vehicle using 11 mounting points on the side and underneath and when the car doors are closed they are almost unseen, but you have the piece of mind that your car sills are safe from damage. These units require no additional drilling just unscrewing and unclipping of the plastic OEM parts. For more information & images of these rock sliders visit **www.britpart.com/rock**

DA3807

DA3807 | Safety Devices Tubular Side Step/Rock Slider NEW

Defender 110 - Station Wagon - 2007 - 2016

A direct replacement for the OEM side steps. The mount to both the existing OEM mounts under the sill as well as additional chassis mounts. Features a removable toe rail assembly.

Plus 30mm Wheel Arch Kits

DA1979	Front pair
DA1978	Rear pair

Defender

Designed to keep your vehicles legal when fitting wider tyre and wheel combinations whilst maintaining an appearance closer to the standard arch than other wide arches. Using similar material to the OE arches they fix to the vehicle using the normal style clips - supplied.

Note: Wheel arches shown here with 285 75/ R16 tyres on a ZU rim with an 11mm + VE offset.

DIRT D-FENDERS

DA1193

Dirt D-Fenders are a great solution to the annoying problem of mud which splashes through the gap that exists between the bottom of the wheel arch and the mudflap of your Defender. They are an especially useful addition if you are using wider tyres. The Dirt D-Fenders attach with rivets into the underside of the sill and wheel arch flare. The smooth finish is suitable for painting to match your body colour. Supplied in pairs with fitting kit.

DA1197

Transmission Guards

DA5625 Defender - Td5
Reduce damage to your Defender 90. Made from galvanised steel, this transmission guard protects your 90's gear box and cross members from snagging and reduces damage to your vehicle. Bolts on and is easy to fit and importantly it is also easy to remove when your vehicle needs servicing. **Note:** Only fits with centre exhaust removed and pipe fitted.

DA7532 Discovery 3
This transmission plate protects the underside of the transmission and allows the car to slide over objects. With a natural finish the plate is made from 6mm 5083 grade aluminium and water jet cut to a precise finish. Plate bolts directly into existing holes and bulkheads already in the chassis, using the standard Land Rover fixings and two additional fixings.
Note: Can only be fitted when sump plate DA7536 is also fitted.

Sump Plate

DA7536 Discovery 3
This sump plate protects the underside of the engine and allows the car to slide over objects, forward and backwards due to the rear lip. With a natural finish the plate is made from 6mm 5083 grade aluminium and has been water jet cut to a precise finish. Plate bolts directly into existing holes and bulkheads already in the chassis, using the standard Land Rover fixings.

OUTRIGGER MUD SHIELDS

Front Outrigger Mud Shields
DA3477 Defender
These Gwyn Lewis 4x4 outrigger mud shield guards will fit all Defenders. Designed to stop all the mud and road salt getting on top of the front outriggers which can cause them to rot away, even galvanized chassis can suffer after a while. They also make cleaning your Defender much easier as the mud can't get into the outrigger and around the footwell. Another advantage of fitting them is they also cut down road noise especially in wet conditions. Manufactured from a rigid but still flexible 3mm plastic material in black, they are very easy to fit. Just slide them in behind the inner wing and use the 2 inner wing securing screws (included) to secure them. Fitting instructions are supplied with the kit.

UNIVERSAL JOINT SILICONE SLEEVES

Series / Defender / Discovery 1 / Discovery 2 / Range Rover Classic
By adding one of these silicone sleeves you will reduce debris from building up in the universal joint which, in time, will increase the life span of the joint.

DA4810	Rear UJ silicone sleeve for 63mm diameter propshafts
DA4811	Rear UJ silicone sleeve for 51mm diameter propshafts

FUEL COOLER GUARD

DA6540 Defender - 2007 - 2016
Protect the Defender's vulnerable fuel cooler with this easy to fit electro-plated guard.

SWIVEL HOUSING GAITER KITS

Permanent Protection!

- Bond in place under existing flange
- Completely seals against dust, water & grit
- Moulded in high performance neoprene rubber
- No special tools required
- Proven tongue and groove for easy assembly
- Kit includes two gaiters, metal straps, bonding agent, gloves and full instructions

DA3056	Series / Lightweight

DA1588
Discovery 2
Window guard for the tailgate door offering protection to the glass.

DA1586

These guards will increase security by deterring opportunists looking to enter from the rear, less visible part of your Land Rover. Designed to fit perfectly and providing full window coverage for the vehicle, these grills are constructed from 2mm steel with a zinc and black powder coat. All guards are supplied with the necessary brackets & fixings required for fitting at home.

PROTECTIVE COVERS

DA2834

DA2835

Ultimate Outdoor Covers
The Ultimate Outdoor Car Covers are made from a specially formulated advanced nanotechnology fabric, giving a unique water resistant coating to ensure long term protection and care for your Land Rover. The cover is manufactured from an advanced fabric which is fully waterproof*, fully breathable, strong and stretchy. The fabric is a little like a wetsuit, making them extremely soft on the inside and extremely durable. The covers have three sets of fully detachable straps underneath to help secure the cover, one at each end and one in the middle.
*Whilst the fabric is waterproof occasionally some seepage may occur through the seams, this will evaporate naturally as the fabric is breathable.
Note: At certain times of year (particularly in winter) when the air temperature fluctuates often, you will find that any outdoor car cover won't stop condensation forming on the car. The cold bodywork of the car will attract condensation due to the warm micro-climate within the car cover, however these covers are fully breathable, so as the temperature equalises this will evaporate through the cover. If you are worried about condensation forming during this higher humidity weather, we advise removing the car cover for a short while to let both the cover and the car air.

DA2837

DA2836

Super Soft Stretch Indoor Covers
Super soft, super stretchy indoor car cover made with Lycra blended, satin fabric which allows the cover to cling to the car whilst its subtle sheen gives an elegant finish. Tightly knitted fleece lined fabric provides excellent protection from dust and other pollutants as well as remaining breathable to prevent any build-up of condensation forming on the car. The snug fit of these covers ensures that they not only look great but also provide exceptional protection. Low profile seams guarantee a sleek finish whilst displaying the contours and profile of your Land Rover.

DISCOVERY - SIDE STEPS

DA7533 | Rock Slider/Side Step
Discovery 3 / Discovery 4 | Pair

Rock Slider
An essential purchase for any off-road use. They prevent damage to the underside sill of the vehicle and allow for safe passage over rocky and rough terrain.

Side Step
Users often fit side steps to enable easy access to and from the vehicle - this is a problem when going off road as they bend, break and cause snagging. These are heavy-duty side steps made from 5mm steel plate with 50mm tube backed up by an additional 2 x 40mm tube supports. The joints are TiG welded for a smooth OEM finish. The other benefit of this rock slider/side step combo is that the outer 'bar' pushes away small trees and scrub from the bodywork of the vehicle. They can also be used to 'slide' around thick trees when grip is minimal. These units require no additional drilling just unscrewing and unclipping of the plastic OEM parts. Fitting should take 15 minutes each side. Grip tape supplied loose for optional fitment.

DA1512 | Electric Deployable Side Steps
Discovery 4

- Easy access to your Discovery 4
- Never available from Land Rover as an OE option
- Smart design. Enhance the look of your Discovery 4
- Tucked away when driving, prevents damage. Fixed steps are susceptible to damage when driving off-road
- Side steps automatically lower into place when a door is open and raise once door is shut
- Safety cut-off should step encounter an object
- Function to lower step with door shut - ideal for accessing the roof
- Manufactured from aluminium - strong and light

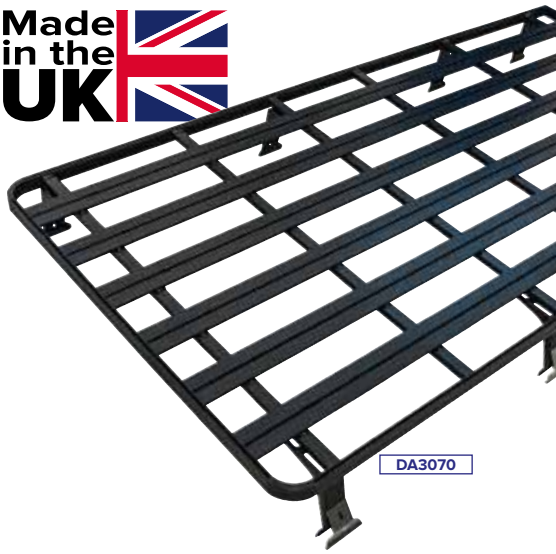
Made in the UK



DA3070

These roof racks are manufactured from aluminium with a smart black powder coated finish. Fully welded, they are extremely strong, versatile, with a low profile and are easy to use. The floor plank profiles are orientated longitudinally which results in a reduction in wind noise. There are nut channels on all the extrusions to allow for easy fitment of 3rd party accessories.

BRITPART EXPEDITION

DA3072
Defender 90 — 3 feet per side
Weight - 32kg
Dimensions - 2,050 L x 1,500mm W
Vehicle gutter to top of rack - 265mm

DA3070
Defender 110 — 4 feet per side
Weight - 38kg
Dimensions - 2,750 L x 1,500mm W
Vehicle gutter to top of rack - 265mm

DA3269
Defender 110 - Double Cab Pickup — 3 feet per side
Defender 130 - Double Cab Pickup
Weight - 27kg
Dimensions - 1,600 L x 1,500m W
Vehicle gutter to top of rack - 265mm

DA2901
Defender 110 - 2020 onwards — 4 feet per side
Weight - 22kg
Dimensions - 2,100 L x 1,260mm W
Vehicle gutter to top of rack - 110mm

DA6529
Discovery 1 / Discovery 2 — 3 feet per side
Weight - 26kg
Dimensions - 2,050 L x 1,500mm W
Vehicle gutter to top of rack - 265mm
Note: Will only fit vehicles without factory fitted roof rails.

DA6629
Discovery 1 / Discovery 2 — 3 feet per side
Weight - 27kg
Dimensions - 2,050 L x 1,500mm W
Vehicle gutter to top of rack - 340mm

DA6537
Discovery 3 / Discovery 4 — 4 feet per side
Weight - 23kg
Dimensions - 2,300 L x 1,260mm W
Roof to top of rack - 120mm
Note: May need roof rail kit (CAB500120PVJ or CAP500090) to be fitted to vehicle prior to roof rack installation.

SAFETY DEVICES ROOF RACKS - EXPLORER RANGE

DA4703

PLY FLOOR AVAILABLE SEPARATELY

Safety Devices Explorer Roof Rack Range
Heavy-Duty Steel Roof Rack
Explorer roof racks can be affixed with a system of detachable roof cross rails to the rainwater gutters or with aluminium clamps to fit directly on to the majority of Safety Devices' external roll cages. A rain gutter mounted roof rack can be converted into a roll cage mounted roof rack with the appropriate fitting kit. The standard pack includes a steel roof rack, fixing bolts and optional roof cross rails.

Roof racks are grit blasted, primed with a zinc enriched powder undercoat, and finished with a durable black powder coat. Tents can normally be affixed to the roof rack without a floor, although a marine ply non-slip floor is also available.

Additional roof cross rails are available to purchase for use without a roof rack for use as, for example, a roof bar, basic tent support, attaching a roof storage box or to spread additional load on the Safety Devices' roof racks.
Note: Not compatible with a sunroof.

DA4710

DA3285

DA4702

PLY FLOOR AVAILABLE SEPARATELY

SAFETY DEVICES ROOF RACKS - 'G4 EXPEDITION' RANGE

DA4720 / DA4721

DA4718

DA4722

Safety Devices 'G4 Expedition' Roof Rack Range
An 'all in one' rack without detachable parts and a luggage rail which completely surrounds the roof rack. The roof rack neatly follows the profile of the roof to provide two floor levels and fixes to the rainwater gutter only. This roof rack cannot be fitted to a vehicle where an external roll cage has been fitted.

Includes 4 spotlight brackets at the front and 1 spotlight bracket at the rear. Heavy-duty steel roof rack, grit blasted, primed with a zinc enriched powder undercoat, and finished with a durable black powder coat. Standard pack includes a steel roof rack and rain gutter fixing bolts.

Note: Not compatible with a sunroof or roof tent.

SAFETY DEVICES ROOF RACKS - HIGHLANDER ROOF RACK

DA4732

DA4733

Safety Devices Highlander Roof Rack
DA4732
Discovery 2 with roof rails
Highlander' roof rack for mounting to the rain gutter.
Full luggage rail which neatly follows the profile of the vehicle's roof. 4 light brackets at the front, 1 at the rear. Roof rack will also fit with factory fitted 'oversized' roof bars. Roof racks are grit blasted, primed with a zinc enriched powder undercoat, and finished with a durable black powder coat. Will allow limited use of the sunroofs although cannot be opened fully.
Weight: 29kg

DA4733
Marine ply floor for DA4732
1 floor with 2 'levels' plus all stainless and galvanised hardware for mounting.
Weight: 19kg

SAFETY DEVICES ROOF RACKS - LOW PROFILE ROOF RACK

Safety Devices Low Profile Roof Rack
DA4736
Discovery 3 / Discovery 4
For mounting to roof rails
- CNC mandrel bent tubes
- Laser profiled plates and tubes
- 4mm gloss acrylic capped ABS wind spoiler
- All stainless steel fasteners
- Load area - 1,950 x 1,015mm | 60kg

DA4873

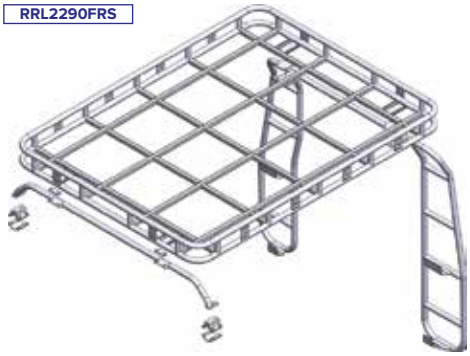
SAFETY DEVICES SOFT TOP ROOF RACKS

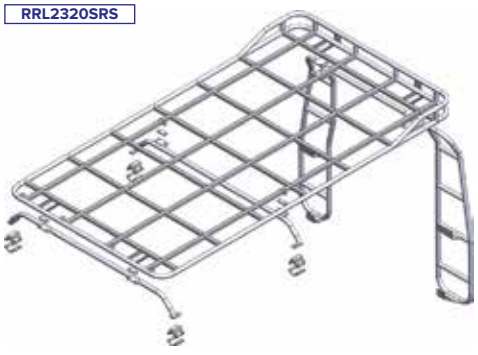
RRL2290FRS



Defender 90 Soft Top Roof Racks
Roof racks for mounting to RBL1887SSS / RBL2997SSS.
Rack covers the full length of vehicle.
Kit includes double rear ladder and cross rail.

RRL2290FRS	2.0m x 1.4m	Full luggage rail
RRL2290LRS	2.0m x 1.4m	Long luggage rail
RRL2290SRS	2.0m x 1.4m	Short luggage rail
RRL2290NRS	2.0m x 1.4m	No luggage rail

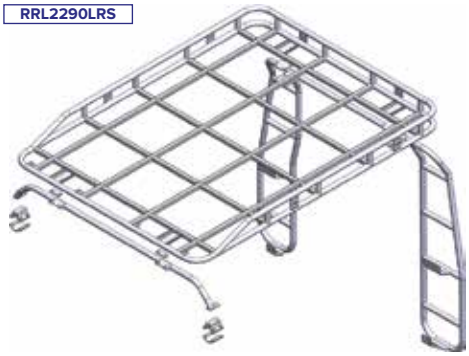
RRL2320SRS



Defender 110 4-Door Soft Top Roof Racks
Roof racks for mounting to RBL3087SSSINWARD / RBL3087SSSFWD
Rack covers the full length of vehicle.
Kit includes double rear ladder and cross rail.

RRL2320FRS	2.8m x 1.4m	Full luggage rail
RRL2320LRS	2.8m x 1.4m	Long luggage rail
RRL2320SRS	2.8m x 1.4m	Short luggage rail
RRL2320NRS	2.8m x 1.4m	No luggage rail

RRL2290LRS



Defender 110 4-Door Soft Top Roof Racks
Roof racks for mounting to RBL3087SSSINWARD / RBL3087SSSFWD
Rack covers the rear section of the vehicle only, the area directly above the front row of seats is clear.
Kit includes double rear ladder and cross rail.

RRL2290FRS	2.0m x 1.4m	Full luggage rail
RRL2290LRS	2.0m x 1.4m	Long luggage rail
RRL2290SRS	2.0m x 1.4m	Short luggage rail
RRL2290NRS	2.0m x 1.4m	No luggage rail

SAFETY DEVICES ROOF RACK & ACCESSORY RACK

Accessory Rack
DA3568 Defender 90 / 110 / 130 - 2020 onwards
Multi-purpose accessory mount that can be fitted to either side of the vehicle. It can be installed standalone or in conjunction with the Safety Devices Roof Rack Assembly. Features mounting rails along upper and lower sides along with 4 x tie down points. Requires drilling of the trim panels below the rear window to allow installation into the existing body mounts beneath.

Roof Rack
DA3565 Defender 110 - 2020 onwards
Roof rack assembly complete with wind deflector bib. Requires the installation of roof rails (VPLER0177) to allow fitment. No modification to the vehicle is required and the rack does not obscure the rear-view camera. Top of rack is 125mm above roof skin, measured directly behind the rear-view camera. Provides clearance for the panoramic sunroof to both tilt and open fully. The roof rack is compatible with the access ladder and accessory rack.

FRONT RUNNER ROOF RACKS

DA3077

DA3077 Freelander 1
DA3086 Freelander 1 - original mountings
All aluminium construction, fully welded.
Powder coated finish. Grooves for 8mm bolts.
Modular design - allow accessories to be mounted and removed as need without drilling. Rail towards the rear, open in the front.
Gutter mount stainless steel clamps

CT02

EXTERNAL & INTERNAL TIE DOWN POINTS

LK01A | ARB Track Tie Down System
45mm Track & Load Rings - Pair
Anodised and powder coated for superior protection against the elements. Perfect for internal or external mounting on vehicles. Chamfered ends on tracks.

RATCHET & CAMBUCKLE STRAPS

RT11A

ARB Cargo Gear Straps

RT11A	32mm x 3m
RT06A	50mm x 5m

High quality polyester webbing finished in safety orange with reflective branding. Zinc plated for longevity and corrosion resistance. Rubber handles & silicone coated cam sleeves. Storage bag included. Single.

DA1267
2m - pair

ARB's Cambuckle Tie Downs

CT02	25mm x 1.8m
CT02A	25mm x 3.0m

Provide a quick and easy solution to securing your load to racks, trailers and cargo areas. Polyester webbing. Zinc alloy cambuckle. Lashing capacity - 340kg. Pack of 2. ARB products available from UK stockists only.

ARB BASE RACK

Note: Please be aware that with speeds over 50mph you may hear air noise, which will come from rack area. Due to this we strongly recommend to use ARB LED bar, which is designed to decrease noise.

ARB BASE Racks

Introducing the next phase in roof rack evolution, the ARB BASE Rack. Ultra-sleek, boasting a low mounting profile and lightweight design, the ARB BASE Rack incorporates a unique dovetail accessory mounting system that makes attaching and removing accessories easier, faster and more secure. When developing ARB's BASE Rack one of the requirements of our engineering team was to have a complete roof rack system - racks, mounts, guard rails and equally important, a wide range of BASE Rack accessories. The dovetail attachment point of the BASE Rack provides a number of advantages to traditional accessory fitment on racks including:

- Accessories can be fitted anywhere on the dovetail feature either on the perimeter of the rack or on the front or rear of each cross beam. No need to slide along a t-slot with defined entry and exit points.
- Easy clean dovetail surface does not accumulate dirt and debris.
- Minimal tools required for fitment of BASE Rack accessories which greatly adds to the modular nature of the rack. Accessories can be quickly and easily removed when not required if there are height restrictions. For example, for low garage entry or an underground car park, and then refitted on the weekend for camping trips.
- Integrated channel within the BASE Rack structure for wiring of auxiliary lighting, solar panels or antennas.

Key Features

- Constructed from extruded aluminium beams featuring rigid internal bracing
- Fully welded construction (excluding corner caps)
- BASE Rack comes fully assembled ready to fit to mount brackets (sold separately)
- Integrit textured black powder-coat finish
- Strength through design requires no additional cross bars
- Dovetail accessory attachment design allows easy to install one handed attachment for various accessories
- Provision for easy running of wiring within the BASE Rack assembly

Rack Assembly

- Fully welded construction (excluding corner caps)
- Comes fully assembled - no additional assembly required to fit the rack to mounting system
- Controlled welds to ensure that the height of the weld doesn't impede on loading and unloading of the rack

Rack Beams

- Common extruded aluminium cross beams
- Box piece beam with internal bracing for added strength and rigidity
- Dovetail on both front and rear of each cross beam allowing for greater flexibility for the location of accessory fitment
- Beams run perpendicular to the vehicle to greatly assist in strength of the rack and ease of loading and unloading of longer items

Rack Longitudinal Side Beams

- Specific extruded longitudinal side beams features provision for running wiring within the beam through provided blanking plugs
- Internal bracing greatly adds to strength without added external dimensions
- Dovetail on exterior edge only

Rack Corner Caps

- Die-cast, UV resistant aluminium corner caps
- Bottom section is plastic to enable easy drilling for running of wiring

Part Number		*No. of Beams*	*Dimensions*	*Weight (approx)*	*Carrying Capacity*

Note: If fitted to vehicle with sunroof, sunroof opening function will not be able to be used. The instructions include steps to remove the fuse for the sunroof function to ensure sunroof will not accidentally open.

ARB 4X4 ACCESSORIES

ARB products available in the UK only.

ARB BASE Rack Gutter Mount Kits

ARB BASE Rack gutter mount leg kits are based on ARB's traditional roof rack fit kits but now finished in Integrit textured black and with support plates to suit the BASE Rack extrusion. Steel gutter runners with plastic sleeves are included to spread the load within the vehicles roof gutter.

- Maximum load per BASE Rack beam is 25kg. Net Payload of the rack is dependent on vehicle specifications. Loads must be evenly distributed and adequately secured
- Required tools for fitment: 10mm spanner, 13mm spanner, hex key (supplied in kit), tape measure

17900060
BASE Rack Gutter 4-leg H2 fitting kit
Suits - 1770020
Weight of kit - 6.5kg

17900050
BASE Rack Gutter 6-leg H2 fitting kit
Suits - 1770030 & 1770040
Weight of kit - 10kg

17932010
BASE Rack fitting kit - Defender - 2020 onwards
Suits - 1770040
Weight of kit - 14kg
Not compatible for vehicles with the side box fitted

ARB BASE RACK

ARB's BASE Rack has been designed around the premise of "**Build, Attach, Set, Explore**" allowing customers to set up, and importantly, change how the rack is configured and used. When developing ARB's BASE Rack one of the requirements of the engineering team was to have a complete roof rack system - racks, mounts, guard rails and equally important, a wide range of BASE Rack accessories. The dovetail attachment point of the BASE Rack provides a number of advantages to traditional accessory fitment on racks including:

- Accessories can be fitted anywhere on the dovetail feature either on the perimeter of the rack or on the front or rear of each cross beam. No need to slide along a t-slot with defined entry and exit points.
- Easy clean dovetail surface does not accumulate dirt and debris.
- Minimal tools required for fitment of BASE Rack accessories which greatly adds to the modular nature of the rack. Accessories can be quickly and easily removed when not required if there are height restrictions. For example, for low garage entry or an underground car park, and then refitted on the weekend for camping trips.
- Integrated channel within the BASE Rack structure for wiring of auxiliary lighting, solar panels or antennas.

¼ Guard Rail
Perfect for campers providing a level mount for a rooftop tent whilst still providing guard rail load security at the front or rear of the rack depending on set up.

1780020	1,285mm | 3.0kg For racks - 1770020 / 1770030 / 1770040	

Trade Guard Rail
Great for loading longer items such as timber or ladders

1780600	1,255mm long | 2.3kg For racks - 1770070	
1780110	1,545mm long | 3.0kg For racks - 1770020	
1780120	1,835mm long | 3.5kg For racks - 1770030	
1780130	2,125mm long | 4.0kg For racks - 1770040	

Slimline Light Bar Lens Covers

1780510	Clear x 2 covers
1780511	Black x 2 covers
1780512	Amber x 2 covers

Slimline Light Bar is 915mm wide and requires 2 packets of covers (2 x 2 pieces) to provide full protection. Virtually indestructible polycarbonate cover. Clear hard-coated finish UV stable. Specifically designed to suit the ARB Slimline roof rack light bar

Slimline LED Roof Rack Light Bar
1780500
Complementing the sleek design of the ARB BASE Rack, the light bar uses a uniquely tuned reflector design and pumps out a competitive 1 lux @ 728m with up to 60m of spread. Manufactured from extruded aluminium with high pressure die cast aluminium caps. The body is fully powder coated in a stealth black finish, with a light tint added to the polycarbonate lens. Using the mounting system built into the rack allows the light to be setup in minutes with two different mounting options - in front of the rack or below the rack. All brackets are included with the light. ***Technical Specifications - www.britpart.com/base***

3500810	- ARB Light bar wiring loom
3500820	- ARB Light bar extension loom

20W Auxiliary Lights
Includes a unique bracket, over a moulded DT connector suitable for rack channelling, it features an additional DT connector for custom wiring. Bracket included along with male and female DT connectors. 9V to 36V input. 20W power consumption/1.5A. 1,100 Lumens @ 5700K. IP69K, ECE, R10, CISPR 25/5 - Compliance. More information online.

1780520	White light	
1780550	**NEW**	Tri-colour White/warm white/amber

1780490 | Light Bar Mount - Underneath
Suitable for single bolt, end mount light bars and work lights. Suitable for mounting small items up to 3.5kg per pair. Can attach to the bottom of rack cross beams using included stud plate and fasteners. Supplied as left hand/right hand pair, includes fasteners for attachment to rack.

1780480 | Light Bar Mount - Dovetail
Suitable for single bolt, end mount light bars, work lights and for mounting small items up to 3kg per pair. Can attach to the dovetail on any location of the rack. Brackets made from strong powder-coated steel. Supplied as left hand/right hand pair and includes fasteners.

1780515 | Light Bar Mount - With Front Guard Rail
Required when mounting ARB BASE Rack LED Light Bar (1780500) with BASE Rack front section of guard rail. Attaches to dovetail section of rack. Supplied as a pair, includes fasteners for attachment of bracket to rack.

Rack Roller Kits

1780360	Rack Roller Kit	1,025mm
1780365	Rack Roller Kit	1,185mm

The roller helps your equipment to glide onto the rack making it easy to load the rack. Can attach to the dovetail track anywhere on the perimeter. Made from powder-coated aluminium. Full-width, low-profile roller.

Jerry Can Holders

1780350	Double - Horizontal
1780340	Double - Vertical*
1780330	Single - Horizontal
1780320	Single - Vertical*

Allows easy fitment jerry cans to your BASE Rack. Double holders secure to two beams, single to one beam or spans between beam. Strap included. *Provision for water tap.

1780380 | Spare Wheel Y-Strap
These effective ratchet strap systems secure the tyre in three points on the rack. The unique dovetail clip which offers a positive connection directly to the rack at all three points. 400lbs lashing capacity to AS/NZS4380:2001 Adjustable one inch straps suit most tyre sizes. Supplied with carry bag.

1780385 | Spare Wheel Y-Strap With Snap-Lock Hooks
Design features include a tether strap and snap lock hooks, which in combination positively retain the spare wheel and tyre even in the event of the spare wheel deflating. The tether strap also improves retaining of a tyre carcass only. Work conveniently with rack eye bolt tie-downs (not included).

1780250 | Gas Bottle Holder
Perfect for carrying a 2kg - 9kg gas bottle, comes complete with the base, ratchet strap and two fixing eye bolts and can be secured to an individual beam or span between beams. Eye bolts and strap included to secure the gas bottle. Durable baseplate with adjustable stainless steel locking bracket.

ARB BASE RACK

1780210 | Spring Loaded Tie Down
Quick-attach spring-loaded tie-downs are easy to use with a simple one-handed operation. The tie-downs twist on & twist off. Provides a lashing point for ratchet straps. Designed to be taken off the rack when not in use by a simple half turn. Made from stainless steel. Pair.

1780270 | Shovel Holder
With its unique 4 mounting positions, the Shovel Holder can be fitted to all rack configurations allowing for various shovel or spade sizes & configuration of other accessories. A unique flip down, quick release retaining system ensures high clamping force and ease and speed of use. The custom designed retaining system is also lockable.

1780280 | Hi-Lift™ Jack Premium Brackets
Quick-release loading and unloading of jack with two hinged cradles. It incorporates provisions for a padlock to secure the jack to your vehicle. Can be mounted in the foot up or foot down position and positioned anywhere on the dovetail track on the perimeter. Made from strong, powder-coated steel.

1780290 | Hi-Lift™ Jack Classic Brackets
The Classic jack holder keeps the jack secure with two eye bolts attached directly to the dovetail. The jack can be mounted in either the foot up or foot down position. Can attach to the dovetail track anywhere on the perimeter. Made from strong, corrosion-resistant steel. Includes rubber handle keeper.

1780370 | Ratchet Straps
Ensure all your gear is safe and secure on your BASE Rack with these ratchet straps. They form a positive connection with the rack so there is no need for additional tie-down points. 25 x 3,000mm polyester webbing, 330lbs lashing capacity to AS/NZS4380:2001. Supplied with carry bag. Pair.

T-slot Adaptors

1780220	Single
1780230	Pair

For use with your existing T-slot compatible accessories. Allows fitment of accessories from a range of roof rack manufacturers. Uses a standard T-slot channel to accept T-slot mounted accessories. Can attach to the dovetail track at any point on the rack.

Recovery Track Holder

1780310	Holder
T2QRMP	Quick Release Pins - 2 Boards
T2QP162	Quick Release Pins - 4 Boards

4 piece fastening kit suitable for use with TRED Pro mounting systems. Can attach to the dovetail track at any point on the rack. Made from strong, corrosion-resistant steel.

1780610 | Alloy Block Set - Nut & Bolt Kit
Powder-coated aluminium blocks. Can attach to the dovetail on any location of the rack. Set of 4.

1780200 | Tie Down Eyebolts
These eye bolt tie-downs are built tough to handle any load and terrain and provide a lashing point for ratchet straps. Design to stay securely on the BASE Rack when not in use. Made from strong, powder-coated aluminium with forged steel eye nuts. Set of 4.

Awning Brackets

1780240	Fixed
1780260	Quick-release

These bracket allows quick fitment of your awning. Easy to attach, they, simply secure onto the dovetail track on the rack, can be attached at any point. Height adjustable. Made from strong, powder-coated steel.

1780390 | Heavy-Duty Awning Bracket
Suits 270° awnings up to 30kg. Integrated eye nut tie down points. Attaches to outer perimeter dovetail and cross beam. High and low mount position for awning. Quick release slots for easy install and removal of awning to bracket. Includes bracket for additional hook point (if supplied) with awning.

1780420 | Bridge Plate - Narrow
Provides a strong, versatile attachment point. Ideal for mounting rooftop tents. Can be used as a clamped pair or mounted individually.

1780430 | Bridge Plate - Wide
Suitable for mounting aerials, sand flags, some beacons, and round driving lights with 1780610 alloy blocks. Can be used as a clamped pair or mounted individually using 1780610 alloy blocks. Mounts between cross beams.

1780440 | Horizontal Mount - Narrow
Provides a strong, versatile, horizontal attachment point to your BASE Rack. Suitable for mounting small items up to 3kg per bracket including work lights, aerials, solar panels. Can attach to the dovetail on any location of the rack.

1780450 | Horizontal Mount - Wide
Provides a strong, versatile, horizontal attachment point to your BASE Rack. Suitable for mounting small items up to 6kg per bracket including work lights, aerials, solar panels. Can attach to the dovetail on any location of the rack.

1780460 | Vertical Mount - Narrow
Provides a strong, versatile, vertical attachment point to your BASE Rack. Suitable for mounting small items up to 3kg per bracket including work lights, solar panels. Can attach to the dovetail on any location of the rack.

1780470 | Vertical Mount - Wide
Provides a strong, versatile, vertical attachment point to your BASE Rack. Suitable for mounting small items up to 6kg per bracket including work lights, conduit holders. Can attach to the dovetail on any location of the rack.

ARB CLASSIC ROOF RACKS

DELUXE STEEL WITH MESH FLOOR TYPE

DELUXE STEEL TYPE

ARB

4X4 ACCESSORIES

ARB products available in the UK only.

Extensive research, design and testing goes into all ARB racks to ensure their functionality is never compromised, even under the most demanding conditions. With a strong, aerodynamic design, ARB's steel roof racks are constructed for maximum strength and perfectly suited to the structural design and load carrying requirements of off-roading.

TRADE STEEL TYPE

TRADE STEEL WITH MESH FLOOR TYPE

Rack shows accessories not supplied with roof rack.

ARB's Trade Racks are available as an alternative to deluxe racks for a selection of models. Open at both ends, a trade rack enables the carrying of longer items, such as lengths of timber and ladders.

Features

- Evenly spaced crossbars can support loads of up to 150kg, with an optional fully welded steel mesh floor also available.
- Precision cut drainage channel, specifically designed to reduce build up of dirt and accumulation of moisture.
- Full length, zinc annealed steel support channel with plastic protection strip to distribute load along the gutter and prevent vehicle damage.
- Stainless steel fitting hardware and a unique, super-strong clamping system that's easy to install and remove.
- MIG welding is used on the joins to ensure optimum strength.
- Pressed steel feet and legs are height & width adjustable, allowing multi-vehicle installations.
- Top rail sits well above rack floor to ensure a secure load and is constructed from tough, 25mm tube while the bottom rail utilises 35mm tubing.
- Air deflector plate significantly reduces wind noise.
- Rails are mandrel formed, ensuring consistency and even wall thickness across all sections.

Roof access ladder that can be fitted to either side of the vehicle. It can be installed standalone or in conjunction with the Safety Devices Roof Rack Assembly. Made of a folding construction with dual securing methods and a key locking mechanism. Requires drilling of the trim panels below the rear window to allow installation into the existing body mounts beneath. When deployed, the height from the floor to the lowest step of the ladder is 585mm at normal ride height (660mm at max and 550mm at min).

RBL2303SSS

RBL2303SSSBLACK

RBL2367SSS

RBL3017SSS

RBL0927SSS **8-Point Multi-Point External/Internal Bolt-In Roll Cage** Black
Defender 90 - Hard Top - 3-Door - 1990 - 2006 - right hand drive
Ninety - Hard Top - 3-Door - 1983 - 1990 - right hand drive
Internal single hoop, external front legs, long backstays to rear chassis. For vehicles with bulkhead and without rear headlining. Made to Camel Trophy specification. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL092PAD.

RBL0927SSSLHD **8-Point Multi-Point External/Internal Bolt-In Roll Cage** Black
Defender 90 - Hard Top - 3-Door - 1990 - 2006 - left hand drive
Ninety - Hard Top - 3-Door - 1983 - 1990 - left hand drive
Internal single hoop, external front legs, long backstays to rear chassis. For vehicles with bulkhead and without rear headlining. Made to Camel Trophy specification. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL092PAD.

RBL1087SSS **6-Point Full External Bolt-In Roll Cage** Black
Defender 90 - Station Wagon / Hard Top - 1990 - 2006
Ninety - Station Wagon / Hard Top - 1983 - 1990
For vehicles with bulkhead. Includes brackets for forward facing rear seats. Models between 1983 - 1988 had three raised ribs on the roof approx. 22mm tall. This kind of roof does not work with our external roll cages as the hoops will clash with them.

RBL1224SNS **4-Point Internal Rear Bolt-In Military Style Hoop** Black
Defender 90 - Soft Top / Pickup - 1983 - 2016
2 inch, without diagonal. Mounts through cappings into corner brackets. Backstays go to waist rail cappings. Front seatbelt shoulder anchor points. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL122PAD.

RBL122PAD **Internal Roll Cage Padding** Black
For roll-cage kit RBL1224SNS. Specially formulated polyurethane flame retardant padding kits of 55 Shore hardness. Kit covers all internal roll cage components above shoulder height.

RBL1383SSS **4-Point External Bolt-In Front Roll Cage** Black
Defender 90 - Hard Top - 3-Door - 1990 - 2016 - without bulkhead
Defender 90 - Station Wagon - 3-Door - 1990 - 2016 - without bulkhead
Roof mounting has internal reinforcement plate and front wing plates mount to chassis outriggers. Designed for Land Rover 50th Anniversary.

RBL1387SSS **8-Point External Bolt-In Front Roll Cage With Internal Rear Roll Cage** Black
Defender 90 - Station Wagon / Hard Top - 1990 - 2016
Ninety - Station Wagon / Hard Top - 1983 - 1990
Will fit bulkhead models, although bulkhead will need to be trimmed. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL1387PAD.

RBL1387PAD **Internal Roll Cage Padding** Black
For roll-cage kit RBL1387SSS. Specially formulated polyurethane flame retardant padding kits of 55 Shore hardness. Kit covers all internal roll cage components above shoulder height.

RBL1536SSS **6-Point Full External Bolt-In Roll Cage** Black
With 2" tube waist rail backstays
Defender 90 - Pickup - 1990 - 2016 - right hand drive
Ninety - Pickup - 1983 - 1990 - right hand drive

RBL1887SSS **8-Point Multi-Point External/Internal Bolt-In Roll Cage** Black
Defender 90 - Soft Top - 2-Door - 1983 - 2006
External front cage that passes through the canvas behind the door to join the internal B hoop. B hoop includes front seat belt upper anchor points and backstays that mount to the capping. Developed from the original NAS specification Soft Top vehicles. Rearward mounted hoop, so requires 1 x OEM hoodstick in front of B hoop to mount door hardware to. Designed to fit vehicles that came with a factory fitted bulkhead behind the seats. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL188PAD.

RBL188PAD **Internal Roll Cage Padding** Black
For roll-cage kit RBL1887SSS. Specially formulated polyurethane flame retardant padding kits of 55 Shore hardness. Kit covers all internal roll cage components above shoulder height.

RBL2137SSS-A **6-Point Full External Bolt-In Roll Cage** Black
Defender 90 - Station Wagon - 1988 - 2006
For vehicles without bulkhead. Includes brackets for forward facing rear seats. **Note** - Models between 1983 - 1988 had three raised ribs on the roof approx. 22mm (7/8) high. This type of roof will not work with external roll cages as the hoops will clash with the ribs.

RBL2137SSS-B **6-Point Full External Bolt-In Roll Cage** Black
Defender 90 - Station Wagon - 2007 - 2016
For vehicles without bulkhead. Includes brackets for forward facing rear seats. **Note** - This roll cage will clash with the older style roofs (1983 - 1988) that had three raised ribs approx 22mm (7/8") tall.

RBL2303SSS **4-Point Full External Bolt-In Style Bar** Silver
RBL2303SSSBLACK **4-Point Full External Bolt-In Style Bar** Black
Defender 90 - Station Wagon / Hard Top - 3-Door - 1990 - 2016
Ninety - Station Wagon / Hard Top - 3-Door - 1983 - 1990
2.5" diameter front tubing, 2" diameter side tubing and 2" diameter windscreen rail tubing. Roof mounting has internal reinforcement plate and front wing plates mount to chassis outriggers. Made for Land Rover 60th Anniversary.

RBL2367SSS **6-Point Bolt-In Internal Rear Heavy-Duty Hood Stick Replacement** Black
Defender 90 - Soft Top - 2-Door - 1983 - 2016
Forward hoop position. B hoop includes front seat belt upper anchor points, mountings for door frame hardware and backstays that mount to the capping. Rear hoop includes upper and lower mountings for forward facing seats. Designed to fit vehicles that came with a factory fitted bulkhead behind the seats. **Note** - Will not fit the earlier Series 88" models, currently only designed to fit vehicles with a bulkhead and will not fit models with a bulkhead replacement bar. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL236PAD.

RBL2997SSS **8-Point Multi-Point External/Internal Bolt-In Roll Cage** Black
Defender 90 - Soft Top - 1990 - 2006
Ninety - Soft Top - 1983 - 1990
External front cage that passes through the canvas behind the door to join the internal B hoop. B hoop includes front seat belt upper anchor points and backstays that mount to the capping. Developed from the original NAS specification Soft Top vehicles. Rearward mounted hoop, requires 1 x OEM hoodstick in front of B hoop to mount door hardware to. Designed to be used only on vehicles equipped with OEM/Land Rover bulkhead replacement bar - it may not work with after-market alternatives. We strongly recommend fitting the roll cage padding when installing this roll cage - RBL299PAD.

RBL299PAD **Internal Roll Cage Padding** Black
For roll-cage kit RBL2997SSS. Specially formulated polyurethane flame retardant padding kits of 55 Shore hardness. Kit covers all internal roll cage components above shoulder height.

RBL3017SSS **6-Point Bolt-In Internal Rear Heavy-Duty Hood Stick Replacement** Black
Defender 90 - Soft Top - 1990 - 2016
Ninety - Soft Top - 1983 - 1990
Forward hoop position, B hoop includes front seat belt upper anchor points, mountings for door frame hardware and backstays that mount to the capping. Rear hoop includes upper and lower mountings for forward facing seats. Designed to be used only on vehicles equipped with OEM/Land Rover bulkhead replacement bar - it may not work with after-market alternatives. We strongly recommend fitting the padding kit when installing this heavy-duty hood stick set - RBL301PAD.

RBL301PAD **Internal Roll Cage Padding** Black
For roll-cage kit RBL3017SSS. Specially formulated polyurethane flame retardant padding kits of 55 Shore hardness. Kit covers all internal roll cage components above shoulder height.

RBL0117SSS **4-Point Bolt-In Internal Rear 'Half' Roll Cage** Black
Defender 110 - Station Wagon - 4-Door - 1983 - 2006
This roll cage will not fit with the larger rear bench seats that are fitted to Puma versions of the Defender. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL011PAD.

RBL1224SNS **4-Point Internal Rear Bolt-In Military Style Hoop** Black
Defender 110 - Soft Top / Pickup - 2-Door - 1983 - 2016
Defender 110 - Double Cab Pickup - 4-Door - 1990 - 2016
2 inch, without diagonal. Mounts through cappings into corner brackets. Backstays go to waist rail cappings. Front seatbelt shoulder anchor points. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL122PAD.

RBL122PAD **Internal Roll Cage Padding** Black
For roll-cage kit RBL1224SNS. Specially formulated polyurethane flame retardant padding kits of 55 Shore hardness. Kit covers all internal roll cage components above shoulder height.

RBL1383SSS **4-Point External Bolt-In Front Roll Cage** Black
Defender 110 - Double Cab Pickup - 4-Door - 1990 - 2016
Defender 110 - Station Wagon - 5-Door - 1990 - 2016
Roof mounting has internal reinforcement plate and front wing plates mount to chassis outriggers. Designed for Land Rover 50th Anniversary.

RBL1487SSS **8-Point Multi-Point Internal 'Half' Roll Cage With External Front Legs** Black
Defender 110 - Station Wagon - 5-Door - 1990 - 2006
One Ten - Station Wagon - 5-Door - 1983 - 1990
Models between 1983 - 1988 had 3 raised ribs on the roof approx 22mm tall. This kind of roof does not work with our external roll cages as the hoops will clash with them. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL148PAD.

RBL1727SSS **8-Point Full External/Internal Roll Cage** Black
Defender 110 - Station / Utility Wagon - 4-Door - 1983 - 2016
Mounts to the chassis at 6 external points. Internal B hoop mounts at 2 points. Front legs mount through front wings down to chassis outrigger. B hoop mounts to the vehicle floor above chassis outrigger. C hoop ties in to rear door shut assembly. D hoop ties to rear chassis cross member. The cage will not fit vehicles with the external ribs fitted on the roof, nor will it fit if the rear seat box is stepped in the rear corner. For clarification, see Safety Devices website. Compatible with Safety Devices 'Explorer' Roof Racks for roll cage mount, and Safety Devices L052 ladder. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL172PAD.

RBL172PAD **Internal Roll Cage Padding** Black
For roll-cage kit RBL1727SSS. Specially formulated polyurethane flame retardant padding kits of 55 Shore hardness. Kit covers all internal roll cage components above shoulder height.

RBL1837SSS **10-Point Multi-Point Bolt-In External Front Roll Cage With NAS Front Underwing Mounts & Internal Full Length Rear Roll Cage** Black
Defender 110 - Station Wagon - 5-Door - 1990 - 2006
One Ten - Station Wagon - 5-Door - 1983 - 1990
Models between 1983 - 1988 had 3 raised ribs on the roof approx 22mm tall. This kind of roof does not work with our external roll cages as the hoops will clash with them. We strongly recommend fitting roll cage padding when installing this roll cage - RBL183PAD.

RBL1857SSS **10-Point Multi-Point Full External Bolt-In Roll Cage/Internal B Hoop** Black
Defender 110 - Crew Cab / Double Cab Pickup - 4-Door - 1990 - 2016
Made to NAS Specification. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL185PAD.

RBL1907SSS **Full External Multi-Point Bolt-In Roll Cage** Black
Defender 110 - Hard Top - 2-Door - 1983 - 2016
Made to NAS specification. Includes brackets for forward facing rear seats. Models between 1983 - 1988 had 3 raised ribs on the roof approx 22mm tall. This kind of roof does not work with our external roll cages as the hoops will clash with them.

RBL2057SSS **8-Point Multi-Point Bolt-In Full Roll Cage** Black

External front cage that passes through the canvas behind the doors to join the internal C hoop. Features an internal hoop at the B pillar which connects internally to the rear hoop at the C pillar. Includes mountings for door frame hardware and is designed to have the same profile as traditional hood stick supports. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL308PAD. Safety Devices part number - RBL3087SSS-A

RBL3097SSS **8-Point Internal Multi-Point Internal Heavy-Duty Hoodstick Set** Black
Defender 110 - Soft Top - 5-Door - 1990 - 2016
One Ten - Soft Top - 5-Door - 1983 - 1990
Internal heavy-duty hoodstick set spanning from B pillar to rear of the vehicle. Includes mountings for door frame hardware and is designed to have the same profile as traditional hood stick supports. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL309PAD.

RBL3107SSS **10-Point External/Internal Multi-Point External/Internal Bolt-In Roll Cage** Black
Defender 110 - Soft Top - 5-Door - 1990 - 2016
One Ten - Soft Top - 5-Door - 1983 - 1990
External front cage section which joins to an internal rear section at the B pillar. Also features an internal hoop at the B pillar which connects internally to the rear hoop at the C pillar. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL310PAD.

RBL3167SSS **12-Point External/Internal Bolt In External/Internal Roll Cage** Black
Defender 110 - Soft Top without bulkhead behind seats - 2-Door - 1998 - 2016
External front cage that passes through the canvas behind the door to join the internal section. Rearward mounted B hoop, so requires 1 x OEM hood stick in front of B hoop to mount door hardware to. Designed to be used only on vehicles equipped with OEM/Land Rover bulkhead replacement bar - it may not work with after-market alternatives. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL316PAD.

RBL3177SSS **10-Point Heavy-Duty Bolt-In Internal Rear Hood Stick Replacement** Black
Defender 110 - Soft Top without bulkhead behind seats - 2-Door - 1998 - 2016
Forward hoop position, so B hoop includes front seat belt upper anchor points, mountings for door frame hardware and backstays that mount to the capping. Rear hoop includes upper and lower mountings for forward facing seats. Designed to be used only on vehicles equipped with OEM/Land Rover bulkhead replacement bar - it may not work with after-market alternatives. We strongly recommend fitting the padding kit when installing this heavy-duty hood stick replacement - RBL317PAD.

SAFETY DEVICES ROLL CAGES - DEFENDER 130

RBL2587SSS

RBL1383SSS **4-Point External Bolt-In Front Roll Cage** Black
Defender 130 - Double Cab High-Capacity Pickup - 4-Door - 1990 - 2006
Defender 130 - Station Wagon - 4-Door - 1994 - 2016
Roof mounting has internal reinforcement plate and front wing plates mount to chassis outriggers. Designed for Land Rover 50th Anniversary.

RBL2303SSS **4-Point Full External Bolt-In Style Bar** Silver
RBL2303SSSBLACK **4-Point Full External Bolt-In Style Bar** Black
Defender 130 - Double Cab High-Capacity Pickup - 4-Door - 1990 - 2016
Defender 130 - Station Wagon - 4-Door - 1998 - 2016
2.5" diameter front tubing, 2" diameter side tubing and 2" diameter windscreen rail tubing. Roof mounting has internal reinforcement plate and front wing plates mount to chassis outriggers. Made for Land Rover 60th Anniversary.

RBL2477SSS **8-Point Multi-Point External Bolt-In Roll Cage With Internal B Hoop** Black
Defender 130 - Double Cab High-Capacity Pickup - 4-Door - 1990 - 2016
The rear provides sufficient clearance to allow the original rear canvas to be left in place with only a small modification required each side at the rear. We strongly recommend fitting the roll cage padding kit when installing this roll cage RBL247PAD.

RBL2303SSS

RBL2303SSSBLACK

RBL2477SSS

RBL2607SSS

RBL2497SSS-A **8-Point Bolt-In Full External/Internal Roll Cage** Black
Defender 130 - Station Wagon - 4-Door - 1990 - 2016
Suitable for vehicles with rear tub length of 1650mm. We strongly recommend fitting roll cage padding when installing this roll cage - RBL249PAD.

RBL2587SSS **8-Point Bolt-In Internal/External Bolt In Roll Cage With Internal B Hoop** Black
Defender 130 - Double Cab High-Capacity Pickup - 2007 - 2016
For High-Capacity Pickup with rear Tembo hard top. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL258PAD.

RBL2607SSS **6-Point Multi-Point Full External Bolt-In Roll Cage** Black
Defender 130 - Double Cab Pickup - 1990 - 2016
The rear provides sufficient clearance to allow the original rear canvas to be left in place with only a small modification required each side at the rear.

SAFETY DEVICES ROLL CAGES - FREELANDER 1

RBL1507SMU | **14-Point Multi-Point Bolt-In Competition Internal Roll Cage For Cross Door Bars** Black
Freelander 1 - 3-Door / 5-Door - 1997 - 2006
Rear roll cage has cross diagonal in backstays, harness bars, tunnel brace & lower backstays.
Note - This roll cage no longer complies to Comp Safari regulations due to the Cross Country Events (P) Technical Regulations where Section 56.14.10 stipulates that a roof brace must be installed. As this is a competition roll cage, appropriate padding should be fitted in accordance to competition requirements.

RBL150FFK Fitting kit for RBL1507SMU

SAFETY DEVICES SEAT BELT ANCHORAGE FRAME

Manufactured from 38.1mm x 2.64mm seamless tube, the frame provides both upper inertia seat belt reel mounting points and also provides upper harness mounting points when wrapped around the tube.

The frame fits directly over the existing canopy support brackets and has rearwards supports which also mount to the capping.

This Safety Devices seat belt anchorage frame is designed to provide a robust belt mounting in Soft Top models.

DA3554
Series 2 / Series 2A / Series 3
Defender
Note: Not compatible with inward facing seats.
Will **NOT** fit a Lightweight or Series 1

winning MINILITE wheels

DA3786

DA3787

DA3786

DA3787

The original Minilite wheel, was probably the most successful competition wheel of the 1960's and 70's. As the name suggests, it was originally developed as a magnesium competition wheel for the then revolutionary new Austin 'Mini', but its instant success meant that it was soon to be seen on many of the serious race and rally cars of that era. A new iconic style was born, and to this day, all genuine Minilite wheels are made to that original classic design. Originally conceived for race and rally, demand soon grew for road car applications, and has remained so ever since. Minilite wheels are 'Low-Pressure' die cast, in high grade aluminium alloy; machined on the latest CNC equipment, 100% pressure tested, and finally powder coated for maximum protection against the elements.

Note: It is the responsibility of the vehicle owner to ensure that the wheels fitted to their vehicle have an appropriate load rating. The minimum required load rating can be determined by taking the manufacturers recommended maximum axle weight & dividing by two.

Smart looking, tough, high quality alloy wheels which are ideal for off-road use. Used for rally-road competition vehicles as well as the military. Manufactured in Italy

Note: It is the responsibility of the vehicle owner to ensure that the wheels fitted to their vehicle have an appropriate load rating. The minimum required load rating can be determined by taking the manufacturers recommended maximum axle weight & dividing by two.

- Only prime aluminium is used.
- Less silicon is added than cheaper alloys.
- Alloys are heat-treated for improved mechanical properties.
- Metal is de-gassed to remove any small bubbles.
- Low pressure cast to ensure improved metal density.
- Once made each alloy is x-rayed to check for defects, then water tank pressure tested to ensure no leaks.

WHEEL ADAPTORS & SPACERS

DA6343 | Wheel Adaptors
Convert your existing stud pattern to allow for fitment of a different style of wheel. Set of 4. Fit Range Rover - 2002 - 2012 or Range Rover Sport - 2005 - 2013 wheels to a Discovery 2 or Range Rover P38.

Wheel Spacers
Improve your Land Rover's appearance, steering lock & handling with a set of wheel spacers.

DA2232

DA3809

DA3809 | Safety Devices Swing-Away Spare Wheel Carrier
Defender - Station Wagon / Hard Top - 1983 - 2016
Rear door and body mounted spare wheel carrier, complete with adjustment for a wide variety of different wheel diameters and offsets. The body mounts are polyurethane mounted to dampen vibrations. The opening of the rear door may be limited if oversized tyres are used.

DA2274

DA3570

DA3570 | Safety Devices Spare Wheel Cradle & Jack Mount
Defender 90 / 110 / 130 - 2020 onwards
Designed to work with the existing spare wheel carrier as a cradle to rest the wheel on whilst attaching with bolts. Uses existing mounts in the rear door with no modifications required. Also provides the provision to mount an off-road/trail jack in a vertical orientation.

DA3569

DA3569 | Safety Devices Spare Wheel Cradle
Defender 90 / 110 / 130 - 2020 onwards
Designed to work with the existing spare wheel carrier as a cradle to rest the wheel on whilst attaching with bolts. Uses existing mounts in the rear door with no modifications required.

DA3811

DA3811 | Safety Devices Fixed Spare Wheel Carrier NEW
Defender 110 - Double Cab - 1983 - 2016
Rear load bed spare wheel carrier, capable of supporting a 35" tyre. Also features an adjustable length wheel centre to suit different tyres and wheel offsets. Mounts to roll cage with aluminium clamps (included). This is only for mounting with Safety Devices RBL185 7SSS & RBL243 7SSS roll cages.

DA2274

345510
Replacement strap for fixing your spare wheel to the bonnet.

SPARE WHEEL PROTECTORS

The valuable spare wheel on your Land Rover are very vulnerable to theft. These steel spare wheel protectors are designed to restrict access to the winching mechanism and makes it almost impossible for anyone to steal the wheel. Easy to fit to give you piece of mind.

DA1360	Discovery 3 Discovery 4 - not suitable for AdBlue models Range Rover Sport - 2005 - 2013
DA5692	Discovery 5

DA3810

SPARE WHEEL REMOVAL KITS

The considerable weight of the spare tyre on the rear door of your Defender can sometimes make using that door awkward, especially if you're parked on a hill. The same tyre also restricts your view when driving. To help alleviate these problems or to change the look of your Defender, you can now remove the rear tyre and fit colour co-ordinated blanking plates to the rear door. This easy to install 2-piece kit is supplied with all the fixings you need. The plates fit snugly in the recess, ensuring a smart flush finish to your door.

CORDLESS TYRE INFLATOR AIR COMPRESSOR

XS Cordless Tyre Inflator Air Compressor

DA2908	With UK Plug
DA2908EU	With EU Plug

20V cordless tyre inflator air compressor up to 150PSI with LCD digital pressure gauge, LED light, rechargeable li-ion battery and 12V socket.

A fully charged 20V tyre inflator can top up 10 car tyres (185/70 R14). Extra nozzles included can also easily inflate bicycles, motorcycles, SUVs, vans, along with inflatable toys and balls. It has increased power with air flow up to 40L/min. It only takes 2 minutes to fill up an empty 185/70 R14 tyre.

A rechargeable and detachable 20V high-performance battery is included along with an extra base which is powered by the 12V on-board power outlet with a 3m power cable.

The LCD display not only shows the battery level and 4 optional pressure units (PSI, BAR, KPA, Kg / cm^2) but also displays the current tyre pressure and target tyre pressure. When it reaches the pre-set pressure the inflator will stop automatically.

An LED light can be controlled by an independent switch, providing bright vision at night or in dark places.

Storage of the tyre inflator is easy thanks to its compact design.

Kit Contents
1 x Tyre inflator
1 x Cigarette lighter socket
1 x Lithium battery holder
2 x Conical nozzle
1 x Transfer valve
1 x Air hose
1 x Ball needle
1 x Portable zipper bag
1 x User manual

Specification
- Input voltage: DC 21V
- Operating voltage: DC 18V
- Maximum current: <11A
- Maximum inflation pressure: 150PSI
- Air volume: 40L/min
- Battery capacity: 5 x 2500mAh lithium
- Accuracy: ±1.5psi
- Charging time: 3 - 5 hours
- Use time: 30min
- LED light: 8LM
- Length of hose: 350mm
- Length of power cord (no battery packaging): 3m±10mm
- Working environment temp: -20° to 50°
- Weight: 2.03kg

When it reaches the pre-set pressure the inflator will stop automatically

VALVE CAPS

Enhance your wheels with a set of 4 smart valve caps.

VPLRW0151G
Union Jack design with silver outer

VPLRW0153G

DA1436
Chequered flag design with silver outer

DA1437
Chequered flag design with black outer

217090 | ARB Valve Caps
Pack of 5 silver caps. Manufactured from durable anodised aluminium. UK only.

INNER TUBES

DA3000
7.50 x 16 - Uses TR15 (large) type valve

DA3201
205 x 16 - Uses TR13 (small) type valve

WHEEL WRENCHES

537179	Size - 15/16"
DA4026	Size - 27mm
LR011870HD	Size - 27mm - heavy-duty

STUD KLEEN

DA1698 | Stud Kleen
The all-in-one stud & hub cleaning tool! Stud Kleen attaches firmly to a standard impact wrench, providing the fastest and safest cleaning solution for your wheel changing process. The face of the tool moves rust and contaminants in seconds, providing a smooth clean surface for ease of assembly of all mating parts. At the same time, stainless steel tines effectively clean the threaded studs assuring easy and accurate torquing of lug nuts. The proprietary abrasive material is significantly longer lasting than any other material on the market.

- Cleans the hub and stud at the same time
- Fits to ½" impact
- Single size for all passenger cars and light trucks
- Won't damage your wheels
- Dense, long lasting abrasive pad
- Hundreds of internal stainless steel tines instantly & effectively clean threaded studs
- Stack tolerances when balancing wheels will improve and ensure proper torque tensioning during installation
- Cleans approximately 800 wheels

SPEEDO HEALER

DA1426
Defender - Td5 / 2007 - 2016
Plug & Play. Behind the handbrake backplate, on later Defenders, is a green 3 wire transducer which generates a pulse. This is then sent to the speedometer to show your speed. Fitting different sized tyres or a non-standard ratio ring and pinion in the diffs could mean the speed displayed is inaccurate. Fitting and programming this small box is easy. Once installed it allows you to adjust the output pulse, both up and down, which means your speedo will indicate the correct speed at which you are travelling.

TYRE REPAIR KITS

DA1890 | Replacement Tyre Sealant & Hose Kit
Equivalent to

Range Rover - 2013 - 2022 - EA157922 onwards

DA2390 | Tyre Repair* Kit in Travel Case

- Find and remove the item that caused the puncture.
- Apply rubber solution to the reamer tool then push the reamer into the puncture and work up and down until the reamer moves easily in the hole.
- Thread one rubber tyre plug in the hook tool.
- Push the rubber tyre plug into the hole until ½" of the tyre plug remains outside the tyre then turn the hook tool a quarter turn and pull out slowly.
- Cut off the excess tyre plug as close to the tyre as possible.
- If the puncture is too big have the tyre fixed by a professional.

*Recommended for off-road use only.

MAGNUM HIGH-PRECISION TYRE BALANCING BEADS

What are MAGNUM+ Beads & How Do They Work?
Beads are dispersed evenly around the inner wall of the tyre through centrifugal force. Based on Newton's law that every force creates an equal and opposite reaction, MAGNUM+ beads reposition themselves to offset the heavy spots, neutralizing the imbalance and eliminating vibration. Made of tempered glass, MAGNUM+ beads are 98% round and carefully calibrated for consistent size and maximum precision.

- 100% TPMS (Tyre pressure monitoring system) compatible
- No special valve core required
- Perfectly round and extremely smooth preventing them from disintegrating and causing any damage to the inner liner of the tyre.

Using MAGNUM+ Beads

Toss
First, you need to determine what size MAGNUM+ you require using the online calculator. MAGNUM+ comes in pre-measured INSERT™ bags that you simply toss directly inside the tyre during installation. That's it! The rest is business as usual.

Mount
You don't have to do anything to the bag. Once you toss the MAGNUM+ insert bag into the tyre, just mount the tyre to the rim as normal!

Inflate
When you're ready, inflate the tyres as usual. There's nothing else to do. No spinning, waiting, calibrating or weight fixing. The whole process takes a fraction of the time as a traditional fixed weight balance!

Drive
Then get on the road! As you drive, the bag will break open and set the beads free to do their job, providing a high-precision balance every time!

MAGNUM+ Benefits

Save Fuel
High precision balancing means a proper, consistent balance every time. A balanced tyre means less vibration resulting in a reduction in rolling resistance, and in turn, better fuel efficiency!

Save Time
Self-adjusting balancing minimizes downtime on the job and less time in the workshop so you can do more... and play more.

Save Money
Saving fuel and time ultimately means that you save money. MAGNUM+ will extend the life of your tyres by promoting consistent, even wear and tear. With MAGNUM+ you will replace your tyres less often!

Balance It. Forget It.
Proper tyre maintenance involves a constant balancing that will, on one hand, maintain fuel efficiency and, on the other hand, maximize the life of the tyre. Traditional external weight tyre balancing means rebalancing your tyres at regular intervals. With MAGNUM+, all tyres can be efficiently balanced throughout their life because the beads retain their physical characteristics and never disintegrate, thus they will outlast your tyres.

Adapt To Any Road Condition
If you like to play in the mud, drive in the snow or go from one messy job site to another, heavy spots on your tyre may change leaving your wheels unbalanced. Wheel weight balancing can often be ineffective on a vehicle experiencing various conditions. With MAGNUM+ the beads simply reposition themselves according to the new force created by the heavy spot.

ARB AIR COMPRESSORS & TYRE MAINTENANCE

0830001 | ARB Pressure Control
Employing the same unmatched ARB proprietary technology and learnings from over 3 years of in-field use, this premium product now provides more ARB Air Compressor customers with the option to use convenient, accurate and unmatched air pressure control. More so, this incredible functionality is conveniently controlled at your fingertips by a smartphone app!

Features & Benefits

- Utilises a smartphone app and pressure control regulator valve to conveniently inflate and deflate tyres, balls, air mattresses, bike tyres and more
- View the current pressure in your tyres
- Set the desired target pressure using four customisable pre-set modes of your choice
- Set the maximum system pressure
- Choose your own units of measurement from kPa, bar, psi
- Receive audible and vibration alerts to indicate when desired pressure has been achieved
- Set system settings such as only allowing pressure control to operate if the engine is running
- Initiate a recalibration of the pressure sensor via the app for unmatched accuracy
- View the current voltage of your electrical system
- IP rated pressure control module and wiring harness safe for engine bay mounting

What's In The Kit

- Pressure control module
- Pressure regulating valve
- Pressure transducer
- Wiring harness
- Mounting bracket
- Installation instructions

Compatibility

- Suits ARB air compressors: CKMA12, CKMA24, CKSA12 & CKMTA12
- Suits 12-volt electrical charging systems only
- Smartphone application suits Android and iOS compatible devices

ARB
4X4 ACCESSORIES
ARB products available in the UK only.

ARB601 | ARB Digital Tyre Inflator
Most four wheel drivers understand the importance of running the correct tyre pressures for different situations or load variances. It's important to carry accurate air pressure gauge & tyre inflation equipment. This inflator makes checking & adjusting tyre pressures a fast and simple operation thanks to its large easy to read digital blue backlight display, big thumb operated inflator button and easy access deflator bleed button.

- Inflate, deflate & measure
- 600mm dual swivel PVC coated braided hose
- Accuracy to +/-1psi @ 25-75psi
- Up to 200hrs runtime on set of batteries
- Easy to read blue backlight display

ARB605A | ARB Tyre Inflator

- Compatible with ARB compressors
- Protective rubber gauge guard
- Air bleed button for deflating
- 600mm stainless braided PVC coated flexible hose
- Clip on chuck
- Incorporates ¼" NPT-US industrial interchange male coupling
- Bronze bourdon tube gauge design
- Fully gear, solid brass precision movement
- Easy to read dial with psi & bar scales

ARB600 | ARB Tyre Deflator
Makes tyre deflation even easier.
The unique, patented design of the E-Z Deflator allows for removal of the valve core for rapid tyre deflation, while also providing accurate pressure reading via the simple movement of a sliding valve. Provided in a protective canvas pouch, the quality bronze Bourdon Tube gauge design ensures accuracy is not affected by fluctuations in temperature, humidity or altitude.

- Corrosion resistant brass/stainless deflator tool
- Fully geared, solid brass precision movement
- Protective rubber gauge guard
- Easy to read dial with one PSI increments

ARB510 | ARB E-Z Deflator Digital Gauge
The ARB E-Z Deflator Digital Gauge makes tyre deflation even easier thanks to accuracy of up to +/-1psi @ 15-75psi, a large digital read out with blue backlight display as well as multiple pressure readouts including PSI, BAR, KPA and KgF.

- Ribbed rubber gauge guard
- Flexible braided hose
- Full swivel gauge connection
- Rated capacity - 0 to 200psi
- Multiple pressure scales
- Large LCD digital readout
- Easy read blue backlight display
- Brass components and crimps
- Up to 200hrs battery life

ARB AIR COMPRESSORS & TYRE MAINTENANCE

CKMP12V2 | ARB Portable Air Compressor
This portable 12V air compressor comes in a durable polypropylene carry case for added versatility and uses quality components for quiet operation and extra long life. Including a 19ft air hose, it also comes with all the necessary fittings for tire inflation and camping or leisure gear. Its twin motors are internally thermal protected against extreme temperature damage while a heavy duty in-line maxi fuse for each motor provides professional circuit protection. The compressor comes in a high quality carry case featuring internal pockets for components and accessories including a 6 metre air hose. Much more information available online.

CKMTP12 | ARB Portable Twin Air Compressor
The ARB CKMTP12 portable air compressor is a compact sized yet high performance compressed air source that is intended for rapid inflation of large tyres and operation of most air powered tools rated up to 85LPM (3CFM) @ 600kPa (90PSI). The ARB CKMTP12 is a world class recreational product designed and built to commercial / industrial standards boasting the following features:

- High flow, twin motor, dual cylinder, portable 12V DC air compressor with 4L air tank, 6m durable high temp air hose, inflation accessory kit and air blow gun
- Ultra-compact twin motor with dual cylinder design makes this the highest flowing portable compressor of its size on the market at 174LPM (6.16CFM)
- Integrated aluminium air tank and pressure switch regulates pressure between 930kPa (135PSI) and 1030kPa (150PSI) suited to most air powered tools.
- Mounted in a waterproof carry case constructed from a durable impact resistant polymer. The carry case has convenient compartments for storing the air hose and other compressor accessories. Much more information available online.

171302V2 | ARB Tyre Inflation Kit
The ARB tyre inflation kit for air compressors is specially sourced from Japan, providing a unique high-heat tolerant hose for the hi-output compressor (CKMA12 & CKMA24). The practical kit includes a dust resistant air chuck and an enclosed internal bearing system to prevent dirt ingestion.

- Suitable for camping, touring and off-road applications as well as everyday usage
- Provides fast, accurate inflation
- Kit includes
  1 x high heat pressure hose
  1 x ARB air chuck with quick press fitting
  1 x ARB T-fitting for use with the ARB air compressors and an assortment of additional fittings to suit various camping and sporting gear such as air mattresses and footballs

171328 | ARB Tyre Inflation Kit Replacement Fittings NEW
Replacement fittings for the ARB Tyre Inflation Kit - 171302V2

ARB Speedy Seal Puncture Repair Kit

DA8930	Repair kit
10100010	50 x Replacement cords

Coming in a compact, high visibility carry case, the Speedy Seal includes all the components necessary to repair tubeless radial or cross ply tyres, without removing the tyre from the vehicle or rim. A pencil type tyre gauge with dual chuck makes setting pressures a snap, while a spring steel insertion needle and hardened reamer tool allow fast tyre repairs.

- Lubricant for easier tool insertion
- Additional accessories (valve core tool, spare valves and valve caps)
- 30 self vulcanising repair cords for complete air sealing
- Allen keys

ARB4297 | ARB Inflation Case
Housing your Air Systems gear in a safe and convenient location within your vehicle is not always an easy task. The extreme conditions we put our vehicles through demand a solution that is fit for purpose and of the highest quality. This is the solution.
7 pockets capable of holding 2 x air hoses, 1 x inflator, 1 x deflator, 1 x compressor blow gun and more

- PVC waterproof and abrasion resistant material
- Reflective strips for high visibility and safety
- Holds an ARB Speedy Seal SII Repair Kit
- Updated Air Systems branding and colours
- Ergonomic pull ring zippers and rubber handle

Note: Excludes contents shown

0740108 | ARB Compressed Air Blow Gun
To keep your air compressor and air accessories clean from dust and debris encountered during regular off-road driving, the compressor blow gun is the ideal solution delivering compressed air for fast and easy cleaning.

- Colour temperature: 6,000K
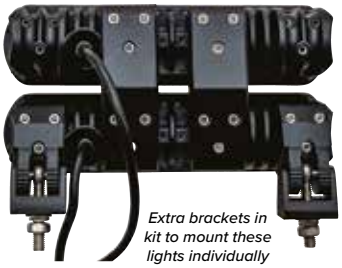
- Waterproof: IP67
- Size: 570 x 84 x 83mm
- Lifetime: More than 30,000 hours
- Certification: CE ROHS IP67 ECE R112

LED LIGHTS

DA3295 | Double 40W LED Driving Light Bars
- 4 x 10W CREE LEDs per light
- Deutsch connector, harness & stack brackets
- ECE / SAE high beam pattern
- Die-cast aluminium alloy housing and polycarbonate lens
- Chrome reflector
- Adjustable brackets
- Waterproof breather screw



- Stainless steel fixings
- Lumens: Raw - 4,800Lms | Effect - 3,900 Lms
- Power: 40W
- Voltage: 9 - 32V DC
- Colour temperature: 6,000 - 6,500K
- Work temperature: -40° to 80°
- Waterproof: IP67
- Size: 222 x 55 x 100mm
- Lifetime: More than 30,000 hours
- Certification: CE ROHS IP67 ECE R112R10 EMC

DA3286 | 36W Dual Row LED Light Bar
- 12 x 3W Osram LEDs
- ECE / SAE high beam combo pattern
- Die-cast aluminium alloy housing and poly-carbonate cover
- Adjustable side brackets
- Stainless steel fixings
- Lumens: Raw - 2,800 Lms
  Effect - 2,100 Lms
- Angle: 40° to 60°

- Power: 36W
- Voltage: 10-32V DC
- Colour temperature: 6,000 - 6500K
- Waterproof: IP67
- Size: 213 x 84 x 83mm
- Lifetime: More than 30,000 hours
- Certification: CE ROHS IP67 ECE R112

DA3294 | 40W LED Driving Light Bar
- 4 x 10W CREE LEDs
- Deutsch connector
- ECE / SAE high beam pattern
- Die-cast aluminium alloy housing and polycarbonate lens
- Chrome reflector
- Adjustable brackets
- Waterproof breather screw
- Stainless steel fixings
- Lumens: Raw - 2,400Lms | Effect - 1,950Lms

- Power: 40W
- Voltage: 9 - 32V DC
- Colour temperature: 6,000 - 6,500K
- Work temperature: -40° to 80°
- Waterproof: IP67
- Size: 222 x 55 x 100mm
- Lifetime: More than 30,000 hours
- Certification:
  CE ROHS IP67 ECE R112 R10 EMC

24W LED Flood Light
DA3347 |
- Power: 24 x 1W Osram LED
- Effect Lumens: 1,920 LM
- Beam pattern: Flood
- Voltage: 9 - 32V DC
- Colour Temperature: 6,000K
- Body: 148.5 x 40mm
- Waterproof & Dustproof: IP68 IP67
- Lifespan: 50,000 hours

- Housing: Die-cast aluminium with polyester powder coating
- Lens: Durable polycarbonate
- Hardware: Stainless steel
- Operating temperature: -40°C to 85°C
- Protection: Overvoltage and heating
- Certificates: E-mark approved / CE / RoHs / UKCA
- EMC Standard: CISPR25 / Class 3

DA3348 | 32W LED Flood Light
- Power: 32 x 1W Osram LED
- Effect Lumens: 2,560 LM
- Beam pattern: Flood
- Voltage: 9 - 32V
- Colour Temperature: 6,000K
- Body: 111 x 61mm
- Waterproof & Dustproof: IP67
- Lifespan: 50,000 hours

- Housing: Die-cast aluminium with polyester powder coating
- Lens: Durable polycarbonate
- Hardware: Stainless steel
- Operating temperature: -40°C to 85°C
- Protection: Overvoltage and heating
- Certificates: E-mark approved / CE/RoHs / UKCA
- EMC Standard: CISPR25 / Class 3

DA3349 | 60W LED Interior/Exterior Scene Light - Amber/White
- Power: 60W in total
- Amber light: 30 x 1W Osram LED
  Effect Lumens: 2,100 LM
- White light: 30 x 1W Osram LED
  Effect Lumens: 2,400 LM
- Beam pattern: Flood
- Voltage: 9 - 32V

- Surface mounting: 45 degree tilt
- Body: 329 x 66 x 51mm
- Waterproof & Dustproof: IP67
- Lifespan: 50,000 hours
- Housing: Die-cast aluminium
- Lens: Durable polycarbonate
- Hardware: Stainless steel
- Certificates: ECE / CE / RoHs / UKCA
- EMC Standard: CISPR25 / Class 3

LED FRONT BUMPERS

DA8600

DA8600	Bumper with Ring LED lights
DA8600XS	Bumper with Ring LED lights & rubber end caps
DA8600LED	Ring LED lights - pair

Fitted with 5 x 1.5w ultra bright LEDs
Dimensions - 57 H x 145 W x 55mm D
Voltage - 12 - 24V DC / Watts - 15W

DA9500	Bumper with LED lights
DA9500XS	Bumper with LED lights & rubber end caps
DA9500LED	LED lights - pair

Fitted with 8 x ultra bright LEDs
Dimensions - 28 H x 140 W x 47mm D
Voltage - 10 - 30V DC / Watts - 4W

These smart and functional standard fit Defender bumpers are equipped with a pair of LED lights for additional lighting in the dark or day light running for safety.

LAZER LIGHTS

DA3475 | Triple-R 24 Elite
Lazer Part Number - 00R24-G2-EL-B
1,125 x 73mm | Single

The Triple-R 24 has been given Elite level performance through the adoption of a combination of the latest high efficiency LED technologies and modified optics, used to deliver more distance illumination and more left/right spread of light. Borne out of extensive testing at the highest levels of professional track and rally motorsport, the Triple-R Elite represents the pinnacle of LED driving light technology. Subtle styling updates have resulted in a clean contemporary design, with a more aggressive edge, to match the aesthetic design prevalent on modern vehicles.

DA2843 | Triple-R 28 Elite
Lazer Part Number - 00R28-G2-EL-B
1,305 x 73mm | Single

The Triple-R 28 has been given Elite level performance through the adoption of a combination of the latest high efficiency LED technologies and modified optics, used to deliver more distance illumination and more left/right spread of light. Borne out of extensive testing at the highest levels of professional track and rally motorsport, the Triple-R Elite represents the pinnacle of LED driving light technology. Subtle styling updates have resulted in a clean contemporary design, with a more aggressive edge, to match the aesthetic design prevalent on modern vehicles.

Linear Light Bar Range
Representing the very best in slimline auxiliary high beam driving lights, the Linear range utilises a combination of highly efficient 3W LEDs and vacuum-metallised wide optics to deliver a perfectly tuned beam pattern for everyday road use. Measuring just 40mm in height, the Linear range is an excellent solution when either space is limited or when looking for a discreet installation that's most likely to get noticed at night-time.

DA3725

Utility Range
The Utility-25 is a hugely versatile, medium-duty work light, which through the latest advances in LED lighting technology, gives superior levels of light output considering its compact size. The lamp is built tough and engineered to deliver constant, reliable light output perfectly tuned to a broad range of applications and vehicle types.

DA3732 | Utility-25 MAXX

LAZER LIGHTS

DA2841 | ST4 Evolution
Lazer Part Number - 004-EVO-B
Single
The ST4 Evolution is a hugely versatile LED spotlight the size of which has proved particularly popular within the road tuning, pickup truck and 4x4 markets. At 204mm length, the ST4 delivers incredible lighting performance which belies its diminutive size. ECE approval ensures the light is suitable for full integration into your vehicles existing electrical system.

DA3728

Triple-R 750
Boasting the very latest high efficiency LED technology, the Triple-R 750 is a high-performance driving light that delivers a spot beam pattern well suited to both on-road and off-road applications. Subtle styling updates have resulted in a clean contemporary design, with a more aggressive edge, to match the aesthetic design on modern vehicles.

Lazer Part Number - 3001-DEF-67-K
Brackets & Fixings

DA2884 | Lazer CAN Contactless Reader
Lazer Part Number - CAN-CCR-LZR
Enables CAN-Bus interface integration without the need for metal-to-metal connection

DA2885 | Lazer CAN Interface (Dual-Output)
Lazer Part Number - CAN-LZR
CAN-Bus interface provides an effective solution for detecting vehicle lighting activity

DA2844 | Lazer Two Light Harness Kit With Splice
Lazer Part Number - 2L-LP-120
The ideal for wiring a pair of Lazer LED spotlights. The setup is quick, easy, and reliable with 2-pin superseal connections and no configuration procedures.

ARB DRIVING LIGHTS & LIGHT BARS

AR21FV2

AR32SV2 | AR32 Intensity LED Spot Light
The light features an ARB engineered heat-sink with 15 fins to help prevent heat damage to the LEDs and surrounding components. The heat-sink also ensures the LED circuits run cooler and produce optimum light output while extending the light's longevity.
Dimensions - 220.5 W x 245.5mm H

AR21SV2 | AR21 Intensity LED Spot Light
Delivering outstanding performance in a smaller form factor, the AR21 Intensity LED spot light provides vehicle owners with a high performance lighting upgrade that is better suited to areas or bull bars with limited space.
Dimensions - 184 W x 209mm H

AR21SV2

AR32F | AR32 Intensity LED Flood Light
Submersible to 3m, the AR32 Intensity LED flood light is vibration tested to military specifications to ensure it can withstand extended periods of use on uneven ground and extreme conditions.
Dimensions - 220.5 W x 245.5mm H

AR21FV2 | AR21 Intensity LED Flood Light
The AR21 Intensity LED flood light is vibration tested to military specifications and produces a wide and even beam coverage that provides the driver with confidence during night driving conditions.
Dimensions - 184 W x 209mm H

3500520 | ARB Intensity LED Driving Light Wiring Loom
Suitable for use with the ARB Intensity Spot & Flood Lights - AR21FV2, AR21SV2, AR32F & AR32SV2. Pre-assembled plug-&-play design. More information available online.

ARB
4X4 ACCESSORIES

ARB products available in the UK only.

ARM603

ARB Intensity Light Bar Mounting Kits

ARM603	To suit bar tube diameter 60.3mm
ARM761	To suit bar tube diameter 76.1mm

The ARB bull bar mounting kit provides the option to secure the Intensity LED Light Bar to bars. Available in three sizes to suit the tube diameter of vehicle's bars. Compatible with bars with a tube with a diameter of up to 76.1mm, the mounting kits provide a solid clamp between the Intensity LED Light Bar and the bar tube to minimise vibration and movement. Constructed from extruded aluminium and with fasteners manufactured from stainless steel, the bar mounting kit has been designed for toughness to handle various weather conditions.

Much more technical information is available for all these lights at www.britpart.com/arb-lights

Engineered in Australia, the ARB Intensity LED light range has been specifically designed to meet the demanding requirements of 4WDers throughout the world. From producing white light that is the closest possible imitation of sunlight, to a virtually indestructible polycarbonate lens, these lights are the premium choice. Unlike high intensity discharge (HID) lights, the LED range does not require time to warm up and performs brilliantly on uneven roads by producing a broad field of light that helps diffuse vibration. Submersible to 3m, the ARB Intensity LED lights have been vibration tested to military specifications to ensure they can withstand extended periods of use on uneven ground and extreme conditions to keep the road ahead brightly lit.

ARMP | ARB Light Bar Pedestal Mounting Kit
Offering increased versatility by allowing fitment of the Intensity LED Light Bar to the pan of a bull bar or roof rack. For increased versatility, the pedestal mounting kit is an alternative to the bull bar mount by enabling fitment to the pan of a bull bar or a roof rack.

ARBVX17B | ARB Intensity IQ
Pair

Overview
The ARB Intensity IQ has been developed from the ground up, with performance front of mind, whilst delivering a design that complements modern vehicle styling and bar work. With a subtle introduction of ARB red within the light, the free-form clear front lens, bezel-less design and CNC machined ARB logo provide a modern, classy and premium look. Packed with unique features, the Intensity IQ sets a new level of driving light design and usability.

A unique 4-optic design (Super Spot, Spot, Flood and Midrange) is employed to provide virtually an unlimited choice of light beams to suit any road condition. The Super Spot and Spot optics, based on free-form reflector technology, produce an even spot beam for extended distance illumination. The Flood optic has a specially designed lens to maximise the light spread for excellent foreground visibility. The Midrange optics employ a conventional parabolic reflector to illuminate the midrange area. Furthermore, the beam pattern of each of the two lights can be independently adjusted so you could run, for example, one focused on spot and one focused on flood.

Innovative Mounting Bracket
Intelligent thermal management maximises light output in all driving conditions and provides outstanding LED life expectancy. Cooling is maximised via the die cast aluminium body which acts as a massive heat sink. An innovative, sleek new mounting bracket design not only allows adjustment of light beam angle, but also provides additional mass and surface for cooling.

Customisable On-board Switch
The Intensity IQ is equipped with a switch to:
- Turn on and off the driving lights
- Provide 8 selectable and customisable pre-set light beams
- Disable courtesy light function (delayed light off after ignition off)
- Turn on/off Euro mode (light beam complying UNECE R149)
- Activate/deactivate demo mode
- Restore factory settings

The switch is customisable via the ARB Intensity IQ app (available via the App Store for iOS and Google Play for Android), which allows users to:
- Turn on and off the driving lights
- Adjust the intensity of each row of optics on each individual light (or both at once) to create your ideal beam pattern
- Setup the fade in/out feature
- Turn on/off courtesy feature and adjust timer
- Activate the work light function (lights on without high beam on)
- Select a light network to connect to (for example if you have 2 different vehicles, each with IQ lights)
- Save or undo the change
- Turn on and off the Euro mode
- Set the on-board switch response time
- Restore factory settings

Specification
LED Configuration:
Super Spot: 4 x Cree XP-P LEDs / Spot: 2 x Cree XM-L3 & 3 x XP-P LEDs
Flood: 18 x Cree XT-E LEDs / Midrange: 4 x Cree XM-L3 LEDs
Input: Voltage: 11-32V Power: 170W @ 13.2V / Current: 12.9A @ 13.2V
Output: Raw Lumens (max) - Flood - 14,060 / Spot 7,070 Lumens
Output: Effective Lumens (max) - Flood - 6,666 / Combo - 6,265 / Spot - 6,613 Lumens
Distance @ 1 Lux (max - pair): Spot 1,350m / Max Combo 1,105m / Max Flood 900m
Operating Temp.: -40°C to +80°C
Colour Temperature: 5700 - 6200K
Compliance: CE ECE R10, R149, UKCA, RCM, E-Mark Approved - FCC, ROHS
Weight: 3.8kg
Dimensions: 220 (W) x 215 (H) x 142mm (D)
Warranty: 3 years

Kit Includes:
2 x Digitally controlled driving lights
2 x Mounting brackets & mounting hardware kits
1 x Vehicle harness
1 x Switch with cable & connector
1 x Control module with cable & connector
1 x Set security bolts & tool

ARB DRIVING LIGHTS & LIGHT BARS

SJB36S | ARB Intensity Solis
36 LED Spot Light
Single
Input: 10 - 30V
Power: 165W
Current draw: 12.4A @132.V
Output - raw: 18,178 lumens
Output - effective: 9,546 lumens
1 Lux reading: 1,032m
Spread: 6 degrees
Input cable length: 450mm
Operating temperature: -40°C to +65°C
Colour temperature: 5,700 Kelvin
Weight: 3.3kg
Connector: 4-pin AT waterproof plug
Dimensions (W x H x D): 225 x 220 x 120mm

SJB36F | ARB Intensity Solis
36 LED Flood Light
Single
Input: 10 - 30V
Power: 165W
Current draw: 12.4A @132.V
Output - raw: 18,178 lumens
Output - effective: 8,333lumens
1 Lux reading: 729m
Spread: 11 degrees
Input cable length: 450mm
Operating temperature: -40°C to +65°C
Colour temperature: 5,700 Kelvin
Weight: 3.3kg
Connector: 4-pin AT waterproof plug
Dimensions (W x H x D): 225 x 220 x 120mm

More technical information for all these lights at **www.britpart.com/arb-lights**

The ARB Intensity Solis provides a whole new level to the ARB Intensity range of driving lights and bars. Introducing digital dimming control and providing a massive 1 lux @ 1,032m for an individual spot beam via the 30 x 4W combined with 6 x 10W high output OSRAM LEDS provides a smooth driving beam.

- Revolutionary update of the Intensity light
- New colour design and shape
- New interchangeable bezels
- Superior grade LEDs and electronics
- Digital dimming control
- Unique ARB engineered reflectors

Features

- 30 x 4W OSRAM high output LEDS
- 6 x 10W OSRAM high output LEDS
- Total of 36 LEDs
- High pressure die-cast housing with improved heat-sink and UV stabilization
- High pressure die-cast bracket with pinning holes
- Integrated ARB thermal management
- In-built digital dimming LED driver control
- Unique ARB engineered spot & flood reflectors
- 4-pin high amperage waterproof connectors
- 50K lifespan
- Clean and crisp light with a refined colour temperature
- Pressure tested breather
- Reverse polarity
- Mil spec vibration
- IP68
- Over & under voltage
- Compatible with LINX
- Protected against RFI / EMC interference
- RoHS, CE & ECE R10 compliant
- Security Torx hardware included

High Pressure Die Cast Aluminium Bracket & Housing

- Scalloped back - more bar fitment possible
- Improved heat-sink and UV stabilization
- Adjustable bracket
- Pressure tested breather

Brackets

- Various mounting options
- Vertical & horizontal mounting
- Simplified fitting
- Torx security fasteners

Compatible With LINX

Solis can be fully integrated into LINX. You will need to purchase a patch lead that is simple to install + set up the new light and its features within the LINX system. Features include custom pre-sets, infinite dimming control, courtesy light feature and dedicated Solis icons and function.

What's In The Package?

- Light
- Extra (black) bezels
- Bracket
- User guide

IMPORTANT
If you want to install Solis Lights to use with the LINX system you will need both - SJBHARN & SJBLINX, but you don't need to install the touchpad since you'll be controlling the lights through the LINX app.

SJBLINX | Solis LINX Patch Cable
Suitable for SJB36S, SJB36F & SJB21EUX2

SJBHARN | Solis Wiring Loom & Dimmer Touchpad
Important - Needed to fit 2 x Solis lights

- Silicone touch pad
- Intuitive feel touch - no eyes off the road
- Simple 3 button control
- Easy fitment
- Cable can be directed at back or out bottom
- Percentage changes - 5%, 25%, 50%, 75%, 100%
- Silicone sleeved for durability and protection
- 58mm (L) x 10mm (D) x 25mm (W)
- The touchpad is required to operate the ARB Intensity Solis™ lights if no LINX system is connected

ARB INTENSITY SOLIS DRIVING LIGHT

See it in action at
www.britpart.com/solis

Interchangeable bezels

SJB21EUX2 | ARB Intensity Solis
21 LED Driving Lights
The ARB Intensity Solis™ 21 LED (7") Driving Lights are offered in dedicated combination optic tuned for on and off-road use. The lights are E-mark approved (following UNECE R149 regulation) ready for legal fitment & on road use in European countries. A single ARB Intensity Solis™ 21 provides 620m @ 1 Lux on setting #5 in off-road mode. The ARB Intensity Solis™ 21 on setting #3 provides 426m @ 1 lux with up to 40m spread from the vehicle in on-road mode. In dual combo off-road configuration, the distance down the road is a very impressive 877m @ 1 lux on setting #5 and dual combo configuration on setting #3 on-road modes it's a competitive 603m @ 1 lux. As well as distance, a warmer light colour helps to reduce eye strain over long driving periods and improves driver comfort while assisting to reduce fatigue.

Features

- 21 Osram LED (15x 4W + 6x 5W)
- 50,000+ Hour LED life span
- Input voltage - 10-30VDC
- Raw lumens - 9133LM
- Colour temperature - 5700 Kelvin
- 9° full beam width
- Operating temperature - -40°C to +65°C
- Weight - 2.73kg
- Light dimensions (single) - 192 x 190 x 114mm
- Integrated thermal management
- Pressure equalisation breather
- High pressure die-cast aluminium body and mount with variable positions
- Virtually unbreakable polycarbonate lens
- UV stable moulded polycarbonate lens cover
- Durable UV stable powder coat
- High power Amphenol AT06 waterproof connector
- Over voltage protection to 30VDC
- Protected against RFI / EMC interference
- Dust and waterproof to IP68
- Tested to MIL810-STDG for vibration
- RoHS compliant
- CE compliant
- UNECE R10 compliant
- For Intensity Level #3 (UNECE R149 compliant)
  - Power draw 36W
  - Current draw 2.7 Amps @ 13.2V
  - Effective Lumens 2,700LM
  - Distance @ 1Lux - 426m (single light)
- For Intensity Level #5
  - Power draw 82W
  - Current draw 6.2 Amps @ 13.2V
  - Effective Lumens 6,000LM
  - Distance @ 1Lux - 620m (single light)
- Warranty 3 years - Global warranty

What's In The Package?

- 2 x Lights & 2 x clear covers
- 2 x Mounting bracket & mounting hardware kit
- UV-resistant interchangeable red or black bezels to suit
- Wiring loom with dimmer (touchpad)

Photo by Andy Foster

LYNX HALO

Series / Defender
Range Rover Classic

- Plug & play
- High brightness
- IP67 passed
- Never replace a bulb
- 'Error-canceller' build-in
- UV-resistant & hard-coated polycarbonate lens
- Universal under DC9V - DC32V
- Best cut-offline with broad light-spread
- Excellent pure white light output
- Long life-span up to 30,000 hours
- High reliability
- Multi-functional combination

DA6282	Pair	**DA6283**	Pair
DA6282K	Single	**DA6283K**	Single

Note: Some EU countries may require fitment of headlight washers.

Features & Benefits

- Standard 7" fitment
- Light source - 8pcs CREE(XML-10W) LED
- Certification - DOT & E-mark
- 2800LM@30W on low beam
- 4450LM@48W on high beam
- Durable polycarbonate lens stands up to harsh environmental conditions
- Rugged solid LED means never having to replace another bulb again
- Die-cast aluminium housing provides maximum protection

General Specifications

- Lens material: Polycarbonate
- Housing material: Die-cast aluminium
- Mounting: Replaces PAR56 headlights
- Mounting connector: H4 and H4 to H13 converter
- Colour temperature: 6000 - 6500k

Technical Specifications

- Low beam: 2.5 amps @ 12V DC
- High beam: 2.00 amps @ 24V DC
- Low beam: 1.25 amps @ 24V DC
- Row lumen output: 5600LM
- Effective lumen output: 3640LM

LED HEADLIGHTS - ECE

Series / Defender / Range Rover Classic

DA6280K	Right hand drive | Pair
DA6281K	Left hand drive | Pair

Technical Specifications

- Hard-coated polycarbonate lens
- eCoat aluminium housing and internal structures
- Metallized reflector
- 1.3mm CSA / 16 gauge wire
- Light source - 2 LED arrays
- Multi-volt (9V-33V) design works with both 12V and 24V systems
- More technical information available online

Note: Some EU countries may require fitment of headlight washers.

Features & Benefits

- ECE & ROHS compliant
- LED sealed beam technology with polycarbonate lens and sealed electronics
- Up to 50 x longer life than halogen headlights, lowering life-cycle costs
- Produces pure white light, nearly identical to daylight that is easy on the eye, unlike harsh blue HID systems
- Includes built-in position light with optional wiring
- Offers great forward vision, improved roadside coverage and highly controlled beam patterns, offering glare protection to oncoming traffic
- Dipped/passing beam and main/driving beam functionality
- Ultra-bright output for maximum night visibility
- H4, 3-Blade connector system (main & dipped beam only)

DA5019	H4 kit
DA5020	H7 kit

Compact kits for easy storage in glove compartment. Contains major bulbs for exterior lighting and fuses. Ring kit includes:

- Relevant headlight bulb
- R380 stop/tail bulb
- R382 stop/indicator bulb
- R581 amber indicator bulb
- R501 capless side and tail bulb
- R207S side and tail bulb
- 10A mini blade fuse
- 10A standard blade fuse

OSRAM HEADLIGHT BULBS

More information on these bulbs - www.britpart.com/bulbs

Osram Xenarc Cool Blue Intense Extra White Light
DA5094-150
Single
Extra white light, up to 6,200 Kelvin, due to a special filling system used instead of conventional coating. High contrast and brilliantly white light for most stylish and modern look on the road. Up to 150% more brightness which allows you to see farther and therefore react sooner.

Osram Xenarc Night Breaker Laser D3S
DA5201
Single
Up to 200% more brightness to see further and therefore react sooner compared to the minimum legal standard. Up to 250m long beam for better visibility and up to 20% whiter light compared to the minimum legal standard. **Note:** Xenarc light change is recommended to be carried out by a professional and in pairs.

DA5159 | Osram Night Breaker Laser HB3
NEW
Pair
Strong halogen light for high demands. Night Breaker Laser halogen headlight lamps shine up to 150% brighter compared to the minimum legal standard. The highly engineered filament ensures an extra light boost. Consequently, the lamps provide an up to 150m long beam and up to 20% whiter light compared to the minimum legal standard.

DA5094

20% more light than a standard HID bulb

Xenon HID 5500
DA5094
Single

- D1S 85V 35W
- 20% more light than a standard HID bulb
- 5500K colour temperature for a whiter light
- Direct OE replacement for existing discharge bulb
- Typical life 3000 hours

- 100% Xenon gas and advanced filament technology produce exceptional night driving performance
- A longer beam pattern enables other road users to be seen more clearly and allows more time to react to potential hazards
- Better reflections from road markings & signs make for more comfortable & safer night driving
- Street legal and a simple upgrade from standard bulbs, requiring no changes to vehicle wiring

POLYBUSH REAR LIGHT BOOT

DA3648 | Polybush Rear Light Boot
Single - Excludes light
The Defender's rear lights have no protection from water ingress via the rear of the vehicle, Anything from rain to wading can cause damage, which leads to rust and corrosion of the electrical system, resulting in short circuits and malfunctioning lights and indicators.

The Polybush Rear Light Boot saves your Defender from corrosion, its designed to specifically to fit around the O.E lights on your Defender. The boot provides an effective barrier against water ingress and wheel spray, protecting the connections and preventing rust and corrosion ensuring that the rear lights and indicators remain functional, improving visibility and reducing the risk of accidents. The boot is made from a durable and long-lasting Polyurethane, which is unaffected by oil, fuel, and road contaminants.

Unlike rubber, Polyurethane remains flexible and pliable, ensuring that the boot maintains its protective qualities for decades. Installation of the boot is a straightforward process. Cost-effective as it saves Defender owners time and money by eliminating the need for expensive repairs due to water damage. The boot is an affordable and practical solution that provides peace of mind for Land Rover Defender owners who enjoy off-road adventures.

EXTERIOR LIGHTS

DA5073 | Dual Voltage Round Switched Work Light
- Dual voltage
- H3 bulb fitment
  Bulb not included - DA5075
- Wide flood light output
- Heavy duty zinc plated bracket
- Clear polycarbonate lens
- Impact and heat resistant polypropylene housing
- Protected switch
- 253 H x 168 W x 119mm D
- Voltage - 12/24V DC
- Watts - 55/70W
- Cap type - PK22s

LED STRIP LIGHTS

Perfect light source to illuminate work areas

Astro 12V LED Strip Lights

- Long life, high intensity LEDs
- Wide spread of light
- Angled light source
- Quick to install
- Compact design
- Waterproof to IP66
- E-type approved

The Astro gives a wide spread of light; perfectly angled for awning and area lighting. The lights incorporates the Orizon LED strip light which uses the latest in LED technology, offering optimum performance and extended life. The properties of these LEDs give greater luminosity, allowing for a brighter unit whilst using fewer LEDs to maintain the low power draw. The Astro is approximately twice as long as a standard awning light, thereby increasing the spread of light along the side of a vehicle offering greater external illumination. The angled wash of light to the floor also makes it a perfect light source to illuminate work areas, shelving, lockers and much more. The LED strip sits within a slim aluminium housing which conceals the fixings; and with ABS snap-on end caps, this compact light unit is quick and easy to install. The PCB driver, components and LEDs are completely encased within a polycarbonate extrusion, which protects against moisture ingress.

Nebula 12V LED Strip Lights

- Long life, high intensity LEDs
- Quick to install
- Compact design
- Robust construction
- Unique impact deflection design
- E-type approved

DA1452

The Nebula incorporates the Orizon LED strip light, which uses the latest in LED technology, offering optimum performance and extended life. The properties of these LEDs give greater luminosity, allowing for a brighter unit whilst using fewer LEDs to maintain the low power draw. Set in a low profile, tough aluminium housing, the Nebula is quick and easy to install, making it suitable for both new vehicle specifications and retrofitting into existing vehicles.

CAR SHADES

Upgrade your Land Rover's interior by installing made to measure Car Shades, a cost-effective alternative to window tints, reducing light in the cabin by 72%. Car Shades are made to measure sun blinds for your vehicle. They fit all rear windows of your vehicle offering protection from bright light and UV rays. The shades can be easily installed in a few minutes using unique fixing clips supplied. Additionally, the tailored made Car Shades allow for full functionality of your rear windows whilst fitted but ensure there is no gaps allowing sun through.

- Easy to fit in around 10 minutes
- Keep kids & pets cool
- UV Protection & anti-glare
- Added security
- Tailor made to the rear side windows of your model including the boot
- Full window coverage
- Unique clips to attach to your window frames
- Windows still operate with Car Shades fitted
- Reduces cabin light by 72%
- Cost effective alternative to window tints
- Manufactured in the UK
- Carry bag included when not fitted

DOG RAMP

Make life easier for you & Rover!

DA1631

This handy dog ramp is perfect for dogs who have difficulty jumping into the back of your Land Rover. With an anti-slip coating the ramp is quick and safe to use even in wet conditions. The ramp is perfect for aging & injured dogs as well as puppies and smaller dogs who can't reach! No more hurting your back lifting up your dog!

Features

- Telescopic lightweight design for quick and easy storage
- Rubber feet to hold ramp in position
- Catch to hold together when stored
- Anti-slip coating

Specifications

- Maximum weight capacity - 90kg
- Weight - 7kg
- Length compressed - 1,000mm
- Length extended - 1,850mm
- Width at widest point - 450mm
- Deck width - 390mm

The acoustic mat system has been designed to drastically reduce noise entering the cabin of your Land Rover. Made from cast dense polyurethane, the mat is built to industrial standards for reducing noise levels often found in construction equipment. It provides a hard wearing, durable surface that can withstand constant daily use & is easy to clean. A custom fit mat drastically reduces noise entering the cabin and panel reverberation.

Q. Does the acoustic mat system fit Lightweights?
A. It has been fitted to lightweights but it wasn't designed to and it's a tricky job. It involves a lot of cutting.

Q. What about seat box lids?
A. The seat box mat has witness marks on its under side corresponding to all the features of the seat box. It can be cut to your individual requirements using a HD craft knife.

Q. What about the trapped water?
A. Anything you put on the floor will trap water/condensation, even the new mats supplied by Land Rover. As the acoustic mat system is a hard wearing secondary surface you now have the ability to rustproof the inner surfaces of the floor. You will find that it is only a small amount of water and does dry out.

Q. What does the foam do?
A. There is closed cell foam in the area of the footwells and floor panels. It is there to take some weight out of the mat and provide more comfort under foot. The foam has very little acoustic properties.

Q. How heavy is the system?
A. Approximately 25 kilos of dense polyurethane which is the barrier to noise. This is equivalent to having a spare wheel and tyre spread over the floor area. This is why it is so effective.

Q. How effective is the mat system?
A. It would be impossible to quote the reduction in decibels as each application would be different. In testing we used a SWB 2A with a NA 2.5 freight Rover diesel engine. The owner can now have a sensible conversation at full speed!

Q. What if I want to get to the gearbox?
A. In the good old Haynes manual tradition, removal is the reversal of fitting. It takes about 5-10 minutes to remove. You shouldn't ever need to remove the seat box mat or bulkhead mat, unless you wish to transfer them to a different vehicle.

Q. What if my mats are distorted?
A. In most cases, over time it will return to its cast shape. Try to warm it to speed this up.

- Reduces noise - the complete system negates the need for engine and gearbox blankets
- Hard wearing - harder wearing than rubber - it will probably outlast your Land Rover
- Easy to fit - no glue and is transferable
- Easy to clean - can be hosed out
- Insulation - provides insulation to keep heat out (or in)
- Inert - mat will not rot or hold water unlike felt or carpet
- Resistant - material is fuel, oil, water and sunlight resistant
- Fire retardant
- Recyclable

Add less noise to your Defender...

FIX THIS PROBLEM

DA1756BLACK | Foot Well Kick Panels
Defender / Series
The kick plate on the Defender is prone to damage and can lead to the inside of your Defender looking tatty and tired. Protect that edge and smarten up your interior by fitting a pair of these panels.

- Supplied in pairs
- Can be trimmed to fit Series vehicles
- To be paired with Acoustic Mat Systems
- Easy to fit & easy to clean
- Inert - will not rot or hold water
- Resistant - material is fuel, oil, water and sunlight resistant
- Fire retardant

Britpart XS Waterproof Seat Covers

Custom-made seat covers designed and manufactured in the UK. These seat protectors are guaranteed waterproof and are perfect for guarding your Land Rover's seats from not only daily wear, but also from spills, oil, grease, pet fur, and everyday dirt and grime. Attention to detail ensures that these covers fit seamlessly.

They feature elasticated borders around the seat base and come with complete backs. The back also features a slit to enable the rear passengers to use the seat pocket in front of them. To ensure they remain securely in position, they're equipped with elastic straps and buckle fastenings beneath. Additionally, individual headrest covers are included, allowing for height adjustments.

The covers have expertly sewn seams that are then top-stitched, ensuring durability and a quality finish. Convenient velcro openings at the seat top mean you can install them without the need to remove the headrests. Constructed from resilient 600 Denier Polyester with a polyurethane coating, the fabric is 100% waterproof. This robust and premium material has a slightly textured surface for added comfort.

The highly skilled team in the Britpart Trim Shop make a wide range of seats and seat covers for Land Rover vehicles by hand. The material arrives in vast reams and has to be cut with great precision before being stitched together and then assembled into seat bases, seat backs, seat benches etc. In keeping with the Britpart philosophy, all products leaving the Trim Shop are produced to the highest standards and meet with the strictest safety regulations.

*Not suitable for vehicles with truck cabs fitted as they restrict the leg room in the vehicle.

- Lightweight and compact
- High comfort
- Tubular frame construction
- High quality recline mechanism for smooth and easy adjustment
- Compatible with 3 or 4 fixing point harnesses
- Base mounted - 271 x 345mm

These Sparco seats are ideal for Defenders (excluding truck cabs*). Drawing on decades of racing history, Sparco has created a line of street car seats that offer the ultimate in comfort and performance. The ergonomic designs help cradle and protect the driver against even the most demanding lateral forces. The R100 is Sparco's latest incarnation of ground-breaking steel-model seats. It features redesigned bolsters for greater support and new padding configurations for improved comfort. It has been built with comfort and support in mind but it's lower side bolsters and slightly narrower steel frame allow it to fit into vehicles where fitting seats with larger side bolsters may be difficult. The seat features backrest harness slots so that it can be used with a race type harness or normal seatbelts. The seats can be reclined using the double adjuster lever. Made from a durable fabric, the R100 is available in single tone or duo-tone styles. Duo-tone styles feature contrasting side accenting and stitching to match any interior. The Sparco R100 range is designed to attach using Sparco vehicle specific seat mounts.

CORBEAU SEATS

DA7317

DA7311

Corbeau Sportline RRS Low Base Seats
A revised version of the RSS, the Low Base has been designed specifically for Defender owners. The RRS has modern styling, giving you the ultimate in comfort and safety. This steel-framed sports recliner has a high quality moulded foam cushion, with lumber support to give maximum comfort whilst not compromising lateral support. With its ultra low side bolster this is the perfect application for any high rise vehicle. Fitted with a high quality single reclining and tilting mechanism for ease of adjustment. Sold in pairs.
Base width - 500mm / Length - 560mm / Height - 930mm

RETROFIT SEAT HEATERS

Enjoy warm seats at the flick of a switch

DA5717 | Heated Seat Kit - Britpart
These retrofit seat heaters will allow you to enjoy a comfortable and warm seat in any Land Rover vehicle with a removable seat cover. These highly durable and flexible heating elements are placed between the upholstery and seat cover on the seat base and back and will not alter the shape of the seats. There are two switches provided for the driver and passenger seats which allow the heat output to be altered to the two different settings. A ready-made cable set connects the switches to the 12V on-board power supply to the heat the pads. There are integrated temperature sensors which ensure that the seat heater will not overheat.

Operating voltage: 12 volt
Output: Low - 44 watts / High - 90 watts
Dimensions: Seat base - 400 x 280mm / Backrest - 300 x 280mm

- Complete set for driver and passenger seats
- Two stages of heating
- Kit includes four heating elements and items needed for installation
- Pre-assembled cable set with switching relay and buttons included
- Temperature guard to prevent overheating
- Heating elements are durable and extremely flexible
- For use on seats which have a removable cover
- Includes fitting materials and instructions
- Test mark: e-approved to 95/54/EC (EMC guidelines for vehicles)

- Very fast set
- 250ml aerosol

Ideal for bonding and laminating of polyurethane foam, polystyrene foam, fibres, fabrics & felts etc to themselves.

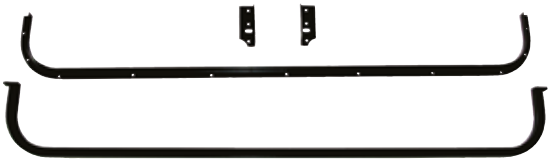
BULKHEAD BARS

DA1810
Defender OEM bulkhead removal bar kit

DA2351
Defender bulkhead reduction bar kit

DA1810

DA2351



Need more leg room and seat adjustment in your Defender?
These bulk head bars alleviate that problem without compromising strength. The bulk head bars allow for extra seat recline and travel on the seat base - giving you a more comfortable seating position and more space in the front foot wells. The bars create a rigid bracing for the front of the Defender tub as well as the added benefits of extra room in the vehicle due to the seats being more manoeuvrable, access to the rear of the Defender is now not compromised by a higher bulk head. Powder coated and supplied complete with all the necessary fixings and instructions.

EXTENDED SEAT RAILS

DA2148 | Extended Seat Rails
Give your Defender seats 3" of extra slide with a pair of these seat rails. Ideal for the taller driver to give a more practical and comfortable driving position. One pair of rails is suitable for one seat.

Ideal for the taller driver.
A more practical and comfortable driving position.

2ND ROW SEAT CONVERSION

DA2752 | 2nd Row Seat Conversion Kit
2nd Row
An ideal kit to install 2007 Puma seats into your pre-2007 Defender.
Kit comprises of -
1 x Mid-crossmember
2 x 2nd row seat supports
2 x 2nd row seat chassis bracket fixing kits
2 x Front wheel arch panels

24 month Guarantee BRITPART

DEFENDER CARPET KITS

DA4912

Once installed, these easy to fit, hard wearing carpet kits will transform your Defender's interior. The black 5mm woven pile carpet is manufactured with a hardback which ensures it holds its shape for years to come. All holes are pre-cut for a precision fit. No glue is required and with only strips of double-sided tape (supplied where applicable), fitment is quick and easy with no mess. The carpet also has the added advantage of improving soundproofing within the cabin. When applicable, floor mats have a reinforced edged for a smart, hard-wearing finish.

Note: The carpet kit will not fit over rubber moulded mat sets. As a general rule, our carpet will however, fit over sound proofing kits such as Dynamat. Why not Dynamat your vehicle at the same time as fitting this kit. See our extensive range of kits - **www.britpart.com/dynamat**

CUBBY BOXES - DEFENDER & SERIES

DA2662MESH

'Chubby' Box Extra padded lid!

Fitting a Britpart cubby box in your Land Rover will help you keep your vehicle clutter free. With a double cup holder as standard, spilt drinks are a thing of the past. Hand-built in the UK, these quality cubby boxes are suitable for Series 3 and Defenders. Expertly crafted with precision tools using a hard wearing leatherette outer with locking stay brass hinges.

'Chubby' Boxes

Fitting a Britpart 'Chubby' box in your Land Rover will also make driving more of a pleasure with the extra padded lid. In addition to our standard cubby box features, our 'Chubby' boxes have a lovely thick and comfy 80mm thick lid. This compares to 20mm thick lid for a standard cubby box.

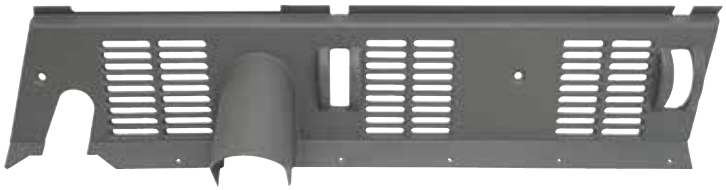
DASH TRIM KITS



DA9199

DA9198

Defender Dashboard Vent Fascia Trim
Defender - up to 2001 1A622423

DA9199	RHD | Equivalent to - FBS100920LOY, FBS100930LOY, MTC4617LDQ & MTC4617LOY
DA9198	LHD | Equivalent to - MTC4618LDQ & MTC4618LOY

This MUD grey plastic vent panel sits horizontally in the back of the Defender dashboard. Over the years this fragile panel traditionally gets a million things screwed into it so is always high on the shopping list for any restoration project but is no longer available to buy from Land Rover. The colour and texture of the original panel have been accurately replicated but manufactured in a thicker grade material for greater durability. **Note:** Excludes radio console.

DA2098

DA1644	Black
DA2935	Dark Grey
DA2934	Light Grey

These rear window surrounds will fit all versions of the 90, however, if the vehicle has a higher bulk head, the fitter will need to remove a section of the surround which is clearly marked with a witness line on the inside of the moulding. This can be done very easily with a 'Stanley' knife or similar.

HEADLINER KITS

DA3694
Defender 90 - 1987 - 2016
With Alpine windows | Light Grey

Say Goodbye to Sagging Cloth Headliner
Our kits are manufactured to replace sagging or deteriorating cloth headliners, giving your Defender's interior a much-needed facelift.

Rigid Composite Material for Durability
Constructed from a robust composite material with a textured finish, these kits offer enhanced durability and longevity, outperforming traditional cloth headliners.

DA3871
Defender 90 - 1987 - 2016
With Alpine windows | Black

Easy to Clean Surface
The wipe-clean feature of our headlining kits makes maintaining a clean and hygienic interior effortless.

Simple Installation with Existing Clips
Designed for convenience, these kits can be easily fitted using the existing clips in your vehicle, making the installation process quick and hassle-free.

DA3745
Defender 110 - 1987 - 2016
With Alpine windows | Light Grey

Moulded for a Perfect Fit
Each headlining kit is moulded to ensure a precise fit, adhering to the contours of your Defender for a professional and smart appearance.

Lightweight Construction
Despite their rigidity and durability, our headlining kits are surprisingly lightweight, ensuring they don't add unnecessary weight to your vehicle.

Defender - 2002 - 2016

DA1204

DA1204
Defender - up to 2002

Does your Defender's rear door sometimes close on you unexpectedly?

This neat and easily installed gas strut kit will solve that problem and replaces the original door stopper. The gas strut will hold the door in place when open - even with a spare wheel in place - and will assist in the opening of the rear door too with a smoother and more controlled movement. Complete with fittings and instructions.

CANVAS HOODS

MUC4122ABE

- Hoods are made from the original 18oz canvas and made to OEM specifications
- All fittings are brass and made to OEM specifications
- Webbing is made the same way as the original
- Polypropylene rope is the same construction as the original rope
- Ropes are all inserted into the hood to help customers
- Care instruction are included

OFF-ROAD

ARB DIFF LOCKERS, AIR COMPRESSORS & EQUIPMENT

ARB High Flow On-Board Air Compressor

CKMA12	12 volt
CKMA24	24 volt

- Airflow - 87.2lpm
- Designed for Air Locker use
- Sealed for moisture and dust resistance
- Quality components for quiet operation and extra long life
- Hard anodised cylinder bore & Teflon impregnated carbon fibre piston seal for reduced friction & maximum trouble free life
- Heavy-duty maxi-fuse equipped for professional in-line circuit protection
- Anodised mounting brackets dissipates motor heat and allows compressor to be repositioned by 180°
- Constructed entirely of lightweight, high strength engineering grade materials
- Over-pressure safety value equipped
- Motor is internally thermal protected against extreme temperature damage

CKSA12 | ARB Compact 12 Volt On-Board Air Compressor

- Airflow - 27.7lpm
- Designed for Air Locker use
- Compact, vehicle mounted design
- Sealed for moisture & dust resistance
- Quality components for quiet operation & extra long life
- Mounting bracket allows for versatile positioning
- Kit contains 12V air compressor, mounting bracket & hardware, auto on/off pressure switch, plug-in Air Locker wiring loom and installation instructions

CKMTA12 | ARB Twin On-Board Air Compressor

Designed to fill the market need for a compact sized yet high-volume compressed air source to suit the high volume airflow needs of most air powered tools it also suits the actuation and control needs of the ARB Air Locker, and the harsh and demanding environment of the ARB Air Locker user. Much more information available online.

LX100 | ARB LINX Controller

The Next Generation Of 4x4 Accessories

LINX is a unique modern controller that de-clutters the dashboard and centralises the command of vehicle accessories by replacing classic switches, gauges and monitors with one sleek and smart driver interface. Built on an expandable platform, LINX will continue to evolve your on and off-road driving experience both now and into the future.

Experience Total Control

Fitting out a modern 4X4 with a range of accessories such as driving lights, air lockers, dual batteries and air compressors can quickly lead to a dash full of out of place, hard to reach switches and a myriad of gauges and monitors either stuck to the windscreen or drilled into the dashboard - not to mention all the associated fuses and wiring.

LINX offers a single point of control via its user-friendly, Bluetooth enabled, mobile touch screen display. The LINX mobile display mounts conveniently and unobtrusively within reach of the driver while the main control hub lies neatly out of sight under the dash or seat; taking care of all accessory wiring.

LINX comes with six pre-installed modules: Front and Rear Traction, Compressor Control, Accessory Switchboard, Battery Monitor, Speedometer and Air Suspension Control.

General Settings

Beyond its expansive range of modules, LINX presents a truly adaptable platform with module level settings, as well as, many additional general settings.

- Set theme colour to match your vehicle's dash
- Engage night mode which engages when your headlights are activated
- Set all measurements to your preferred units
- Software upgradeable via WiFi connection

What's In The Box

- LINX display screen
- LINX controller
- USB charge cable
- 3 wiring looms
- LINX gimbal mount
- Quick start-up guide
- 1 Pre-installed display screen protector

7450109 | ARB LINX Airbag Suspension Isolation Kit

This allows owners with air suspension to take full advantage of LINX's Airbag Suspension Module

7450107 | ARB LINX Pressure Control Kit

Offering 'set & forget' simplicity to tyre inflation as well as remote control over your airbag suspension

There's much more to LINX than meets the eye - see how it can unlock a brand new experience with your 4X4 accessories. Visit the LINX site to explore each feature **www.linx.arb.com.au**

4X4 ACCESSORIES

ARB products available in the UK only.

171507 | ARB 4 Litre Air Tank - 2 Ports

Redesigned from the ground up with significant changes eliminating moisture retention and allowing for great mounting flexibility.

- Forged aluminium end caps tig welded with an extruded aluminium body
- 50% lighter than an equivalent steel tank
- Horizontal or vertical mountable
- Minimal fluid retention due to outlets placed at the lowest point
- Daisy chain compatible to allow fitment of multiple tanks
- Rated to 150 PSI
- Four 1/4 NPT ports (user configurable) with 2 x JIC-4 male fittings included

171503 | ARB Air Locker Manifold Kit

- Designed for the remote mounting of air locker solenoids
- Stainless steel braided PTFE hose and fittings connect to and cool the compressor outlet air

Manifold body with mounting bracket
2 x ⅛" BSPP ports for installation of up to 2 x Air Locker solenoids
2 x ¼" NPT ports, one to be used as an input and the second could be used for installation of a pump up kit
1 x high temperature resistant Teflon stainless steel braided hose with heavy duty JIC4 fittings
2 x JIC4 - ¼" NPT nipples to connect the included hose to the compressor outlet and manifold kit input
2 x M6 hex head bolt and nylon lock-nuts for securing the manifold kit

170112 | ARB Diff Breather Kit

- Specifically engineered to work with differentials and ARB Air Lockers
- Compact and lightweight design with push-in fittings for simple installation
- Four breather ports for multiple applications
- Mounting holes will accommodate M6 bolt or stud
- Splash resistant air filter with washable high flow sintered bronze filer cartridge
- Oil, water and heat resistant 8mm polyurethane tubing reduces likelihood of oil blockages

1 x Anodised aluminium manifold
1 x Air filter
1 x 8mm x 8m polyurethane tubing
4 x 8mm- ⅛" BSP push-in fittings
3 x ⅛" BSP plugs
2 x Self-tapping screws
10 x Cable ties

0750001B	Black

171314 | ARB Remote Hose Coupling Mount Kit
Mount the output for the air compressor remotely in the vehicle.

Those who enjoy heading off the beaten track in their 4×4 know that even the most familiar tracks can present you with unexpected conditions. Whether you're up against a steep incline, uneven & rocky terrain or a slippery muddy track, being able to take advantage of traction is one of the most important elements.

ARB Diff Lockers

- Provides 100% traction on demand without affecting on road driveability or driveline wear
- Vastly improved traction means less reliance on momentum, thus reducing the likelihood of vehicle damage and environmental impact
- Easy, convenient operation allows the driver to concentrate on the terrain without leaving the comfort and safety of their seat
- Ultra durable and extremely strong - only the highest quality materials used in construction

What's The "Diff"-erence?
There are a multitude of different diff available for your Land Rover - read about the different types of locking diffs - www.britpart.com/diffs

In a vehicle with open differentials in 4WD mode, drive can only go to two wheels at any given time. At the flick of a switch, an ARB Air Locker can send equal drive to both wheels on an axle allowing you to take advantage of the wheels that have traction and push forward along the track.

- Incredibly simple yet effective design that employs minimal moving parts, thereby ensuring maximum reliability
- Thoroughly tested and proven design - trusted and used in over 80 countries around the world
- Easy installation and maintenance - no special tools, skills or additives required
- Two year warranty guarantees the Air Locker will be free of defects in materials

Air Locker locking differentials allow you to tackle the toughest terrain. As the world's premier traction aid, ARB Air Lockers keep you moving in all conditions. Ultra durable and extremely strong - only the highest quality materials used in construction.

Part Number	Vehicle/Model	Year	Axle	Shaft Type	Shaft Diameter	Spline	Ratio

Notes: 1. If vehicle was manufactured during 1993, check spline count. **2.** Air Locker not available for vehicles equipped with high load option. **3.** Ring gear spacer required. Longer ring gear bolts (not supplied) are also necessary - (Land Rover part no. 576521). **4.** When an RD127 Air Locker is to be installed in Range Rovers manufactured prior to 1980 (approx.), special carrier bearings (No. K11300/K11162) may also be necessary - Land Rover part no. RTC3426. **5.** Some vehicles have crown wheel bolts which cannot be reused and must be replaced. Consult service manual. **6.** P38A is most commonly found in traction control equipped vehicles. Identify P38A type diff by large 205mm [8.07"] flange diameter. P38A was not used on North American delivered Discoverys - use DA4193.

ASHCROFT TRANSMISSIONS

DA1224

DA1207

Diff Locker

- A unique non-rotating annular piston locking actuator is designed to eliminate air leaks sometimes found with rotating seals
- The annular piston is also designed to eliminate the oil blow back in the air exhaust line
- The large piston area gives maximum hold-in force to reduce the possibility of jumping out of lock
- Locking ring gives full 6mm positive engagement with side gear, again reducing the possibility of jumping out of lock
- Gears have been redesigned for maximum strength and durability
- The lock ring is made from high spec 300m steel to provide ultimate strength and ability to withstand shock loads
- Locking actuator cage made from steel to withstand shock loading caused by power locking
- Locker body turned from billet 817M40T (EN24T) to give optimum strength

Heavy-duty Crown Wheel & Pinions

Under extreme conditions, the standard front diff tries to climb out of full engagement under full power, leading to stripped teeth. Ashcroft has cut the gears in reverse for the front in order to keep the gears fully engaged, a significant improvement over the original design. Ashcroft have also upgraded the material specification compared to the genuine Land Rover parts.

All pinions accept the later 24 spline drive flanges and have the female thread to accept the later type bolt (FS112301P) and washer (FTC5413). All ring gear threads are the stock 3/8 UNF, we stock the late flange head high tensile bolts for these (FTC5150). Ashcroft have chosen to coat the crown wheel and pinions in chemical black to aid corrosion resistance and offer a unique appearance.

- Only change necessary to fit the locker is drill and tap the diff housing ¼" bsp for the air feed fitting
- No changes to the axle case
- Requires on board air supply - not supplied

What's The "Diff"-erence?

There are a multitude of different diff available for your Land Rover - read about the different types of locking diffs - www.britpart.com/diffs

DA1207 Front with reverse cut

Heavy-duty 4.12 ratio using a tooth count of 33 on the crown wheel and 8 teeth on the pinion.

Defender / Discovery 1 / Range Rover Classic

DA1508 Rear long pinion

Heavy-duty 4.12 ratio using a tooth count of 33 on the crown wheel and 8 teeth on the pinion.

Defender - up to 7A except 110 / 130 / Discovery 1

Range Rover Classic

DA9011

DA9011 | Automatic Torque Biasing Limited Slip Differential

Defender - 1993 - 2016	Front & rear
Discovery 1 - 1993 - 1998	Front & rear
Discovery 2	Front & rear
Range Rover Classic - 1993 - 1996	Front & rear

Note: Not suitable for Salisbury axles.

- Fully automatic - needs no driver input
- Totally transparent on road, i.e., no unwanted adverse effects
- Only comes into play when one wheel looses traction, i.e., a difference in wheel speed
- Enhances the traction control as it multiplies the bias load created by the braking effect of the traction control
- Needs no special oils
- Needs no adjustment as the gears compensate for any wear that takes place
- Only with 24 spline side gears

DA1225
Cross Pin

Defender - 1987 - 2016

Discovery 1 / Discovery 2

The standard LT230 transfer boxes have a two piece cross pin in the centre diff, this is two shafts with a cut out in the centre so they can overlap. This one piece heavy-duty cross pin is much stronger.

SUMP COVERS

DA9016 | Transfer Case Sump Cover

Series 1 / Series 2 / Series 2A

Series 3 (except V8)

Billet transfer case sump oil coolers are designed to replace the flimsy sump covers supplied as standard. This cover is stronger than the originals and has cooling fins to keep the oil in your transfer case cool in harsh conditions. This Series model is supplied with a new gasket and replacement fastening bolt to replace the brittle standard studs. Being solid aluminium, the cover completely eliminates leaks caused by differential expansion. If your vehicle is pre-1980 you can use your existing drain plug and washer. Owners of later Series vehicles with metric fasteners should purchase a plug (Land Rover part 235592) to fit the threads in this casting. As the cover expands at the same rate as the aluminium transfer case the stubborn oil leaks associated with the original steel cover are completely eliminated.

DA9018 | Transfer Case Sump Cover

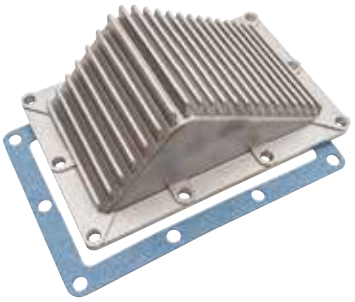
Fits models fitted with 230 type transfer case.

Defender - up to 2007 / Discovery 1

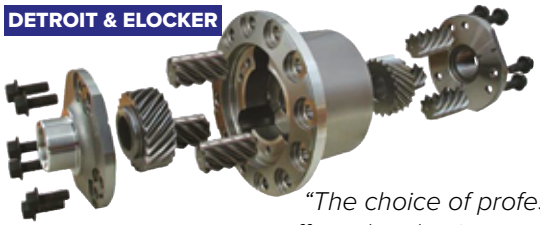
Range Rover Classic

Billet transfer case sump oil coolers are designed to replace the flimsy sump covers supplied as standard equipment. This cover is stronger than the original and has cooling fins to keep the oil in your transfer case cool in harsh conditions. The sump cover is supplied with a new gasket, and the existing bolts are used for installation. The sump cover is significantly stronger than the original and adds about 1/2 litre to oil capacity. Existing ground clearance is not compromised.

A plugged port is supplied so that an oil temperature gauge can be fitted. It is possible to fit this sump cover to V8 models but check first that there is good clearance between the cover and existing exhaust pipes.



DETROIT & ELOCKER



"The choice of professional racers & off-road enthusiasts around the world"

Detroit Locker

- 100% locking differential
- Legendary traction
- Ultimate performance

The legendary Detroit Locker began the revolution in performance differentials and still leads the industry today as an Eaton brand. The Detroit Locker is the most durable and dependable locking differential available. The Detroit Locker maximises traction by delivering 100% of the torque to both drive wheels. It is engineered to keep both wheels in a constant drive mode, and has the ability to automatically allow wheel speed differentiation when required. No other performance differential has the reputation for delivering traction in mud, snow, rocks and on the track. The choice of professional racers and off-road enthusiasts around the world! The durability of the Detroit Locker is unmatched!

DA5700	Series 3 / Defender / Discovery 1 / Range Rover Classic | 24 spline | Rear
DA5701	Series 3 / Defender / Discovery 1 / Range Rover Classic | 10 spline | Rear
DA5704	Defender - Salisbury axle Detroit Locker | 24 spline | Rear

IMPORTANT

When fitting a metric diff centre with metric bearings into an imperial casing you will require the additional following parts. Diffs went from imperial to metric in approximately 1983, take a look at one of the heads of the four large journal end cap bolts, if '8.8' is on the head it is metric, if not then it is imperial.

Parts are required for fitting to both Truetrac or Detroit lockers.

DA5712	Spacer ring
DA5713	Imperial bearing sleeves
RTC3095	Bearings 2 x bearings are required
576521	Longer bolts x 10

Detroit Truetrac

- Smooth operation
- Performs open until needed
- Fully automatic limited slip

The Detroit Truetrac was the first helical gear differential ever introduced into the automotive aftermarket as an Eaton brand. It remains the leading helical gear-type limited slip differential in the industry. Detroit Truetrac's proven helical gear design eliminates the need for wearable parts, resulting in maintenance free traction.

DA3696 | Eaton E-Locker Differential

For Rover Type axles - 24 Spline

Not short nosed type

Differential Type - Locking

Axle Description - Rover Type

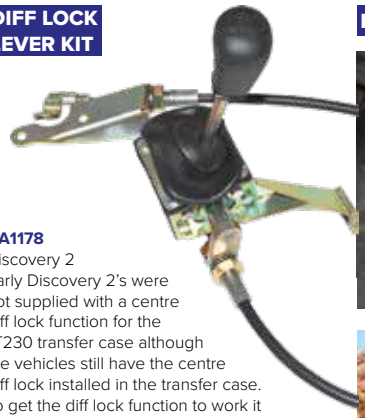
Gear Spline Tooth Count - 24

"Recognised for its toughness as well as its smooth & quiet operation."

Recognised not only for its toughness but also it's smooth and quiet operation. Engineered to work efficiently in front and rear axles, semi-floating (C-clip axles) and transfer cases. Power transfer is so smooth, it literally goes unnoticed by the driver - even in front wheel drive axles. Proven design, low cost and effective performance, all make the Detroit Truetrac limited slip differential the ideal choice for a wide variety of vehicle applications. No maintenance - just traction!

DA5705	Series 3 / Defender / Discovery 1 / Range Rover Classic | 10 spline | Rear
DA5709	Series 3 / Defender / Discovery 1 & 2 / Range Rover Classic | 24 spline | Rear
DA5710	Series 3 / Defender / Discovery 1 & 2 / Range Rover Classic | 24 spline | Front
DA5711	Defender - Salisbury axle | 24 spline | Rear

DIFF LOCK LEVER KIT



DA1178
Discovery 2
Early Discovery 2's were not supplied with a centre diff lock function for the LT230 transfer case although the vehicles still have the centre diff lock installed in the transfer case. To get the diff lock function to work it just needs connecting. The linkage is easy to fit, cable operated and very neat. You attach the existing high/low stud to this new lever assembly. This kit will only work on transfer cases with serial numbers starting with either 41D or 42D.

LIFT ROD KIT

DA7531 | Fully Adjustable Suspension Lift Rod Kit
Discovery 3 / Discovery 4 / Range Rover Sport - 2005 - 2013
These adjustable rods replace the plastic and rubber parts Land Rover supply on the vehicle. Made from aluminium with an industrial heavy grade rubber bushing, the aluminium parts are anodised black to help with corrosion protection and blending in when in the garage for work. The lift rods have two settings; standard and off-road. With the air suspension set to normal driving height the lengthened rods will give you standard road and off road driving heights. If you shorten the rods the standard ride height will be approx 50mm higher. If you select off-road height the vehicle will be in the 'super extended' position. No tools are required and should take no more than 2 minutes to do all four rods. Access to the front is over the front wheels and for the back is through the rear wishbones (blanket required!) **Note:** If run for a long time in off-road position then wheels may need realigning.

"The ease of changing the ride height is what separates these rods from others in the marketplace."

Photo by Jon Rollins

AIR COMPRESSORS

DA5078 | Ring Rapid Digital Air Compressor
- Powerful inflation from a 12V socket - 4x4 tyre inflates in 5 minutes.
- Easy and accurate set up - rotating dial to pre-set the pressure. Automatically stops once pressure reached. Screen on top of the device to read easily while using.
- LED light built in for safer use at night.
- Back lit digital display is easy to read.
- Long cables to reach tyres all around the vehicle.
- Comes with three piece adaptor kit for small inflatables & bikes.

INCLINE LAND METERS

DA1003 | Double Incline Land Meter

LONG RANGE FUEL TANKS

DA4547 / DA4548

DA4547 Defender 90 - Td5 / Tdci - up to 8A
DA4548 Defender 90 - Tdci - 8A onwards

- 30 litres (approximately) plastic flow tank
- Lightweight
- Supplied as kit
- Easy to install & use
- Requires no pumps or added fillers
- Does not interfere with storage or clearance
- Compatible with standard Defender fuel filler cap

DA4545

DA4545
Defender 110 - up to 1999 (pre-Td5 models)

- Rear arch metal spare fuel tank - right hand side
- 45 litres
- Supplied with all the necessary fittings to install and use

Note: DA4545 & DA4546 are not suitable for use in a Defender 130. Additional bracket required for 7 seater - DA4546KIT.

DA4546

DA4546
Defender 110 - 1999 - 2016

- Rear arch metal spare fuel tank - right hand side
- 45 litres
- Supplied with all the necessary fittings as well as a replacement filler neck and specifically engineered bulkhead fitting for the balance pipe, having these makes the fitting of the tank quicker and easier as well as it working better too.

DA4546KIT
The long range fuel tank DA4546 will require this additional bracket when fitting to a 7-seater Defender.

The best way of getting more fuel into your Defender without using valuable space or complex pumping systems!

LongRanger Fuel Tanks
LongRanger fuel tanks are a safe and simple way to increase your vehicle's travelling range. Additional fuel capacity is essential for any Land Rover heading off into remote areas. The long range fuel tanks are designed with the latest CAD/CAM manufacturing processes. Using 2mm aluminiumised steel (14 gauge) as the material of choice for the fuel tanks, the tank is individually designed and tailored to suit each vehicle incorporating features such as internal baffling, anti surge dam, in-built expansion chamber and fully sealed brackets. Pre-drilled holes in mounting brackets for fast & easy installation. Fully baffled for better fuel usage & stronger tank design. Comprehensive fitting kit & instructions. More information available online.

Follow us... Britpart

TA45
Defender - up to 1999

- Fuel type: Diesel
- Capacity: 80 litres
- Fitting location: Right hand side sill, outside chassis rail
- Filler location: Under drivers seat
- Fuel transfer: 6 port valve - supplied in kit
- Exhaust modifications: None
- Other modifications: Sender unit supplied to interface with original gauge

TA62A
Discovery 3 / Discovery 4 - Diesel - excludes models with AdBlue

- Fuel type: Diesel
- Capacity: 104 litres - 186 litres in total when combined with factory 82 litres tank
- Fitting location: In place of spare wheel behind rear diff
- Filler location: Original, new dual filler neck supplied in kit to replace OEM
- Fuel transfer: Transfer pump (supplied with automatic pump cut-off, gauge & sender unit)
- Exhaust modifications: None
- Other modifications: Spare wheel must be relocated, retains standard departure angle. Access to cargo area required to remove wheel winder (drawer units will be a problem). Fits with factory tow bar & Kaymar rear bar
- Features: Automatic pump cut off. Fully baffled for better fuel usage and stronger tank design. Pre-drilled holes in mounting brackets for fast & easy installation.

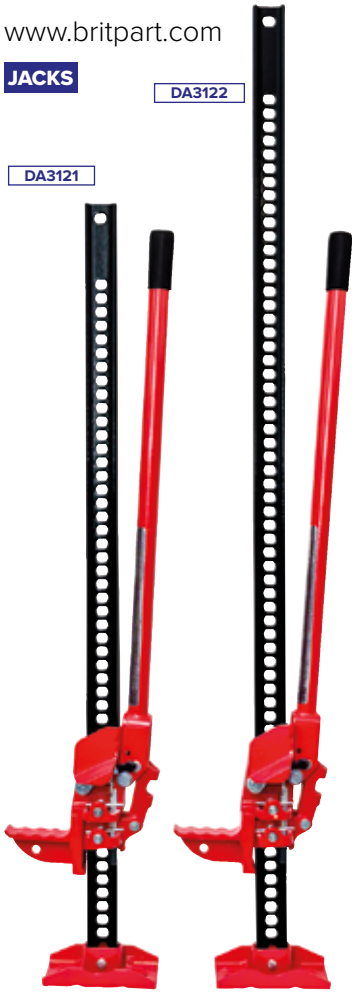
JACKS

DA3122

DA3121



DA4059

DA3130

DA4061

DA4058

Built with a patented 'Safety Link', the Maasdam Jackall is the 'Jack with More'! Larger base for greater stability. 'Safety Link' mechanism that prevents abuse, misuse and makes operations safer. Jacks come with a lifetime warranty and are built to current ANSI/ASME specifications. When safety and dependability matter most, continue to rely on Jackall.

DA3121	48" Jack (4ft) - 8,000lbs capacity
DA3122	60" Jack (5ft) - 8,000lbs capacity
DA3130	Top clamp
DA4058	Maintenance kit
DA4059	Jacking point adaptor
DA4061	Mounting kit jack rack

Features & Benefits

- Patented 'safety link' mechanism which prevents abuse and misuse.
- Heavy ribbed, extra large base which provides strength and greater load stability.
- Cast components assures long life, trouble free operation.
- Hot roll-formed, alloy steel beam which is strong and reliable.
- Steel handle locks against beam for convenient storage.
- Powder coated through and through which reduces scratching, greater corrosive resistance.

1060001 | ARB Hydraulic Jack

Adding a new dimension to traditional techniques, the long-travel ARB JACK is backed by the unique power of hydraulic technology. Kicking into action when even the lightest force is applied to the handle, the hydraulics will smoothly jack the vehicle up at up to 13mm increments with each downward manoeuvre. Whilst in action, a black rubber body bumper shields the vehicle from risk of damage during the recovery. The easy-to-access red lowering lever ensures lowering the vehicle is achieved swiftly and safely thanks to the two-stage descent feature and safety stop. Empowering the user with dual lowering speeds, with a press of the lever, a slow or rapid descent can be achieved.

Keeping A Low Profile

Carefully designed upon the importance of matching ergonomic form with safe and reliable function, the handle's high position and top pivot function provides users with ultimate control while preventing the need to uncomfortably kneel down in a deep trench to operate.

Ready For Heavy Lifting

JACK's body is made from hardy aircraft grade 6061 T6 aluminium and the shaft from military grade nitride for maximum strength and corrosion resistance. Running up the body, 9 locating points offer the adjustable hook a wide range of lifting heights; capable of lifting up to a total of 2,000kg. When under load, an internal blow-off valve provides overload protection to safeguard both JACK and most importantly, the user, from the dangerous consequence of the vehicle suddenly dropping if the working limit is exceeded.

Stand Your Ground With 360° Adjustability

Standing true to its adaptable character, JACK features an adjustable foot that can be rotated 360° via the shaft to match the angle of the terrain and reach a firm, stable connection between the base and ground surface.

Specifications

Minimum lifting height: 160mm
Maximum lifting height: 710 - 1,230mm
Travel: 540 - 550mm
Lifting range: 160 - 1,230mm
Maximum capacity: 2,000kg
Compressed height: 890mm
Extended height: 1,432mm
Weight: 10.5kg
Lift per stroke: 13mm

ARB
4X4 ACCESSORIES
ARB products available in the UK only.

72X10 | ARB Exhaust X Jack

Total lift height: 750mm
Total lift weight: 2,000kg
Bushranger® X Jack is designed and engineered to perfection. This award-winning product has a long history in the Australian landscape and put to the test many times. The X-Jack has a triple layer top with a hardcore for maximum protection and stability. The patented two-way inflation system can utilise exhaust or a portable air compressor inflation which provides added control in rate and extent of lift required.

The X Jack assists lifting vehicle in a diverse range of situations or conditions such as sand, mud, snow or soft ground.
Dual inflation - Dual alternatives for inflation provide the option of completing the inflation process by connecting a portable compressor to the X jack valve inlet or by the exhaust. (High temp hose included to 140°C.)
Quality construction - The hard top integrated between two layers of reinforced PVC provides structure, reducing the risk of puncture during inflation and deflation.
Convenient - Due to the X-Jacks inflatable nature, it goes anywhere, collapsing flat for easy storage into a heavy- duty storage bag.

ANTI-RATTLE JACK CLAMPS

DA3154 Black
DA3155 Yellow

JACKING POINT ADAPTOR

DA2244 | Jacking Point Adaptor
Allows the use of the jack with the standard jacking points on a Defender.
Note: Not compatible with Jackall jacks.

JACK BASES

10100111 | ARB Jack Base

- 324 x 304 x 56mm
- Provides a safer environment for the user
- Alleviates sinkage on soft ground for safer use
- 7,000kg rated load capacity
- Designed to suit your ARB Jack® or Hi-Lift™ and other suitable farm jacks.
- Heavy-duty high-density polyethylene construction
- High visibility safety orange
- Non-slip textured pattern on bottom of the Jack Base for extra grip
- Rugged construction meets all ARB standards for strength and durability

DA5607 | Jack Base
310 x 195 x 38mm
Grey with gritted surface for extra traction

- Can be mounted on a TRED™ Pro mounting kit or on the shaft of a Hi-Lift™ Jack using optional mounts (sold separately)
- Easy and comfortable grab handle
- Can be used as a rake to level terrain
- Can be used as a wheel chock or jockey wheel receiver
- Convenient leash attachment points for easy retrieval of the Jack Base after use (sold separately - TLOARB)
- Designed and made in Australia

TYRE REPAIR

DA6652 | Emergency Tyre Kit

12V Analogue Air Compressor

- Pressure gauge in psi, Kg/cm2, bar
- Complete with 3 piece adapter kit for bikes, air beds and other inflatables
- Flexible air hose with screw valve connector
- Separate on/off power switch
- Fitted with fused 12v power plug

Analogue Tyre Pressure & Depth Gauge

- Tyre pressure measurement in psi/bar
- Gauge range 0-120 psi/0-8bar
- Tread depth range 0-25mm

Tyre Repair Sealant

- 400ml tyre sealant
- 1 aerosol for one tyre, a single use product for tyres up to and including 16”

Accessories

1 x pair protective gloves & 1 x pair of cleaning wipes

DA6651 | Emergency Puncture Repair Sealant

- 400ml tyre sealant
- The sealant is an equal mix of a hydrocarbon propellant and water based liquid latex
- 1 aerosol for one tyre, a single use product for tyres up to and including 16”
- A temporary repair designed to get you home no need for any tools or wheel changes
- For use on tubeless tyres only
- Will not repair tyres that have come off the rim, are ripped, have punctures larger than 5mm or have damaged walls

FIRE EXTINGUISHERS

STC8529AA

- 1kg kit
- One-handed operation fire extinguisher
- High rating
- Checkable & re-chargeable
- With crash-tested bracket
- Attractive design
- Controlled discharge

STC8138AB

- 2kg kit
- Long-life - 100% polyester resin coated fire extinguisher
- Safe handling &
- crash proof fastening
- Readiness to operate displayed by manometer
- Precision brass value

RECOVERY & WINCHING KITS

Britpart Pulling Power winching recovery kits come with all the basic items needed to ensure your winch can be used to the best effect. There is a choice of a starter or professional kit depending on your needs.

DB1015

1 x DB1000	Wheel chocks - pair
1 x DB1001	Winch kit bag
1 x DB1002	Snatch block - 9,000kg
1 x DB1006	Tow strap - 8,000kg / 60mm x 9m
1 x DB1007	Tree strop
1 x DB1010	Winching gloves
1 x DB1011	Snatch tow sling - 8,000kg
2 x DB1012	Alloy bow shackle - 4,750kg
1 x DB1016	Winching blanket

DB1017P

DB1017

1 x DB1001	Winch kit bag
1 x DB1002	Snatch block - 9,000kg
1 x DB1006	Tow strap - 8,000kg / 60mm x 9m
1 x DB1007	Tree strop
1 x DB1010	Winching gloves
2 x DB1012	Alloy bow shackle - 4,750kg

DB1017P

1 x DB1001	Winch kit bag
1 x DB1002	Snatch block - 9,000kg
1 x DB1007	Tree strop
1 x DB1010	Winching gloves
2 x DB1012	Alloy bow shackle - 4,750kg
2 x DB1329	Jate rings

RK9A | ARB Premium Recovery Kit

1 x 8,000kg snatch strap
1 x 12,000kg tree trunk protector
1 x 4,500kg winch extension strap
1 x 9,000kg competition snatch block
2 x 4,750kg Type “S” galvanized shackles
1 x Recovery dampener
1 x pair of leather gloves

RK12A | ARB Weekender Recovery Kit

1 x 8,000kg recovery strap
2 x 4,750kg Type “S” 19mm galvanized shackles
1 x Pair leather gloves

RK11A | ARB Essentials Recovery Kit

1 x 8,000kg snatch strap
1 x 12,000kg tree trunk protector
1 x 9,000kg snatch block
1 x Snatch pack storage bag
1 x Bow shackles

RK12A

EMERGENCY HAMMER

DA6710 | Life Hammer - Classic

- Extra hardened double-sided steel hammer heads for shattering windows quickly and easily for a safe and quick exit from any vehicle
- Integrated seat belt cutter with razor sharp blade cuts through seatbelts to ease escape
- Fluorescent button allows hammer to be located in the dark
- Includes two-way mounting system ensures hammer is accessible when most needed
- TÜV certified

FIRST AID & TRAVEL KITS

For first aid & travel kit contents - www.britpart.com/safety

DA5077 | Complete First Aid Kit

First aid kit that includes a comprehensive range of essentials items stored away in a handy case. Ideal for the car, camping, home and travel. Contents are CE certified.

DA4981 | European Travel Kit

Includes warning triangle, high visibility jacket, universal bulb kit, beam converters, UK sticker, first aid kit, foil blanket & compact carry bag.

SAND LADDER & WAFFLE BOARDS

DA4587

DA2231

DA2231 | Aluminium Sandtrack
1,500 L x 390 W x 4mm D | Pair

TREDPROMGO

ARB TRED Pro™ Recovery Boards

TREDPROBB	Black/Black
TREDPROMGO	Grey/Orange

Features

- Exotred™ unique and patented composite construction
- Sipe-Lock™ patented grip profile
- Unique nylon material for superior flex and durability
- Special glass filled resin nylon teeth to reduce premature wear from wheel spin
- Lower profile for stacking and storage
- Retro fit mounts to suit most recovery board mounting options
- Ergonomic handles for shovel control
- Contour ramp with real 4x4 tyre data, dimensions and tread patterns for optimized design
- The first recovery board to boast a lifetime warranty
- Made by four-wheel drivers for four-wheel drivers
- ARB unique colours and branding

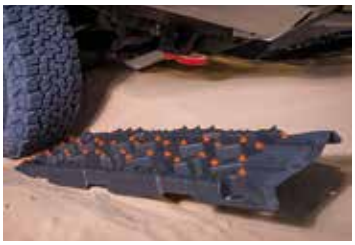
TREDPROBB

Technical Specifications

- CAD modelled 4x4 tyre patterns for the right traction in the right place
- Unique two material composite over moulded construction
- Patented composite 2-layer nylon design
- Glass filled nylon teeth

Dimensions

- 1,160 x 330 x 65mm
- Nested/stacked height - (one set/pair) 85mm



TLOARB

TLOARB | ARB TRED Pro™ Recovery Leash
Recovery leashes assist in locating your TRED Pros should they bury beyond sight after vehicle recovery. 1,500mm length. Pair.

ARB products available in the UK only. ARB 4X4 ACCESSORIES

TQRMK

TQRMK
ARB TRED Pro™ Quick Release Mounting Kit
The TRED Quick Release Mounting Kit has been designed to make the installation of recovery boards to a vehicle, trailer or caravan much easier and more secure. The ratchet handle design allows for a quicker and more user-friendly operation. Lockable with a padlock to safely secure your recovery boards Unique design will mount up to four TRED GT, HD or PRO model recovery boards. Stainless steel hardware for securing the pins to baseplate is included. Designed for various fixing options. Recessed plate mount securing holes. Flush slot covers included.

TPBAG

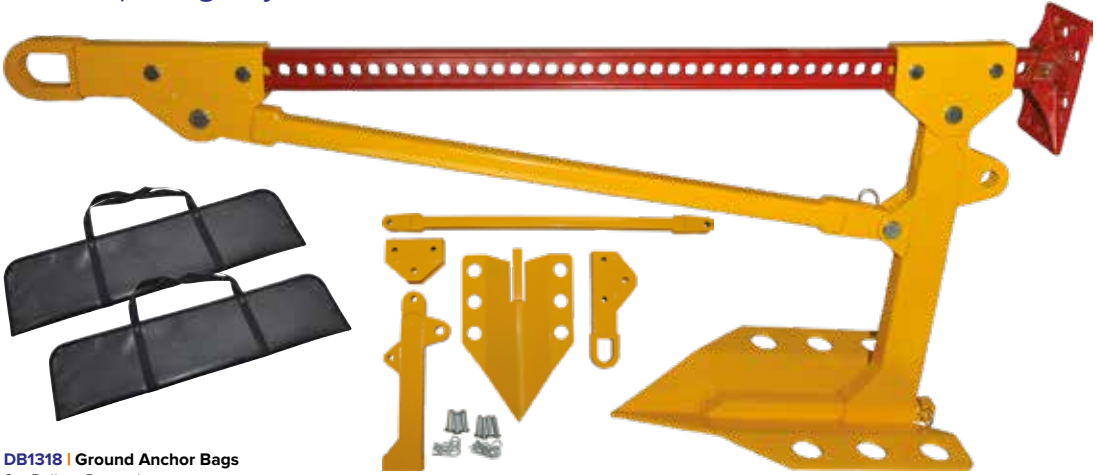
TPBAG | ARB TRED Pro™ Carry Bag
The TRED Pro carry bag is made from durable and waterproof canvas material. It features various gear storage pockets for your tow straps, shackles, winch blocks and anything else you need to carry. The extra-large front pocket is made from high quality UV stabilised mesh, great for keeping anything you need to dry out and doubles as a great rear wheel trash bag. The webbing straps will attach the bag to your rear wheel carrier, roof racks and anywhere else you can strap it down, they also double as great backpack straps. There is no other recovery gear bag like it. The TRED Pro carry bag has been designed to hold one set/pair of TRED Pro recovery boards. Dimensions (when full) - Length - 1180mm / Width - 360mm / Depth - 100mm

Help to get yourself out of trouble...

GROUND ANCHORS

DB1314 | Ground Anchor Set
600mm pins

DB1318 | Ground Anchor Bags
2 x Pulling Power bags
Note: Ground anchor not included - DB1314



DA6541 | Ground Anchor
Pull yourself out of trouble with this heavy-duty ground anchor. This anchor utilises a Hi-Lift jack (not included).

RAISED AIR INTAKES - SAFARI

DA3069

DA3024

DA3021

DA2374

Pioneered in Australia in the early 1980's, Safari Snorkels were born out of a need to protect 4WD engines from the hazards of dust and water commonly encountered in touring and off road applications. Safari snorkels are manufactured to the highest standards in durable, UV stable, cross linked polyethylene material, using stainless steel hardware where appropriate. Each system includes quality fixtures and fittings, which offer superior sealing, presentation and long-term durability. In arguably the best, if not toughest environment, Safari Snorkel Systems are thoroughly researched, tested and tooled for each model of Land Rover. The Safari Snorkel delivers a continuous and cooler supply of air for maximum engine performance. It is positively sealed as well to ensure the best protection against deep water crossings and dust.

DEMOUNTABLE LOW LINE WINCH TRAY

DA2897 | Demountable Winch Tray
D44 demountable winch tray, utilising the 2" receiver standard. Constructed from 5mm steel and laser cut section, finished in black powder-coat. Designed to accept the Britpart Pulling Power and other major brand winches with the industry standard 254mm x 114.3mm bolt pattern where the overall depth is less than 195mm.

2-Ton Flat Webbing Sling - Green

This soft & light polyester product reduces the chance of damage during use. The reinforced eyes make the sling both secure and reliable. Tested on a 7:1 breaking strain factor, this flat webbing sling ensures that the item is safe to lift a weight of 2000kg or less. Sling will come with the safe load limit, date of manufacture, serial number and test certification.

ARB2018 | ARB Soft Connect Shackle

Manufactured using UHMWPE (ultra high molecule weight polyethylene) high tensile CE certified synthetic rope, is ARB's Soft Connect Shackle. UHMWPE rope is used in many of the synthetic rope applications on winches and purpose-built tow straps. Updating the protection to the rope, the rope is encased in a high tensile braided shield which provides improved abrasion resistance when in use.

- 12mm x 12 strand rope
- 14,500kg breaking strength, suitable for vehicles up to 3,500kg
- UV resistant properties, water resistant & designed to float
- Braided outside shield
- Longer size to suit more conditions
- Slide lock loop, no draw string
- Attaches to most rated recovery points
- Manufactured from CE certified high tensile UHMWPE (ISO 2307) synthetic rope
- Safer than a steel shackle when used correctly
- Instructions printed on storage bag, as well as included in handy print form
- Fits in most storage spots in your vehicle, door pockets, glove boxes & no rattles
- Tested in house & externally to ARB's stringent requirements
- Comprehensive testing in field - winching, snatch blocks & snatch strap
- Suitable for vehicles using an 8T or 11T recovery strap
- 780mm length & 235g
- Not for lifting purposes

SOFT SHACKLES

DA7336 | 12-Strand Shackles

Pair | Breaking load - 5,830kg

Manufactured from 11mm 12-strand UHMWPE rope with built in UV inhibitor. These are a lightweight, easy and safe way of joining ropes and strops. Due to the much lower kinetic energy being stored, using these shackles is much safer in the event of a rope or strop failure. Can also be used to attach ropes to standard towing eyes without scratching the paintwork.

ARB2091 | ARB Snatch Block 7000
ARB's easy to use 7,000kg snatch block doubles the capacity of your winch and is suitable for a variety of off-roading uses. Engineered tough for serious recovery. Allows winching from awkward angles and incorporates a grease nipple to ensure smooth pulley operation. Suits mounted and portable vehicle winches.

Working Load: 7,000kg
Breaking Strength: 14,500kg
Side Plate Material: 5mm cold rolled steel
Pulley Material: Solid billet steel
Pulley Diameter: 93mm
Cable Size: 6mm - 12mm
Weight: 3.5kg
Greasable: Yes

ARB
4X4 ACCESSORIES

ARB products available in the UK only.

10100020 | ARB Snatch Block 9000
Feature side plates that sit snug against the pulley, eliminating the possibility of the winch cable becoming trapped between the pulley and the side plates. The groove on the pulley itself tapers down to the centre allowing for a variety of cable sizes (¼"-½") to be used and ensures the cable is seated securely in the pulley, minimizing lateral movement.

Specifications
Working load: 9,000kg
Breaking strength: 17,500kg
Side plate material: 6mm cold rolled steel
Pulley material: Specialized polymer
Pulley diameter: 110mm
Cable size: 8mm - 13mm
Weight: 2.4kg
Greasable: Not required

Features
- Works with steel or synthetic winch lines
- Light weight design
- Easy to use
- Doubles the capacity of your winch
- Allows winching from awkward angles
- Engineered tough for serious recovery
- Suits vehicle mounted and portable winches
- Vehicle recovery booklet enclosed

GLOVES

GLOVEMX

DA2037	Universal battery isolator switch - 100A
DA2037KY	Replacement isolator switch key for DA2037
DB1000	Wheel chocks - pair
DB1016	Winch blanket

660mm wide x 480mm deep when folded over winch rope
Manufactured from heavy-duty vinyl, the blanket will absorb most of the recoil in the unlikely event of the cable breaking. It's also very useful to kneel on in the mud!

DB1308 12 volt winch remote control

Operate your winch from a safe distance with this wireless remote control

- High frequency circuit using SMD design for reliability
- The transmitter uses FM technology for frequency stability and greater control distance
- Receiver output is protected against voltage spikes

Gloves

When winching, gloves are essential safety wear to protect your hands from many of the hazards you may encounter.

DB1010	Gloves - Britpart
GLOVES	Gloves - ARB
GLOVEMX	Recovery gloves - ARB

Made from premium synthetic materials for durability, they feature molded rubber knuckle and palm guards for impact protection, with added high-abrasion resistance in the palm, ideal for winch cables. The snug fit and finger protection offer good dexterity and reduce pinching hazards.

Winch with safety in mind

WINCHING & RECOVERY ACCESSORY KITS

DB1015

DB1017

DB1017P

Britpart Pulling Power winching recovery kits come with all the basic items needed to ensure your winch can be used to the best effect. There is a choice of a starter or professional kit depending on your needs.

Get unstuck with the help of a recovery kit...

RK9A | ARB Premium Recovery Kit

1 x 8,000kg snatch strap
1 x 12,000kg tree trunk protector
1 x 4,500kg winch extension strap
1 x 9,000kg competition snatch block
2 x 4,750kg Type "S" galvanized shackles
1 x Recovery dampener
1 x pair of leather gloves

With an ARB recovery kit you have the peace of mind carrying a purpose-built recovery bag filled with a selection of items that will come in handy the next time you get stuck.

RK12A | ARB Weekender Recovery Kit

- 8,000kg recovery strap
- 4,750kg Type "S" 19mm galvanized shackles x 2
- Pair leather gloves

RK11A | ARB Essentials Recovery Kit

- 8,000kg snatch strap
- 12,000kg tree trunk protector
- 9,000kg snatch block
- Snatch pack storage bag
- Bow shackles

OTHER ESSENTIAL WINCHING ACCESSORIES

DB1001 | Britpart Winch Bag
A heavy-duty Britpart branded bag. With two large sections it is ideal for keeping clean & dirty recovery gear separate.

ARB501A | ARB Large Recovery Bag
Designed to fit a complete recovery kit including snatch strap, tree trunk protector, winch extension strap, snatch block, recovery damper, bow shackles and gloves.
Note: Bag only.

ARB503A | ARB Compact Recovery Bag
Perfect for carrying a single strap & a pair of shackles. Small enough to fit under a seat or in a drawer system, this recovery bag is a convenient way to keep your most important items in your rig at all times. **Note:** Bag only.

Contents not included

ARB504A | ARB Micro Recovery Bag
Ideal for keeping smaller items such as a snatch block, drag chains, shackles from rolling around the back of your vehicle. This will keep them all neatly together in a highly visible bag. **Note:** Bag only.

DA6541 | Ground Anchor
Pull yourself out of trouble with this heavy-duty ground anchor. This anchor utilises a Hi-Lift jack (not included).

DB1314

DB1314 | Ground Anchor Pin Set
600mm pins

DB1318

DB1318 | Ground Anchor Bag Set
2 x Pulling Power bags. **Note:** Ground anchor not included (DB1314)

DB1014 | Extended Winch Wiring Kit
1 x red (1.8m) & 1 x black (1.8m) wires with end connectors and isolator switch. Ideal for Defenders - up to 2007

DB1035 | Extended Winch Wiring Kit
2 x red (3.15m & 0.60m) & 1 x black (1.8m) wires with end connectors and isolator switch. Ideal for Defender - 2007 - 2016

DB1357 | Replacement Dyneema® Winch Rope
Competition hook & drum connector
Grey | 11mm x 30m
CHOE+DC
Breaking point - 10,773kg

Construction
- Material - UHMPE (Ultra High modulus polyethylene)
- Construction - 12-strand braided
- Coating - 'Armour-coat' PU impregnation

Properties
- Very high strength - Improved safety
- Light weight - Easily handled
- Low elongation - Low stored energy improves safety
- Synthetic fibre - No wire splinters
- 12-strand - Easily spliced
- Armour-coated - Improves abrasion resistance and feel
- Good UV resistance - Durable and suitable for long term outdoor use
- Excellent chemical resistance - Resistant to most common chemicals

Quality performance brake discs

- Slotted design to increase braking efficiency by reducing dust, debris, water & gas on the disc
- To improve brake cooling, reduce weight and to offer an escape route for dirt & gasses these performance discs are drilled with rows of holes
- Excellent upgrade for your Land Rover to aid braking, especially under a heavy load
- Ideal for off-road use
- Manufactured to British Standard BS1452 Grade 220 and DIN1691 GG20
- Supplied in pairs

Dust levels reduced by up to 45% & developed for customers who want cleaner wheels without compromising the braking performance that they are used to.

DTEC

High Performance, Low Dust
DTEC is an advanced, low dust, ceramic formulation which has been developed by TRW for those customers who want cleaner wheels without compromising the braking performance that they are used to.

The new material meets all EU legislative requirements as well as TRW's demanding performance requirements.

In addition, rim surface dust levels have been reduced by up to 45% when compared to other standard materials. Cotec coating improves green behaviour during bedding in & ensures great pedal feel from the first stop.

ALCON BRAKE KITS

Alcon Defender Brake Kits

- High friction brake pads increase stopping power
- Increased brake pad area reduces temperatures and increases pad life
- Staggered position in order to ensure even brake pad wear
- Stainless steel pistons as standard for improved resistance to thermal conductivity
- Hard wearing anodised alloy caliper
- Internally drilled, no external pipes

alcon specialist brakes & clutches

Extensively tested brake systems will battle through the toughest challenges without sacrificing performance.

DA2700

Defender 18" Wheel Front Brake Kits

Fixed iron 'C' groove disc assembly - Ø355 x 32mm

- 6-Piston monoblock cast caliper
- Performance brake pads included

DA2700	18" 6-Piston kit	Red
DA2701	18" 6-Piston kit	Silver

Replacement Parts

DA2709	18" Front left brake disc
DA2710	18" Front right brake disc
DA2711	18" Front brake pad set
DA2797	18" Front anti-rattle clip

DA2703

Defender 16" Wheel Front Brake Kits

Fixed iron 'C' groove disc assembly - Ø334 x 28mm

- 4-Piston 2 piece cast caliper
- Performance brake pads included
- TÜV approval certification is available when fitting the 16" brake kits to a Defender - DA2702 plus DA2704 and DA2703 plus DA2705

DA2702	16" 4-Piston kit	Red
DA2703	16" 4-Piston kit	Silver

Replacement Parts

DA2706	16" Front left brake disc
DA2707	16" Front right brake disc
DA2708	16" Front brake pad set
DA3335	16" Front anti-rattle clip

DA2704

Defender Rear Brake Kits

- Solid 'C' grove disc - Ø298 x 14mm
- 4-Piston forged caliper
- Performance break pads included

DA2704	4-Piston kit	Red
DA2705	4-Piston kit	Silver

Replacement Parts

DA2712	Rear left brake disc
DA2713	Rear right brake disc
DA2714	Rear brake pad set
DA3339	Rear anti-rattle clip

Note: Both DA2704 & DA2705 rear kits are suitable for fitment on Defenders where either 16" or 18" front disc kits are fitted. For Defender 110 the rear kit will only fit vehicles VA128340 onwards - only ABS equipped vehicles.

DA2700

When you're heading into extreme terrain, you leave nothing to chance. That's why you've probably already added some aftermarket upgrades - suspension lift kit, bigger tyres & a winch etc. But there's one problem; the weight of all that extra gear can put a strain on your Defender's braking performance. The more serious your adventure, the more you need an Alcon uprated brake kit.

The Alcon complete uprated brake solutions are designed to perform superbly even in the harshest conditions. From high rocks to desert washes, these extensively tested brake systems will battle through the toughest challenges without sacrificing performance.

Alcon is a global leader in the design, development and manufacture of brakes, clutches & actuation for motorsport, OEM, aftermarket, specialist and armoured/military vehicles. Alcon's range of brakes, clutches & actuation is huge. It has been developed for over 30 years by working at the top level of motorsport including F1, NASCAR, GT racing, World Rally, and Touring Cars to name but a few. With a wealth of experience in brake and clutch design, backed up by our well-equipped development facility based within "Motorsport Valley" in the UK, Alcon thrives on the challenge of devising innovative and unusual solutions for every application. We use our specialist knowledge to create the best solutions for every customer's need. That's why we're the best at what we do.

Important Brake Information

For exact change over points with vehicle applications please contact your local Britpart stockist with the full chassis number for the correct application. These references are for a guide only.

EBC BRAKES

- Sold in pairs
- 100% British cast and machined high quality product
- Wide aperture slots that draw cool air under the pad surface
- Slots that expel all dirt dust and debris from the braking area
- Blind drilled dimples that eliminate cracking common with through drilled sport rotors whilst helping maintain perfect pad contact

BRAKING CONSUMABLES

DA1141 | Anti-squeal Shims

Universal self adhesive noise dampening shims. Pack of 4. The shims are manufactured from wolverine and cut to shape and applied to the backing plate of the brake pads prior to fitting to help eliminate any noise issues (should the pad be unshimmed). When used in conjunction with Mintex Cera-Tec silicon based lubricant, most brake noise related issues will be eradicated.

EJP7813
Brake Hose Clips

DA2389 | Cera-Tec Advanced Brake Lubricant

75ml

Mintex Cera-Tec is an advanced non-metallic universal lubricant that provides many benefits over traditional copper-based grease. More details available in the Repair & Service section.

EBC Yellow Stuff Performance Race
- High friction compound which is effective from cold up to high heat.
- Effective brake upgrade for heavy-duty braking.
- Long lasting powerful brakes.
- Shims, edge chamfers and slots for silent braking.

EBC Yellowstuff brake pads are British made and contain Aramid fibres. These are man-made high performance fibres, used widely for their light-weight, high strength, abrasion resistance and thermal stability. These properties provide advantages over cheaper steel fibre based products. Not only high in friction from first application when brakes are cold but extremely effective at higher brake temperatures as encountered in faster driving and towing/trailing. These pads are a favourite with the military and are used on armoured vehicles in several countries to handle the higher loads and heat and offer a good brake upgrade. Fitted with shims chamfers, centre slots and the unique EBC Brake in coating for fast bedding in of new brakes these pads are also long lasting and silent in operation.

EBC Green Stuff High Performance
- 100% British design and manufacture.
- Superb gloss powder coat paint finish to reduce corrosion.
- Unique engineering finish with noise reduction slots and edge chamfers.
- Extra high friction compounds for better stops, these pads will improve your stopping power by up to three vehicle lengths.
- Special compound ingredients that prevent "Outline Etching" eliminating brake stiction onto the rotor in damp conditions.
- Unique "Brake-In" surface coating to accelerate pad bed in after installing new pads which also guarantees brake efficiency from installation.
- Super quiet braking with rubber-steel-rubber noise reduction shims on the reverse, this dampens all possible noise.
- Extra heavy duty compound lasts longer that low cost standard pads.
- Fully ECE R 90 approved and legal for road and off road use.

EBC Ultimax Heavy-duty
- New AF42/66 friction material which completely eliminates brake judder and produces a high friction long lasting brake pad.
- Unique powder coat finish to both pad and back plate gives lifetime resistance to corrosion and prevents moisture ingress.
- Unique Brake-In surface coating provides instant brake efficiency on installation and conditions the brake rotor removing glaze, black spotting etc from disc surface.
- All pads feature centre line slot which prevents heat expansion cracks and reduces brake noise.
- All pads feature edge chamfers which have major technical benefits;
  - Significant reduction in brake noise
  - Prevents 'edge lifting' under left and right extremities of pad which can cause corrosion ingress and eventual pad de-bond
  - Can extend pad life by virtue of improved pad efficiency
- Most pads in the Ultimax range features factory fitted noise reduction shims.

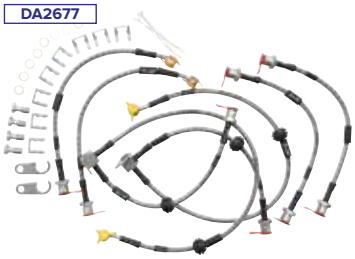
Britpart Stainless Steel Brake Line Kits
These brakelines are constructed from the finest quality hose, consisting of a PTFE inner and stainless steel overbraid.

- Eliminates sponginess under heavy braking
- Increases braking efficiency
- Abrasion and corrosion resistant
- Britpart hoses available at plus 150mm lengths - ideal for use with our Plus 5" suspension products

Note: Brake hose clips - **EJP7813** - are not included in any of the kits apart from DA7561.

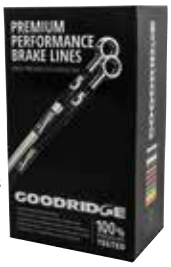
Increase your braking efficiency

DA2677



Goodridge Premium Performance Brake Line Kits
DA2677 Range Rover Sport - 2005 - 2013
Goodridge race-bred brake lines are constructed from the finest quality hose, consisting of a PTFE inner and stainless steel over braid.

- 100% pressure tested
- Greater braking efficiency
- Resistance to abrasion and corrosion
- Eliminates sponginess under heavy braking
- Added reliability, safety & brilliant looks
- Technically superior and race proven
- FMVSS 106 Compliant, DOT, TÜV, ADR, ISO9001 Accredited



GOODRIDGE

HANDBRAKE CONVERSION KITS

Defender / Discovery / Range Rover Classic
The disc transmission brake uses a state of the art monster sized mechanical caliper designed for agricultural vehicles and earth moving equipment - so using it on a Land Rover is easy work for it. The mechanism is sealed so it will not seize up due to ingress of mud or water and it uses special 'sintered' pads which are resistant to abrasion from mud as well as providing greater friction against the disc than a standard pad. The disc has been specially designed for Land Rovers and manufactured from tough 10mm thick steel. It has a smaller diameter than a standard drum and so does not dangle below the transfer box which helps to protect it from whatever you are driving over. The caliper mechanism sits in a well protected area at the top, away from most of the mud and water.

DA5513
Defender 90 / 110
For anything post 1993 (300Tdi / Td5 / Puma) you need to change the cable - NRC5088.
Puma onwards - modifications may be needed to the chassis to enable fitment.

DA5526
Discovery 1 / Discovery 2
Range Rover Classic
Will not fit a Borg Warner or LT95 transfer box.

XDISC
Replacement disc for DA5513 & DA5526

XPAD
Replacement pads for DA5513 & DA5526

DA5526

Mechanism is sealed to prevent the access of mud

Driving off-road you'll know how easy it is for the standard Land Rover hand brake to get bunged up with dirt and once the mechanism gets clogged up it doesn't work as efficiently as it should. Britpart now offer a solution to that problem - a drum to disc conversion kit. These kits use powerful calipers whose mechanism is sealed to prevent the access of mud. Parts are supplied coated with a tough corrosion resistant coating of gold zinc passivate to ensure a long life. Fitting is easy requiring only simple tools. Full fitting instructions are included as well as advice on adjustment and use.

DA5526

Beef Up Your Handbrake!

Series
DA5537 Series 1 / Series 2 / Series 3
This will fit any Land Rover fitted with a standard Series transfer box, including those fitted with PTO's, under or overdrive units. The new brake replaces the original transmission brake drum. It is supplied with a new adjustable actuator rod which connects from your original handbrake lever, direct to the caliper, reducing the amount of slack in the linkages. The disc transmission brake uses an industrial open-frame caliper with simple adjustment and easy cleaning. The new caliper is mounted on a laser cut steel back-plate with a folded gusset for added strength and incorporating a built in skid plate to protect the disc which is manufactured from robust 10mm thick mild steel plate and which bolts directly to your original gearbox output flange with six new bolts (supplied). The system is very light weight, offering a saving of almost 10kg compared to an original drum brake.

BRITPART PERFORMANCE AIR FILTERS

- A range of performance filters tailored to fit your Land Rover.
- Maximum breathing efficiency for your engine means more power or better fuel mileage.
- No compromise on quality - the engine gets more air but the dirt particles are trapped by the quality filters.
- No need to replace as easy cleaning means maximum performance guaranteed.
- Easy fit, directly replaces standard air filter.
- Ideal for use in hot dusty conditions to reduce engine wear.
- Compatible with snorkels, ideal for use in conjunction with other performance modifications.
- Filters don't need pre-oiling and if the filter gets dirty there is no need to use a cleaner to clear the dirt on the filter - just use air, water or detergent.

"Breathing efficiency for your engine means more power or better fuel mileage"

PRORAM INDUCTION KIT

DA3492 | PRORAM Induction Kit
Defender - 5.0 V8 - 2020 onwards
The PRORAM kit features a performance synthetic nanofibre air filter, a twin-tangential velocity stack, designed to optimise airflow. It offers proven performance gains - especially with a tuned vehicle.

Designed to fit directly to the standard OEM factory air box mounting points and rubbers without the need for any modifications. The heat shield helps maintain low intake temperatures by providing a physical barrier between the air filter and the rest of the engine bay.

What Does It Do?
This induction kit will increase the airflow into the supercharger while increasing engine noise over the restrictive factory air intake system. This kit includes everything required for the fitting of the induction kit.

Ramair Filters utilise the top-quality components in all their kits which includes:
2 x Black powder coated bespoke heat shields
2 x Proram performance pleated filters
2 x Silicone hoses
All ancillaries/fittings required for complete retrofit installation including easy step by step instructions.

FILTER GUARDS

DA6084

- Extends engine life
- No vehicle modification needed
- Added protection for stop & go driving and towing
- Improves fuel economy
- Cleans engine oil for 50,000 miles

Britpart Filter Guard removes potential engine damaging metal particles from your oil. Clean oil works better than dirty oil with reduced friction and less wear. Britpart's Filter Guard is an inexpensive way of removing the harmful contaminants that conventional oil filters can miss. The contaminants are fine metal particles which act like an abrasive on the fast moving parts in your vehicle's engine - dramatically shortening engine life. Filter Guard works by magnetic filtration technology resulting in cleaner oil which your engine will thank you for by running better now and in years to come. The Filter Guard will never clog or restrict the all important oil flow.
Note: Filter not included with Filter Guard. Please check that there is sufficient room for the addition of the filter guard.

Added protection for your engine!

ALUMINIUM TANKS

DA4748 | Allisport Uprated Engine Breather Oil Catch Tank
200Tdi / 300Tdi engines
Allisport high performance aluminium engine breather oil catch tank separator. Manufactured using mounting flange machined from billet aluminium. All engines need to breathe crankcase pressure to atmosphere, and most are designed to re-enter the air intake system after the air cleaner. Standard breather pots use a gauze and mesh design which over time becomes blocked with oil deposits, reducing the capacity to release crankcase pressure and allowing more oil vapour to enter the intake system. This high-performance replacement is designed to effectively reduce crankcase pressure build up on Tdi engines by using an internal baffle rather than the standard gauze and mesh design. Designed to have a practical purpose offering an improvement over the original black plastic units but will also look great in the engine bay. Will fit all Tdi engines including 2.8 TGV. Tank has new integral o-ring seal design. Manufactured by hand, fully TIG welded.

HIGH OUTPUT HEATER MATRIXES

DA4744

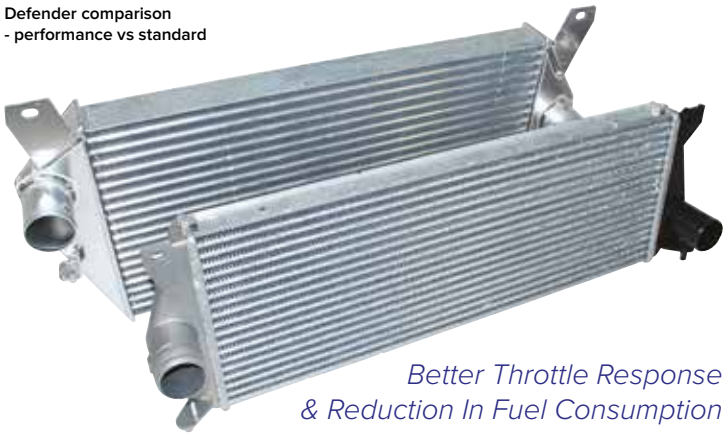
DA4743

Allisport uprated high output heater matrixes with high quality vacuum brazed cores and louvred fins. These larger matrixes have twice the capacity of standard which increases heat output and improves windscreen demisting times. TIG welded by hand. Only requires some small mods to the heater box to install.

DA4743	Defender - early models with downward facing pipes. Equivalent to AAP817.
DA4744	Defender - late models with horizontal inlet/outlet pipes. Right hand drive (including some LHD NAS spec). Check your application before ordering. Not suitable for Puma 2.4 and 2.2 vehicles. Equivalent to UTP1725.

PERFORMANCE INTERCOOLERS

Defender comparison
- performance vs standard



Better Throttle Response
& Reduction In Fuel Consumption

These high performance and robust units are constructed from polished aluminium and are 30% larger than the standard intercooler.

As a result air has a chance to cool before entering the engine. This cooler air can increase engine power by up to 25bhp (subject to application).

Other benefits include better throttle response and reduction in fuel consumption depending on driving conditions. Ideal for on or off road use.

Fully pressure tested, capped and sealed.

DA4635

DA4631

DA4749 | Allisport Aluminium Power Steering Reservoir with Internal Baffle
Defender - Tdi / Td5 / Tdci / V8
This Allisport reservoir is designed to replace the plastic ZF reservoir which is prone to splitting and leaking vapour through the breathable cap, which in turn then collects dirt and runs the risk of water ingress. The external breather design means no unsightly mess under the bonnet and allows routing with high axle/gearbox breathers to eliminate water ingress. Manufactured from laser cut 2mm high grade aluminium with CNC machined pipe connections, knurled cap and external breather. The corrosion resistant aluminium rolled body is fully TIG welded by hand in house. 110mm high (155mm height including cap) & 91mm diameter.

DA4750

DA4751

Allisport Header Tanks
DA4750
Defender - 200Tdi / 300Tdi / V8
Discovery 1 - 200Tdi / 300Tdi / V8
Range Rover Classic - Petrol / Diesel - 1990 onwards
DA4751
Defender - Td5 / Td4 Tdci
A direct replacement for the original plastic tank which is prone to splitting. TIG welded by hand & manufactured from high specification lightweight non-corrosive alloy, this tank also aids cooling. Tank uses original pressure release screw cap and is a straight fit with no modifications required. Ideal for motorsport, overland or just to improve the look of your engine bay.

DA4635
Discovery 3 - 2.7 TdV6
Range Rover Sport - 2.7 TdV6
The original Land Rover intercooler design can have problems due to the blocking up of the core with mud when the vehicles are used off road, as the intercooler is mounted at the lowest point in the front of the vehicle. This intercooler is designed to be easier to clean and less prone to blockage due to the courser, less dense fin design whilst dramatically improving flow, performance and economy, even without any further tuning.

DA4635

Tests have shown a minimum improvement in fuel economy of 12-15%. Power and throttle response in the lower and mid-range engine revs particularly are noticeably improved. The intercooler is designed to be simple to install without major modifications to the vehicle. The performance intercooler makes full use of the space available behind the bumper. It is designed with an integral fan cowl extension to ensure no loss of cooling efficiency and is supplied with mounting brackets and fitting guide.

ELECTRONIC FAN CONVERSION KITS

Custom engineered to fit & cool your Land Rover perfectly

Revotec Electronic Fan Conversion Kits
Revotec cooling kits undergo a rigorous development which includes, radiator air flow performance testing at COMEX to ensure the fan(s) used outperform the original setup. The final stage is extensive road testing before release. The latest fan and controller technology used together with vehicle specific fan mounting brackets, for the ultimate cooling package.

- Custom engineered to fit and cool your Land Rover perfectly
- Supplied complete with all necessary fittings and fixings to complete an electronic fan conversion on your vehicle. Kits include mounting brackets or shroud, 35mm Revotec electronic fan controller designed for Land Rovers with an extended loom, earth wire kit and bolts & fixings
- Engineered to fit without any permanent modifications and utilising original radiator mountings
- Easy to install with basic hand tools
- Latest fan and controller technology used together for the ultimate cooling package

Benefits of fitting an electric fan

- Engine reaches operating temperature quickly, reducing wear
- Sufficient cooling when needed i.e. sitting in traffic idling
- Overcome hotter running caused by modern fuel
- Increased performance
- Improved fuel economy
- Reduced load on engine

Revotec Electronic Fan Controller

- Adjustable temperature range of 70 - 120ºC
- Instant response
- No interruption to water flow
- Simple to install with no leaks!
- Only 3 wires to connect

COMEX Electric Fan

- Lightweight, slimline body
- Low noise
- Finger guard
- Balanced blades
- High output, long-life design
- Rated to run continuously
- Waterproofed to IP68

Fan Mounting Kit

- No permanent modifications required
- Vehicle specific brackets
- Laser cut
- Engineered to fit perfectly
- Fitting kit which includes all necessary fittings

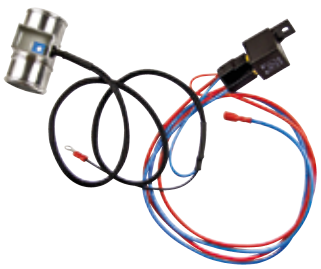
DA8971

DA8972

DA8974 | Fan Override Switch
3 -way rotary switch for use with a Revotec fan controller enabling the fan to be manually controlled either on, off or automatic.
Perfect for 4x4 applications such as wading.
This product must be used with a Revotec electronic fan controller.
Kit contains -

- Black anodised mounting bracket kit
- Position decal
- Sealed 3m wiring loom & connection diagram



DA8973 | Electronic Fan Controller

- 35mm
- To fit extended loom
- Negative earth housing. Fits directly in to a radiator top or bottom hose for direct water contact.
- Supply voltage - 12V
- Space in hose approx - 35mm
- Overall length approx - 65mm
- Material - Aluminium
- Relay rating - 30 amps
- Wire length - 2,500mm
- Kit contains - 2 x hose clamps, relay, cap, 3 x cable ties, fitting Instructions.

TUNING PRODUCTS

DA4667 | Turbo Boost Box
The Td5 engine fitted in the Defender and Discovery is one of the most 'tuneable' engines available and it responds well to modifications including a PSI power tune box, larger intercooler, EGR removal kit and decat pipes. However the turbo will only boost to 14.7psi in standard form and this will quickly limit the potential from the modifications you have made. The ECU will cut fuel to the engine if it detects an over boosting situation, but there is a solution.

Turbo Boost Box! This intelligent box allows the Td5 engine to run with a higher boost pressure after adjusting the waste gate in accordance with the instructions. This allows increased turbo boost pressure without the engine going into limp home mode. You will feel the benefits of fitting the Turbo Boost Box as soon as you drive. At the lower rpm's the vehicle will feel more responsive whilst at the same time giving you a much smoother spread of power through the rpm range. An added benefit is a reduction of exhaust smoke.

DA4507 | Allisport Tuning Box
Defender - Puma 2.2Tdci
Power increases by **27bhp** (20kw)
Torque increases by **71Nm**
The 2011 onwards 2.2 Tdci model Defender has new style piezo injectors and requires specialised tuning solutions. It is currently not possible to remap the ECU through the OBD port. This substantial new tuning unit is designed to plug directly into the wiring loom and requires no modification to the vehicle. Contained in waterproof housing so can be safely located in the engine bay.

Fitting the Turbo Boost Box is an easy 3 wire installation. The box is water resistant - ideal for most off-road uses.

This product must be fitted by a competent mechanic in accordance with the included instructions, incorrect waste gate adjustment can lead to engine damage.

DA4497 | Upgrade Chips
Range Rover P38
Replacement ECU chip to improve power and economy on the GEMS engine 4.0 and 4.6 in the Range Rover P38. Fitting this chip will increase economy by approx 15% and power by 10%. Once fitted, it helps makes a big difference to the driveability of the vehicle by improving throttle response and mid-range pull.

Accelerate Technology
Limitations and restrictions exist which prevent your vehicle from achieving optimal performance. The manufacturer's emissions test is extremely rigorous due to inclusion of all parts of the driving cycle, especially warm up and full load operation, which is where problem emissions are at a maximum. To meet these they compromise performance and efficiency of the engine - this chip helps redress that balance.

No trade off between fuel economy & increased power!

Off-Roaders In The Driving Seat
Your requirements are met through a stable and predictable idle quality, good engine braking and an engine which has plenty of midrange torque. Perfect idle control for hill descents and winching, with no possibility of stalling. Total reliability ensures you never lose control.

Greater Expectations
By comparison we know climate conditions and fuel quality your vehicle experiences and can therefore improve efficiency by reducing fuel consumption and optimising the engine to get its best performance on full load, which is less than 10% of the time.

PSI Power Tuning
The Power Box houses a digital microprocessor which intercepts the fuelling signals being transmitted from the ECU to the fuel pump; it then modifies them to ensure the exact amount of diesel required for enhanced performance. Such efficient use of the fuel optimises consumption, reduces smoke emissions and there is less engine stress, enhancing engine life in many cases.

The Power Box improves torque enabling the vehicle to change gears earlier and hold higher gears at lower speeds, making driving more pleasurable.

The unit fits using the original manufacturers plugs; these existing plugs are opened and the Power Box is secured in between. Full fitting instructions are included with every unit.

Power improvement - before / **after**		Power - HP	Power - Kw	Torque - Nm
DA4418	Freelander 1 - Td4 - 2000 - 2006	110 / **135**	82 / **101**	260 / **309**

WEBER CARBURETTORS

DA3049

Part of the conversion kit

ERC2886W

DA3049AF

DA3049KD

DA2126

DA2206

ERC2886W
Series - right hand drive
Replacement for the Zenith 36IV
The Weber range of carburettor kit replaces the Zenith 36IV to offer the optimum balance of power and economy together with the legendary quality and reliability of Weber. Shipped as complete turnkey solutions, all kits are supplied with every nut, bolt, washer and gasket required and comprehensive, easy to follow instructions ensure that installation can be carried out with no specialist carburettor knowledge.

DA3049
V8 4-Barrel conversion kit including manifold
The Webcon 4 barrel replacement carburettor kit is a direct replacement for the twin Stromberg or SU carbs fitted to the Rover V8. Calibrated to work perfectly on the 3.5 and 3.9 engines, the Webcon kit is the most complete on the market and features a Webcon modified Weber 4 barrel 500cfm carburettor, intake manifold, air filter and every single nut, bolt washer, gasket and hose that could possibly be needed. The kit adds up to 20bhp at the wheels and transforms the driveability and economy. Starting becomes instant either hot or cold and with no balance adjustment to worry about with twin carbs, the engine is simply superbly smooth as a V8 should be.

DA3049AF
Replacement air filter for DA3049

DA3049KD
Weber kick down kit for use with DA3049 on automatic vehicles.

DOUBLE 'S' STAINLESS STEEL - STANDARD EXHAUST SYSTEMS

Double 'S' is recognised as one of Europe's leading manufacturers of stainless steel automotive components with a wide selection of systems for off-road use.

Using only the finest austenitic and ferritic stainless steels and employing the latest in CNC mandrel and empty tube bending, measuring and inspection equipment, means increasingly high levels of product quality.

Using only the finest austenitic & ferritic stainless steels...

All Double 'S' exhaust systems carry a lifetime guarantee. Double 'S' will replace or repair any part of their Stainless Steel Exhaust Systems found defective through corrosion during the period that the system remains the property of the original owner. Provided that the system is inspected by a garage or exhaust fitting centre annually to ensure that the rubber and other mountings are in good condition.

Half shafts & CV Joints offer peace of mind to all off-road enthusiasts.

RTC6862HD

XS Heavy-Duty CV Joints & Half Shafts
The combination of intense tyre patterns, increased engine power, and axle differential locks, not to mention the healthy dose of competitive spirit often leads to wear and tear of standard driveline components. Upgrade today to robust shafts and CV joints to help tackle challenging terrain and outperforming the competition.

Due to limitations in space with standard axles, simply increasing the size of half shafts and CV joints is not always possible.

As a result, the focus shifts to enhancing material specifications and advanced heat treatment processes to ensure resilience and performance.

Both front and rear half shafts are constructed from steel alloy with a high percentage of nickel - chromoly - molybdenum specifically SAE4340. After passing through a 3-stage heat treatment process, these components acquire the necessary properties to withstand off-roading adventures whilst minimising stress on other driveline elements including differentials and transfer boxes.

CV Joints are one of the most critical components in the entire drivetrain. Machined from SAE4340 chromoly material, they have enhanced toughness and resistance to shock loads and are designed to complement the heavy-duty shafts. Ensuring optimal performance, developed to incorporate 30mm centre with 23 splines.

Britpart XS heavy-duty shafts and CV joints serve as direct replacements for original components, allowing drivers to upgrade individual or multiple driveline parts.

All heavy-duty shafts are compatible with 24 splines differentials.

Backed by a 5 year limited warranty, subject to authorisation and a maximum tyre diameter of 35" these HD half shafts and CV Joints offer peace of mind to all off-road enthusiasts.

GARAGE THERAPY OVERDRIVE UNIT

DA3338 | Garage Therapy Overdrive Kit - 4-Speed (LT95)
Range Rover Classic - 1970 - 1983

The kit includes:
- GT-LT95 overdrive
- 2 piece LT95 coupling
- Coupling spacer
- Finned transfer case cover and gasket
- Digital temperature gauge kit including 2 sensors
- Overdrive selector kit
- Installation manual

It has been specifically designed to fit the restricted space of the 1970 - 1983 Range Rover Classic that use the Rover LT95 gearbox. Comes with everything required to complete the installation. Because the overdrive has been designed to fit onto the PTO flange area of the Land Rover LT95 gearbox, you can enjoy the 28% overdrive in any gear, including reverse, and in high or low range.

Garage Therapy have worked closely with Global Roamer Corporation of Canada to develop a robust overdrive that will allow you to enjoy quieter, more fuel-efficient cruising on motorways and the ability to split every gear while towing heavy loads. It also allows you to overdrive all gears in low range, reducing engine noise and wear on those long sandy tracks and beaches.

The GT-LT95 overdrive takes advantage of Global Roamer's legendary epicyclic gear train technology as used in their Roamerdrive overdrives. Also known as planetary gear sets, they are well known for their strength and silent operation. Global Roamer Corporation has a worldwide population of many thousands of overdrives using this very same bullet-proof technology.

Many of the older style 'layshaft' overdrive units suffered badly from a lack of lubrication. The GT-LT95 is designed to be open to the transfer case and utilises an innovative lubrication system which directs transfer case oil through the overdrive gearbox and back to the transfer case via a large deep groove ball bearing.

As with all gearboxes, lubrication failure due to excessive heat, lack of supply, or both, is to be avoided at all costs. To handle the extra heat generated by the overdrive gearbox, a finned transfer case cover is included which doubles the heat rejection compared to the standard cover. If even more cooling is required for high speed, high load in hot climates, the cover has ports for an optional oil cooler and manual temperature sensor.

To assist this, an accurate digital temperature gauge is supplied. This very clever gauge uses simple lug style sensors that can monitor both engine and gearbox temperature. Unlike traditional sensors, they operate independent of oil level. It even has an optional exhaust gas temperature thermocouple available; perfect for turbocharged applications. Not only does the gauge have simple to understand icons that change colour if safe limits are exceeded, it also has a series of audible alarms so you never miss that vital warning.

You can enjoy the 28% overdrive in any gear

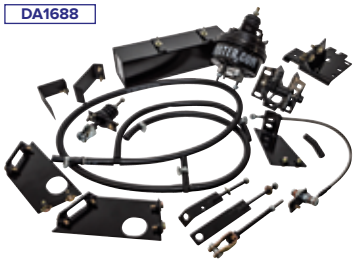
DA1266 | Clutch Pedal Assist Kit
Replace the old clutch pedal spring kit to assist the pressing of the clutch pedal on Defender models. This is a factory fit on later models but can be retro fitted to all 90 / 110 models. Consists of spring, spring retainer & spring bushes.

DA3945

DA1688



Red Booster Servo Clutch Kit
The Red Booster servo clutch kit makes your Defenders clutch much easier to press. This kit will make your driving a more pleasurable experience and reduce the effort you'd normally put in from driving your Defender. No more painful knees or feet when you are stuck in slow moving traffic!

Designed, engineered and manufactured to the highest standards, Red Booster is a mechanism system that makes it possible for all Defenders to have a servo assisted clutch. Working in a similar way to the braking system with a servo assisted system, it is mounted between the pedal and master cylinder and uses a vacuum from the inlet manifold to reduce the amount of pressure needed on the pedal to operate the clutch.

The left hand drive version - works similar to the right hand drive system. The location of the clutch pedal of a left hand drive Defender is on the far corner of the vehicle and with hardly any space the entire unit had to be redesigned to fit without cutting and drilling your vehicle.

CASTOR CORRECTED SWIVEL HOUSINGS

DA3203

DA3203
Defender - from LA up to WA

DA2992
Discovery 1 - JA32851 onwards - non-ABS
Range Rover Classic - JA624517 onwards - non-ABS

Normally the only way to correct the castor angle on a beam axle vehicle is to fit castor corrected radius arms or go through the lengthy process of repositioning the brackets on the axle. Something which takes considerable time and skill. Britpart offer you an alternative. These castor corrected swivel housings come as a handed pair. They are a direct replacement for vehicles normally using the FTC5366 swivel housing but they have the mounting holes positioned to give 3 degrees of additional castor. The swivel housings are from the OEM supplier and then machined to our specification. Kit contents - Swivel housings; swivel pin bearings; gaskets; seals; plates; shims; joint washers; swivel pin uppers - non-ABS & swivel housing grease.

DA1129ULTRA Single

DA1129ULTRAXS Single
Fitted with Gwyn Lewis Polyurethane boots & clips

One of the major factors limiting the rear suspension movement on vehicles fitted with an A-frame is the standard ball joint. We have developed this part to provide significantly more articulation than the standard and most aftermarket joints. Others claim more articulation yet in reality they offer very little over the standard 30°. This exclusive ball joint offers 45° movement in all directions. It is easily adjustable with a regular hex spanner and has a grease nipple for convenient regular maintenance. Supplied fitted ready to bolt on.

MEYLE HEAVY-DUTY

Steering and suspension components are subject to extremely high load levels, which frequently results in increased part wear and shorter replacement intervals. Required to perform reliably under these conditions, the parts are therefore made to genuine Meyle heavy duty quality which means optimised products offering maximum service life and outshining OE solutions.

AVM FREE WHEELING HUBS

DA4541

AVM free wheeling hubs serve as a robust, reliable, and superior substitute for the hubs originally installed on your vehicle. They're utilized to either connect or disconnect the front drive shaft assembly on part-time 4WD vehicles, but can also be retrofitted to permanent 4WD models with stationary hubs to prevent unnecessary differential spinning and the subsequent wear it incurs. They are also a very useful in the event that you break a front drive shaft on a Series vehicle. Simply disengage the front hubs, put your transfer box back in the 2WD position and you can then drive home.
Each front driveshaft's outermost point has a splined section over which the new hubs inner drive member is fixed. Surrounding this is an outer drive member, which is linked to the wheel, with a clutch functioning as a separator. The clutch engagement is facilitated by slanted grooves cut within the free wheeling hub control knob on the exterior. By shifting the knob from '4x2' to '4x4', the clutch is mobilized, causing the inner and outer drive member to interlock. For regular road use or driving on firm surfaces, activating 4WD is unnecessary, and the hubs should remain in the free state. However, if 4WD becomes necessary or is anticipated, the hubs should be switched to the 'lock' position. Installing AVM hubs is straight forward and they come with a heat-treated steel clutch ring that guarantees flawless torque transmission. Made from materials resistant to corrosion, they ensure proper clutch ring positioning, with fully independent engage/disengage springs.

Long Travel Rear Shock Absorber Mounting Kit
DA6337
Defender / Discovery 1
Range Rover Classic
The standard pin and eye shock absorbers don't have the necessary articulation for extreme off-road conditions and the answer is to use pin and pin shock absorbers.
If you use our Cellular Dynamic Plus 5 shock absorbers they offer better articulation. Laser cut, jigged and computer welded with zinc plated and powder coated finish. To be used in conjunction with DC6000LL.
Note: On Defender Td5 the fuel filter must be moved.

DA6322

DA6323L

Sometimes off-road conditions can be serious enough to test the standard equipment on your Land Rover to its maximum. One of the critical components that takes most of the abuse is the suspension system. When using the standard single shock absorber configuration it is not unknown for the shock absorber to break the factory fitted turret mount. These shock absorber turrets from Britpart give you confidence that your vehicles suspension will tackle the terrain you take it through with greater ease.

The single shock absorber turret is manufactured from heavy-duty steel and replaces the existing turret mount which is susceptible to corrosion by allowing a build up of dirt inside which is hard to clean thoroughly. The new design is harder wearing and easier to clean.

The twin shock absorber turret is manufactured from the same quality steel as the single shock absorber turret but allows for the fitment of an additional shock absorber. The benefits of having extra shock absorbers fitted to your Land Rover is that any extreme force encountered is divided between the two shock absorbers for a more comfortable ride for you and your passengers. Using twin shocks is also beneficial when carrying loads both on and off-road as it improves the load carrying ability of the vehicle. An additional benefit is that when changing shock absorbers there is no need to remove the turrets.

Sometimes off-road conditions can be serious enough to test the standard equipment on your Land Rover...

DA6341 Front | Pair
With this kit you are able to retain the standard springs and shock absorbers.
Use in conjunction with DA6342.
DA6342 Rear | Pair
This kit enables you to retain your air springs yet give your vehicle the desired 40mm lift. We recommend that this kit be fitted in conjunction with DA6341, DA4198 or DA4199. Please look at the shock absorbers suitable for this vehicle and at 40mm braided brake hoses.

LIFT ROD KIT

Replace the fitted plastic & rubber parts. Made from aluminium with an industrial heavy grade rubber bushing, the parts are anodised black to help with corrosion protection. The rods have two settings; standard & off-road. With suspension set to normal driving height the lengthened rods will give you standard road and off-road driving heights. Shorten the rods and the standard ride height will be approx 50mm higher. Select off-road height the vehicle will be in the 'super extended' position. No tools are required and should take no more than 2 minutes to do all four rods. **Note:** If run for a long time in off-road position then wheels may need realigning.

Fully Adjustable Suspension Lift Rod Kit

- Britpart are proud to present an exclusive range of Yellow and Black polyurethane bushes
- Manufactured exclusively for Britpart using the latest Vulkollan™ polyurethane technology
- Machined to exact tolerances once cast to produce the highest finish available
- Produced in both yellow and black they are both the same compound which gives similar ride characteristics to the standard rubber bushes, but they offer improved articulation, vibration damping and last longer
- The black bushes are ideal for replacing individual bushes as they can be fitted without a press

All bushes are manufactured using the latest Vulkollan™ polyurethane technology.

Other Polybush sets available from Britpart
Full details supplied on request.
Benefits of fitting Polybush include:
- Easy to fit- the original fit and forget
- Less downtime- keeping your vehicle on the road
- Reduced MOT costs
- Lasts 4-5 times longer than rubber
- Controlled suspension movement
- Impressive & confident ride
- Prolonged tyre life
- Unaffected by oil, fuel and road contaminants
- Fixes premature bush failures
- No requirement for specialist tools

BUSH SETS - CASTOR CORRECTION

CALR1

CALR2

Kit will increase castor by 2 degrees. Castor angle will be affected when raising the vehicle. These Old Man Emu castor kits will improve castor geometry and steering performance when vehicle has been lifted. Castor kits consist of 4 eccentric bushes which are pressed into the leading arms of the vehicle. This will induce positive castor into the front geometry.

CALR2 Wide bush - 44mm
Defender / Discovery 1 / Range Rover Classic
CALR1 Narrow bush - 38mm
Defender / Range Rover Classic

Available in UK only

Hitachi compressor pipe/install kit

LR025111

A cost effective & easy way to replace the OE air suspension compressor. These compressors are a direct replacement fit for the OE compressors that were fitted. Made in Japan by Hitachi. By using the original brackets and pipes they are easy to install. The relay, which is included, must be changed. No need to reprogram the ECU (fault codes may need to be cleared).

- Direct replacement fit & cost effective
- No need to reprogram the air suspension ECU
- Uses all original mounting & pipework

- Cellular technology tube
- Sintered 18mm rod
- Piston diameter 41mm
- Polyurethane bush
- Teflon piston with multi-lip seal
- Single piece eye ring

The Britpart Cellular Dynamic Shock Absorber represents a significant advance in Land Rover suspension systems. It features a cellular foam insert instead of a normal nitrogen gas or air, this is to stop the oil from boiling. The foam takes up less room which means more room for oil, 50% more, which offers maximum heat dispersion. This heat dispersion translates to a very subtle but controlled ride that will not fade no matter how hard you push them. They are ideal for a driver who needs more control to complement performance improvements or to enhance a standard vehicle. The unique design ensures ride comfort and cornering ability is maximised and of course they are superb off-road.

Notes: *Terms & conditions apply. ** Dimensions are +/- 5mm. *** The Plus 5" Cellular Dynamic Shock Absorbers are specialist suspension products and to install them additional fabrication work or brackets may be required. Please ensure that they are fitted by a competent expert.

"They are ideal for a driver who needs more control to complement performance improvements"

BRITPART SUPER GAZ SHOCK ABSORBERS

Britpart Super Gaz Shock Absorbers offer a 35mm bore tube filled with Fuchs shock absorber fluid, using the best seal available, single piece eye rings, polyurethane bush mounts and a very durable powder coated finish. These offer a vast improvement in ride quality and damping performance. They are ideal for use with either the Britpart Yellow Spring range or standard Land Rover springs.

Notes: *Terms & conditions apply. ** Dimensions are +/- 5mm.

"Vast improvement in ride quality & damping performance"

24 month/ 50,000 mile Warranty
on all shock absorbers

BRITPART XD REMOTE RESERVOIR SHOCK ABSORBERS

Britpart have developed this range of remote reservoir shock absorbers for users wanting the extra benefits of a remote reservoir shock absorber on a vehicle that is used both on and off-road. The remote reservoir allows the shock to remain cooler under more extreme conditions and hence reduces the possibility of fade. Unlike most remote reservoir shock absorbers on the market the Britpart XD remote reservoir shock absorbers use conventional rubber bushings instead of ball joints. This is because ball joints have a very short life span when used on a road vehicle and are more suited to an all out competition vehicle.

Defender 90 / 110 / Discovery 1 / Range Rover Classic
Nitrogen filled remote reservoir shock absorbers with zinc plated steel body and anodised fittings. **Note:** Will require extra fabrication to fit.

The Nitrocharger Plus is the ideal shock absorber for everyday use, delivering enhanced ride comfort and handling across all terrains. Its finely tuned, balanced valving system is among the most advanced on the market. With vehicle-specific valving, the Nitrocharger Plus is perfectly matched to your Old Man Emu spring selection, accessory fitment, and load-carrying needs. Whether you're on the road or tackling rough trails, there's a Nitrocharger setup designed to meet your requirements.

Why Nitrocharger Plus?

- You want an affordable upgrade because your OE suspension isn't up to the task.
- You want a significant suspension improvement over OE.
- You have general needs like a lift, carrying heavy weights, better vehicle control, better ride, improved driveability.
- You want a choice between medium and heavy-duty shocks, with multiple spring options.
- You want a set-and-forget set-up, to fit it once and forget about it.
- You want suspension that is reliable and dependable.

VM80010037	Rear fitting kit

- BP-51 shock absorbers feature revolutionary technology developed to deliver unparalleled on and off-road performance for your Land Rover
- Developed and tested under the harshest conditions in Australia
- Designed to bolt onto your vehicle without any vehicle modifications
- Considerable ride comfort around town is combined with significant end-zone damping for exceptional control and handling off-road
- Easily adjustable damping performance across both rebound and compress

Vehicle Specific Applications

- No fitting modifications are needed
- Fit kits developed specifically for the Defender
- All reservoir brackets have been integrated into the geometry of the Defender 110 / 130
- Included in the front fit kit is a replacement front shock turret, front sway spacers, front bump stop spacers and reservoir mount assembly
- Included in the rear fit kit is a replacement rear upper shock mount, rear sway spacers, rear bump stop spacers and reservoir mount assembly
- Spring selection must be from the current OME Defender long travel application

BRITPART COIL SPRINGS - LIFTED SPRINGS

Britpart performance springs are high quality, versatile and competitively priced - the right choice when replacing the old sagging original springs.

Developed by one of the world's top spring manufacturers these high quality, powder coated yellow springs have been designed with the needs of today's Land Rover owners in mind. Britpart performance lifted springs have the added benefit of improving your vehicles approach and departure angles which in turn allows you to overcome more obstacles when off-roading.

As Land Rovers are often working vehicles as well as the family car, uprated springs must offer the ability to carry loads, handle off-road terrain and provide a good ride on road. The progressive springs offer a compliant ride when lightly loaded, but firm up as the load increases.

Note: Supplied in pairs.

BRITPART COIL SPRINGS - STANDARD HEIGHT SPRINGS

Britpart yellow springs are designed for the enthusiast who wants a performance spring without having to raise the vehicle. They offer a firmer ride with less body roll, ideal for a vehicle with uprated performance or one used for carrying heavy loads. The springs are designed to offer full articulation off-road with a compliant ride. Developed by one of the world's top spring manufacturers these high quality, powder coated yellow springs have been designed with the needs of today's Land Rover owners in mind.

Note: Supplied in pairs.

AIR LIFT KITS

DA5010

Air Lift 1000
DA5010
Defender 110 / 130

Air adjustability is the difference! Stiff steel factory suspensions must compromise between ride comfort and load hauling capacity. Smooth ride suspensions can't carry heavy loads; heavy springs ride rough, especially when the vehicle is unloaded. Air Lift adjustable air springs solve these problems by allowing you to tune your suspension under all load and road conditions. Just add air when towing or hauling and then remove air for a softer ride when unloaded.

DA5012

Features & Benefits of Air Lift 1000

- Improve ride, handling and stability by reducing roll, sway and 'bottoming out'
- Fits open coil springs, front or rear
- Up to 1,000lbs of levelling capacity
- Tough long-lasting moulded polyurethane construction
- Quick connecting easy-to-use engineered polymer air fittings

Air Lift 1000 - Load Controller II
DA5012
The economical, popular, basic on board air system. This system controls the rear bags equally. All kits include wiring harness for fast, easy installation. To eliminate the major cause of air spring failure, the low pressure sensor automatically activates if pressure falls below the minimum safe level.

Adjustable Air Helper Springs
The load and towing problem solver!

- Manufactured from state of the art micro-alloyed spring steel for superior strength and durability
- Double scragged before and after shot peening to reduce spring stress and enhance spring life
- Exceptional resistance to sagging and corrosion
- Springs are designed for each vehicle to match the spring to the specific applications
- Springs formed on computer controlled, precision mandrels to ensure manufacturing consistency
- Spring end configurations designed to exact specifications, guaranteeing perfect fitment to your vehicle
- Durable, hard wearing black powder coat
- Designed and manufactured in Australia

Note: See website for specific notes on certain springs. Available in the UK only.

PARABOLIC SPRINGS & KITS

DA4107

DA2003

The Britpart range of high quality parabolic springs are made to the exacting specifications as fitted to Santana specification vehicles. Manufactured to an OEM standard and quality by using the correct grade alloy steel - 60SiCr8. Heat treated consisting of hardening & tempering and springs are shot peened before painting. These parabolic springs will bring a comfortable ride and improved handling to your Series vehicle.

Range of kits with high quality OEM parabolic springs paired with Britpart Cellular Dynamic shock absorbers. Also included in the kit are leaf spring castor correction wedges which can be used to correct castor or diff pin angle by 3 degrees. Parabolic springs include 'U' bolts and nuts.

LEAF SPRINGS

279678G

Years of service with the correct ride comfort

These springs are manufactured to the original OEM specification and constructed from the correct grade alloy steel - 60SiCr8. Each leaf is heat treated consisting of hardening & tempering as the Land Rover engineers specified. Fitted with OEM bushes, these leaf springs will therefore give you years of service with the correct ride comfort for your Series vehicle.

AIR SPRING CONVERSION KITS

DA5007

DA5137

Discovery 2

It is a sad fact that it's likely the air suspension on your Discovery 2 will fail - probably at the most inconvenient time possible. You then have a choice to make. Do you replace it with a new air spring system which is comfortable but not so comfortable on your wallet or replace with an equally comfortable but much more affordable and reliable coil spring system? Britpart have the complete kit for air to coil spring conversion making your decision that little bit easier.

DA5136	Standard ride height	Rear kit - black springs
DA5137	2" lift ride height	Rear kit - yellow springs
DA5007	2" lift ride height - heavy-duty	Front & rear kit - yellow springs - Ideal if winch is fitted
DA5008	2" lift ride height	Front & rear kit - yellow springs

Air to coil spring conversion kits from Britpart - get a reliable & maintenance-free ride for your Land Rover!

Range Rover P38

The EAS (Electronic Air Suspension) System found on Range Rover 4.0 and 4.6 vehicles can present expensive, recurring maintenance problems. If you've had an air spring failure before, you know this first hand. Britpart now has a coil spring conversion kit for Range Rover 4.0 and 4.6 that makes switching to coil springs seamless and error-free. Conversion to coil springs provides a better, maintenance-free ride that will save you significant money over time. The EAS Override Module suppresses all typical false dashboard display errors and buzzers seen when converting to coil springs. Any mechanic or Range Rover owner can install this coil spring conversion kit without having to go to a Land Rover dealer or Autologic-equipped repair shop to eliminate false dash warning light errors.

The kit features:

- Detailed step-by-step instructions
- The EAS Override Module overrides all typical computer errors seen when converting to coil springs
- Eliminates the need for a costly shop visit
- Aluminium spring perch adapters
- Britpart custom made coil springs provide standard ride height and maximum articulation
- Affordable alternative to expensive, recurring air suspension failures
- Trip computer compatibility - maintains operation of your vehicle's trip computer
- Kit provides everything needed to complete a professional installation

Discovery 3 / Discovery 4 / Range Rover Sport - 2005 - 2009 - without ACE/DSC

DA3517

Includes looms to fit Discovery 3 / Discovery 4 / Range Rover Sport - 2005 - 2009. An air-to-coil conversion kit designed to eliminate the risks of costly air suspension repairs and the possibility of getting stuck due to a failure of the system. This comprehensive package includes pre-assembled front and rear struts, an advanced air suspension override module, and bespoke wiring harnesses specific to your model. The kit is designed to maintain the same ride height as the former air-based system while offering excellent load-bearing properties. Ride comfort and manoeuvrability remain uncompromised. Additionally, the override module is engineered to preserve all original electronic functions, including Terrain Response, Headlight Adjustment, & the functions of the Information Screen, among others.

Discovery 4

DA5097

Does the complexity of having air suspension on your Discovery worry you?

Discovery coil conversion kit with module. This comprehensive kit contains everything you need to convert to conventional coil spring suspension. Kit comprises four strut units and module to prevent the air suspension lights from being illuminated.

DA4180

DEFENDER 4-CORNER AIR SUSPENSION CONVERSION KIT

How about modifying your Defender with improved on-road behaviour for daily use and the ability of increased ground clearance when venturing off-road?

When your Defender is fitted with the standard coil suspension, the ride is a compromise between off-road ability, load carrying and normal road use. By using a full air suspension kit, ride quality is improved and vehicle height can be altered by moving to a pre-set relevant to your needs. Vehicle height and wheel travel then stays in the optimal working range for suspension performance and comfort at all legal loads*.

Benefits of Full Air Conversion

- Improved vehicle stability and handling under all loaded conditions
- Increased comfort and enhanced driving experience
- Fully adjustable heights with Intelligent controls
- Optimized geometry
- Constant ride height under all loaded conditions up to vehicle full GVW*
- Easily installed and user friendly system

High quality materials are used to give you the most reliable kit for your Land Rover. Bespoke air spring units are used in conjunction with a turret setup & electronic control system. Electronic components have been durability tested and in many cases are shared with those fitted to many European cars for factory fit air suspension. The compressor from AMK is very robust with low noise & vibration. The kit comes complete with full instructions and all the necessary parts, it's easy to install and requires minimal drilling during fitment.

Kit Features

- Constant ride height*
- Increased comfort
- Improved stability & driveability
- Pre-set heights for electronic control system
  - Access - Low for easy entry/exit
  - Ride height - Normal road use
  - Off-road
- Additional tilt features available
- Multi-axis horizon levelling add-on feature available on request

Technical Specification

Wheel travel	~180mm
Off-road position	+40mm
Access position	-60mm

*Please refer to Land Rover for Defender official payload capability.

DA9110
Defender 110 / 130

Compatibility

It is important you abide by this compatibility list in order to protect the components in the air suspension kit. Any parts warranty claim would be void if this criteria is not followed.
Bump Stops - Minimum height from chassis 70mm. Bump stop spacers are provided to meet this criteria when using standard Land Rover factory bump stops.
Anti-roll Bars - Passive front and rear anti-roll bars must be fitted.
Shock Absorbers - Front shock absorber maximum length - 545mm. Rear shock absorber maximum length - 535mm

24 month Guarantee BRITPART

Why Intelliride ECAS?
This front and rear axle full air suspension kit incorporates on-board air control which is a fully automatic Electronically Controlled Air Suspension (ECAS) System. When fitted, the system provides comfort while maintaining a programmed ride height irrespective of the load. Multiple vehicle heights are available at the push of a button.

The on-board system has automatic load levelling at each height which continuously monitors inputs and component performance as a means of increasing safety and durability. The on-board system recognises and responds accordingly to potholes, cross-articulation and extended turns. This intelligence prevents unnecessary activity and air consumption, it even recognises unachievable heights, assisting in the prevention of possible damage above or below the vehicle.

Features
- Automatic 4 corner ride heigh control catering for all loads
- 3 pre-set heights - high, drive & low mode
- Fully adjustable via easy to use hand held control
- Front to back levelling
- Raise for clearance
- Lower for storage and access
- Inputs available for safety reset to ride height
- Manual mode
- Horizon levelling feature option
- OEM grade components for reliable performance
- High volume air springs for optimal ride quality & carrying capacity

Core Components
- Rear Firestone air springs - heavy-duty rolling sleeve air springs
- Front Dunlop air springs - heavy-duty rolling sleeve air springs includes shock relocation brackets
- AMK air compressor - 12 volt. Max 150 psi working pressure, high quality German built compressor
- 1 Gallon seamless aluminium air tank - SAE J10 APPROVED, lightweight & no corrosion. Max. working pressure 200psi. Pressure tested to 1,000psi. 3 x ¼" NPT ports (including drain port). Multi-position low profile bracket set
- Hand held controller - 9m lead
- ECU & valve block
- Vehicle specific air supply mounting brackets
- Rocker switch & height sensors
- 6mm high quality nylon tubing
- Quick fit push to connect air fittings
- Easy to use electrical connections
- Sealed relay & harness
- Hardware
- Step by step instructions
- Operators manual

PROPSHAFT SPACER KITS

Propshaft spacer kit machined from billet aluminium and anodised deep blue. When suspension lift kit is fitted it increases the distance between the transfer box flange and the diff flange. This increased distance can cause the propshaft to run out of spline travel.

Defender / Discovery 1 / Range Rover Classic

DA6339 15mm spacer kit

DA633925 25mm spacer kit

Fitting this prop spacer helps return the propshaft to its normal operating length therefore allowing full spline travel which also helps reduce the characteristic "binding" of the yokes when a propshaft is over extended.

PROPSHAFT & FLANGE BOLT KITS

DA1423
4 x 509045P - Propshaft bolt
4 x BT606101L - UNC flange bolt
8 x NZ606041L - Nut

DA1424
4 x 509045P - Propshaft bolt
4 x FRC3602 - UNF flange bolt
8 x NZ606041L - Nut

DA1123 | Wide Angle Propshaft KIt
4 x LR045409 - Propshaft bolt
8 x NZ606041L - Nut

PROPSHAFT KIT

DA6355
Defender / Discovery 1 / Range Rover Classic - 300Tdi / Td5 manual models only

- Double cardan extreme use front propshaft with flange and fitting kit
- For vehicles with L230 transfer boxes
- Ideal for use with lifted vehicles
- Helps to reduce driveline vibration where diff and transfer flanges are not in-line

Note: Flange must be fitted to transfer box.

WIDE ANGLE PROPSHAFTS

If your Land Rover has raised suspension or been modified for extreme axle articulation then the joints on the existing propshaft will become strained. This will cause the propshaft to lock up or vibrate and wear the universal joints prematurely. Dropping the axle further away from the chassis is great for looks, articulation and off-road performance - a neat solution is to fit a wide angle propshaft. This allows drivetrain angles of up to 32 degrees which reduces vibration, universal joint 'bind-up' and premature wear on the joints. These wide angle shafts have greasable universal joints which are more desirable where longer life is required.

DA6350	Defender - MA onwards - 300Tdi / Td5 / Discovery 1 / Range Rover Classic - 1986 - 1991	Front	Extended - 678mm / Closed - 612mm	Equivalent to - FRC8386

FRC3875	Wheel hub only

TAY100050L

Discovery 2 Long Sensor Lead

TAY100060L	Front
TAY100050L	Rear

Land Rover recognised that on some Discovery 2s the wiring from the ABS sensor to the ECU could get damaged resulting in recording ABS faults that cannot be corrected by either a sensor or hub replacement. Their solution was to produce a sensor with a very long lead that bypassed the damaged lead. This hub assembly is a complete unit with this type of ABS sensor and lead.

LR076692

Wheel Hub & Bearing Assembly Kit
LR076692
Front
Discovery 3 / Discovery 4
Range Rover Sport - 2005 - 2013

POWER STEERING RACK PIPES

DA2848
Discovery 3
Discovery 4
Pair
Right hand drive only

Fit to the steering rack and carry the fluid across the rack. Made from steel pipe and feature flared ends and zinc plated male nuts (we advise that customers apply additional corrosion protection before fitting). 6mm in diameter and are not to be confused with the feed and return hoses.

STEERING BOX/RACK REPAIR KITS

DA1236
Series 2 / Series 2A / Series 3

DA2947
Discovery Sport - early models
Range Rover Evoque - 2012 - 2018

Early Range Rover Evoque / Discovery Sports had steering racks held together with aluminium bolts. These can fail and leave the vehicle with no steering. This kit comprises three upgraded steel bolts together with a new drive belt for the power assistance. None of the kit items are available from Land Rover.

HUB, BEARING & UPRIGHT ASSEMBLIES

DA1214

DA3748

DA3863

DA3862

Replacement hub, bearing & upright complete assembly. Offers a quick and cheaper alternative to replacing wheel bearing or hub as separate items, saving time and money.

POLYURETHANE BOOTS & CLIPS

DA3493 | Polyurethane Track Rod End Boot
Defender / Discovery 1 / Discovery 2
Range Rover Classic / Range Rover P38

DA3494 | Track Rod End Ball Joint Boot Clip
Stainless steel spring wire
Internal Diameter - 33mm

DA3497 | Polyurethane A-frame Ball Joint Boot
Defender / Discovery 1
Range Rover Classic

DA3543 | A-frame Ball Joint Boot Clip
Stainless steel spring wire
Internal Diameter - 47mm

DA5278 | Front Axle Upper & Lower Ball Joint Boot & Clip Kit
Discovery 2 - FTC3570 Upper & FTC3571 Lower Ball Joints
Range Rover P38 - Upper & Lower Ball Joints

A common problem with original rubber boots is perishing/cracking. This polyurethane boot will not perish/crack like normal rubber so will give you a much longer service life. The boots are double convoluted which allows them to move/flex more without stretching.

BRAKE PIPE SETS

Copper nickel brake pipe sets manufactured in the UK. Each kit is complete for a specific Land Rover model. Pipes are cut to the correct length, fitted with solid brass unions and marked clearly to indicate the correct location on the Land Rover. Pipe fitting clips and brass in-line connectors are supplied where necessary.

More brake pipe kits available on request.

DA7440
Brake pipe bending tool. Can be used with all the brake pipe kits.

Easily fitted
Will not rust

ANTI-SQUEAL SHIMS

DA1141
Universal self adhesive noise dampening shims. Pack of 4. The shims are manufactured from wolverine and cut to shape and applied to the backing plate of the brake pads prior to fitting to help eliminate any noise issues (should the pad be unshimmed). When used in conjunction with Mintex Cera-Tec silicon based lubricant, most brake noise related issues will be eradicated.

BRAKE LUBRICATION

DA2389 | Cera-Tec Advanced Lubricant
75ml
Mintex Cera-Tec is an advanced non-metallic universal lubricant that provides many benefits over traditional copper-based grease.

- Non-metallic content - ABS and ESP friendly.
- Operates to a high temperature (1,000°C).
- Non-conductive.
- Free of copper and acid.
- More effective at reducing any brake squeal.
- Protects against corrosion and dirt.
- Neutral colour prevents any visible residue or staining.

BRAKE CALIPER PIN KIT

LR016683G
Range Rover Sport - 2010 - 2013
Range Rover Sport - 2014 - 2022
Range Rover - 2010 - 2012
Range Rover - 2013 - 2022
Models fitted with front Brembo brake calipers tend to suffer from the steel pins seizing in the aluminium caliper. The pins are often destroyed whilst being removed. This is a handy new pin kit for both front calipers.

BRITPART XS BRAKE DISCS

Low Noise

XS Brake Disc

Exact OEM Specification

- Installation ready - no need for cleaning before use
- Anti-corrosion coating which provides a long lasting clean appearance, ideal for today's open rims
- Disc run out - ≤0.08mm
- Unbalance requirement - ≤150g.cm
- Coating - 5~20µm NA paint
- Salt spray test - 120 hours

XD Brake Pads

- Manufactured to OEM specifications ensuring long life and low noise in a TS16949 & ISO14021 approved factory
- Asbestos, lead & CR6 free material
- The XD Brake Pad range meet all official legislation for quality and safety and are compliant with European ECE R90
- All XD Brake Pads are produced with an underlayer material designed to dampen vibrations to prevent noise and to reduce heat transfer to the brake fluid

The Britpart range of XD Brake Pads gives you the opportunity of fitting a much higher quality brake pad than the price would indicate. Britpart has tested many different brake pads over the years and have found this brake pad specification offers Land Rover owners the best possible performance at this price level.

The XD Brake Pads are manufactured to an exact tolerance using only the best European friction materials to OEM specifications ensuring long life and low noise.

All raw materials are analysed in-house using a fully equipped quality laboratory with, for example, an atomic absorption device. After analysis the raw materials are mixed and pressed using several different methods to achieve the best brake pad for each application. Each part number is tailored to the application it is intended for.

The XD Brake Pad range has been thoroughly tested on dynamometers and noise measuring rigs before being put through their paces on test tracks and extended operations tests to ensure a perfect and effective operation every time. All pads are covered by the worldwide Britpart warranty and Britpart recommends they are fitted with the Britpart standard or performance brake discs.

XS Brake Pads

The Britpart range of XS Brake Pads offers you the opportunity to have the exact factory production line specification of brake pad at an affordable price.

These pads offer the best possible combination of long life, pedal feel and noise suppression. All the pads in the range use the same friction material specification that your Land Rover was originally made with.

The XS range of pads are all produced in one of the world's premium brake pad facilities where production procedures are carefully monitored to ensure a consistently good product. The facility has both in-house testing and access to OE testing facilities to ensure all pads meet the exact specification required. Britpart XS Brake Pads are ideal for high mileage or heavy-duty applications.

Best possible combination of long life, pedal feel & noise suppression

BREMBO LIGHTWEIGHT BRAKE DISCS

brembo official partner

Britpart is proud to be a Brembo Official Partner and we are delighted to now be able to offer the new Brembo Lightweight disc. This is a new addition to the Brembo Aftermarket range applicable for some of the latest generation Land Rover models.

Manufactured in the same plant and on the same assembly line as the OE, the disc is made up of a high-carbon cast iron braking surface and a steel hat, which are connected by mechanical interference.

These technical features allow for a weight reduction of up to 15% compared to its integral counterpart of the same size. Since the brake disc contributes to the unsprung mass of the vehicle, reducing the weight ensures an increase in the available force and therefore improves handling and reduces consumption and emissions of the vehicle.

THE ORIGINAL PRODUCT QUALITY.

Appearance - Metallised effect conferring a shiny, clean look to the disc.

Corrosion, Humidity & Temperature Resistance - The resistance is superior to any other products on the market. Corrosion resistance is proven by tests in a salt spray chamber.

Eco-friendliness - The water-based UV varnish requires no solvents. The ultraviolet (UV) coating process is extremely energy-efficient.

Intelligent Marking - The position of the marking allows mechanics to read of the minimum thickness for replacement easily.

Ready To Use - Ready for installation and practical to assemble

Braking Surface Protective Coating - The protective varnish coating, also present on the braking surface, outer diameter and hub, ensures complete protection of the disc.

PADS, THE PERFECT PARTNER, STRENGTHS THAT DISTINGUISH THE RANGE

Born from the experience of racing and from the collaboration with car makers. The Brembo range of brake pads ensures maximum safety when braking thanks to absolute control of all production stages. From research and development to testing, passing through production of the friction compound and mechanical processing.

Performance - Minimal baking space in all conditions. Maximum driving comfort. Maximum silence.
Marking - Immediate identification of the pad.
Easy installation - Wide range of accessories and fitting kits for problem-free installation.
ECE-R90ECE-R90 - ECE-R90 homologated.

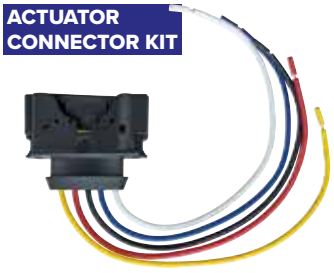
KEY FOB REPAIR KIT

DA4696
Range Rover P38
The buttons on a Range Rover P38 are prone to wearing out and becoming very tatty and unusable. Fix that problem with this handy repair kit.

ACTUATOR CONNECTOR KIT



LR020663WIRE | 5-Pin Turbocharger Actuator Connector Kit NEW
Defender - 2007 - 2016 - 2.4 engine
A replacement 5-pin connector, with wire tails, suitable for use as a replacement to the turbocharger actuator connector as fitted to diesel engines using a Garrett Hella turbo. Fitted to a wide range of vehicles, including; Jaguar Land Rover

- 5-Pin connectors.
- Wire Size: 0.75mm².
- Harness cable length: 150mm.

BATTERY MONITOR SENSOR

DA7966 | Sealey Battery Monitor Sensor & Vehicle Finder

- Displays real time battery power, voltage and temperature.
- Wireless connection with dedicated app which supports up to 4 devices (iOS & Android compatible).
- Guide user back to the vehicle by automatically recording the last parking location.
- Record the route, cost and driving habits of each trip, which can be exported to Excel.
- Automatically monitor the starting and charging system of the vehicle and notify if abnormal.
- Compatible with most batteries including lead sealed, AGM and Gel. Supports up to 4 devices.
- Store historical data in device for up to 30 days.

Voltage Range:	6-20V
Average Current:	1.5mA
Input Voltage:	6-20V
Voltage Accuracy:	9-16V ±0.03V
Short Circuit Protection:	Built-in
Reverse Connection Protection:	Built-in
Operating Temperature:	-20 - 40°C
Physical Dimensions:	55 x 41 x 12.5mm
Waterproof:	IP67
Weight:	20g

IGNITION LEAD SETS

DA4102

DA5684

STC9124

NGC500370/410

These silicone HT lead sets are designed to meet or exceed the original equipment specification. The silicone cable has minimal interference with maximum suppression, it is also resistant to water, oils, chemicals and high temperatures. High quality with ISO 3808 class noise suppression performance.

Note: Negative earth vehicles only. Distributor with electronic conversion fitted which replaces the existing points & condenser with a new reliable electronic module.

ELECTRONIC CONVERSION KITS

ERC4536K

ETC5835K

ETC5835K
Electronic conversion kit replaces the existing points & condenser with a new reliable electronic module. For 4-Cylinder petrol engines the electronic ignition module has been developed to work with the standard ignition coil and provides service free and accurate ignition timing. The kit can be easily fitted to standard points type 45D4 distributors. We recommend fitting a new coil at the same time - PRC9858. Also available a new distributor with points to which this kit can be fitted - ETC5835.
ERC4536K
This electronic conversion kit is for V8 points and has built in dwell adjustment with rpm protection when not running.
Note: Both kits are for negative earth vehicles only.

OTTER SWITCH UPGRADE

545010
Series 2
Series 2A
Series 3
An updated and reproduced engine mounted switch for operating the choke warning light.

- Waterproof
- Max current capacity - 1 amp
- Normally open
- Single spade lug connection (body of switch is earth)
- Supplied with new cork gasket

PROGRAMMABLE WIPER RELAY

AMR2341DELAY

Fed up with your Defender's intermittent wipers not being intermittent enough? Does it drive you mad when you give the screen a quick spray and it wipes for ages?

Fit this new relay in place of the standard AMR2341 to your vehicle to solve this problem. Once fitted you press the stalk down so that the wiper wipes and then back off again, now count/wait till you want another wipe, switch the stalk down and leave it on, this timing will now remain constant till you set another timing the same way or turn off the ignition at which point the relay reverts to a standard 6 second wipe interval. Another bonus is that the wipers will now only wipe once following a short burst of washer fluid or 3 times after a long burst. This will work on all Defenders with the latching intermittent wiper stalk PRC7370 or AMR6106 HA onwards (stays down when pressed) but it will also work on 300Tdi and Td5 although on post 2002 Td5s the relay AMR2341 is located behind the speedo. Will not work with early stalk PRC3900 up to GA models.

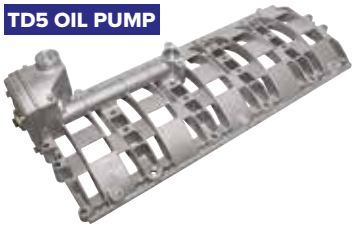
TD5 SHORT OIL FILTER

Save time & effort with this easier to fit filter

LPX100590XD
Shorter than the standard Td5 filter, which makes this one much easier to fit and remove.

TD5 OIL PUMP



LPF500020
High quality, cost effective replacement oil pump for Td5 engines.

OIL COOLER REPAIR KIT

DA1127 | Td5 Oil Cooler Repair Kit
Replace leaking oil cooler found in all Td5 engines, part of the PBC500230 assembly. Replace just the faulty cooler and not the casting which normally is perfectly serviceable, includes all hardware required. All manufactured to exact OEM specification.

POTENTIOMETER KIT

DA1647 | Rover V8 Throttle Pot Upgrade Kit
Adapts the Rover plenum to accept the Colvern throttle pot. Replaces the 2 bolt throttle pot as fitted to all 3.9 & later 3.5 engines from late flapper to last of the Hotwire 14CUX. It replaces ETC8495 and ERR2263. Consists of: Colvern throttle pot, alloy adapter plate, brass spindle, ball bearing, stainless cover plate, fixings & loom socket. Once this kit is fitted, throttle pot switch replacements are cheaper and easy to source.

TOP HAT LINER SET

DA1185
This flanged repair liner is suitable for damaged/porous 3.9/4.0/4.2/4.6 Rover V8 blocks. The block will require re-boring and flange recess machining before fitting. This liner is the complete solution for fixing these blocks. The liner can be bored to 96.00mm for over-bored versions of the V8 engine, taking it to 5.0 litres. Semi finished bore 94.00mm (less 1.00mm for final finishing in bore).
Dimensions
Inside diameter - 94.00mm
Outside diameter - 99.06mm
Length - 135.64mm
Flange diameter - 105.23mm
Flange depth - 5.33mm

Anodised aluminium
Includes rubber seal

Oil Filler Cap
DA8890
Defender - Td5
Anodised aluminium
Includes rubber seal

DA4749 | Aluminium Power Steering Reservoir with Internal Baffle
Defender - Tdi /Td5 / Tdci / V8
Designed to replace the plastic ZF reservoir which is prone to splitting and leaking vapour through the breathable cap, which in turn then collects dirt and runs the risk of water ingress. The external breather design means no unsightly mess under the bonnet and allows routing with high axle/ gearbox breathers to eliminate water ingress. Manufactured from laser cut 2mm high grade aluminium with CNC machined pipe connections, knurled cap and external breather. The corrosion resistant aluminium rolled body is fully TIG welded by hand in house. 110mm high (155mm height including cap) & 91mm diameter.

DA4748 | Uprated Engine Breather Oil Catch Tank
200Tdi / 300Tdi engines
Allisport high performance aluminium engine breather oil catch tank separator. Manufactured using mounting flange machined from billet aluminium. All engines need to breathe crankcase pressure to atmosphere and most are designed to re-enter the air intake system after the air cleaner.

Standard breather pots use a gauze and mesh design which over time becomes blocked with oil deposits, reducing the capacity to release crankcase pressure and also allowing more oil vapour to enter the intake system. This high performance replacement is designed to effectively reduce crankcase pressure build up on Tdi engines by using an internal baffle rather than the standard gauze and mesh design. Designed to have a practical purpose offering an improvement over the original black plastic units, but will also look great in the engine bay. Will fit all Tdi engines including 2.8 TGV. Manufactured by hand, fully TIG welded. Tank has new integral o-ring-seal design - ***No More Leaks!!***

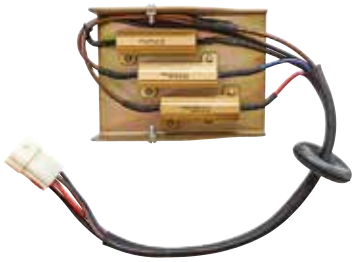
HEATER BLOWER MOTOR KIT & RESISTOR KIT

DA4178

DA4178RESISTOR



DA4178
Discovery 1 - 200Tdi with air con
Range Rover Classic - 1986 - 1994 - 200Tdi / V8 with air con
Atlantic British has developed this all inclusive kit designed and engineered to replace failed heater motors. The kit includes heater blower motor, blower wheel, motor mounting bracket and mounting screws, heater assembly seals, nylon ties, solder, shrink tubing (for soldered connections) and complete instructions. **Note:** When replacing the heater blower motor the vehicle's resistor must be upgraded to DA4178RESISTOR.

DA4178RESISTOR
The air con blower motor resistor controls the speed of the blower motor and the force of the airflow out of the dash vents, it features a thermal-sink aluminium mounting plate that dissipates circuit heat effectively.

AIR-CON EVAPORATOR CORE

DA2660
Defender - 2007 - 2016
If your Defender's air-con evaporator is broken, you cannot purchase a replacement evaporator core alone. Instead you have to purchase the whole heater unit. We can now offer this OEM replacement evaporator core offering a considerable cost saving over the complete assembly.

DUAL MASS FLYWHEEL CONVERSION KIT

DA6250

Dual Mass Flywheel Conversion Kit
The flywheel conversion kit can be used to replace the dual mass flywheel using a solid metal flywheel and a heavy duty clutch kit. The one piece flywheel will not break up like the dual mass one so it is highly likely you will never need to change it again which means - lower cost, ease of fitting & potentially eliminating any future flywheel failures.
Note: This kit will make the gearbox more audible in the car at tick over and the kit doesn't include the release bearing - UUB000070.

DA6250
Freelander 1 - 2.0 Td4
Dual mass flywheel conversion kit - solid mass flywheel, replacement clutch cover & replacement clutch plate

DA6251
Service kit for DA6250
Plate & cover

CLUTCH & BRAKE RESERVOIR TANK

504105GIRLING
Series 2
Series 2A
Girling Classic combined brake and clutch reservoir serves both the brake and clutch master cylinders. An internal wall avoids a failure of both systems if one develops a leak. Reservoir is as per original design.

GIRLING CLASSIC CLUTCH HOSES

MT82 REPAIR KIT

DA2720
Defender - 2007 - 2016
Repair kit for MT82 coupling flange & transfer box input shaft.

- Coupling flange
- Input shaft
- Retaining ring
- Special bolt
- Oil seals
- Seal retaining clip
- Anti-seize grease

DAMPER & BEARING KIT

DA2664	Damper & bearings kit
TOT100000	Damper only

Freelander 1 - up to 2006 4-Cylinder
Not all viscous coupling problems are the fault of the unit itself, sometimes the damper is at fault, this kit prevents buying the whole coupling, just to replace the damper.

DIFF COUPLING SHAFT

DA2355
Range Rover - 2002 - 2012

These models can suffer from a common problem with the coupling shaft spline wearing between the front propshaft and front differential, thus losing drive to the differential. The problem relates to the coupling shaft, the differential itself is not affected. Currently the only solution offered by Land Rover is to replace the propshaft and the whole complete front differential assembly - a very expensive option! Using this new coupling shaft will enable you to replace just the propshaft and coupling shaft and leave the differential in place, therefore reducing both time (the differential need not be removed from the vehicle) and cost.

CV JOINT KITS

DA6061

Britpart has put together these boxed kits to help the fitter have all the necessary parts to do the job in one hit, saving time and money trying to find the necessary parts to do the job. These kits are also helpful to pass over the trade counter instead of having to hunt for the individual parts. One kit does one CV joint.

Save time & money with a Britpart CV joint kit

AUTOMATIC TRANSMISSION SERVICE & CONVERSION KITS

Degradation in oil can lead to judder, noise and a deterioration in gear change quality. It is recommended that oil and filters are changed after 50,000 to 75,000 miles on all 5, 6 & 8 speed automatic gearboxes to ensure optimum performance.

6-SPEED FILTER CONVERSION KITS

Discovery 3 / Discovery 4
Range Rover Sport - 2005 - 2013
Range Rover - 2002 - 2012

This is an easy change filter conversion kit for all vehicles with either a 6HP26 or 6HP28 ZF 6-speed automatic gearbox. From the factory a fluid and filter change on this transmission is a very lengthy process. The sump and filter are normally one piece and fitting involves jacking the engine up and unbolting the mounts, plus the removal of the exhaust.

The fitting of this kit is far easier. Once the fluid has been drained from the transmission simply remove the bolts from the old unit. Cut the old plastic sumps filter tube with a hacksaw. Slide the old sump out and remove the other end of the sawn off filter tube. The new separate filter can then be fitted and the new sump pan slides into place and is bolted up with the new gasket supplied. Once secure the transmission can be filled as per manufacturer's instructions. The new sump pan also has the added benefit that it is manufactured in durable steel rather than the plastic of the original item - LR007474. Also see DA6085 & DA6085G in service kit section. 7 litres needed for oil change.

Lucas Classic products arise out of technical excellence and a spirit of innovation that is unparalleled. Across car, 4x4 and motorcycle, the Lucas Classic range has built a reputation for exceptional durability and resistance. Now, Lucas Classic is proud to celebrate 150 years of automotive achievement.

The very epitome of the Lucas heritage, Lucas Classic parts are often reproduced from original tooling or from exact replicas of products we made 50 years ago or more. The result: quality, design and performance that is trusted - and counted on - worldwide.

But the celebrations for the Lucas Automotive group don't stop there. Celebrating 100 years of excellence: Girling. A name synonymous with quality, Girling parts are renowned for meeting the Original Equipment standards of global automotive engineering in braking, suspension and clutch systems.

A mechanical braking system developed by Captain Albert Girling in 1925, Girling was acquired by Lucas from the New Hudson company in 1943. Girling's reputation in Formula One is legendary, designing one of the first disc brakes in consultation with Jack Brabham - one of the greatest drivers in the history of motorsport. The Girling disc brake wasn't just a gear change for F1... it became the standard for every car all over the world. Today, Girling designed braking systems have expanded to become globally present across the globe.

LUCAS 150 ANNIVERSARY EST.1875

GIRLING 100 ANNIVERSARY EST.1925

Here are a few of the Lucas Classic and Girling Classic memorable milestones over the years:

1834 - *Joseph Lucas born in Birmingham*

1875 - *birth of the Lucas company and first products pre-automotive era*

1878 - *"King of the Road" lamp*

1900 - *birth of automotive era*

1902 - *Joseph Lucas dies and is succeeded by his son, Harry*

1906 - *the Lucas company has more than 1,000 employees*

1911 - *first Lucas car battery*

1925 - *Captain Albert Girling develops world's first mechanical braking system*

1943 - *Girling brake business acquired from the New Hudson company*

1950s - *Girling join forces with legendary F1 driver Jack Brabham*

1960s - *Lucas expands across Europe and becomes a global enterprise, exporting to over 130 markets with around 4,000 authorised outlets*

1975 - *35% of all cars manufactured worldwide are fitted with brakes manufactured by Lucas Girling, its associate company or one of its licensees*

2000s - *Lucas celebrates 125 years of continuous trading, with a focus on remanufactured parts and global expansion*

2010s - *Lucas continues to innovate and launches a dedicated Lucas Classic and Girling Classic ranges in 2019.*

2025 - *Lucas Classic celebrates 150 years of innovation and success*

2025 - *Girling celebrates 100 years of engineering excellence*

For the Lucas Classic brand, the last 150 years have been remarkable - and this automotive milestone will be celebrated throughout 2025 and beyond. Similarly, for Girling, it has been a century of achievement. But for both brands, the story is only just beginning...

Universal Replacement Bulkheads

Loose brackets are included in the kit to allow for model year differences made by Land Rover over the years. Some minor modifications to the transmission tunnel may be needed to accommodate different transmission tunnels, with the V8 for example.
Made in the West Midlands like a Land Rover.

Made in the UK

Stainless Steel Door Threshers - Defender - from 1983 up to 2016 / Series 2 / Series 3
These stainless steel door threshers will freshen up the inside of your Land Rover as this is an area is which can get very scruffy. All of the existing holes on the sills line up with these doors threshers so they are a quick, easy bolt on project. The door threshers are made from stainless steel 304 grade bright annealed 1.5mm thick and are laser cut and CNC pressed. Stainless steel fixings are supplied. **Note:** If your door seal is fitted to your sill rail, you may need to modify the sill rail.

Defender / Discovery 1 / Range Rover Classic
Laser cut, folded, 2mm thick 316 grade stainless steel.

DA1722 | Door Rubber Seal Holders
Defender 110 / Series LWB
Front & 2nd row Made from 1mm stainless steel, laser cut and CNC pressed for accuracy. These 'P' sections fit Series vehicles and early Defenders (where the door seal is fitted to the sill rail).

DA7370 | Steel Seat Box Protectors
Defender
The edge of the Defender seat box is prone to damage, protect that edge and smarten up your interior with these protectors. Made from 2mm brushed stainless steel. Less than five minutes to fit and all you need is a drill for the fixings. Kit includes a pair of corner protectors and 8 x 19mm flanged steel self drill fixings. These will also fit a Series 2 / Series 3 but will require matching drilling to accommodate seat rail fixing. Pair.

CHASSIS - RICHARDS

More pictures online at
www.britpart.com/chassis

Richards Chassis
All Richards chassis are manufactured in the UK, using locally sourced materials and locally based machine shops. They are located close to the steel city, Sheffield, and therefore optimise the use of local steel, ensuring that all their chassis are formed from 2.5mm British steel which are all galvanised as standard. All profiling is done 'in house' using their own laser machine, enabling them to have greater control over the quality of parts used and the materials that they are formed from. The chassis are made using 2.5mm side rails which are 25% heavier than the standard 2.0mm rails. Overall this gives a small increase in the vehicle weight but has a massive effect on the long term durability of the chassis. Bolt on crossmembers are not supplied with Richards chassis but are available separately - see DA5300.

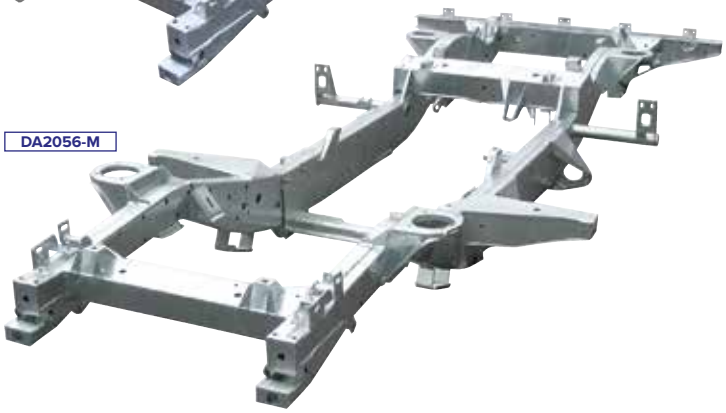
Please enquire with your local Britpart stockist if the chassis you require is not listed here.

CHASSIS - MARSLAND

DA2056-300TDI-M

DA2056-M



Marsland Chassis

The Marsland Defender chassis manufactured by GKN Wheels & Structures, supplied with an insurance accepted GKN Certificate of Authenticity confirming the chassis are constructed using "the same materials, processes and quality control techniques as were stipulated at the time of original equipment manufacturer". Type approved and crash tested. All Defender chassis are built to 2016 type/latest specification, including rear cross member and A-frame cross member. GKN pressed 'C' section main legs/rails made from 2mm steel with 3mm stiffeners fitted and spot welded internally for added strength, effectively giving you 5mm of material where most needed. Chassis supplied with bolt in gearbox cross member, rear cross member to body bracket, A-frame to chassis bushes including fixings. Power steering pipe, fuel filter, fuel tank and fuel line riv nuts fitted to chassis. All holes drilled and tapped excluding rear tow pack holes.

Marsland have changed their post galvanising passivation process. This is due to a new industry-wide regulation that prohibits the use of the chemical TIB Finish CH06, which was previously used to give the chassis a protective coating against water staining. An upgrade to the passivation tank has been made and an alternative polycoat finish is used. This new coating still ensures the same high level of durability and protection, but the final product will have a more natural galvanised finish which means, products will no longer have the shiny finish that usually lasts around 12 weeks. Marsland products will continue to be hot-dip galvanised to the highest standards BS EN ISO 1461, and their longevity will remain unaffected.

Marsland Adaptor Chassis

Chassis blank with threaded plates for engine conversions. OEM manufactured with hot dipped galvanized finish. Replacement for Defender variants with a rear mounted plastic fuel tank. Chassis features the latest Puma updates with reinforced main rails, upgraded bulkhead outriggers and rear cross member with integral fixing nuts for tow plate and recessed mounting point for towing plug. Designed and manufactured to accept multiple types of engines. Instead of welded on motor mounts, this chassis has double plated sections with weld nuts for bolt on motor mounts, making it the perfect choice for all types of engine conversions. Includes bolt-on flat gearbox cross member. Made in the UK.

DA8864 | Optimill Front Door Security Hinge Kit

Defender 90 | Black

DA8865 | Optimill Front Door Security Hinge Kit

Defender 110 - 1st & 2nd row doors | Black

With this unique design the door cannot be removed even if the external screws have been removed. Prevention increases security for unwanted removal. These high quality door hinges are CNC machined from billets of aerospace grade 6082-T6 aluminium. The hinge pins are made of stainless steel which are internally pinned to prevent unwanted removal or theft. The hinges also feature self lubricating graphite bushes to reduce friction and prevent wear. Supplied with high security stainless fixings & shims.

OPTIMILL

DA8866 | Optimill Rear Door Security Hinge Kit

Defender | Black

Designed with concealed fixings, to prevent access from outside the vehicle. CNC machined from billets of aerospace grade 6082-T6 aluminium. The hinge pins are made of stainless steel which are internally pinned to prevent unwanted removal. The hinges also feature self lubricating graphite bushes to reduce friction and prevent wear. The superior performance of these hinges means there is no longer a need to use a separate swing away type wheel carrier, although are compatible with most makes, they are also compatible with panoramic glass conversions. Supplied with high security stainless fixings.

AUTOMATIC TRANSMISSION SERVICE & CONVERSION KITS

Degradation in oil can lead to judder, noise and a deterioration in gear change quality. It is recommended that oil and filters are changed after 50,000 to 75,000 miles on all 5, 6 & 8 speed automatic gearboxes to ensure optimum performance.

6-SPEED FILTER CONVERSION KITS

Discovery 3 / Discovery 4
Range Rover Sport - 2005 - 2013
Range Rover - 2002 - 2012

This is an easy change filter conversion kit for all vehicles with either a 6HP26 or 6HP28 ZF 6-speed automatic gearbox. From the factory a fluid and filter change on this transmission is a very lengthy process. The sump and filter are normally one piece and fitting involves jacking the engine up and unbolting the mounts, plus the removal of the exhaust.

The fitting of this kit is far easier. Once the fluid has been drained from the transmission simply remove the bolts from the old unit. Cut the old plastic sumps filter tube with a hacksaw. Slide the old sump out and remove the other end of the sawn off filter tube. The new separate filter can then be fitted and the new sump pan slides into place and is bolted up with the new gasket supplied. Once secure the transmission can be filled as per manufacturer's instructions. The new sump pan also has the added benefit that it is manufactured in durable steel rather than the plastic of the original item - LR007474. Also see DA6085 & DA6085G in service kit section. 7 litres needed for oil change.

DA3675 Britpart XD 0W-20 | 5 litres

Product Description
Britpart XD FE 0W-20 is a low viscosity, high performance engine oil. This product also contributes to the reduction of emissions by helping to promote fuel efficiency due to an ultra-thin oil film that minimises internal energy losses. Additionally, Britpart XD FE 0W-20 provides protection against LSPI (Low Speed Pre-ignition) in petrol engines, including petrol direct injection units fitted with petrol particulate filters, also suitable for vehicles using hybrid electric technology.

Applications
Britpart XD FE 0W-20 is recommended for passenger car engines, including turbo-charged and supercharged versions, requiring a low viscosity grade.

Performance Levels
- ACEA C5, ACEA C6
- API SP, API SN Plus
- Ford WSS M2C-952-A1
- MB 229.71
- OV0401547
- GM Dexos® D
- STJLR 03.5006

Benefits
- Increased engine efficiency, output & fuel economy in petrol & diesel units
- Increased film strength at high temperatures under all driving conditions
- Enhanced timing chain wear protection
- High temperature deposit and anti-sludge control
- Full after-treatment device compatibility (catalysts, DPFs, GPFs)
- Low level of volatility

0W-30 Synthetic Engine Oil

DA3664 Britpart XD 0W-30 | 1 litre
DA3665 Britpart XD 0W-30 | 5 litres

Product Description
Britpart XD FA 0W-30 is a mid-SAPS engine oil formulated for use in Ford and JLR's latest technology diesel engines and where superior fuel efficiency performance is required. Can be used in engines specifying low viscosity lubricants, either in gasoline or diesel applications, where the performances levels quoted below are listed.

Applications
Britpart XD FA 0W-30 has been developed for use in Euro V and VI compliant vehicles with DPF after treatment devices.

Performance Levels
- Ford WSS-M2C950-A
- ACEA C2
- STJLR.03.5007

Benefits
- Increased engine efficiency, output and improved fuel economics
- Outstanding cold temperature flow rates and high temperature film strength
- Low levels of volatility
- Superior thermal stability, improved engine cleanliness

XD Oil

5W-30 Synthetic Multi-grade Engine Oil

DA1333 Britpart XD 5W-30 | 1 litre
DA1529 Britpart XD 5W-30 | 5 litres

Product Description
Britpart 5W-30 is a synthetic, fuel-efficient multi-grade engine oil complying to Ford specification WSS-M2C913-D and WSS-M2C913-C and meeting the STJLR.03.5003 Jaguar Land Rover specification. Britpart 5W-30 is a synthetic multi-grade engine oil formulated with highly refined synthetic base stocks and the very latest in advanced additive technology. The carefully selected components combine to provide the user with improved fuel economy benefits, greater robustness to fuels containing increased levels of bio-diesel and superior soot handling properties. This highly stable, stay-in-grade product allows extended oil drain intervals to be achieved.

Applications
Britpart XD 5W-30 is an ideal choice in many normally aspirated and turbocharged petrol and diesel engines designed to use a fuel saving engine lubricant. In particular, Britpart 5W-30 can be used in all Ford diesel engines (except Ford Ka TDCi 2009 onwards and Galaxy 1.9 TDi 2000-2006). It is strongly recommended for use in Transit models (2012 onwards) carrying the 2.2 Duratorq TDCi engine where only WSS-M2C913-D lubricants can be used.

Performance Levels
- API - SL / CF
- ACEA - A5 / B5
- Ford WSS-M2C913-D
- STJLR.03.5003
- RN0700

Benefits
- Complies with Ford specification WSS-M2C913-D
- Complies with Ford specification WSS-M2C913-C
- Extended drain capability
- Fully backwards compatible with the earlier specifications of WSS-M2C 913-A and 913-B
- Stay-in-grade formulation
- Excellent low temperature stability for improved flow rates
- Improved fuel efficiency

5W-30 Synthetic Engine Oil

DA3618 Britpart XD 5W-30 | 1 litre
DA3619 Britpart XD 5W-30 | 5 litres

Product Description
Britpart XD 5W-30 is a low-SAPS, synthetic technology oil formulated to meet the demands & fuel efficiency expectations of the latest petrol & diesel engines, where a low viscosity oil is required. Britpart XD 5W-30 is formulated to protect sensitive exhaust after-treatment devices, particularly those fitted with diesel particulate filters (DPFs), helping to ensure efficient & troublefree operation.

Applications
Britpart XD 5W-30 is recommended for the latest low emission passenger car high performance petrol and diesel engines that require ACEA C1 SAE 5W-30 lubricants. Manufacturers include: Land Rover, Ford, Mazda & Mitsubishi.

Performance Levels
- ACEA C1
- Ford WSS-M2C934-B
- STJLR.03.5005

Note: Do not mix with oils that are not ACEA C1 compliant. This will adversely affect after-treatment devices & the operational efficiency of the engine.

Benefits
- Increased engine efficiency, output and improved fuel economics
- Excellent cold starting characteristics, reducing noise and wear
- Outstanding high temperature operation and anti-sludge control
- Low levels of volatility, minimised oil consumption
- Better thermal stability, improved engine cleanliness and component longevity

10W-40 Semi-Synthetic Multi-grade Engine Oil

DA1331 Britpart XD 10W-40 | 1 litre
DA1530 Britpart XD 10W-40 | 5 litres

Product Description
Britpart XD 10W-40 is a semi-synthetic multi-grade engine oil manufactured using high quality additives and base oils for fuel efficiency and superior performance for petrol and diesel engines of passenger cars and light commercial vehicles. Meets ACEA and API specifications required by a large number of cars and light commercial vehicles. The additive technology coupled with advanced base fluids also ensures a high level of component protection and cleanliness when operating in severe conditions. Engine design has changed rapidly over recent years and increased output from smaller units, coupled with reduced engine oil sump capacity, has put greater demands on the lubricant. Britpart XD 10W-40 is designed to meet these challenges. It provides excellent stay in grade performance for a wide range of engines.

Applications
Britpart XD 10W-40 is suitable for use in normally aspirated and turbocharged engines in passenger cars and light commercial vehicles, where any of the performance levels listed are required. It is miscible with all synthetic and mineral based engine oils.

Performance Levels
- API - SN / CF
- ACEA - A3 / B4
- MB - 229.3
- VW - 501.00 / 505.00
- Renault - RN 0700 / 0710

Benefits
- Suitable for a wide range of vehicles
- Excellent high and low temperature stability
- Excellent cold starting
- Improved oil consumption and emissions

20W-50 Mineral Engine Oil

DA1823 Britpart XD 20W-50 | 5 litres
DA1824 Britpart XD 20W-50 I 20 litres

Product Description
Britpart XD 20W-50 is a traditional mineral oil based engine oil suitable for use in petrol fuelled passenger cars and light duty diesel vehicles. It is formulated from a blend of top quality solvent refined mineral base oils with established detergent/dispersant additive technology and incorporating viscosity index improver polymers to deliver the 20W-50 multi-grade viscosity profile. The 20W-50 viscosity grade classification is designed for severe service conditions and ensures optimum lubrication protection and engine performance in warmer climate conditions.

Applications
Applications for the 20W-50 are older model petrol vehicles fitted with an oil filter, especially V8's and 200Tdi/300Tdi high mileage vehicles with excessive oil consumption. Also to be used in hot climates where a 15W-40 is normally recommended. Not suitable for TD5 - 2016.

Performance Levels
- ACEA: A3/B3
- API: SL/CF
- MB: 229.1

Benefits
- High temperature performance
- Protects against ring sticking at high temperatures
- Maintains oil performance
- Minimises oil consumption
- High standard of engine cleanliness
- Excellent sludge control protection designed for stop-go city motoring
- Long lasting dispersant, anti-wear and corrosion protection

ENGINE OILS

Castrol Edge Professional C1 5W-30

TRANSMISSION & DRIVE TRAIN OILS

Automatic Transmission Fluid 402
STC50531LR 1 litre

LubeTech Manual Transmission Fluid 94 API GL4
STC9157 5 litres

LubeTech Manual Transmission Fluid 94 API GL4
STC9158 1 litre

Texamatic 7045E
STC4862G 1 litre
Automatic transmission fluid. Provides top-tier protection to all applications where Dexron IIIG type products are specified, offering excellent protection to automatic transmission and power steering systems.

Castrol Syntrans 75W-90/API GL-4
LR006247G 1 litre
Multi-vehicle manual transmission fluid

Mobile ATF LT 71141
STC4863G 1 litre
Automatic transmission fluid. Suitable for use in automatic transmissions and power steering systems.

ZF Lifeguard Fluid
TYK500050G 1 litre
This high performance full synthetic oil for automatic transmissions has been exclusively developed and approved for ZF automatic transmissions only.

Transfer Fluid TF-0870 - OEM
IYK500010G 1 litre
Use in active transfer case to provide a stable viscosity.

Castrol Differential SAF-XO SAE 75W-90
TYK500010G 1 litre
Fully synthetic final drive lubricant recommended for most passenger car final drives.

Castrol Differential EPX SAE 80W-90
LR003156G 1 litre
Mineral based multi-grade extreme pressure gear oil for the lubrication of spiral bevel and hypoid differentials. The product is also suitable for the lubrication of manual transmissions where the manufacturer recommends the use of an oil to API GL5.

Castrol Differential SAF Carbon Mod Plus SAE 75W-90
LR019727LR 1 litre
Fully synthetic gear oil which can be used for axles with limited slip differentials.

Castrol Syntrans FE 75W / API GL-4
LR024835G 1 litre
Multi-vehicle manual transmission fluid

Morris Lodexol MTFE 75W
LR048849 1 litre
Will provide potential fuel saving performance due to its low viscosity, which minimises friction in the gearbox.

Morris Lodexol FS 75W-90
LR003137 / **STC4861** 1 litre
A synthetic high performance gear oil that has excellent extreme pressure (EP) performance and load carrying ability, as well as providing rust and corrosion protection to transmission components.

Morris Lodexol XFS 75W-90
LR129319 NEW 1 litre
A fully synthetic gear oil that has been formulated with high levels of extreme pressure (EP) additives & friction modifiers to protect the critical mechanisms of limited slip differentials. In addition to high load carrying capability, it will protect against rust & corrosion and has a low foaming tendency.

LR006247G

OIL ANALYSIS KIT

DA6358
Lubetrend Analysis is the complete fluid analysis programme performed by the Number One oil condition monitoring laboratory in the UK with over 35 years of experience in monitoring all types of fluid lubricated and insulating oil systems; giving you the confidence to act. Regular checks on the condition of the oil can extend the life of both engine and transmission and help spot potential problems long before they materialise.

Our aim is to help you succeed in making the most of your vehicles and machinery through reducing unplanned downtime, extending oil drains and detecting potential future failure - before they happen. Essential not only for all aspects of motorsport - we'd recommend taking a sample after each event - but also recommended for your everyday transport as part of the annual service. The price includes the sample kit and the full analysis report. Postage to the laboratory is your responsibility.

CASTROL CLASSIC OILS & GREASES

For more information on each product and images visit **www.britpart.com/castrol**

Castrol GTX
DA3542 5 litres
Liquid Engineering from Castrol Classic Oils - ***the original is back***. Castrol GTX Classic 10W/40. A premium mineral oil suitable for vehicles from 1978 to 1993, extending the Classic range to cover younger and modern classics. Supplied in the traditional 5 litre tin with the iconic GTX stripe branding, GTX Classic will appeal to owners who want period correct oil with a period correct look:

- Mineral 10W/40, suitable for vehicles 1978 to 1993 where a 10W/40 oil is specified
- Period correct balanced additives for superior wear and corrosion protection, including ZDDP
- Can be used in vehicles either with or without a catalytic converter
- Suitable for both naturally aspirated and turbo-charged vehicles
- Original handbook recommendation for many vehicles
- Supplied in original style 5 litre can
- API: SG

Oil is too small a word for it. Thin in cold, thick in heat; cooling, smoothing, protecting: pliant as liquid, tough as steel, always busy under gigantic stress. It is the result of over eighty years of single minded technical genius. More than just an oil, it is Castrol GTX - Liquid Engineering.

DA1595

Castrol Classic Oils Workshop Consumables
Classic XL 20W-50
A conventional multi-grade engine oil of good all round performance for pre-1980 modern classic cars
DA6260 1 gallon tin
DA6261 1 litre tin
DA6704 20 litre drum

EP140 Extreme Pressure API GL4
Originally specified grade for Series steering boxes and relays
DA6264 1 litre tin

EP90 Extreme Pressure API GL4
Extreme pressure multi-purpose gear oil for hypoid and non-hypoid applications
DA6265 1 litre tin
DA6705 20 litre drum

TQF
Transmission fluid for automatic gearboxes, incorporating additives to provide wear, oxidation and corrosion resistance
DA6268 1 litre tin
DA6706 20 litre drum

Red Rubber Grease
DA6269 500g pot
A special, rubber compatible grease for use on hydraulic brake and clutch components where hardening or swelling of rubber must be avoided. Useful in assembly of rubber components for brake, clutch and suspension units.

Water Pump Grease
DA1595 500g pot
Hard consistency grease with high water resistance and excellent sealing properties. Also ideal for protecting brake pipes and fittings.

Castrol Classic Oils Merchandise
DA6270 **Castrol Tin Mug** - Drink your tea in a nostalgic way with this large tin mug
DA6274 **Baseball Cap** - Smart green cap with embroidered Castrol logo. One-size fits all
DA6275 **Window Service Sticker** - Never forget to change your oil with this self-cling window sticker with Castrol logo on one side and Change Due boxes on the other. 3" diameter.

Castrol Pouring Jugs
Use either to decorate your workshop or study or to accurately measure lubricant quantities shown in imperial measures in vehicle handbooks
DA6271 Half pint
DA6272 Pint
DA6273 Quart (two pints)

Classic Pump Oil Cans
The classic Castrol oil applicator. Pump action screw top cans, supplied with exchangeable fixed and flexible applicators. With printed 1946 logo on one side. These period style oil cans are great for lubricating hard to reach places.
DA3926 200ml
DA3927 500ml

DA3926

ENGINE OILS - RAVENOL

SFE Super Fuel Economy 5W-20

DA6289	1 litre
DA6288	5 litres

Ravenol SFE 5W-20 is suitable for all petrol and diesel engines requiring a 5w20 grade fuel economy lubricant, and is especially developed to meet the requirements of the latest generation of Land Rover and Jaguar vehicles fitted with 5.0L V8 units.

FLJ SAE 5W-30

DA6376	1 litre
DA6377	5 litres

Ravenol FLJ SAE 5W-30 is a universal, fuel-saving, specially-composed motor oil for modern petrol and diesel engines both with and without turbochargers, for use in automobiles and vans with extended oil change intervals.

VMO SAE 5W-40

DA6378	1 litre
DA6379	5 litres

Universal synthetic low friction motor oil especially developed for pump-jet diesel engines. Suitable for petrol & diesel engines in passenger cars & vans with & without turbo charger. Due to the specific composition Ravenol VMO SAE 5W-40 is suitable for use for several of the latest OEM requirements.

FO 5W-30

DA6291	1 litre
DA6292	5 litres

Ravenol FO 5W-30 is a fuel economy engine oil, special product for modern gasoline and passenger car diesel engines.

Eco Synth ECS 0W-20

DA1804	1 litre
DA1813	5 litres

A state-of-the art PAO (Polyalphaolefin) based fully synthetic, smooth-running low-friction motor oil with Ravenol's patented USVO® and CleanSynto® technologies and is recommended for modern car petrol and diesel engines, including supercharged models, and for direct injection engines and hybrid vehicles under all operating conditions.

FDS 5W-30

DA1805	1 litre
DA1814	5 litres

A PAO (Polyalphaolefin) based, fully synthetic low friction motor oil with especially USVO® and proven CleanSynto® technologies for petrol and diesel engines with & without turbo-charging and direct injection. Ideal for use in all driving conditions such as in extreme stop-and-go traffic and high-speed motorway driving. It minimizes friction, wear and fuel consumption.

FES 0W-30

DA1806	1 litre
DA1815	5 litres

Fully synthetic, smooth-running low-friction motor oil with special USVO® and proven CleanSynto® technologies and is recommended for modern car fuel and diesel engines, including supercharged models, and for direct injection engines under all operating conditions. Using additives with low ash content it offers excellent cold start characteristics.

SSV Fuel Economy SAE 0W-30

DA1807	1 litre
DA1816	4 litres

Achieves a high viscosity index and a considerable fuel saving through of its formulation with special base oils and PAO. The excellent cold start behaviour provides an optimum lubricating safety during the cold run phase.

VDL 5W-40

DA1808	1 litre
DA1817	5 litres

Full synthetic engine oil designed for modern high performance diesel engines where improved fuel efficiency and extended protection are demanded. Minimum evaporation properties, very high wear protection and improved detergent and dispersant characteristics make this suitable for use over extended drain intervals and the harshest of conditions.

VST 5W-40

DA1809	1 litre
DA1819	5 litres

Utilizes the positive properties of tungsten to smooth the surface structure of the motor, significantly improving mechanical efficiency. This guarantees optimal operation in all driving conditions, extreme stop and go in heavy traffic to high speed driving on motorways.

TSi SAE 10W-40

DA6368	1 litre
DA6369	5 litres

TSi 10W-40 is suitable for year round use in modern petrol & diesel cars. For use in turbo & non-turbocharged vehicles, multi-valve & direct injection diesel engines and is catalyst-compatible. Due to the specific high quality composition of TSi 10W-40, meets and exceeds the requirements of many leading OEM's, it also carries manufacturer approvals.

Turbo-C HD-C SAE 15W-40

DA6380	1 litre
DA6381	5 litres

It is perfectly suited as all-season motor oil for the mixed fleet. It can be used in the commercial vehicle sector for operation and extended oil change interval (up to 45,000 kilometres are possible) according to manufacturer's specifications.

EHS 0W-20

DA3540 1 litre

A synthetic, low-friction engine oil with CleanSynto® technology for car petrol and diesel engines, with or without turbo-charging and direct injection. It minimizes friction, wear and fuel consumption, and is suitable for extended oil drain intervals according to manufacturer's instructions.

More information on all these Ravenol products at **www.britpart.com/ravenol**

Ravenol the renowned German Manufacturer is one of the most technically innovative companies in the lubricants industry. Ravenol prides itself on the special formulations, unique design and its exacting manufacturing processes that are individually tailored to suit customer needs. This is why the demand for Ravenol product is growing worldwide. In the advanced in-house laboratories products are carefully developed to meet and exceed the requirements of the major automotive manufacturers and to comply with all current and future regulations. Across the globe, Ravenol has earned an enviable reputation for innovation and technical excellence. Ravenol have developed an extensive range of products meeting and exceeding Land Rover requirements resulting in quieter running engines with improved fuel economy and smoother gear changes. Whichever Land Rover/ Range Rover model you drive, wherever and however you drive it, Ravenol have developed a lubricant to meet your specific requirements. We at Britpart not only recommend the use of Ravenol lubricants in your Land Rover, but use them in our own fleet of Land Rovers, trucks and vans.

RAVENOL WORKSHOP CONSUMABLES

Organic Technology Coolant Concentrate

DA6293	1.5 litres
DA6294	5 litres

Ravenol Organic Technology Coolant Concentrate is an eco-friendly 1.2- Ethanediol (monoethylene glycol) based silicate, borate, nitrite and phosphate-free coolant for cooling circuits in combustion engines which provides maintenance-free corrosion and frost protection.

Traditional Technology Coolant Concentrate

DA1812	1.5 litres
DA1821	5 litres

An eco-friendly 1.2-Ethanediol (monoethylene glycol) based nitrite, amine and phosphate-free coolant for cooling circuits in combustion engines which provides maintenance-free corrosion and frost protection. The product is formulated as a long-term coolant based on a proven inhibitor development.

SSF Power Steering Fluid

STC50519	1 litre
STC50519-20L	20 litres

Ravenol SSF Fluid is a special hydraulic fluid formulated using the latest fully synthetic technology blended with special ashless additives. It is designed for use from -40°C to +100°C and is therefore recommended for the latest developments in the vehicle market.

Diesel System Cleaner

DA4962 300ml

A fuel additive for all diesel engines which cleans the fuel injection system and restores the full power of the engine, whilst increasing operational safety & improving fuel economy. It is a cleaning agent for electronically & mechanically controlled fuel injectors which allows for combustion with a low degree of soot & reduced particles whilst preventing rattling noises & rough idling.

Engine Cleaner

DA3940 300ml

An engine flush suitable for all petrol and diesel engines (with and without catalytic converter) for use before changing the oil. It effectively breaks down dirt accumulation sludge and carbon deposits in the engine using intensive-cleaning surfactants and removes these effectively when draining used oil, thus improving combustion and fuel efficiency.

Multi-purpose Grease

DA4960	400g
DA4961	5kg

Ravenol Mehrzweckfett OML is a lithium based multi-purpose grease with oxidation and corrosion protective additives.

TRANSMISSION OILS - RAVENOL

ATF 5/4 HP Fluid
STC4863 1 litre
DA1579 20 litres
Ravenol ATF 5/4 HP Fluid is primarily designed for use in ZF 4HP-series (4HP20, 4HP22, 4HP24) and 5HP-series (5HP18, 5HP19, 5HP24, 5HP30) automatic transmissions.

ATF T-WS Lifetime Fluid
DA6374 1 litre
DA6375 4 litres
An automatic transmission fluid based on the latest HC/HT and PAO synthetic technology. Due to the special formulation the durability is up to twice that of a comparable standard ATF oil.

ATF JF506E Fluid
STC50531 1 litre
Ravenol ATF JF506E is primarily designed for use in JATCO JF506E 5-speed automatic transmissions used in Land Rover Freelander.

DGL SAE 75W-85 GL-5 LS
LR052059 1 litre
A fully synthetic multi-grade PAO based hypoid transmission oil meeting API GL-5 specification with a specially co-ordinated additive treatment and 'limited slip' properties for manual transmissions and rear-axles.

VSG 75W-90 Gear Oil
TYK500010 1 litre
TYK500010-4L 4 litres
TYK500010-20L 20 litres
Suitable for use in both synchromesh & non-synchromesh gearboxes & perfectly suited for use in highly stressed axle drives and differentials. Used in many high performance and motorsport applications as well as for road use in cars where maximum protection & fuel economy are desired.

MTF-1 SAE 75W-85
DA1826 1 litre
Full synthetic, low-viscosity transmission oil for manual transmissions, transfer cases and differential gears. Designed to exceed the OEM requirements and specifications for a fuel efficient lubricant which combines outstanding performance at both hot and cold temperature extremes, even with extended oil change intervals.

MTF-2 75W-80 Gear Oil
TYK500030 1 litre
TYK500030-4L 4 litres
Ravenol MTF-2 SAE 75W-80 is ideally suited to ensure smooth and efficient operation of modern transmissions subject to very high mechanical and thermal loads of gear oils, even at the longest oil change intervals.

MTF-3 75W
DA1811 1 litre
DA1820 4 litres
A fully synthetic, fuel efficient gear oil formulated using the latest PAO synthetic technology and special additive systems to combat very high mechanical and thermal loads, even at the longest oil change intervals.

ATF 6HP Fluid
TYK500050 1 litre
TYK500050-4L 4 litres
TYK500050-20L 20 litres
TYK500050-208L 208 ltrs
Ravenol ATF 6HP Fluid was developed specifically for use in the latest ZF 6HP-series transmissions, 6HP19, 6HP21, 6HP26, 6HP28, 6HP32, 6HP34, also for 5-speed automatic transmission 5HP-series. It is backwardly compatible for all earlier versions of ZF 4.

Multi-disc Locking Differentials Semi-synthetic Lubricant
LR019727 1 litre
Ravenol MDL multi-disc locking differentials was developed specifically for use in lamella limited slip differentials.

Transfer Fluid TF-0870
IYK500010 1 litre
IYK500010-20L 20 litres
Ravenol Transfer Fluid TF-0870 was developed for use in active transfer case and provides a stable viscosity even under the highest loads.

ATF Dexron D II
DA6372 1 litre
DA6373 4 litres
It was developed for the use in automatic transmissions, hydro steering mechanisms, converters and power transmissions and can be used as a universal ATF (automatic transmission fluid) for all vehicles and working machines.

ATF T-IV Fluid
LR022460 1 litre
LR002748 1 litre
Ravenol ATF T-IV Fluid was primarily developed for use in the latest Aisin Warner and Toyota transmissions found in many modern European and Japanese vehicles, and its versatile formulation means it can also be used to replace older T, T-II and T-III fluids where required, as well as fulfilling many other manufacturer requirements.

ATF Dexron IIIH
STC4862 1 litre
STC4862-20L 20 litres
Ravenol ATF Dexron III H was primarily developed for use in automatic transmissions with electronically controlled converter lockup clutch, but also suitable for use as a universal ATF and power steering fluid, especially where Dexron III is the required specification, and is backwards compatible for Dexron II applications.

EPX SAE 80W-90 GL
LR003156 1 litre
Ravenol Getriebeoel EPX SAE 80W-90 GL 5 is compatible with all brand-name transmission oils. In case of changing to Ravenol EPX SAE 80W-90 GL 5 flushing is not necessary. It can be used in manual transmissions, axle drives, distributor and intermediate transmissions in vehicles and working machines.

ATF 8HP
LR023288 1 litre
DA3240 4 litres
DA1345 20 litres
Ravenol ATF 8HP Fluid is an automatic transmission fluid (ATF), produced with a blend of hydrocrack oils & synthetic PAO together with special additives & inhibitors to enable smooth and efficient function of the latest ZF automatic transmissions. Ravenol ATF 8HP Fluid has been formulated specifically for the latest generation of 8-speed ZF auto transmissions and is coloured green for easy identification.

AWD-H Fluid
DA1569 300ml
DA2886 1 litre
A special high-performance transmission oil suitable for rear AWD coupling control units. Ravenol AWD-H Fluid should be changed every 37,500 miles in order to avoid damage to the powertrain.

ATF 9HP Fluid
DA3539 1 litre
Specifically designed for use in automatic ZF transmission from the 9HP-Series, such as 9HP48. It guarantees maximum wear protection in any operating condition. This is a fully synthetic ATF, developed using PAO (Poly-alpha-olefin) blended with special additives and inhibitors to ensure correct functioning of the automatic transmission.

More information on all these Ravenol products at
www.britpart.com/ravenol

RAVENOL CLASSIC OILS

The need for Classic Oils?

Oils for modern engines need to comply with the latest API ratings and specific ACEA and OEM specifications concerned with improving fuel efficiency, extending oil drain intervals and exhaust treatment systems such as diesel particle filters.

A classic car engine has the opposite characteristics with cork/graphite/rope seals, low pressure gear driven oil pumps, larger oil galleries with greater dependence on "splash" and "cling" lubrication, lower revving with larger machining tolerances. This type of engine design demands a totally different lubricant. The range of Ravenol Classic Oils offers formulations that have been specially blended to meet the requirements of older vehicles.

Special anti-wear additives with the correct amount of zinc (ZDDP) are added to ensure that metal to metal contact and irreparable engine damage is prevented, especially to camshafts and followers, which can wear out in only a few thousand miles when using modern oils. The careful selection of appropriate corrosion inhibitors, special dispersant additives and the correct levels of detergency protect against pitting, the build-up of gums, lacquers, sludge, soot and metallic ash - the normal by-products of combustion.

Ravenol Classic SAE 30
DA4963 5 litres
Monograde engine oil for pre-1960 Land Rovers

Ravenol Classic SE 20W-50
DA4964 5 litres
Multi-grade engine oil for post 1960 petrol Land Rovers

Ravenol MZG EP 80W-90 GL4
DA4965 1 litre
DA1532 4 litres
Transmission oil for early Land Rover gearboxes, transfer boxes & differentials. Recommended for the lubrication of all manual transmissions, differential gears, transfer boxes and steering boxes of most early Land Rovers where a GL4 specification is called for.

By using Ravenol Classic Oils in your classic Land Rover you are protecting both engine and transmission - for generations to come.

ADBLUE

DA1622 1 x 10 litre drum with spout
DA1622X 60 x 10 litre drums with spout

- Conforms to ISO22241 as specified by all vehicle manufacturers. Every batch is independently tested before release
- Suitable for diesel vehicles & machinery fitted with SCR emission removal systems. If in doubt, refer to operating manual
- 32.5% solution of pure urea in demineralised water
- Reduces Nitrous Oxide (NOx) emissions
- Ready to use

LR072258G
4 x 1.89 litre (½ gallon) bottles
Previously this has only been available through Land Rover, now Britpart have the OE supplier product in stock

DR. TRANNY® INSTANT SHUDDER FIXX™

DA6809 2fl oz (59.2ml)
Packaged in a uniquely engineered two ounce application tube Dr. Tranny® Instant Shudder Fixx™ is compatible with conventional or synthetic automatic transmission fluids. This formulation of friction modifiers made of synthetics and synthetic esters is concentrated five times.

- A concentrated friction modifier formulated specifically for instantly eliminating torque converter lock-up shudder
- Provides 4x's less wear than regular ATF
- The original shudder fix
- Compatible with conventional and synthetic ATFs
- Commonly used as a diagnostic tool to determine if a problem is fluid related or a more mechanical fix is required

COOLANTS/ANTI-FREEZE

Morris Ultralife Red Anti-freeze
LR181438 1 litre
LR181439 5 litres
LR181439-20L 20 litres
Suitable for the cooling systems of modern engines in cars, vans, trucks and contractors plant, where an OAT anti-freeze is recommended.

Morris MEG Anti-freeze & Radiator Coolant
DA3952 1 litre
DA3951 5 litres
MEG Anti-freeze will protect engines from frost damage right down to -40°C, whilst providing outstanding protection against rust and corrosion for all parts of the cooling system for 2 years.

Texaco EGX concentrate
LR181439G 5 litres

Havoline Xtended Life
LR181438G 1 litre

Land Rover
Anti-freeze/coolant
PDA500300LR 20 litres
Extended life anti-freeze/coolant
STC50529LR 1 litre

BRAKE FLUIDS

LR090832G TRW | 500ml
LR052653G TRW | 1 litre
LR067409 Castrol React SRF Racing | 1ltr
High performance brake fluid of special value in competitive motor sport where extreme braking conditions are encountered.

LEAD REPLACEMENT PETROL ADDITIVES

DA6267 | Classic Valvemaster™ Plus
250ml bottle - treats 250 litres
Valvemaster Plus with its unique phosphorus formula provides the ultimate protection against valve seat recession. Valvemaster Plus contains Octimise-Plus friction modifier for increased acceleration and economy, increasing acceleration by up to 3% and increasing economy by up to 2%. It also contains Etha-Guard ethanol stabiliser, enabling the use of Ethanol E5 and E10 petrol, preventing acidity, protecting against corrosion and keeping the fuel system clean. Valvemaster Plus can be used with 95, 97, 98, 99 or higher octane rated petrol containing E5 or E10 ethanol.

- The best protection after lead against valve seat recession
- Increases fuel economy by up to 2%
- Protects your engine under all driving conditions
- Keeps fuel systems clean
- Protects against corrosion
- Increases acceleration by up to 3%

DA6266 | Classic Valvemaster™
250ml bottle - treats 250 litres
Valvemaster with its unique phosphorus formula protects against valve seat recession under all driving conditions. Containing Etha-Guard ethanol stabiliser that protects and enables use of ethanol E5 and E10 petrol in classic cars and pre-1996 petrol vehicles. For use with 95, 97, 98, 99, or higher octane ethanol E5 and E10 petrol. Valvemaster is the recommended solution for vehicles requiring valve seat protection.

- The best protection after lead against valve seat recession
- Protects your engine under all driving conditions
- Keeps fuel systems clean
- Protects against corrosion

DPF CLEANER

Wynn's Diesel Particulate Filter Cleaner
DA6859 325ml
Chemical treatment for diesel engines that reduces soot emissions, cleans and regenerates the particulate filter.

- Reduces soot formation during the fuel combustion cycle.
- Clears and regenerates blocked soot filters without dismantling.
- Complete burn-off of soot particles during driving.
- Avoids frequent maintenance costs related to the manual regeneration of the blocked soot filter
- Optimizes combustion and lowers fuel consumption
- Especially suited for city driving cycles
- Can be used in combination with built-in regeneration systems
- Ultra-fast result!

TETRABOOST

TetraBOOST Fuel Life Extender
DA3671 1 x 50ml bottle
DA2911 12 x 50ml bottles
TetraBOOST Fuel Life Extender addresses the increasingly common problem of today's petrol 'going off', which causes difficult starting after a period of storage.

- One 50ml bottle for up to 50 litres of petrol
- Extends petrol storage life
- Slowly disperses existing sludge
- Ideal for winter storage

FRICTION MODIFIER

DA6296 | Oil Additive - Friction Modifier
850ml

CV JOINT GREASE

DA2833 CV Joint Grease \ 90g sachet

AIR-CON COMPRESSOR OIL

DA3265 | Mahle PAO AA1 - PLUS UV
500ml
air con compressor lubricant for air conditioning systems in vehicles with conventional petrol or diesel engines.

CATACLEAN CLEANERS

DA3327 | Cataclean Work Shop
5 litres

- Improves fuel economy
- Reduces emissions
- Restores performance
- Protects & maintains catalytic converter
- Reduces risk of petrol particulate filter (PPF) and diesel particulate filter (DPF) clogging

Cataclean is a fuel and exhaust system cleaner. Cataclean will remove the harmful carbon build-up in the valves, injectors, oxygen sensors, EGR valve, and catalytic converter. Cataclean will also reduce the particulates in a PPF, preventing clogging. Cataclean can improve fuel economy, reduce emissions, restore performance and extend the life of engine/exhaust parts.

DA3325 | Cataclean Diesel
500ml

- Improves fuel economy
- Reduces emissions
- Restores performance
- Protects & maintains catalytic converter
- Reduces risk of diesel particulate filter (DPF) clogging

Cataclean is a fuel & exhaust system cleaner and will remove the harmful carbon build-up in the valves, injectors, oxygen sensors, EGR valve, and catalytic converter. It will also reduce the particulates in a DPF, preventing clogging.
Cataclean can improve fuel economy, reduce emissions, restore performance and extend the life of engine/exhaust parts.

DA3326 | Cataclean Petrol
500ml

- Improves fuel economy
- Reduces emissions
- Restores performance
- Protects & maintains catalytic converter

Cataclean is a fuel and exhaust system cleaner. Cataclean will remove the harmful carbon build-up in the valves, injectors, oxygen sensors, EGR valve and catalytic converter. Cataclean can improve fuel economy, reduce emissions, restore performance and extend the life of engine/exhaust parts.

CATACLEAN

BEARING GREASE

DA2391
10 x 20ml sachets of bearing grease

EVANS WATERLESS COOLANTS & PREP FLUID

Power Cool 180° & Classic Cool 180°

Benefits Over Water-based Coolants

Eliminates Overheating
Evans Waterless Coolants have a boiling point above 180°C and will not vaporise, thus eliminating overheating, boil-over and after-boil.

Reduces Pressure
Evans Waterless Coolants generate very low vapour pressures reducing strain on engine hoses and cooling system components.

Prevents Corrosion
Water promotes corrosion via oxidation and electrolysis - Evans Waterless Coolants contain no oxygen and are virtually non-conductive effectively preventing corrosion.

Maximise BHP
Evans Waterless Coolants eliminate pre-ignition and detonation caused by overheating - thus increasing combustion efficiency and delivering more power.

Stops Erosion
Evans Waterless Coolants stop cavitation and eliminate liner and cooling pump erosion.

Freeze Protection
Evans Waterless Coolants freeze below -40°C

Non-Toxic
Evans Waterless Coolants are proven to be non-toxic. Standard anti-freeze is toxic and known to kill pets.

Power Cool 180°

DA3434	25 litres
DA3435	5 litres
DA3436	2 litres

Description - Waterless engine coolant for modern & performance engines.

Application - For use in modern & performance car engines and associated cooling systems fabricated from aluminium, aluminium alloys, steel and copper components.

4-Life Durability - Evans Waterless Engine Coolants have been proven to last >20 years and a million miles in service without the need for replacement.

ASTM & ISO Standards - Evans in association with ASTM committee D15.22 have developed a specific range of standards for waterless engine coolants. All Evans Coolants are manufactured in accordance with certified ISO procedural standards.

Typical Characteristics
Physical state : Low viscosity synthetic liquid
Boiling point : Above 180˚C
Freezing point : Below -40˚C
Colour : Red clear
Odour : Almost odourless
Taste : Slightly sweet, non-toxic but not recommended for human consumption

High Performance Synthetic Formula

EVANS

Advanced Cooling for Classic Cars

Classic Cool 180°

DA3437	25 litres
DA3438	5 litres
DA3439	2 litres

Description - Waterless engine coolant for classic cars.

Application - For use in classic car engines* primarily fabricated from cast iron with carbon steel, copper & aluminium components. *Not suitable for engines using thermo-syphon cooling systems

4-Life Durability - Evans Waterless Engine Coolants have been proven to last >20 years and a million miles in service without the need for replacement.

ASTM & ISO Standards - Evans in association with ASTM committee D15.22 have developed a specific range of standards for waterless engine coolants. All Evans Coolants are manufactured in accordance with certified ISO procedural standards.

Typical Characteristics
Physical state : Low viscosity synthetic liquid
Boiling point : Above 180˚C
Freezing point : Below -40˚C
Colour : Green clear
Odour : Almost odourless
Taste : Slightly sweet, non-toxic but not recommended for human consumption

Evans Prep Fluid

Benefits

Flushing - Evans Prep Fluid is formulated to hygroscopically absorb water whilst flushing loose dirt and scale from the cooling system prior to filling with Evans Waterless Coolant.

No Water - Prep Fluid contains no water eliminating the problems caused by water based coolants, increasing reliability and extending engine life.

Non-Toxic - Prep Fluid has been tested and certified as non-toxic by an EPA approved laboratory. It is biodegradable and will not bio-accumulate.

DA3440	25 litres
DA3441	5 litres
DA3442	2 litres

Description - Waterless engine flush for all engine types

Application - Designed as a preparatory fluid to help remove residual water from engine cooling systems as part of the fluid conversion process.

ASTM & ISO Standards - Evans in association with ASTM committee D15.22 have developed a specific range of standards for waterless engine coolants. All Evans Coolants are manufactured in accordance with certified ISO procedural standards.

Typical Characteristics
Physical state : Low viscosity synthetic liquid
Boiling point : Above 180°C
Freezing point : Below -40°C
Colour : Clear
Odour : Almost odourless
Taste : Slightly sweet, non-toxic but not recommended for human consumption

DEGREASING FLUID

DA3544 | Lydian Degreasing Fluid
5 litres

Lydian Degreaser is a ready for use, blue coloured emulsifiable fluid, manufactured from a mixture of hydrocarbon solvents and a non-ionic detergent. This powerful degreasing formulation acts by splitting the bond between solid dirt and oily matter, so that the surface can then be washed clean with water. It has an extremely effective cleaning action on all surfaces, even at low ambient temperature. Lydian is non-caustic, it will not corrode metal parts and washes away cleanly without leaving any harmful or corrosive residues on the surfaces.

Features
- Highly effective cleaning action
- Easy to remove with water
- Non-caustic
- Safe on metal parts

Applications
Recommended for removal of oil grease and dirt from metal, paintwork and concrete. Typical uses include cleaning used engines prior to overhaul, removing build-up on pipes and steelworks, cleaning concrete and brickwork. Many uses can be found in factories, yards and compounds, where oil and grease build up is a problem, or perhaps even dangerous for vehicles and pedestrians. Lydian is always more effective if it can be allowed to soak into the dirt and surfaces for several hours, or even overnight before hosing off. Lydian is easily applied by spraying, brush or dipping. Do not use Lydian on Tarmac as it will soften this type of surfacing.

It is also not advisable to use Lydian in parts washers with plastic components as its aggressive nature may harm them. Under no circumstances should this product, neat or diluted, be disposed of by putting into drains, soil or water courses.

LUBEGARD® GEAR FLUID SUPPLEMENT

DA1905 | Lubegard® Gear Fluid Supplement
237ml bottle

Designed for use in all manual transmissions, transaxles and final drives that require gear oil. Lubegard® contains LXE®, (liquid wax esters) and their derivatives, a blend of high grade petroleum oil, synthetic base oils and a complete anti-wear formula. Lubegard® is designed to provide high temperature stability to prevent harmful deposits on synchros and gears. For use in all manual transmissions, manual transaxles and final drives that require gear oil.

- Reduces drive train power loss
- Lowers temperature and extends fluid life
- Improves heat transfer from the fluid to the case wall and out the gear box
- Improves all cold weather stiffness
- Improves all manual & synchromesh transmission shifting characteristics
- Reduces tooth drag and absorbs shock loads, thus improves the life of all gear units
- Lowers friction on bearings and gears with high wiping stresses, especially hypoid gears
- Minimizes oxidation and varnish deposits
- Suppresses lubricant foaming
- Safe for new MTF Fluids
- Increases power transfer, reduces energy consumption
- Decreases equipment operating and maintenance costs
- Much more information online at www.britpart.com/DA1905

LUBEGARD®

SWIVEL HOUSING GREASE

STC3435	370g bottle
STC3435S	370g sachet

- Formulated for all Land Rover models with ball type swivel housings
- Lubricates swivel pins and housing seals, protects spheres
- A semi-fluid grease designed to withstand shock loading in oscillating joints
- Reinforced with solid lubricants, highly resistant to water and salt corrosion
- Better lubrication while driving, less leaks while standing
- One shot gives 'filled for life' protection

TRADE TACK STAB

DA6348 | Super Bond Spray Adhesive
250ml aerosol

- High strength
- Variable spray
- Quick
- Clean
- High tack/long tack
- Very fast set

Ideal for bonding and laminating of polyurethane foam, polystyrene foam, fibres, fabrics & felts etc to themselves.

K&N AIR FILTER CLEANERS

DA4275
K&N Dirt retention lubricating oil
204ml aerosol

DA3136
K&N Cleaning solution
946ml bottle

DA3137
K&N Cleaning kit
Cleaning Fluid - 355ml
Lubricating Oil - 204ml

Land Rover
1 litre

WORKSHOP CLEANER

DA3953 | Workshop Pro Solvent Cleaner
400ml
A powerful residue-free solvent degreaser and brake cleaner. A complex mixture of hydrocarbon and oxygenated solvents designed to clean and degrease all flat and irregular surfaces. Workshop Pro Solvent Cleaner is free from chlorinated and other ozone depleting solvents and is provided in aerosol form to provide an easy means of applying to surfaces, the powerful jet allowing easy purging of blind holes and crevices. After degreasing, the solvent evaporates rapidly leaving components chemically clean and free from oily and corrosive residues. The low temperature resulting from rapid evaporation may, in some instances, be used for shrink-fitting of small mechanical parts.

Features

- Excellent degreasing properties
- Rapid removal of dirt and debris
- Chlorine free
- Applications
- Particularly designed to remove all dirt and deposits from brake shoes and to evaporate leaving behind no residues. Also recommended for general degreasing applications in a workshop environment.

Note: Due to the flammability of the product Solvent Cleaner is not recommended for use on electrical equipment, particularly where "sparking" may occur.

AUTOMATIC TRANSMISSION FLUSHING CONSUMABLES

DA6861 | Launch UK Automatic Transmission Flushing Fluid
400ml x 24 bottles
Designed to effectively remove oxidised oil deposits, and other contaminants that can be present in +40,000 mile automatic transmissions. Suitable for all transmission types. It is particularly suitable for use with the Launch CAT501 fluid exchanger, or similar. It safely removes contaminants from mechatronic units, valve bodies, torque converters and other moving parts. Allows fresh oil to work correctly in a decontaminated environment, ensuring smooth gear shifts. It is best used with fluid exchanging equipment, but can also be used without. Run vehicle at normal operating temperature for 10-15 minutes through all ratios and lever positions on a vehicle lift. Carry out oil exchange following the manufacturers guidance. 400 ml will treat up to 10 litres of ATF, for higher capacities add 40ml per litre.

DA6867 | Wynn's Automatic Transmission Flush
325ml x 12 bottles
An oil soluble treatment developed to clean automatic gearboxes and restore their optimal operation.

- Safely removes varnish deposits
- Prepares transmission for new fluid
- Cleans all internal transmission components
- Smooths and quietens gear changes
- Prolongs component life
- Restores optimal gear shifting
- Only to be used with TranServe machine

DA6862 | Launch UK Automatic Transmission Conditioner - Care & Protect
400ml x 24 bottles
When added to automatic transmission fluid this product will support the fluid in resisting oxidation and ensuring maximum temperature stability, resulting in consistently smooth gear shifting. The product will enhance the function of many fluids, helping to reduce oxidation and extend the effectiveness of the complex additive packs present in automatic transmission fluids. The product is best applied using the Launch CAT 501S Fluid Exchanger or a compatible machine. It can be applied manually, and will treat new and old fluid, usually through the level plug, or top up point. 400ml will treat up to 10 litres of fluid. Larger capacities add 40ml per litre.

DA6248 | Wynn's Automatic Transmission Treatment
325ml x 12 cans
An oil soluble supplement developed to stop and prevent leaks and ease shifting.

- Stops and prevents leaks
- Rejuvenates rubber seals & O-rings
- Cleans and protects the system by means of detergents & dispersants
- Eases shifting
- Prevents ageing and oxidation of automatic transmission fluids
- Prolongs component life
- 1 can of 325 ml treats up to 6.5 litres automatic transmission fluid

DA6799 | Wynn's Replacement TranServe Filter
Replacement filter for Wynn's TranServe machine

TOUCH UP PAINT PENS

- TUPP single stage paint pen is ergonomic, light and easy to use
- It allows quick, one-step repairs of small scratches and nicks that may appear on any painted surface
- It will meet the highest colour matching expectations
- The patented valve mechanism and gravity action of the paint pen will give you an even flow of all components assuring the same particularities and brightness of the original finish
- An edged polyester fibre tip allows accuracy and can be removed to be cleaned or replaced
- The paint pen has a closed opaque container preventing accidental spills, hardening of the paint and colour change due to light exposure before the application

The Pen - Paint is held in a barrel and automatically dispensed through a fine felt tip, providing the user unparalleled control over their painting instrument.
The Paint - High quality urethane paint is used which is the same as your vehicles manufacturer. The paint provides the user with a much closer colour match than other companies which primarily use lacquer paints.
The Results - The best you can get without refinishing the damaged areas.

DINITROL PRODUCTS

These rustproofing kits are designed for those who don't have access to a compressor or air supply.

DA1985 | Rust Proofing Aerosol Kit - Large Car
7 x Dinitrol 3125 Cavity Wax - 500ml aerosol
10 x Dinitrol 4941 Black Underbody Wax - 500ml aerosol
1 x Dinitrol RC900 Rust Converter - 400ml aerosol
2 x 600mm Extended nozzle for aerosols
50 x 10mm Black tapered plastic plugs
1 x Aerosol application trigger attachment

DA1986 | Rust Proofing Aerosol Kit - Land Rover
7 x Dinitrol 3125 Cavity Wax - 500ml aerosol
5 x Dinitrol 445 Black Stone Chip - 500ml aerosol
5 x Dinitrol 4941 Black Underbody Wax - 500ml aerosol
1 x Dinitrol RC900 Rust Converter - 400ml aerosol
2 x 600mm Extended nozzle for aerosols
50 x 10mm Black tapered plastic plugs
1 x Aerosol application trigger attachment

DA1989 | Rust Proofing Aerosol Kit - New Vehicle
7 x Dinitrol 77B Brown Cavity Wax - 500ml aerosol
5 x Dinitrol 445 Black Stone Chip - 500ml aerosol
5 x Dinitrol 4941 Black Underbody Wax - 500ml aerosol
1 x 600mm Extended nozzle for aerosols
50 x 10mm Black tapered plastic plugs
1 x Aerosol application trigger attachment

DA1983 | Extended Nozzle
600mm extended nozzle for aerosols. Ideal for applying the Dinitrol products.

These rustproofing kits are designed for those who have access to a compressor or air supply and includes an undercoating gun for easy application.

DA1987 | Rust Proofing Litres kit - Large Car
4 x Dinitrol 3125 Liquid Cavity Wax - 1ltr bottle
6 x Dinitrol 4941 Black Underbody Protect 1ltr bottle
1 x Dinitrol RC900 Rust Converter - 400ml aerosol
1 x Shutz Gun
50 x 10mm Black tapered plastic plugs
1 x 600mm Extended nozzle for aerosols

DA1988 | Rust Proofing Litres Kit - Land Rover
4 x Dinitrol 3125 Liquid Cavity Wax - 1ltr bottle
3 x Dinitrol 445 Black Stone Chip - 1ltr bottle
3 x Dinitrol 4941 Black Underbody Protect - 1ltr bottle
1 x Dinitrol RC900 Rust Converter - 400ml aerosol
1 x Shutz Gun
50 x 10mm Black tapered plastic plugs
1 x 600mm Extended nozzle for aerosols

DA1990 | Rust Proofing Litres Kit - New Vehicles
4 x Dinitrol 3654 ML4 Cavity Wax - 1ltr bottle
3 x Dinitrol 445 Black Stone Chip - 1ltr bottle
3 x Dinitrol 4941 Black Underbody Protect - 1ltr bottle
1 x Shutz Gun
50 x 10mm Black tapered plastic plugs

Dinitrol 77B
DA1984 - 500ml aerosol | **DA1982** - 1 litre canister
Dinitrol 77B is a corrosion preventive fluid, designed for long-term protection against corrosion and, due to its residual hard film affords some protection against mechanical wear. Dinitrol 77B contains environmentally acceptable low aromatic solvents, which once evaporated leaves a thick, brown waxy film. Dinitrol 77B is primarily designed for cavity protection but may also be used for storage, transport and underbody protection.

Dinitrol 3125 HS
DA1991 - 500ml aerosol | **DA1997** - 1 litre canister
Dinitrol 3125 HS is designed for application mainly as a cavity protection and a thin underbody coating. Main objects to be treated are used vehicles with some corrosion present. For improved performance on more corroded surfaces, Dinitrol ML or Dinitrol ML HS can be used as a pre-treatment. The slightly thixotropic nature of the product ensures an evenly applied film to the required thickness and strength.

DA1992 | Dinitrol 3654 / ML 4
1 litre canister
The product is designed for application in closed cavities, doors and other parts. Dinitrol 3654 is also designed for use on spare parts etc, which are to be stored for long periods.

Dinitrol 4941
DA1996 - 500ml aerosol | **DA1995** - 1 litre canister
Dinitrol 4941 is a black underbody chassis coating that contains self-healing properties to recover any small damaged areas within the coating layer. Once Dinitrol 4941 is applied to the underbody chassis area it seals and protects the surface from rust-accelerating water and oxygen.

Dinitrol Dröhnex 445
DA1994 - 500ml aerosol | **DA1993** - 1 litre canister
Stone chipping & corrosion protection coating Black coloured long-term protection product against corrosion and stone chipping with a synthetic resin/plastic basis.

DA1998 | Dinitrol Converust RC 900
400ml aerosol
Dinitrol RC 900 actively converts rust on substrates into a stable organic iron complex. Once the product is dry, an impermeable barrier against further corrosion is formed. Dinitrol RC 900 penetrates rust 7 to 10 times deeper than standard rust converters. The product forms a strong dry adhesive film that provides a suitable base for paintwork and other corrosion protection products.

Dinitrol ML
DA1958 - 500ml aerosol | **DA1959** - 1 litre canister
This oil based brown coloured product is specially designed for applying into closed cavities such as doors, frame members and exterior joints and crevices. Dinitrol ML is a penetrating cavity wax ideal for rust-proofing second-hand vehicles. Can be used as a pre-treatment for Dinitrol 3125HS on more corroded surfaces after prior application of Dinitrol RC900 Converust.

DA3670 | Dinitrol 4010 Corroheat
500ml aerosol
Resistant corrosion inhibitor for surface and engine protection. Dinitrol 4010 Corroheat is versatile and can be used in both open and closed areas. The product penetrates like a cavity wax. It can also be used in electrical systems to avoid galvanic corrosion and other negative influences such as moisture.

DA5187 | Dinitrol 958 - Waterborne Stonechip Protection
1 litre canister **NEW**
A quick-drying, environmentally friendly, waterborne stonechip protection product designed for use in the repair market. It protects exposed parts such as door sills, spoilers, shock absorbers, wheel housings, and edges. After application, Dinitrol 958 generates a black, flexible film that effectively protects vehicles against stone chip and road salt. Upon drying, the film can be coated with most car paints.

DA1980 | Dinitrol 449
1 litre canister
Vehicle bitumen based underbody and stonechip coating
Dinitrol 449 is an environmentally friendly black coloured bitumen based underbody and stonechip coating with good corrosion protection and sound deadening properties. After curing Dinitrol 449 has a very durable tough and elastic film, which results in a very good stonechip resistance. The product is NOT overpaintable

DA1981 | Dinitrol 977
1 litre canister
Dinitrol 977 is a semi-transparent, waterbased liquid anti corrosion coating for the protection of cavity areas where a rust preventative surface is needed. The product is water-repellent and has very good penetrating properties. After drying remains a wax coating which has a good temperature resistance up to ca.+120 deg C and is almost tack free. When dried Dinitrol 977 is heated by sun or by engine-heat, it does not have the typical smell of conventional cavity-waxes.

Dinitrol 449 and Dinitrol 977 can be used together to form a comprehensive water borne corrosion protection system application. Rather than applying both products separately, we recommend a two-layer application method with Dinitrol 977 and Dinitrol 449. This unique combination is very effective on surfaces that are already corroded.

For much more information on each of the Dinitrol products in each kit and the technical data sheets -

www.britpart.com/dinitrol

The Dinitrol DIY Rustproofing Kits are perfect for protecting your own Land Rover. The rustproofing treatments can be applied in 6 easy steps.

RAPTOR PROTECTIVE COATING

Full product details
& see how easy it is to use
www.britpart.com/raptor

TOUGH & TINTABLE protective coating

Raptor is a highly durable protective coating that ensures protection against mechanical damage, fuels, hydraulic oils, rust, corrosion, salt water, damp, extreme temperatures and off-road muddy good fun.

Surfaces*
- Painted surfaces
- Aluminium
- Steel
- Bare metal
- GRP
- Galvanised
- Plastics
- Wood
- Polyester fillers
- Glass
- SMC

Usage
- Automotive
- Off-road
- Marine
- Commercial
- Industrial
- Agricultural

*Some substrates require additional surface preparation before applying Raptor.

Customisable

Raptor is available in black and tintable versions. The tintable version can be altered to suit the colour of your vehicle by adding a small amount of automotive solvent paint. Raptor can be applied as a smooth finish through to a very coarse finish.

Features & Benefits
- Easy to use: simply FILL - SHAKE - SHOOT®
- Easy to clean
- Provides excellent UV protection
- Sound deadener (reduces noise and vibrations)
- Waterproof - provides a water tight seal, keeping water out and protects new surfaces against rust
- Protects against rust, corrosion, salt, damp and extreme temperatures
- High resistance to everyday and off-road use
- Abrasion and stain resistant
- Dries rapidly, is flexible
- Provides excellent adhesion
- No need to wax after application

Application Areas
- Chequer plate and grills
- Loading area
- Underbody protection
- Bumpers and bull bars
- Sills, side rails and steps
- Wheels and wheel arches
- Part and full vehicle overspray
- And much more...

Application Methods
- Raptor application gun
- Roller
- Brush

Achieve Different Textures
- Flat rippled
- Matt rough
- Coarse ripple
- Smooth fine silky

One half of this Discovery 1 corner bumper is a very tired looking, tatty and weather beaten bit of plastic. The other half is transformed with a coating of Raptor and it will stay like this as Raptor is UV resistant.

DA6382

DA6371	1 x 5 litres of Raptor hardener

RAPTOR

RAPTOR PROTECTIVE COATING

Raptor 2K Multi-Use Protective Coating
DA6644
Black | 1 x 400ml aerosol
DA6665
White | 1 x 400ml aerosol

Use 2K Raptor aerosols to touch up your Land Rover's lower panels, wheel arches, bumpers, roll bars and many other vulnerable areas.

- Superior durability
- UV Protection
- Chemical and abrasion resistant
- Water resistant finish keeps moisture out, protecting against rust and corrosion
- Use on multiple substrates from original paint, metals, rigid plastic, fibreglass, polyester body fillers, wood and more
- Ideal for small jobs and bed liner repairs
- Easy no mess, no clean-up application vs traditional spray equipment
- Easy to activate
- Create a range of textured 'gun' finishes from one can
- Patented delivery system

Achieve different textures with your aerosol

- Flat rippled
- Matt rough
- Coarse ripple
- Smooth fine silky

Raptor 1K Multi-Use Protective 1k Aerosol
DA6650
Black | 1 x 450ml aerosol
Raptor multi-use protective coating protects a variety of surfaces from impact, scratches, corrosion and water damage. Ideal for vehicles, trailers, railings, stairs, metal furniture and more. Its 1K formulation gives a durable, abrasion resistant finish with excellent adhesion to metal, aluminium, fibreglass, plastic and wood. Clog free nozzle and easy to use, it dries to form an attractive, textured finish that resists fading from the sun.

- Textured finish
- Durable and gives good corrosion resistance
- Excellent adhesion to prepared metal, aluminium, fibreglass, plastic and wood
- Ideal for both the automotive and DIY market
- No need for an air-fed mask or spray booth

See it in use at
www.britpart.com/DA6650

Raptor Anti-Corrosive Epoxy Primer
A 2K high performance primer specifically designed to be used under Raptor Protective Coating to further extend the protective and anti-corrosive properties of Raptor. The advanced resin technology in Raptor Anti-Corrosive Epoxy Primer improves adhesion to bare metal and most other prepared surfaces. It contains a blend of anti-corrosive additives to inhibit rust and corrosion.
DA6616 5 litres
DA6647 1 x 400ml aerosol - Beige

- Easy and convenient - activate using the valve on base
- No need for spray equipment
- Ideal for both consumers & professionals

DA6616

DA6647

Raptor Colour Pouches
DA3332 NEW Beige | RAL 1001
DA3334 NEW Orange | RAL 2008
45ml Pouch. Raptor Colour Pouches are a highly concentrated tint for use with Raptor Tintable Protective Coating. Mix Raptor Colour Pouches with Raptor Tintable Base (they can fit in the bottle!) to give a rich, UV resistant colour that won't fade even after years in the sun. Available in three colours, users can choose either a single colour or use different colours to create their own multi-coloured, custom look. Simple to use. Add one Colour Pouch to Tintable Raptor bottle and hardener. Shake the bottle for 2 minutes to make sure the colour is thoroughly mixed. Ready to apply.

DA6393 DA3344

ACID#8™: Acid Etch Primer
DA6393 450ml aerosol
Promotes paint adhesion to difficult substrates such as galvanised steel & aluminium.

WIPE #6 Solvent-Based Degreaser
DA3344 450ml aerosol
An anti-static, anti-silicone degreaser that removes contaminants including wax, grease and silicones. Fast evaporating for localised repairs. Formulated to avoid attack on existing paint film. Can be used on bare metal and existing paint surfaces.

ISOPON REPAIR CONSUMABLES

DA6609 | Scratch & Stone Chip Filler
A durable easy to use filler that's been specially formulated to repair fine scratches, stone chips and other minor damage. Used straight from the tube, it dries fast and is easy to sand smooth ready to prime. Just follow the simple instructions in this guide for a quick and easy repair.

DA6606 | Stone Chip Protector
Long lasting protection from stone chips and rust. Can be over-painted. Specially formulated to protect sills, side skirts and the underside of vehicles from stone chips and rust. The black, quick drying spray formula is fast, easy to use and gives long lasting protection with just two coats.

DA6276 | Metalik Paste
Long recognised as one of the only body fillers that will adhere to a Land Rover's aluminium body. A two component multi-functional smooth metallic body filler paste used for the filling of holes & imperfections in most substrates. It has been specially formulated for the professional user and combines good filling and smooth spreading properties together with ease of sanding. Metalik Paste is suitable for use on the following surfaces; bare metal, eg steel aluminium and zinc coated substrates (degrease and abrade with P80 paper), original painted surfaces (with the exception of thermoplastic acrylics - degrease and abrade with P180 paper) and GRP (degrease and abrade with P80 paper). 2K polyester body filler contains aluminium flakes and is smooth spreading with good adhesion & pinhole free. Sandable after 20 minutes (at 20C) and can be over-painted with most paint systems including 2K.

HYLOMAR EXHAUST PASTE & PUTTY

DA6702 | Hylomar Exhaust Assembly Paste
500g Tube
- Water based
- Heat curing
- Specifically designed for use in the assembly of exhaust systems for automotive and other general applications
- Asbestos free
- Withstand high temperature and pressure

Hylomar Exhaust Assembly Paste is a water based, heat curing product. It has been specifically designed for use with exhaust systems for automotive and other general applications. The exhaust paste formulation will withstand both pressure and temperatures typically found in vehicle exhaust systems. Hylomar Exhaust Assembly Paste lubricates joints to make assembly easier and faster.
Appearance - Light Brown/Beige
Specific Gravity @ 20°C - (68°F) (ASTM D4659) 1.89
Service Temperature - Up to 1,000°C

DA6672 | Hylomar Exhaust Repair Putty
250g Tub
Specifically formulated to fill small holes and cracks in exhaust systems thus delaying the need for replacement.
- Water based
- Heat curing
- Withstand high temperatures & pressure
- Specifically designed for use in the assembly of exhaust systems for automotive and other general applications

Hylomar Exhaust Repair Putty is a water based, heat curing product. It has been specifically designed for use in the repair of exhaust systems for automotive and other general applications. The exhaust putty formulation will withstand both pressure and temperatures typically found in vehicle exhaust systems. When heated the product cures to form a gas tight seal.
Appearance - Viscous Dark Grey
Specific Gravity @ 20°C (68°F) (ASTM D4659) 1.89
Service Temperature - Up to 1,000°C

HYLOMAR SEALANTS & COMPOUNDS

RTC3347 | Hylomar Universal Blue
Gasket & jointing compound - 100g
Non setting universal jointing compound that is resistant to fuels, coolants and lubricants. Use on gaskets and machined metal surfaces. High temperature capability up to 250°C with unlimited assembly time. Easy disassembly for service maintenance and allows for differential thermal expansion of components. Excellent vibration resistance.

Hylomar 101 Silicone Sealant

DA6441	Black - 85g
RTC3254	Ivory - 85g

Gasketing, sealing & bonding compound, Hylomar Silicone Sealant is a non-corrosive, low odour, room temperature vulcanising (RTV) silicone compound. It is a high performance engineering grade which is used in the automotive industry. Ideal for a variety of applications and is particularly suitable for high strength applications in odour sensitive environments. Hylomar 101 has good resistance to oils and aqueous anti-freeze agents. Unlike general-purpose silicone sealants, this sealant contains no solvents and does not evolve acetic acid during cure.

U-POL TIGER SEAL

DA6388BLK	Black
DA6388BW	White
DA6388GG	Grey

310ml cartridge
- Non-shrinking
- Permanently flexible
- Can be over-painted

A one component ready to use polyurethane sealant and adhesive that bonds to most materials including steel, aluminium and most plastics. Ideal for sealing and bonding body panels, trims and seams.

LOCTITE & TEROSON CONSUMABLES

Body Repairs

DA6310 | Freeze & Release
400ml aerosol. Shock freezing (-43°C) is a quick and convenient method for releasing seized and corroded parts.

DA6278 | Chemical Metal
180ml pack. The original rock-hard multi-purpose repair paste.

DA6614 | Leak Fix
180ml pack. Seals and repairs leaks in petrol tanks, radiators and sumps.

LOCTITE®
TEROSON®

Glues, Adhesives & Thread Lockers

Super Glue

DA6300	3g tube
DA6301	5g bottle with brush

High performance instant adhesive with thousands of applications.

DA6304 | Rear View Mirror Bonder
1 shot tube. Unique bonding system for rear view mirrors, car telephone aerials and all window mounted material.

DA6306 | Stud 'N Bearing Fit
24ml bottle. Locks and seals studs into position. Seals against leaks and vibration.

DA6314 | Super Steel Epoxy-Weld
2 x 25g tube. Sets like steel. Seals, repairs, bonds, fixes and replaces.

DA6360 | Instant Adhesive 3090
10g. Multiple-purpose 2-component, fast curing, gap filling adhesive.

Lock 'N Seal 243

STC50552	10ml bottle
DA6305	24ml bottle
DA6307	50ml bottle

Replaces traditional locking methods. Prevents bolts, screws & nuts from vibrating loose.

See website for full application details & technical specifications

Gasket Repairs

STC50550 | Silicone Black 5980
100ml tube. For flanges with permanent oil contact. Can be used for metal, plastic and painted parts. Low odour, non corrosive.

DA6707 | Silicone Grey 5660 NEW
40ml tube. For flanges with permanent water/glycol contact. Can be used for metal, plastic and painted parts. Low odour, non corrosive.

DA6365 | Silicone Copper 5990
100ml tube. For flanges exposed to high temperatures and high performance engines. Can be used for metal, plastic and painted parts. Low odour, non corrosive.

DA6366 | Silicone Blue 5926
40ml tube. Multi purpose flexible silicone sealant. For flanges of any size or shape. Can be used for metal, plastic and painted parts.

STC50550 DA6707 DA6310

DA6278

STC4404 | Hylomar 607
Silicone Sealant - 300ml
Engineering grade with excellent gap filling properties. Forms any size or shape of gasket instantly and remains flexible and will not shrink. Bonds to metal, glass, ceramics, plastics, fibres and wood. Resists most solvents. Good fluid resistance - not petrol or diesel. Electrical insulator with maximum constant operating temperature 250°C. Neutral curing. Tolerant of some oil and grease, ensure surfaces are clean.

STC4600 | Hylomar 3400
Anaerobic Gasket Compound - 300ml
Excellent resistance to automotive fluids including fuels with an operating temperature -40°C to 150°C. Machined metal to metal surface only, not suitable for pressed steel. No gap filling. Latest generation anaerobic gasket compound. Single part product. Suitable for K-Series engines. Ensure surfaces are free of oil and grease.

2.5D / 200Tdi / 300Tdi - 12 piece

LRT-12-158

LRT-12-058

Timing Pins

LRT-12-058	Timing pin (short) - Td5 engines
LRT-12-158	Timing pin (long) - Td5 engines

DA6120 | Laser Fuel Pump Locking Tool
For use with DA1120 on 3.0 TdV6 engines

DA1121 | Laser Timing Kit
Land Rover KV6 engines
The Land Rover KV6 quad cam engine has one front and two rear camshafts and these tools cover the replacement of all three belts

DA1120 | Flywheel Locking Tools & Camshaft Timing Pins
Discovery 3 - 2.7 TdV6
Discovery 4 - 3.0 TdV6
Range Rover Sport - 2005 - 2013 - 2.7 / 3.0 TdV6

DA1770 | Laser Camshaft Sprocket Holding Tool
A multi-application wrench with variable adjustment. Holds the sprocket whilst releasing the fastener. Reduces potential damage to camshaft. Designed to allow the sprocket to be held still whilst undoing fixings.

DA6116 | Laser Timing Kit
Freelander 1 - 2000 - 2006 - Td4 - M47
Range Rover - 2000 - 2006 - Td6
This set enables the correct timing to be made when servicing the BMW M47 2.0 16 engines.

DA1847 | Laser Timing Kit
Developed to allow the safe removal and replacement of the camshaft drive chains and check the engine timing on the Range Rover and Range Rover Sport 4.4L Diesel engines.
- Engine codes include: 448DT (Diesel V8 4.4L)
- Equivalent to OEM Tools: JLR 303-1620, 303-1568, 303-1243, 303-1571
- Unique camshaft timing tool design - EU registered design

DA1115 | Laser Timing Kit
Freelander 2 - 2.2 Diesel
Range Rover Evoque - 2012 - 2018 - 2.2 Diesel
Land Rover tool part numbers -
303-1277 - Camshaft pulley timing pin
303-1270/303-1059 - Flywheel locking timing pin
303-1272 - Flywheel/ring gear locking tool adaptor

DA6129 | Laser Timing Kit
Range Rover P38 - BMW Diesel
Specifically designed for the 2.5 TDS Diesel engines. This timing tool includes crankshaft holding tool, timing chain compressor, injection pump puller, shaft puller, crankshaft alignment pin, camshaft alignment tool & tensioner locking pins.

DA6112 | Timing Kit
Defender - 2.4 TDCi
Timing tool kit including timing pump removal and installation tools, camshaft/crankshaft sprocket alignment pin, chain tensioner, fuel pump cover removal tool and fuel injection pump sprocket locking tool. Supplied in metal case with foam tray.

DA1668 | Laser Timing Kit
2.0 Ingenium AJ200 Diesel engine
Discovery Sport / Range Rover Evoque - 2015 - 2018 / Jaguar F-Pace, XE, XF (2015 onwards)
Engine codes: AJ-200D, 204DT, AJ200D, AJ200, 204DTD. For locking the engine into the timed position. To be used with fuel pump locking tool DA1667. Equivalent to -

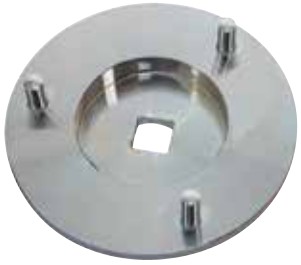
303-1625	Camshaft holding tool
303-1631	Camshaft adjuster locking/ holding tool
303-1630	Crankshaft pulley locking tool

DA6124 | Laser Timing Kit
Range Rover Sport - 2005 - 2013 - 3.6 TdV8
Range Rover - 2002 - 2012 - 3.6 TdV8
Designed to lock the camshaft and crankshaft in their timed position when performing engine rebuild or changing the cam chain. Packed in a foam tray and metal tin. Made in Sheffield.
Equivalent to -
OEM 303-1236 - camshaft alignment blocks 2 x 2 + bolts
303-1243 - flywheel locking plate
303-1239 - camshaft rotating pin
303-1238 - crankshaft timing pin

DA7539 | Laser Timing Kit
AJ200 Ingenium Petrol
Discovery 5 - 2017 onwards
Discovery Sport - 2017 onwards
Range Rover Evoque - 2017 onwards
Range Rover Sport - 2017 onwards
Range Rover Velar - 2017 onwards
All the essential components required to lock the 2.0 Ingenium petrol engines in their timed position. Made in Sheffield. Equivalent to OEM JLR-303-1630, JLR-303-1635 & JLR-303-1636. Petrol engine codes: AJ-20/PT204, AJ-200/PT204, AJ-200P/PT204, AJ200P, PT204 and AJ200.

DA3525 | Laser Engine Locking Kit for V8 5.0L
Discovery 4 / Range Rover Sport
Range Rover
Engine codes include: AJ-133/508PS and AJ-133/508PN. Timing tools to lock the camshafts and crankshaft in their timed positions. Designed for use on the post 2010 V8 5.0L engines. Kit includes the camshaft, crankshaft, flywheel locking tools and the special camshaft turning tools with the tensioning wrench required to work on the engines listed. Equivalent to OEM: 303-1482, 303-1445-1, 303-1447, 303-1445-5, 303-1303 & 303-1452. Made in Sheffield.

DA1160 | Engine Front Casing Alignment
Defender - 2007 - 2016
Land Rover tool part number - 303-682



JLR-303-1619 | Crankshaft Front Seal Remover & Installer Tool
Defender - 2007 - 2016
Newer type seal

DA1161 | Crankshaft Front Seal Remover/Installer Tool
Defender - 2007 - 2016
Older type seal
Land Rover tool part number - 303-679

DA1899 | Laser Crankshaft Locking Kit
Defender - Puma 2.2
Used to lock and time the crankshaft and flywheel to allow the TDC sensor position to be set after removal when servicing the cam chain drive system.

TIMING TOOLS

DA7593 | Laser Rear Crankshaft Tool
Designed to allow damage-free fitting of the rear main crankshaft oil seal on the AJ200 Ingenium engine. When performing major engine rebuild work on any engine it is easy to damage the rear main seal if it is not aligned and guided into place with care. This kit provides a simple and effective solution to ensure correct alignment and fitting. Equivalent to OEM JLR 303-1674.

DA6133 | Laser Crankshaft Pulley Holding Tool
Provides the required components to hold the crankshaft vibration damper in place whilst undoing the very tight pulley mounting bolt. Equivalent to OEM 303-191, 303-192, 303-193, 303-194. Designed to be used with a ½" D Power Bar. For use on AJ V8 3.2 / 4.0 / 4.2 / 4.4 petrol engines.

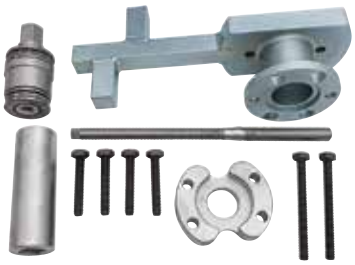
DA6550 | Laser Crankshaft Trigger Wheel Installer
Discovery 3 / Discovery 4
Range Rover Sport - 2005 - 2013
Required to install the crankshaft position sensor ring when fitted with TdV6 engine. Specifically required to repair sensor wheel dropping off or cracking.
Equivalent to OEM 303-1130
Overall dimension: 123.5mm

DA3246 | Laser Crankshaft Front Oil Seal Installation Tool
Freelander 2
Range Rover Evoque - 2012 - 2015
Designed to be used to fit the front crankshaft seal on the 2.2 DW12 diesel engines without damage to the seal or the crankshaft.
Equivalent to OEM JLR-303-1274.

DA7364 | Laser TdV8 Crankshaft Position Sensor Ring Installer
Range Rover Sport - TdV8
Range Rover - TdV8
Designed to install the TDC position sensor ring on the TdV8 diesel engines found in the Range Rover and Range Rover Sport models. It is critical that the sensor ring is fitted in the correct position in relation to the crankshaft to ensure correct injection timing. Equivalent to OEM JLR-303-1237.

DA6114 | Laser Crankshaft Rear Seal Remover/Installer Tool
Range Rover Sport - 2005 - 2009
- 4.4 / 4.2 V8 Petrol
Range Rover - 2002 - 2013
- 4.4 / 4.2 V8 Petrol
Discovery 3 - 2004 - 2009 - 4.4 V8 Petrol
Suitable for use on vehicles with the petrol AJV8 engine both N/A and supercharged. Comes complete with punch to assist seal removal on Freelander 2- 2.2Td4.
Equivalent to OEM 303-538.

DA1845 | Laser Crankshaft Seal Installation Tool
Freelander 2 - 2.2 Diesel
Range Rover Evoque - 2012 - 2018- 2.2 Diesel
Jaguar XF - 2.2 Diesel
Designed to allow the rear (flywheel end) crankshaft oil seal fitted to Land Rover 2.2 diesel engines to be installed without damage. The tool allows the rear oil seal to be pulled in to place in a controlled manner significantly reducing the chances of damaging the seal's sealing lip. Equivalent to OEM 303-1271



DA3536 | Laser Crankshaft Pulley Set
Discovery 4 / Range Rover Sport
Range Rover
Engine codes include: 3.0L AJ-126/306PS, 5.0L AJ133/508PS and 508PN.
Set of tools required for the removal of the front crankshaft pulley (crankshaft vibration damper) fitted to the JLR 3.0L V6 and 5.0L V8 petrol engines. The crankshaft pulleys used on these engines are tightened to 200Nm + 270 degrees so are very tight to undo and must be held by a substantial holding tool which the kit provides. Also included in the kit are the pulley puller components required to remove the pulley without damage. Important: Ensure the force screw is well lubricated with molybdenum disulphide grease before use.

303-1121A | Front Crank Seal Installation Tool NEW
Discovery 3 / Discovery 4
Range Rover Sport - 2005 - 2013
Range Rover - 2002 - 2012
Suitable for 2.7 / 3.0L TdV6 engines

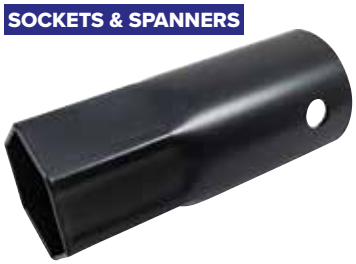
DA7360 | Laser Front Crankshaft Oil Seal Fitting
Engine applications 2.0L AJ200 Diesel engines (engine code AJ200/204DT)
Defender - 2020 onwards
Discovery Sport - 2015 - 2019
Range Rover Evoque - 2015 - 2018
Range Rover Sport - 2016 - 2018
Range Rover Velar - 2017 onwards
E-Pace - from 2017 / F-Pace - 2016 - 2020
XE - 2015 - 2020 / XF - 2015 - 2020
Designed to engage with the front bayonet style crankshaft oil seal and allow the user to remove and fit the seal. Specifically used on 2.0L AJ200 diesel engines found across the Jaguar and Land Rover ranges. Fitted with 1/2"D drive. Equivalent to OEM 303-1628.

DA1667 | Laser Fuel Pump Locking/Removal Tool
2.0 Diesel Ingenium AJ200 Diesel engine
Discovery Sport
Range Rover Evoque - 2015 - 2018
Jaguar F-Pace, XE, XF - 2015 onwards Engine codes: AJ-200D, 204DT, AJ200D, AJ200, 204DTD. Locks the fuel pump sprocket and chain in a fixed position while the pump is removed and replace. To be used with timing tool kit DA1668. Equivalent to 303-1672.

NEW
DA7687 | Laser Fuel Pump Alignment Tool
3.0 Diesel
Defender - 2020 onwards
Range Rover Velar - 2020 onwards
Range Rover Sport - 2020 onwards
Range Rover - 2020 onwards
Specially developed to allow the diesel fuel pump sprocket to be locked in its timed position during pump and drive chain removal. For engine timing see DA7686.

DA7686 | Laser Engine Timing Kit NEW
3.0 Diesel
Defender - 2020 onwards
Range Rover Velar - 2020 onwards
Range Rover Sport - 2020 onwards
Range Rover - 2020 onwards
Specially developed to allow the 2020 onwards 3.0 diesel engines to be locked in their timed position during timing chain replacement or timing checks.

SOCKETS & SPANNERS



606435 | Hub Nut Socket
52mm. For use with bar.

DA1111 | Viscous Fan Coupling Spanner
Two sizes - 32 & 36mm

LRT-12-094 | Viscous Fan Coupling Spanner
V8 / Td5 / V6 2.7 Diesel
2.5 Td / Td6 / 300Tdi

LRT-12-093 | Viscous Fan Coupling Spanner
V8 / Td5
2.5 Td / 300Tdi

DA1663 | Socket Set - Whitworth ½" Drive
9 Whitworth sockets in bi-hex format with ½" drive. Sizes - 1/8" / 3/16" / 1/4" / 5/16" / 3/8" / 7/16" / 1/2" / 9/16" / 5/8"

Whitworth socket sets. Manufactured from Chrome Vanadium. Complete with socket rail.

DA1665 | Socket Set - Whitworth ⅜" Drive
7 Whitworth sockets with ⅜" drive. Sizes - 1/8" / 3/16" / 1/4" / 5/16" / 3/8" / 7/16" / 1/2"

DA3855 | Flat Cut Star Socket Set 13pc
A set of 3/8"D flat-cut star sockets, from E5 to E20, manufactured from satin finish chrome vanadium. Designed to fit low-profile TORX head bolts where the normal socket profile would not give full contact with the fixing. Often used for body panel fixing etc. Supplied on a socket rail for easy storage. Socket sizes: 3/8"D: E5 / E6 / E7 / E8 / E10 / E11 / E12 / E14 / E16 / E18 / E20. 1/2"D: E22 / E24

DA1118 | Deep Socket
52mm deep socket - ½" drive
Socket for adjusting hub nuts
Defender / Series

DA1209 | Fuel Tank Sender Wrench
For easy removal of the fuel tank metal locking ring (ESR3808) on the
Defender - 2002 onwards
Discovery 1 / Discovery 2 / Freelander 1
Range Rover P38 / Range Rover - 2002 - 2012

DA1662 | Whitworth Combination Spanners
An 8 piece Whitworth combination spanner set. Manufactured from Chrome Vanadium with polished finish and supplied in a handy storage wallet. Sizes: 1/8", 3/16", 1/4", 5/16", 3/8", 7/16", 1/2", 9/16".
Old Land Rovers need constant attention and sometimes a new set of Whitworth Spanners are just what you need! British Standard Whitworth threads are used in many classic cars and employ a different measuring system to the AF or Metric counterparts. It is essential to use corresponding Whitworth spanners for Whitworth fixings and the new 8 piece. This classic spanner set is essential for keeping that Landy running!

Laser Alloy Wheel Nut Sockets

DA6131	27mm x ½" D
DA6130	22mm x ½" D
DA6643	21mm x ½" D

- Nylon outer sleeve to protect alloy wheels
- Manufactured from chrome molybdenum

DA6703 | Alloy Wheel Impact Socket
- Chrome molybdenum socket, hardened, tempered and anodised for corrosion resistance
- 24mm 1/2"Sq drive suitable for use with impact tools
- 6-point socket is externally and internally sleeved to prevent damage to alloy wheels and nuts
- Colour-coded for easy size selection

OIL FILTER TOOLS

DA6118 | Laser Oil Filter Socket
Freelander 2
Range Rover Evoque - 2012 - 2018- 2.2 Diesel
27mm hexagon face drive with ⅜" D face drive. Removes paper filters without damage to the plastic filter housing. Manufactured from Chrome Vanadium.

DA1176 | Oil Filter Socket
36mm oil filter socket - ⅜" drive
Designed to protect the corners of the filter from damage. Defender - 2.2 / 2.4.
Freelander 1 - Td4. Range Rover - 2002 - 2009 - M57 3.0 Diesel / M62 4.4 V8 Petrol

DA1189 | Oil Filter Remover Tool
For removing and installing oil filters on diesel models of the Freelander 2 and Range Rover Evoque. 27mm combination spanner with flexi-head. 400mm long. Manufactured from Chrome Vanadium. Fully polished with ratchet. Manufactured to Ansi standards.

DA1173 | Laser Oil Filter Remover Tool
Discovery 3 - TdV6 / Discovery 4 - TdV6
Range Rover Sport - TdV6
Land Rover tool part number - 303-1128
To remove the paper element from the canister. Prevents damage to the filter housing.

DA1117 | Td5 Oil Filter Spanner
Defender / Discovery 2
Note: Will not fit Mahle or Delhi filters. Britpart filters only - LPX100590

DA6638 | Laser Oil Filter Wrench
Cup style | 65mm x 14 flutes
Suitable for AJ200 Ingenium engines

DA7488 | Laser Two Way Ratcheting Oil Filter Wrench
Ratcheting function to install and remove the oil filter quickly and easily. Non-slip steel jaws securely grip the oil filter. ½" drive. Size range: 60 - 80mm.

BRAKE TOOLS

DA7484 | Laser Automatic, Self Adjusting Brake Pipe Cutter With Ratchet Handle

- Ratcheting, self adjusting mini brake pipe cutter ideal for restricted access
- 4.75mm (3⁄16") with ratchet handle
- Automatic self adjusting for faster cutting. Fast and accurate operation, ideal for under vehicle use
- Extra leverage due to handle length over standard cutter. To further increase leverage use the ¼" drive square in the end of the handle

Brake pipe cutters can be quite small and compact but there are instances when working where there is still not enough clearance to turn the cutter around the whole of the brake pipe. This mini brake pipe cutter solves this problem with its ratchet mechanism. Simply slide the cutter over the pipe - the handle gives excellent leverage and even if the space is really restricted, a few turns of the handle will quickly and cleanly cut straight through. It is self-adjusting, so no need to keep tightening the blade down onto the pipe as you are cutting. Quick and easy. Use on 3⁄16" or 4.75mm brake pipe, steel, cupro nickel or copper.

DA6174 | Eezibleed Kit

Easy fluid replacement system using air pressure from the spare wheel to bleed brake and clutch hydraulics. Safe to use, the one-way flow mechanism and airtight seal on the reservoir ensures fast fluid replacement with no contamination. There is no need for pedal pumping which avoids the risk of damaging the master cylinder seal. The versatile kit includes four screw caps (25, 27, 44-45 and 46mm) as well as three hoses, making it easy to connect Eezibleed to a wide variety of vehicles.

- Suitable for single handed operation. Uses the air pressure from a spare tyre to effortlessly bleed hydraulic systems.
- Can be used successfully on the following systems: tandem master cylinders without sensors, tandem reservoirs, slave servos and vacuum servos.
- Includes a range of cap and seal sizes: 25mm (Lockheed systems), 27mm (certain VAG systems), 44/45mm (metal Girling reservoirs and all ATE systems) and 46mm (certain Girling systems).
- Kit contains: pressure bottle (for new brake fluid), bottle cap assembly, bleed tube set, five cap and seal sets, brass reservoir cap fitting, two fibre washers, lock nut and hook.

DA6136 | EPB Brake Adaptor

Adjustable 3 pin EPB brake adaptor with standard 2 pin drive which is adjustable to fit many modern vehicles. Kit also contains a pneumatic brake caliper rewind tool - 3⁄8" D. This tool is for left and right hand threaded pistons. Suitable for most 3⁄8" D wind-back adaptors and pin type adaptors. A great time saver in the workshop.

204-591-01 | Dynamic Response System Bleed Bottle

For professional use only.

DA7361 | Laser Brake Cylinder Hone

For use with a cordless drill to clean brake cylinders during service.

- Self aligning
- Spring tension adjustment - 22mm - 69mm
- 29mm stones
- Flexible shaft
- For use with a standard drill

DA1153 | Brake Caliper Rebuild Tool Kit

After a brake caliper rebuild the most difficult part can be fitting the dust seal after the pistons have been fitted. Make that task easier with the seal fitting tools in this kit. The kit is supplied with a tool to fit 41mm and 44mm pistons and comes complete with a Laser heavy-duty piston spreader to allow the seals to be pushed into place evenly.

DA7460 | Laser Heavy-duty Piston Spreader

Designed for quad pistons. Maximum working range 88mm.

CLUTCH TOOLS

DA1147 |
Clutch Alignment Tool

Defender - 2007 - 2016
Discovery 3 - TdV6 manual

Replace two tools for one with this cost effective clutch tool. One end is the Land Rover 308-419 clutch alignment tool which is used to align the clutch disc and pressure plate on installation. The other end of the tool is Land Rover 303-1096 aligner/installer tool which is used to align the clutch drive plate and install the spigot bearing.

DA6113 | Laser Clutch Alignment Tool

Defender - 2.4 Td4 - 2007 - 2016

Specifically designed to hold the clutch centre plate centred on the flywheel while fitting the clutch cover plate. Ensures fast effective alignment of the clutch centre plate. 200mm long x 14mm dia with knurled grip. Equivalent to OEM 308-419.

Photo by Roy Duffy

GENERAL WORKSHOP TOOLS

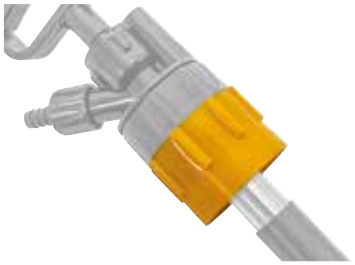
DA6111 | Laser Oil Pump Alignment Tool
Defender - 2.2 Puma
Developed to correctly align the engine oil pump in the sump after an engine rebuild as it is important that the pump be correctly and accurately aligned to ensure the oil pump sprocket is not operating with excessive side loads.

DA1155 | Panel Popper Tool Kit
12 piece set designed to aid in the easy removal of door trim panels, trim fasteners and mouldings inside or outside the vehicle. Manufactured from a tough & durable engineering plastic to minimise panel damage. Includes an additional metal clip tool.

DA7362 | Laser Airbag Removal Tool
Discovery 3 / Discovery 4 / Freelander 2
Range Rover Sport
Designed to release the driver airbag module from the steering wheel.
Equivalent to OEM 501-106

DA1235 | Locking Tool
Defender - 2007 - 2016
Locking tool to restrain the fuel injector sprocket during a fuel pump removal or installation.

DA3963 | Laser Easy Flow Pump NEW
An easy-flow pump for use with 20 litre oil drums and suitable for use with engine oil, gear oil and transmission fluid (ATF). It features a D-shaped handle, for easy down stroke, 50" PVS hose with an internal wire spring to help reduce kinking, and a curved aluminium spout. Features a nylon upper pump body, with steel tube, aluminium spout & 1,270mm PVC hose. Flow rate: 70cc per stroke. Designed to fit 2¼" threaded drums. Also supplied with 88RA drum adaptor, for use on 20L plastic oil drums. Can also be used with Laser thread adaptor kit - DA1842.



DA1842 | Laser Easy Flow Pump Thread Adaptor
Two adaptors for use with DA1841 Easy Flow Pump. Suitable for use with engine oil, gear oil, diesel and anti-freeze. Specifically designed to convert the female thread (DIN 61mm) drum pump 57mm (M) + 2" BSP (M) adaptor.

DA1749 | Steering Drop Arm Puller
Defender - 1987 - 2006
Designed for the removal of the steering drop arm from the steering box. The Defender steering drop arm can wear because of its position low down at the front of the chassis - it's exposed to all the road spray and water that gets thrown at it. Water gets into the joint and eventually you will have to replace the drop arm and ball joint because the rust has corroded it. However splitting the steering drop arm from the steering box can be problematic because the steering drop arm and the steering box splines corrode together. This tool solves that problem. Supplied with a spare threaded bar.

DA6132 | Laser Cooling System Pressure Test Kit
A comprehensive cooling system pressure testing kit for universal use. 24 pieces including 16 individually sized adaptors, pressure testing pump with gauge, 2 pressure cap test connectors for use with No 3 adaptor and handle. Checks the leakage on original radiator cap. Application list and instructions included. The pressure pump is hand operated and is fitted with an accurate and easy to read gauge marked in both psi and bar. This kit includes a thermometer to aid diagnostics and also ensure the system is cool before removing the cap. Also included in this kit is a very useful radiator pressure cap tester.

DA1844 | Laser Differential Pinion Shaft Holding Tool
Freelander 2
A 2 piece kit providing the special pinion nut holding tool and splined deep socket to allow the removal and installation of the rear differential pinion shaft nut when rebuilding the rear differential in accordance with Land Rover OEM instructions.
- A two piece kit including Bi-Hex pinion nut holding tool and splined socket
- Use with suitable torque wrench with a 250Nm minimum capacity
- Equivalent to OEM tool JLR-205-984

DA1839 | Laser Glow Plug Compression Adaptor Kit
2.0 / 2.2 (Td4) / TdV6 / TdV8 / 2.2 Ingenium
A selection of diesel glow plug compression test adaptors specifically designed to allow Laser diesel compression testers (4510 & 2596) and cylinder leakage tester (5140) to be used on the current range of Jaguar & Land Rover diesel engines including the 2.2 Td4, TdV6, TdV8 and the latest Ingenium engines. The kit includes a specially designed 90 degree connector to allow access on TdV6 engines where the oil filter obstructs normal access.
- 3 glow plug adaptors for compression and cylinder leakage testing
- Equivalent to OEM 60228, 60229, 60232
- Designed to be used with Laser Compression & Cylinder Leakage testers. Part Nos. 4510, 2596, 5140

DA1840 | Laser Front Lower Ball Joint Tool
Discovery 3 / Discovery 4
Range Rover Sport - 2005 - 2013
Allows the bottom ball joint to be replaced and fitted without removing the lower wishbone assembly
- Designed for use on the vehicle saving significant time and additional parts costs
- Equivalent to OEM 204-531
- Always lubricate the force screw with molybdenum disulphide grease

DA1125 | Ball Joint Remover Tool Kit
Fit & remove RBG000010 to a Defender drop arm without having to remove the arm from the vehicle.

DA5631 | Wing Protectors
Protect your Defender's wings with a pair of these sturdy, easy to fit wing protectors.

DA6134 | Laser Diesel Fuel System Bleeder Kit
Freelander 2 - 2.2 Diesel
Hand pressure pump and 4 adaptors. For bleeding/priming the system after fitting new filter or other maintenance on the fuel system. Essential service tool.

Propshaft Fastener Tools
DA1065 ⅜" square drive
DA1119 ½" square drive
- Size - 9/16" 6 point (hexagon)
- Total length - 150mm
- Outside diameter - 20mm

Specialist socket for propshaft fasteners on most Land Rovers. The 9/16" socket end is a perfect hexagon with rounded tip profiles to ensure the whole turning power is transferred onto the flanks of the nuts instead of on the corners. The socket's slim wall construction and wine glass profile, coupled to an integral slimline extension means it fits perfectly between the UJ yokes and over the propshaft nuts without fouling. The 9/16" AF nuts are common to Series, Defenders (90 / 110 up to latest vehicles), Discovery 1, Discovery 2, Range Rover Classic and Range Rover P38.

DA6135 | Laser GEN2 Wheel Bearing Kit
Freelander 2
82mm / Front
This kit enables you to be able to remove and replace the bearing/flange in situ.

DA7477 | Laser Gearbox/Axle Filler Pump
1 litre capacity. This handy mini pump makes all top up jobs easy. Ideal for gear boxes and differentials and is suitable for oils, automatic transmission fluids, brake fluids and general purpose cleaners.

GENERAL WORKSHOP TOOLS

DA7486 | Laser USB Soldering Iron
- Soldering iron designed to be powered by a USB socket (1 amp current draw)
- Heats up to 185°C in approx 15 seconds
- Maximum temp 480°C
- Supplied with a 1.2m USB lead
- Folding stand included

DA7485 | Laser Cordless Soldering Iron
- Cordless 30w soldering iron with rechargeable Li-ion battery (2400mAh)
- Supplied cone tip, chisel tip, heat shrink tip, 15g solder, cleaning sponge, stand, cap & USB charging cable
- Charging time 3 - 5 hours; one charge provides 35 minutes of use
- LED illumination
- Reaches working temperature 180°C in 10 seconds. Maximum temperature up to 600°C
- Internal charging board protects against overcharging, short circuit and electro static discharge

DA1698 | Stud & Hub Cleaning Tool
Stud Kleen attaches firmly to a standard impact wrench, providing the fastest and safest cleaning solution for your wheel changing process. The face of the tool moves rust and contaminants in seconds, providing a smooth clean surface for ease of assembly of all mating parts. At the same time, stainless steel tines effectively clean the threaded studs assuring easy and accurate torquing of lug nuts. The proprietary abrasive material is significantly longer lasting than any other material on the market.
- Fits to ½" impact
- Single size for all passenger cars and light trucks
- Dense, long lasting abrasive pad
- Hundreds of internal stainless steel tines instantly & effectively clean threaded studs
- Stack tolerances when balancing wheels will improve and ensure proper torque tensioning during installation
- Cleans approximately 800 wheels

DA1878 | Laser Damaged Nut/Bolt Extractor Set
12 piece kit made up of a set of cleverly designed hexagon bolt and nut extractor adaptor caps. The caps fit over the rounded off fixing and allow a standard 12 point socket or ring wrench to be used to remove the rounded off hexagon fitting.
- Sizes: 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18 & 19mm
- Specially hardened steel components finished in black
- Can be used on up to 65% rounded nuts
- Due to material used, the tools should be considered consumable. Following the instructions for use will help significantly increase the service life of the kit

Watch in action - www.britpart.com/DA1878

DA7487 Laser Short Circuit Diagnostic Kit
Tracing a short circuit can be a very time consuming exercise. This Short Circuit Diagnostic Kit provides the solution in the form of a set of circuit breaker fuses that are designed to fit in place of the traditional fuse. The circuit breaker will safely break the circuit when an overload is detected just like a conventional fuse but unlike a conventional fuse it is manually resettable allowing the technician to reset the circuit breaker fuse to run their tests as many times as they need. The kit provides resettable fuses for both standard and mini size blade fuses. Where space is really tight the set includes two 300mm extension leads which allow the circuit breaker fuse to be connected where space in the fuse box is tight.
- Contents includes: 7 standard blade manually resettable circuit breaker fuses & 7 mini blade manually resettable circuit breaker fuses.
- Fuse ranges: 5A, 7.5A, 10A, 15A, 20A, 25A, 30A.
- 300mm (12") extension loop leads for better access for use with both blade sizes.

DA7355 | Laser Damaged Hex Bolt Extractor
7 piece hex bolt extractor bit set designed to remove damaged, rounded, or corroded allen (Hex) bolts or screws. Sizes: 1.5, 2, 2.5, 3, 4, 5 & 6mm x 50mm long. 1/4" shank with quick chuck end. Packed in a storage case. For use with a drill.

DA1928 | Laser Large Plastic Drip Tray NEW
Low profile tray (19mm deep), that easily slides under the vehicle to protect the floor against oil and fluid drips, ideal for use under any vehicle that is stood for long periods. Manufactured from oil and fuel resistant plastic with a corner spout for ease of emptying. A simple solution for keeping floors clean during oil changes and minimising slip hazards. Tray size - 609 x 457 x 19mm.

DA7489 | Laser Impact Twist Sockets
Ideal for removing damaged nuts and bolts. Impact twist socket ½" drive, manufactured from SCM440 steel.
- Sizes: 17, 18, 19, 21, 22 & 24mm
- ½" drive
- Supplied in EVA foam for tool box storage
- Manufactured from SCM440 steel with black finish
- Special profile for removing damaged nuts and bolts

DA7490 | Laser Breaker Bar With Built-in Impact System
330mm long breaker bar with built in impact system allowing the bar to be loaded with one hand and then impacted with a hammer for significantly increased force. Ideal where air tools are not an option.
- Bi-directional for removing left or right handed stubborn nuts and bolts using combine hand and impact force
- Swivel head gives access to difficult areas
- Use with impact socket and bits
- 330mm long x ½" drive
- Impact absorbing composite grip handle

DA1875 | Laser Torx Fixing Extractor Set
Laser 11 piece kit which is an essential workshop tool for extracting Torx fixings.
- Manufactured from S2 silicon steel
- 7 x Extractors with 6mm Hex drive (quick chuck)
- Sizes - E10, E15, E20, E25, E27, E30, E40
- 3 x Extractors with 10mm Hex drive
- Sizes - E45, E50, E55
- ½"D x 10mm Hex adaptor
- Storage case

See them work - www.britpart.com/DA1875

DA1876 | Laser Damaged Cap Head Bolt/ Screw Extractor Set
11 piece kit for removing damaged hex bolts and screws.
- 7 x ¼" Hex shank
- Sizes - 1.5, 2, 2.5, 3, 4, 5 & 6mm x 50mm long
- 3 x 10mm Hex shank x 7, 8 & 10mm x 38mm long
- ½"D x 10mm Hex adaptor
- Storage case

DA1877 | Laser External Deburr/Chamfer Tool
Fitted with HSS blade for repairing damaged bolts. Effective on stainless steel, hardened steel, mild steel, copper, brass, wood, fibreglass, hard plastic.
- Size range 3 - 19mm
- Speed 0 - 400rpm
- High speed steel blade ¼" shank

In a busy workshop there are numerous instances of threads getting damaged: whacking a track rod end with a hammer; cutting a bolt or threaded rod - the threaded ends get torn and squashed. Wheel studs get damaged just by removing and refitting the wheels... Luckily there is a quick and easy solution - the external deburr & chamfer tool.

See it work - www.britpart.com/DA1877

DA3611 | NORMA® Fuel Line Repair Kit
One stop solution to repair defective fuel lines in under five minutes. See web for full kit contents.
- Economical solution to repair defective spots instead of replacing complete fuel lines
- Access to OEM quality materials
- Easy identification of the components within the kit with the help of product descriptions
- Standard quick connector - spigot connection as per SAE J2044 Safety aspect: NORMAQUICK® S connector cannot be opened under pressure
- Very high pull-off forces of quick connectors due to four locking arms ABA Mini provides excellent clamping force compared to screwless clamps

DA2799 | Laser Differential Pinion Holder & Wrench Set
- 2 piece set including ½" D spline pinion socket with ½"D pinion nut wrench
- Applications include
  Range Rover - 2013 - 2016
  Range Rover Sport - 2014 - 2016
- Pinion Nut Wrench also suitable for Discovery - 2017 - 2019
- Equivalent to OEM JLR-205-994 & JLR-205-996
- Refer to OEM instructions for torque setting

GENERAL WORKSHOP TOOLS

DA3248 | Laser Long Series Hex Bit 3/8"D 11mm
Ideal for injector clamp bolts and caliper bolts. Size: 11mm x 100mm long. Socket manufactured from Chrome Vanadium. Bit from S2 Steel.

DA7399 | Laser Exhaust Gas Temperature Sensor Socket
Range Rover Sport - 2014 - 2017
Range Rover - 2011 - 2012 / 2013 - 2017
Required to remove/install the exhaust gas temperature sensor
- Equivalent to OEM 303-1573
- 13mm hex x 6mm deep
- Socket equipped with a 13mm hex to use with appropriate spanner or wrench

DA1848 | Laser Fork Ball Joint Separator
For separating ball joints, this tool uses the forked wedge principle. Designed to be used with a hammer separate the joint from the steering arm. Fork dimensions: internal 14mm, thickness of shaft 22mm, overall length 200mm. Manufactured to ANSI and DIN standards.

DA5443 | Drain Plug Removal Tool
Series / Defender / Range Rover Classic
Slotted oil drain plug tool. For use with a 19mm spanner or socket. **Note:** For square cornered drain plug slot only.

DA3898
Laser Flange Holding Tool
Defender - 2020 onwards
Discovery 4 / Discovery 5
Freelander 2
Range Rover Velar
Range Rover Evoque - 2012 - 2018
Range Rover Sport - 2010 - 2013
Range Rover Sport - 2014 - 2022
Range Rover Sport - 2023 onwards
Range Rover - 2002 - 2009
Range Rover - 2013 - 2022
Range Rover - 2022 onwards
Used to hold the flange whilst removing and replacing the flange nut on JLR 5.0L and 3.0L diesel engines. Equivalent to OEM 205-053.

DA1765 | Laser Hose Clamp Tool - Bar Type
140mm long hose clamp tool. Suitable for use on rubber hoses, making it ideal for both brake and fuel lines together with coolant hoses. Steel construction with round chrome plated bars to help prevent damage.
- Clamps any hose simply and effectively
- Chrome plated bars
- Use on brake, fuel and heater hoses
- No sharp edges
- Ensures complete clamp

DA3499 | Laser Automatic Gearbox Alignment Tool
Defender / Discovery 1 / Discovery 2 / Range Rover Classic / Range Rover P38
An essential tool for the correct setting and alignment of the XYZ switch (gear selector position and starter inhibitor switch) on the ZF4HP22, ZF4HP24, ZF4HP44 automatic gearboxes. Equivalent to OEM 307-498 & LRT-44-011. Made in Sheffield.

DA3524 | Laser Hub Puller Adaptor Kit
Hub puller plate for use on 3, 4 and 5 bolt fixing drive flanges.
- PCD 97 - 123mm
- Complete with 5/8"UNF adaptor for slide hammer
- 1½" x 16tpi plate thread allows use of hydraulic ram
- Can also be used with an impact force screw

DA6863 | Launch UK ATF Fitting Kit
A complete fitting kit for attaching a gearbox fluid exchange machine, to all modern Land Rover models. It includes modern 8HP gearbox fittings, 9 speed Evoque as well as all 4, 5 and 6 speed applications including the 5L40E gearboxes on early Range Rovers. Cooler pipe fittings and direct to the gearbox are included, for varied application. Full instructions are included, advising where to attach the fitting for each model. Ideal for Land Rover garages as this kit is compatible with other brands of ATF machines.

DA3247 | Laser Balance Shaft Removal & Installation Kit
Discovery 5
Discovery Sport - 2015 - 2019
Range Rover Evoque - 2015 - 2018
Range Rover Sport - 2016 - 2018
Range Rover Velar - 2017 -
Designed to allow the safe removal, fitting and timing of the gear driven balance shaft on the Jaguar Land Rover AJ200 2.0L diesel engines. The kit contains all the essential components to enable the balance shafts to be aligned when reassembling the components. Made in Sheffield. Use in accordance with OEM instructions.
Equivalent to OEM - JLR-303-1662 / JLR-303-1663-1 / JLR-303-1663-2 / JLR-303-1663-3 JLR-303-1664 / JLR-303-1665

DA1650 | Automotive Current Tester
This automotive current tester with LCD display, plugs directly into the fuse box and can be used on mini, standard and maxi fuse connections. Blades may get hot during use and care should be taken for 2 mins whilst they cool down.
- Fits mini and maxi fuses
- Current range 0-80A
- Safe and easy way to check automotive current
- LCD display
- Hold and peak function with bar graph

DA7288 | Automotive Current Tester
For the rapid safe and accurate testing of DC current on 12v vehicles. The tool plugs straight into the vehicles fuse board and displays the current on the large LCD display. Specification range 0-48volt max 20 amps, 12v battery included.
- Quick and safe
- Plugs straight into the vehicle fuse board
- Large LCD display
- Specification range 0-48volt max 20 amps
- 12v battery included

DA3954 | Oil Spill Kit NEW
2 x Super Absorbent Pads
4 x Nitrile Gloves
4 x Dirteeze Hand Wipes (2 x twin pack)
1 x Disposal Bag
1 x Bag Tie
This small spill kit has been designed for use in motorsport field and complies with the latest Motor Sport UK regulations. The kit, which is to be carried in all competing vehicles, will absorb a wide range of automotive fluids such as petrol, diesel, lubricating oils, hydraulic liquids and coolants.

DA3853 | Gear Shift Module Tester NEW
Discovery 4 / Discovery 5 / Discovery Sport
Range Rover Evoque - 2012 - 2018
Range Rover Sport - 2014-2022
Range Rover - 2013 - 2022
The plastic fastener in the GSM can break or become damaged, rendering the GSM unusable. Britpart's GSM Tester Kit includes durable metal fasteners for replacement. After repairing, the tester allows you to check the GSM without reassembling it into the vehicle, saving time on unnecessary disassembly.
Common Failure Symptoms
- Gear selection dial won't rise, fall, or rotate.
- Fault code: P176C-11 - Transmission Range Selector Lock Control Error.

Functions
- Adjust GSM position without attaching it to the vehicle.
- Automatically identifies vehicle model, reducing diagnosis time.
- Simple one-button operation for position adjustment and gear switching.

Kit Includes
1 x Main Tester
1 x 12 & 22pin Cable
2 x Lifting Gear Levers

DA3853LEVER | GSM Lifting Gear Levers NEW
2 x Additional metal fasteners for Gear Shift Module Tester

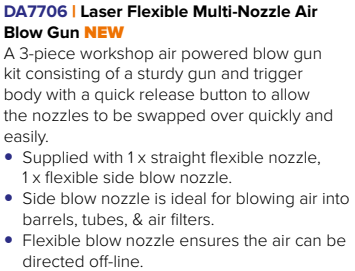
DA5189 | Laser Window Regulator Wrench NEW
A hook wrench intended for use on the window winding mechanism, fits between the door glass and the exterior seal. Allows window regulator setting & adjustment.
Equivalent to OEM JLR-501-172

DA5235 | Laser Multi-Channel Automotive Noise Finder NEW
A five-channel electronic noise finder. Ideal for pinpointing the source of annoying noise and vibration. Can be used on chassis and suspension assemblies as well as engines, alternators, gearboxes and differentials.
1 channel = stethoscope, 4 channels with wired alligator clip style pickups. Ideal for tracing chassis & suspension noises caused by worn bushes, ball joints, wheel bearings, gear box bearings, differential bearings, etc. Engine noises that can be traced include valve clearance, flywheel noises, clutch release bearings, bottom end bearings, alternator/dynamo bearings. Powered by 3xAA batteries (not included). CE compliant. Carry case.

DA4979 | Laser Ball Joint Separator NEW
Discovery 5 / Range Rover - 2013 - 2022
Range Rover Sport - 2014 - 2022
A heavy duty ball joint separator tool, this scissor type design enables the ball joint to be eased apart and released, impact free. Manufactured from heat treated 45 carbon steel.
Inner opening - 31mm
Outer opening - 52mm
Upper jaw length - 215mm
Lower jaw length - 220mm

LRT-60-003 | Air Suspension Calibration Blocks
Range Rover P38
To be used in conjunction with Lynx diagnostics kit.

DA7343 | Laser Long Reach Air Cut-off Tool
75mm compact air-powered cut-off tool for hard-to-reach areas, ideal for cutting exhausts, brackets, axle U-bolts, and door sills.
- For use with 75mm cutting discs (1 disc included)
- Protective 360° rotating safety guard
- Low vibration (3.1m/s^2) and soft-grip handle to reduce fatigue
- Safety trigger to prevent accidental start
- Free speed: 18,000rpm
- Air consumption: 3.0cfm
- Air pressure: 90psi
- Air inlet: ¼" BSP



DA7706 | Laser Flexible Multi-Nozzle Air Blow Gun NEW
A 3-piece workshop air powered blow gun kit consisting of a sturdy gun and trigger body with a quick release button to allow the nozzles to be swapped over quickly and easily.
- Supplied with 1 x straight flexible nozzle, 1 x flexible side blow nozzle.
- Side blow nozzle is ideal for blowing air into barrels, tubes, & air filters.
- Flexible blow nozzle ensures the air can be directed off-line.
- Nozzle material: oil resistant, flexible PU rubber mounted on hard wearing rigid plastic extensions.
- Thread: 1/4" BSPT
- Working pressure: 110psi; max pressure: 220psi.

BUSH TOOLS

DA2883 | Laser Rear Suspension Hub Bottom Bush Removal & Installer Tool
Freelander 2
Range Rover Evoque - 2012 - 2018

DA7465 | Laser Front Suspension Lower Arm Front Bush Removal & Installer Tool
Discovery 3 / Discovery 4
Range Rover Sport - 2005 - 2013
Equivalent to OEM 204-536.

DA7461 | Laser Front Suspension Lower Arm Rear Bush Removal & Installer Tool
Discovery 3 / Discovery 4
Range Rover Sport - 2005 - 2013
Equivalent to OEM 204-535A
For use with RBX500291.

DA7464 | Laser Rear Suspension Upper Hub Bush Removal & Installer Tool
Discovery 3 / Discovery 4
Range Rover Sport - 2005 - 2013
Equivalent to OEM 204-530
For use with RHF500100.

DA1303 | Laser Knuckle Ball Joint Tool
Discovery 2 / Range Rover P38
For the removal and fitting of bushes and ball joints, without having to remove suspension legs, subframes, wishbones, trailing arms etc from the vehicle. Designed to be used in-situ, although many can also be used in a workshop press if circumstances require. This kit has been designed to allow the top and bottom steering ball joints fitted to the Discovery 2 / Range Rover P38 - upper and lower ball joints - to be replaced with the axle casing attached to the vehicle. Equivalent to OEM 205-718, 205-732, 205-733, 205-719, FTC3570 & FTC3571. Use with ratchet ring spanner - flexi head 19mm.

DA3854 | Laser Rear Axle Carrier (Sub-frame) Bush Tool
Range Rover - 2002 - 2012
Used to extract and insert the sub-frame (differential carrier) to body bushes without dropping the sub-frame from the vehicle.

DA7463 | Laser Rear Suspension, Lower Hub Bush Removal & Installer Tool
Discovery 3 / Discovery 4
Range Rover Sport - 2005 - 2013
Range Rover - 2002 - 2012
Equivalent to OEM 204-516
For use with RBK500220

DA7466 | Laser Rear Suspension, Upper Hub Bush Removal & Installer Tool
Range Rover - 2002 - 2012
Equivalent to OEM 204-515
For use with RHF000260

LRT-60-004 | Bush Fitting Tool
For front radius arm bushes (part number ANR3332) for the Range Rover P38A - impossible to do without using this Land Rover special tool.

WORK LIGHTS

DA5175

DA5175 | Ring Rechargeable Under Bonnet Inspection Lamp
Designed for professionals, this rechargeable under bonnet lamp is perfect for illuminating any engine bay or car interior. Perfect for mechanics and detailers alike, the universal design and large 360° rotating hooks allow the light to be attached to almost any vehicle. Extending to 1.8m wide, the light can be placed either under the bonnet or between doors for superior illumination whilst working on the vehicle's interior.

Add some light to your working environment

DA5085 | Ring Zoom300 LED Inspection Torch with Power Bank
Up to 300 lumen torch - provides bright white light with 6000K colour temperature. Complete with USB to Micro USB cable - for convenient recharging (6 hours recharge time)

DA5085

DA5171 | Ring Worklight With Integrated Powerbank
Powerful 1000 Lumen rechargeable worklight is perfect for providing extra illumination to a workspace. This compact worklamp has the option of high and low settings and operates for up to 8 hours from a single charge. It also has the capability to charge a mobile device via the onboard USB port.

DA5173 | Ring Rechargeable Mini LED Lamp
Complete with a magnetic base for hands-free working and placement anywhere in the workshop or garage. It has a bright 140 lumen light output and is rechargeable via micro USB, meaning no need to spend extra money on replacement batteries.

10500070 | ARB Pureview 800 Torch
The ARB Pureview Torch 800 is a rugged and versatile torch. With a beam distance of up to 300m, this torch provides excellent distance.

DA5172 | Ring MAGflex Utility Lamp
Designed with versatility in mind, the MAGflex utility lamp combines dual, magnetic ratcheting bases with a 360° rotating body. This means that the lamp can either be used free-standing or hands-free, positioned in any number of ways to ensure that the workspace is properly illuminated. With 1000 lumens output the lamp can be used as site light or an under-bonnet light.

DA5170 | Ring MAGflex Headtorch250
Designed with the professional in mind, the MAGflex Headtorch250 provides reliability where it is needed the most. This 250 lumen headtorch, equipped with a motion sensor, is tested to IP54 & IK07 and operates for up to 6 hours from a single charge. Perfect for all tradesperson, when needing to work hands free.

10500050 | ARB LED Head Light
Up to seven hours run time. Comfortable adjustable elastic head band. Adjustable hinge for vertical beam adjustment. Focus adjustment for wide or narrow beam. Three lighting modes: 300 lumen beam, 180 lumen beam or flashing mode. 5W, 6500K Cree LED. Runs on 3 x AAA batteries. Anodised aluminium body.

DA5174 | Ring MAGflex Twist LED Inspection Lamp
Multi-award winning inspection lamp that gets light exactly where you need it. A bright, wide angle light output of 450 lumens and 250 lumens on power save mode, makes the MAGflex Twist ideal for workshops. Lightweight, tough and with a 360° rotation and 180° ratcheting, it is the ultimate tool for directional lighting in the workshop with no compromise on light.
More information available online

DA5027 | Ring Essential LED Inspection Pocket Light
- 5hrs operating time
- Magnet for hands free use
- LED torch function for focused light output
- Protective lens for demanding conditions
- Integral swivel pocket clip
- Includes batteries
- Runs on 3 x AAA batteries

DA7175 | Ring MAGflex 1000 Super Flex Utility Light NEW
A ground-breaking innovation in flexible lighting solutions. The unique design allows it to be used as an under-bonnet lamp with its detachable elasticated hooks, providing hands-free illumination in tight spaces. Additionally, the powerful magnetic connections at both ends enable secure attachment to any metal work surface, such as a car, ensuring stability and convenience during use. Durable and practical, it is the ultimate lighting solution for those who demand flexibility, brightness, and ease of use in their work and activities. Full details available online.

Upgrade lead - European 2-pin power cable for use with firmware updates

TRACTION CONTROL BATTERY CHARGER & BATTERY SUPPORT UNITS

DA1864 | 50A Traction Control Battery Charger

The new MPL50 charger from Traction Chargers has been designed with the latest JLR workshop standards in mind. Suitable for most common battery types - Ca/Ca, Ca/Ag, AGM, GEL and conventional lead acid. The MPL50 features Traction's patented de-sulphation technology ensuring the battery is in peak condition before commencing charge. As with all Traction Battery Chargers the MPL50 is manufactured at our own UK site. The rectified DC output of the MPL50 achieves significantly higher standard of charge than its switched mode competitors.

- Patented sulphation recovery program
- Short circuit shut-down without blown fuse
- Reverse polarity protection
- Soft start current control
- Fast constant current bulk charge
- 3-stage charging: CI-CV-Float
- Constant voltage float/standby
- Proportional timing - minimal gas emission
- Independent overrun timer
- Accurate zero-crossing voltage sensing
- Flexibility - to match battery specification
- 50A constant output function for diagnostic support
- Approved by Jaguar & Land Rover
- Fitted with UK electric plug - adaptor needed for other countries

Input: 220-250VAC
Size: 380 x 260 x 255mm
Weight: 23kg

DA1863 | 125A Traction Control Battery Support Unit - Diagnostics, Reprogramming, ABS Brake Bleeding

BSU2-125B provides a stable voltage and up to 50 amps of fully regulated power to prevent loss of charge and damage to the battery. BSU2-125B can be used with any 12V automotive battery including AGM and GEL. When the battery is charged the BSU is a regulated power supply to sustain accessory loads and offset parasitic drain. Designed for use in the workshop and compatible with most diagnostic trolleys. Reverse polarity protection. Output current display. Supplied with 5M IEC power lead and 5M output leads.

- BSU2-125B provides a constant voltage to prevent loss of data and possible damage to control units during software updates, and module reprogramming as well as diagnostic processes when in a Key On, Engine Off state
- During diagnostic or programming operations, the vehicle's systems are operating solely from the battery. Maintaining battery charge during this process is critical
- The status of BSU2-125B is indicated simply by three LED's - POWER, POLARITY, DEMAND. When all 3 are illuminated, BSU2-125B is supporting the battery
- Designed to be wall, ramp or trolley mounted the BSU2-125B has been designed to meet the needs of the high power consuming vehicle
- Approved by Jaguar & Land Rover

Input: 90 - 260VAC
Output: 13.4V up to 125A continuous
Size: 300 x 184 x 124mm
Weight: 8kg

BATTERY CHARGER

Keep your batteries in tip-top condition

Includes the following battery and alternator analysis tools:

- Start power test - measures voltage drop during engine start to identify potential battery issues
- Alternator check - tests the recharging performance of the vehicles alternator
- Battery cranking performance - measures the battery's cold cranking performance to determine engine starting ability

DA3185R | Multi-Stage Fully Automatic SmartCharger

From Ring - the ultimate in battery maintenance. Diagnose, repair, recondition and charge in one automatic device. Ideal for long-term connection and winter charging. This is battery care made easy. This charger is a multi-award winning SmartCharger. It has won the Automechanika Madrid Exhibition Award for Innovation, Auto Express' Product of the Year and Land Rover Monthly's Best Buy.

- Multi stage fully automatic SmartCharger
- Auto charge applies the fastest charge, based on battery size
- Includes settings for both standard vehicles and Start/Stop
- Includes battery repair tools to increase performance and battery life
- Charging current up to 12A
- Battery capacity: 25-300Ah
- Interactive LCD display
- Memory saver function allows vehicle and audio settings to be retained if the battery is removed
- Product dimensions - 139 H x 197 W x 74mm D
- Weight - 1.48kg
- Voltage - 230V AC input & 12V DC output

BATTERY MONITOR SENSOR

DA7966 | Sealey Battery Monitor Sensor & Vehicle Finder

- Displays real time battery power, voltage and temperature.
- Wireless connection with dedicated app which supports up to 4 devices (iOS & Android compatible).
- Guides user back to the vehicle by automatically recording the last parking location.
- Record the route, cost and driving habits of each trip, which can be exported to Excel.
- Automatically monitor the starting and charging system of the vehicle and notify if abnormal.
- Compatible with most batteries including lead sealed, AGM and Gel. Supports up to 4 devices.
- Store historical data in device for up to 30 days.

Voltage Range:	6-20V
Average Current:	1.5mA
Input Voltage:	6-20V
Voltage Accuracy:	9-16V ±0.03V
Short Circuit Protection:	Built-in
Reverse Connection Protection:	Built-in
Operating Temperature:	-20 - 40°C
Physical Dimensions:	55 x 41 x 12.5mm
Waterproof:	IP67

Snow Cowls
Manufactured from ABS plastic these cowls will help prevent snow, mud and leaves from entering the heater intake and reducing the Defender heater performance. Fitting a cowl will reduce moisture build-up in the intake system which can happen if debris collects in the one-way valve. The cowl fits over the existing grille and follows the profile of the Defender's wing.

DA8867 | Optimill Security Bonnet Hinge Kit
Defender | Black | Pair
These are CNC machined billets of aluminium 6082-T6. Internally pinned to prevent unwanted removal of the bonnet. Anodised for extra protection and longevity. The set comprises of high security stainless steel fixings which are fixed from underneath the bonnet for added security.

DA8866 | Optimill Rear Door Security Hinge Kit
Defender | Black
Designed with concealed fixings, to prevent access from outside the vehicle. CNC machined from billets of aerospace grade 6082-T6 aluminium. The hinge pins are made of stainless steel which are internally pinned to prevent unwanted removal. The hinges also feature self lubricating graphite bushes to reduce friction and prevent wear. The superior performance of these hinges means there is no longer a need to use a separate swing away type wheel carrier, although are compatible with most makes, they are also compatible with panoramic glass conversions. Supplied with high security stainless fixings.

DA8864 | Optimill Front Door Security Hinge Kit
Defender 90 | Black
With this unique design the door cannot be removed even if the external screws have been removed. Prevention increases security for unwanted removal. These high quality door hinges are CNC machined from billets of aerospace grade 6082-T6 aluminium. The hinge pins are made of stainless steel which are internally pinned to prevent unwanted removal or theft. The hinges also feature self lubricating graphite bushes to reduce friction and prevent wear. Supplied with high security stainless fixings & shims.

DA8865 | Optimill Front Door Security Hinge Kit
Defender 110 - 1st & 2nd row doors | Black

DA8860 | Optimill Billet Wing Mirror Arms with Puddle Light
Defender | Black | Pair
Manufactured from aerospace grade billet aluminium, anodised and assembled in house at Optimill. Comes pre-wired for heated mirror heads and fitted puddle lights. Manufactured to fit both Optimill and original door hinges. The hinges may require drilling to hide the wires into the door. (Optimill hinges now come pre-drilled to accompany this modification). All fixings and drilling templates are supplied for ease of fitting. These mirror arms are 20mm longer to aid towing trailers/caravans.

DA8861 | Optimill Billet Wing Mirror Arms
Defender | Black | Pair
Manufactured from aerospace grade billet aluminium, anodised and assembled in house at Optimill. Designed to fit both original and Optimill door hinges. All fixings and drilling templates are supplied for ease of fitting. These arms are 20mm longer to aid towing trailers/caravans.

DA8863 | Optimill Defender Number Plate Light
Defender | Black
Billet machined from 6082 aluminium. Complete with LED number plate light. Plug & Play to plug into factory Land Rover wiring loom. Fitted using the existing holes in the body. Supplied with foam gasket and stainless steel screws.

DA8862 | Optimill Number Plate Light with Camera
Defender | Black
Complete with HD 170 degree camera & LED number plate light. Billet machined from 6082 aluminium. Plug & Play to plug into factory Land Rover wiring loom. Fitted using the existing holes in the body. Supplied with foam gasket and stainless steel screws.

DA8862MONITOR | Optimill Rear View Mirror Camera Monitor
Practical high quality 4.3-inch TFT-LCD auto rear-view mirror monitor, which is suitable for car reverse cameras, DVD, VCD player, and supports 2-way video inputs. Works perfectly with the Optimill number plate light with reversing camera. The monitor will start up automatically, and synchronously display the video from the rear view camera when you're backing your Defender. It is easy to install without damaging to any parts of your vehicle - clip the monitor on the original one.

DA8862LOOM | Optimill Wiring Loom For Number Plate Light With Reversing Camera
Small piggy back wiring loom that fits between original plug and reversing light, enabling fitment of the new number pate light and provide the live power feed for the reversing camera.

Not compatible with extended arch kits

These chequer plate trim parts are an easy way to enhance the robust, off-road appearance of your Defender. The protective panels not only prevent paintwork damage during off-road adventures, but also offer a rugged look. Made from dark grey polypropylene plastic featuring a chequer plate design, they easily blend with your Defender's design. The trim is supplied with pre-applied self-adhesive tape, simplifying the installation process.

DA1963 | Puma Bonnet
This white Puma GRP bonnet is half the weight of the original Land Rover bonnets and will fit Defender 90 - 1984 - 2016 / Defender 110 - 1983 - 2016. The bonnet has return edges on all four sides underneath for strength and to make it more rigid. It has strengthened hinge points and is supplied with stainless steel hinge bolts & screws.

DA6290
Tailgate Conversion Trim Kit
Range Rover Sport - 2005 - 2011
The rear tailgate on the Range Rover Sport changed in 2012 from a two piece tailgate (with opening top window section) to a one piece tailgate & above the registration plate a new silver strip was added that went the width of the tailgate. If you have a 2005 - 2011 model and want to make it look like the 2012 model from the rear you can fit this clever conversion kit. The kit consists of 3 panels - 1. Underside base - section made from ABS plastic in grey primer finish - you will need to paint this part black. 2. Top section - supplied in primed ABS plastic ready for painting body colour 3. Strip section - chrome plated plastic. This is a bolt on replacement kit that replaces the existing panels on the upper tailgate. Easy to fit. More details online.

Stainless Steel Door Threshers
Defender / Series 2 / Series 2A / Series 3
These stainless steel door threshers will freshen up the inside of your Land Rover as this is an area is which can get very scruffy. All of the existing holes on the sills line up with these doors threshers so they are a quick, easy bolt on project. Made from stainless steel 304 grade bright annealed 1.5mm thick and are laser cut and CNC pressed. Stainless steel fixings are supplied. **Note:** If your door seal is fitted to your sill rail, you may need to modify the sill rail.

DA4629B

DA4629

Roof Consoles

DA4629 Grey
DA4629B Black

This roof console fits all Defenders except sunroof equipped models. Supplied with interior light extension loom and DIN blanking panel. Fitting kit and instructions are also supplied. The console offers a unique storage solution for the Defender in providing additional overhead roof storage as well as a single DIN provision in one unit. The two side sections are designed to hold anything from maps to sunglasses, documents to magazines. The console is supplied in three separate pieces. The product has been designed with CAD software and the moulding finished off using CNC machinery to ensure an OE level fit and finish to the product. It is supplied with a DIN blanking panel but the central binnacle will fit any DIN sized accessory such as a stereo, CB/HAM radio or even a digital tachograph. The single DIN aperture will also accept a bank of seven Carling Technologies switches by using the Carling interlocking switch mounts.

Will the Defender roof console fit my vehicle?

The console has been designed to fit all post 1983 Defender models without a sunroof and with a factory headlining. The fixing method does not require removal or cutting of the headlining or sun visors. (Some later models will require trimming of the central area of the headlining when fitting a DIN unit). If you have a non-factory headlining it is unlikely it will fit without modification of the headlining. If you have a Series vehicle, again it is unlikely it will fit without modification.

DA4692 | Defender 110 Utility - Interior Side Trim Panels

Protect the interior of your 110 Utility Wagon and improve upon the crude 'unfinished' factory look of the Land Rover 'window' trims with these trim panels. They fit behind the existing 'window' trim panel to create a smart factory look finish and are supplied in pairs with cargo nets that create useful extra storage within the cabin walls. Ideal for coats, shopping bags and pet paraphernalia! Each net features elasticised netting and is supplied with black headed flush fit fasteners for a professional appearance. The plastic panels are specially blended to match the correct 'Dark Granite' shade of the original trim panels to provide an OE appearance to the installation. Each kit is supplied with four foam insulation panel that sit behind the trim panels to isolate vibrations and provides an additional layer of insulation.

DA2765

DA2764

Defender 90 - Interior Side Trim Panels

DA2764 Defender 90 | Blank | Black
DA2765 Defender 90 | With nets | Black

Designed to offer a smart factory appearance to the interior of any hardtop Defender 90. The rigid plastic trim offers added protection from accidental damage to your hardtop side panels, whist the easy to clean surface means the rear loadspace remains dog-proof! The basic kit comes as a pair of moulded trim panels. The panels are a one piece moulding from ABS plastic. Each kit comes supplied with four self-adhesive foam backing pads and all the necessary fasteners and instructions. The kits are an easy DIY fit and can be installed with the minimum of tools in approximately 1.5 to 2 hours. Each kit is supplied with four closed cell foam pads to offer additional insulation and sound deadening to the interior of your Land Rover. The foam pads are supplied pre-cut and come fitted with self-adhesive backing for quick and easy installation.

With Nets

The recessed areas within the side panel trim has been designed to accept a 500 x 300mm wire frame storage net. Each net features elasticised netting and is supplied with black headed flush fit fasteners for a professional appearance.

Note: The kits will fit all Defender 90 hardtops fitted with side panels that have the vertical strengthening rib fitted. Early 90 models have a strengthening rib that runs horizontally across the side panel. Unfortunately the kits will not fit this variant.

DA2766

DA2767

Rear Quarter Trim Panels

DA2766 Defender 90 | Blank | Black
DA2767 Defender 90 | With side window cut out | Black

Rear quarter window panel trims to compliment interior side panel trims. The rear quarter window panel trims will finish off the side panel installation with a plastic trim surround to conceal the exposed bare metal to either side of the rear door opening. Available in two styles - with window cut out and without the window-cut-out to suit the later Defender 90 'Van' models when Land Rover stopped fitting the quarter windows as standard in van models. Fitting is a simple screw fixing. Fixings are supplied together with screw caps for a neat appearance. Some minor trimming of this product may be necessary (but not always) due to the variation in the fitment of the side-panels and factory hardtop.

DA8883

Optimill Steering Wheel Slimline Bosses

DA8880 Slimline boss | 48 splines

DA8881 Slimline boss | 36 splines

Optimill slimline boss, measuring only 32mm in depth. Manufactured from a single anodized billet aluminium. Momo horn button will no longer fit due to this being so slim therefore an Optimill cap is supplied. Boss is supplied with screws and pins to cancel the indicators.

Optimill Steering Wheel Slimline Bosses With Quick Release

DA8883 Slimline boss with quick release | 48 splines

DA8882 Slimline boss with quick release | 36 spline

Optimill slimline boss fits directly to your steering column, without the need for multiple bosses to be used. Manufactured to the highest standard, hard anodised to prevent wear and designed to give an extra level of security to your vehicle. The slimline boss is just 42mm in depth, meaning it is only 10mm thicker than our original slimline boss. The boss is designed to fit Momo steering wheels or wheels with 6 holes on a 70mm PCD. Momo horn button will no longer be able to be used as the boss is so slim, therefore an Optimal cap is supplied along with screws and pins for installation. **Note:** This boss has 2 locking pins which are used to separate the boss. These must NEVER be pulled open whilst driving. This is designed as a removable product and it is the drivers responsibility to ensure it is fitted correctly and in full working order before attempting to drive the vehicle. Optimal steering bosses DA8880/DA8881/DA8882/DA8883 don't fit Mountney steering wheels DA4650 & DA4654.

DA8884

DA8884DOCK

DA8884 | Optimill Quick Release Security Lock

Photo by Pieter Nel

DA6493 | X-Trouser | Pair

Lost a pair of trousers getting in and out of your Defender? Here is the simple solution. Not only does it protect your trousers, in many cases it makes the door close more reliably and helps (though it does not entirely stop) the seat belt getting caught in the latch. If the seat belt does become caught as you close the door, it suffers less damage due to the smooth profile of the X-Trouser. The X-Trouser has a smooth profile, if your belt loop or pocket runs over it, it will slide off freely. Made from high quality 304 grade stainless steel. The X-Trouser catch is reversible so it will fit both the driver and passenger doors, left & right hand drive. It will also fit the rear side doors of 110 Station Wagons.

DA1204

DA1203

DA1203

Rear Door Stays

DA1204 Defender - up to 2002 **DA1203** Defender - 2007 - 2016

Does your Defender's rear door sometimes close on you unexpectedly? This neat and easily installed gas strut kit will solve that problem and replaces the original door stopper. The gas strut will hold the door in place when open - even with a spare wheel in place - and will assist in the opening of the rear door too with a smoother and more controlled movement. Complete with fittings and instructions.

Seat Belts

Add a splash of colour to your Defender's interior by fitting a set of these red seat belts. Type approved.

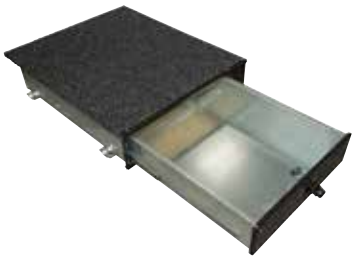
DA1470



Heavy-duty Drawer Systems

DA1470 Defender 90 / Defender 110 - Utility 2007 - 2016 | Drawer size - 950 x 700 x 170mm | Overall dimensions - 1,100 x 910 x 230mm | Base - 1,000mm long

DA1471 Defender 110 | Drawer size - 1,010 x 700 x 170mm | Overall dimensions - 1,160 x 910 x 230mm | Base - 1,050mm long

These Defender drawer systems are ideal for storing items that you keep in your vehicle that you would want to be hidden away from view and can be locked for extra security. The heavy-duty drawers with smooth roller action, fit between the wheel arches and create very useful extra storage space. Drawers extend almost full length for ease of access with a maximum load of 80kg. Hard wearing textured black finish complements the heavy-duty carpeted top.

Note: Will not fit 90 Station Wagons or 110 Station Wagons with 3rd row or inward facing rear seats.

CRDDEF & FKDEF

Image above shows side floor kit fitted. Custom box and cover not included in package. Image below shows both single drawer module and side floor kit

CRDDEF | ARB Outback Solutions Modular Roller Drawers

Single Drawer Module
Defender 90 / 110 - Station Wagon - 2002 - 2016
The ARB Outback Solutions Modular Roller Drawers have unique and practical features incorporated into their design to ensure high quality, maximum functionality and ease of use.

Specifications
Drawer Internal - 730mm wide x 970mm long x 220mm high
External Frame - 790mm wide x 1,070mm long x 280mm high
Total Weight- Approx. 63kg

- *Anti-roll Back System* - Incorporates mechanisms on the roller drawer that lock it in the open position, preventing unintentional closing when the vehicle is on uneven ground. The mechanisms engage at full opening of the roller drawer and are disengaged automatically when closing.
- *Anti-rattle* - Locking mechanisms on the roller drawer eliminate movement while closed. Retaining the drawer in this way stops rattle and wear and tear while driving.
- *Purpose Folded Stainless Steel Runners* - The roller drawer bearings run on purpose folded stainless steel runners. Stainless steel offers the best surface for bearings to run on resulting in smooth quiet operation. Galvanized bearing runners are not used because the galvanized coating transfers onto the bearings creating rough operation and an opportunity for corrosion to start. Tool chest style telescopic runners are not used because of the slop and movement they allow. This constant movement whilst driving accelerates wear and deterioration when used in automotive applications.
- *UV Stable Commercial Carpet* - Exterior surfaces are finished in hard wearing commercial carpet and interior surfaces are trimmed in automotive boot carpet. Both materials resist abrasion and conceal dirt in tough off road conditions.
- *Robust Finishes* - Aluminium trims are used to protect corners and ends of the drawer to improve longevity.
- *Slam Shut Latches* - Slam shut/pull open handles make opening and closing the roller drawer an ease, even with hands full of gear. The roller drawer handle is key lockable.
- *Drawer Dividers* - Fixed long divider to separate into 2 drawers + additional 2 removable dividers.
- Fully galvanised steel chassis.
- Lined with precision cut, quality boot carpet on the inner and outer side to give it a professional and neat finish.
- Full fitting instructions included in packaging.

FKDEF | ARB Outback Solutions Modular Roller Drawer Side Floor Kit

The side floor kit is especially designed for fitment with the CRDDEF drawer module and fills in the area between the outer edge of the drawer and the side of the rear boot area. The side floor kit completes the floor and provides a larger flat top surface. **Note:** Fridge slide not available for this drawer model.

DA2603

DA2603CF

Glove Box Kit

DA2603 Defender - 2007 - 2016 | Black finish fascia plate

DA2603CF Defender - 2007 - 2016 | Carbon fibre effect finish fascia plate

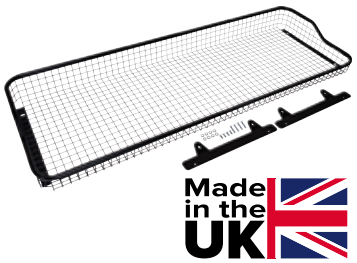
Neat storage solution for the Defender which utilises the available dashboard space. Ideal for storing all the usual small items you carry with you. Robust construction & easy to fit with all the necessary parts supplied. Suitable for right & left hand drive models.

DA2977 | Console Storage Box

Defender - 2020 onwards
Make use of the space at the front of your centre console with this easy to fit plastic storage box. To stop items sliding around, the box features an easy to remove rubber mat.

DA2610 | Coin Tray

Defender - 1987 - 2006



Add some extra storage room to the boot of your Defender with this handy luggage rack shelf. Perfect for storing umbrellas, rucksacks, handbags and other smaller items.

DA3979 | Mesh Luggage Rack Shelf NEW

Defender 90 - 2020 onwards
100mm deep - front of rack | 130mm deep - rear of rack | 935 x 250mm of usable space

DA2902 | Mesh Luggage Rack Shelf

Defender 110 - 2020 onwards
65mm deep - front of rack | 115mm deep - rear of rack | 1,290 x 430mm of usable space

VPLEP0542LR | Exterior Side-Mounted Gear Carrier

Defender - 2020 onwards
Provides easy to access storage on the outside the vehicle. Designed for aerodynamic performance & to minimise wind noise. Tested for harsh environments. Compatible with the radio antenna, however metallic objects inside the gear carrier may affect radio performance. Lockable, waterproof and perfect for carrying walking boots, wetsuits or other items that you may prefer not to carry inside your vehicle.

DA3961 | Boot Storage Box NEW

Defender 110 - 2020 onwards - 5 Seats
This handy box sits into the polystyrene moulding that houses the jack, located underneath the boot floor. Providing you with an extra layer of storage. Featuring a slot which you can relocate your warning triangle into. Made from injection moulded black plastic. **Note:** Not suitable for hybrid models.

DA8893 | Blanking Plug
Replace your old or lost 12V cigar lighter blanking plug with this smart chrome topped one.

DA8958 | Blanking Plug

DA4698 | 12 Volt Dash Socket
Features watertight cap, easy installation and twist locks securely with plug
- Designed to withstand the rigours of damp environments and constant vibration
- Large contact surfaces for good electrical connection
- Twist lock system - plug locks securely into socket
- Internal strain relief and cord seal
- Nickel plated copper alloy used for all current carrying components
- Front panel, rear panel or surface mount

Specifications
Maximum voltage - 12V DC
Cut-out dimensions - 1⅛" (28.58 mm) diameter hole
Maximum socket amperage - 15A

DA4679 | Dual USB Charger
Easy to install in existing 12V DC socket hole providing convenient access for charging mobile devices.
- Compatible with popular mobile devices
- Protective cap
- Easy to use

Maximum output current - 2.1A DC (total)
Cut out dimensions - 1⅛" (28.58 mm) diameter hole
Input voltage - 12V
Output voltage - 5V DC +/- 5%
Parasitic current draw - 15mA
USB - 2.0

DA6674 | USB Socket
Defender -Td5 / Puma / Freelander 1 / Discovery 2 / Range Rover Classic - Soft-Dash
Designed by MUD to slot into the factory switch apertures on the dashboards. The socket design and green background illumination complements the original OEM Land Rover switches and helps the install retain a factory appearance. USB (A) socket is 12v Quick Charge (QC) 3.0 rated. Supplied with a mini-harness to provide a simple two wire installation. Fitting instructions included.

DA6678 | USB Extension Socket
Defender -Td5 / Puma / Freelander 1 / Discovery 2 / Range Rover Classic - Soft-Dash
Replace that loose USB input cable trailing from the back of your head-unit in your Land Rover with a dedicated dash-mounted USB input socket. The MUD USB Extension socket provides a neat way to connect to any head-unit equipped with a Apple Carplay/Android Auto by connecting the USB via the rear of the head unit. The extension socket is equipped with a male USB A connector to plug directly into the female USB A socket/lead on the back of your head unit. Plug your phones power lead directly into the extension Socket on your Land Rover dashboard to provide Android Auto or Apple CarPlay connectivity and simultaneous phone charging. Length of extension lead is 1000mm. Musical note illuminates green when powered by the vehicle. Finish of rocker is black. The socket is styled to complement the original Td5/ Tdci switch design. The extension socket will slot into the factory switch apertures on the dashboard. It will also fit the MUD Puma Pod II & any Puma Double DIN Console switch relocation panels. The green illumination of the USB is a brighter green than the factory LED illumination. If this is problematic for you, you can remove the rocker from the USB rotate the switch round then re-apply the rocker. This stops the musical note from illuminating when powered.

LR058447

DA1400

Defender Heated Windscreen Components
Make scraping your Defender's windscreen on a frosty morning a thing of the past by fitting one of these kits.

DA1400	Kit with Carling Contura switch
DA1401 NEW	Kit with Lucas Classic switch
DA1406	Harness fleece tape 19mm x 25m

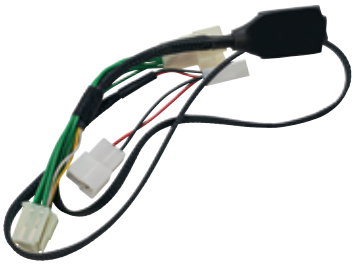
DA1403	White
DA1404	Blue
DA1405	Green

DA2872 | Freelander 2 CAN-Bus Steering Wheel Control Interface
Freelander 2 - Non-Amplified Vehicles
CAN-Bus steering wheel control interface. This product retains the vehicle steering wheel controls and factory phone buttons (if vehicle is equipped) when installing a new head unit. In addition, this interface retains the parking sensors audio tones where they are generated outside of the audio system. This product is for non amplified vehicles. Allows you to upgrade to an aftermarket head unit whilst maintaining use of your factory steering wheel controls. Plug and play, no cutting of wires required. Safety: Allows you to keep your hands on the steering wheel and eyes on the road.



DA2868 | Defender One Touch Indicator Upgrade
Defender - late 300Tdi up to 2016
This complete plug and play upgrade adds the functionality of new vehicles equipped with lane change or 3 flash indicators to your Defender. With a simple momentary press of the indicator stalk the indicators will flash 3 times.
Note: Please check on 300Tdi models you have the later style wiring connectors to confirm this you will need to remove the lower steering cowl.

7450124 | ARB 6-Channel Fused Relay Box
Fitting electrical accessories to a vehicle can be time consuming work. Finding space to mount relays and fuses in a modern vehicle engine bay is a challenge for fitters. And the end result is multiple power cables connected to the crowded battery positive terminal, multiple drilling in the engine bay to mount different looking relays and fuses, and various messy cables running between the relays and fuses. Solve those issues with an ARB 6 Channel Fused Relay Box.

The relay box acts like a 12V power distribution hub and provides 6 output channels. Once the relay box high current cable is connected to the battery, the power connection of any load (e.g., lights) involves only one cable from the load to the screw terminal of the box.

The rated current on each channel is 20A and the rated total output current of the relay box is 60A. Each channel has its own standard blade fuse for overload protection and a 30A automotive relay for turning on and off the power. There is also built-in over temperature protection. A top lid protects the wiring within a compact flame-retardant enclosure. A quick connect cable simplifies LINX installation with pre-terminated direct connection to all 6 x LINX Switchboard outputs, as well as 2 x LINX inputs for convenient under bonnet connections to low beam and high beam.

- 1 x Relay box (160mm x 93.7mm x 84.3mm)
- Selection of pre-installed blade fuses (3 x 20A, 2 x 10A and 1 x 5A)
- 6 x 30A rated relay pre-installed
- 1 x Pre-terminated quick connect cable
- 1 x 3m Extension cable with braided cable sleeve
- 10 x cable ties
- 2 x M6 x 20mm hex flanged screws and M6 locking hex nuts
- User manual

For outputs, ARB recommend to use a wire gauge suitable for the load's current draw and length of wire - for 20A loads, 12AWG (1m) and 10AWG (2m). If using LINX, use the Switchboard Outputs (Terminals No. C3~D3) to control the relays. If using mechanical switches, feed +12V signals to control the relays.

DA4664

NEW

DA4664SWITCH

DA4874

Electric Windows
Defender - 2002 - 2016
Fed up with winding your windows up and down? Make life easier, add electric windows to your Defender with these comprehensive kits. Includes fitting instructions.

DA4664	Front window kit
DA4874	Rear window kit
DA4664MOTORRH	Replacement motor for DA4664 - RHS
DA4664MOTORLH	Replacement motor for DA4664 - LHS
DA4664SWITCH NEW	Replacement switch for DA4664

DA3237 | Binnacle Switch Pod
Defender - 2020 onwards
These switch pods were designed to blend into the dash and allow for 2 switches. The pod is supplied with two switches and is made from durable ABS plastic that easily mounts into position using the included double-sided tape.

DA7481 | Voltmeter Gauge
Defender - up to 2006
Defender - 2007 - 2016 with additional pod

PRC7374LED

PRC7375LED

LED Speedometers
Defender - 1987 - 2006

PRC7374LED NEW	Kph
PRC7375LED NEW	Mph

12/24V dual OLED speedometers with trip and total screen in the same case. Features a 100mm waterproof black dial, stainless steel bezel, and push reset. Odometer activates only when powered, with adjustable settings for various wheel sizes. Includes wiring and bracket.

Specifications
Input voltage: 11 - 15V
Input current: Max 60A
Battery protect voltage cut-off: 11V
Input reverse voltage protection: Up to 16V
Fused input: 60A
8 x Fused relay channels: 2 x 1.5A; 2 x 3.5A; 2 x 5A & 2 x 20A

Tech Hub
You can connect up to 8 ancillary products to our hub and each one is then wirelessly accessed through our switch keypad. The hub can be conveniently located in the vehicle to minimise wiring and fitting times and to give operators easy access.

Switch Remote
The switch unit wirelessly connects to the hub, can be removed from the dock to be operated remotely on the job and can be located anywhere in the vehicle.

DA1748 | 6-Way Blade Fuse Distribution Block Neg Bus Bar
This high quality 6-way fuse holder distribution block has an integral 6-way bus bar - meaning both live and earth connections can all be made at this fuse panel.

- A clear insulating cover is supplied which also has slots to hold spare fuses within the cover
- Externally on the cover are recesses to mount small format stickers to identify the circuits protected
- Selection of stickers provided
- Accepts ATO & ATC automotive blade style fuses
- Tin plated bus and fuses connections for superior corrosion resistance
- Mounts via four M4 holes
- Positive and negative posts are M5 size
- Each circuit is rated at 30 amps at a maximum of 32 volts with a total rating of 100 amps per block

1 x 6-way blade fuse distribution block with neg bus bar
Pre-insulated Ring Fuse Blocks
6 x Red M4
2 x Yellow M4
2 x Yellow M5
4 x Blue M4
2 x Blue M5

ATO/ATC Blade Fuses
1 x 5a blade fuse - beige
1 x 10a blade fuse - red
1 x 15a blade fuse - blue
1 x 20a blade fuse - yellow
1 x 25a blade fuse - clear
1 x 30a blade fuse - green

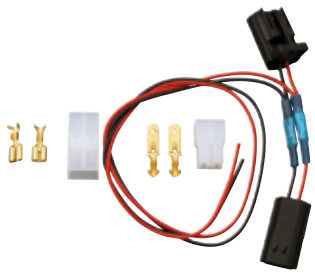
DA7960 | Ring Wireless Connect
The smart way to control power to ancillary electrical products. The one central Tech Hub connects to the vehicle's 12V battery, allowing 8 ancillary electrical products to be wired to one location. Then through unique signal pairing each device can be wirelessly accessed through the switch remote.

- One power pick up point
- Single point connection for up to 8 ancillary products
- Ease of product connection
- Driving efficiencies and saving time in both fitting and operation
- Removes the need to fit battery protection measures
- A simple system, reducing faults and keeping vehicles in operation
- The switch unit can be operated remotely on the job
- Switch units can be located anywhere in the vehicle for easy access

With fewer connections and one central wiring point, fault finding is simpler and vehicles can be back in operation quickly. The switch remote can be located anywhere on the vehicle and can be operated remotely during on-site working.

More information & images can be found online at www.britpart.com/DA7960

- Single point connection for efficient installation
- 60 amp capacity, powerful enough to operate multiple ancillaries at the same time
- Unique signal pairing allowing x 2 switch panels to be connected
- 8 fused output channels for easy connection for ancillary electrical products
- Manual override in case of an emergency
- Battery protection maintains battery voltage
- Switch remote - Single point switch panel where 8 switches are controlled via one user interface
- Switch remote - Backlit illumination for working at low light
- Switch remote - Active channel lights indicates switch status icon
- Switch remote - Lithium battery for quick efficient recharging
- Switch remote - Adaptable switch icons to suit individual requirements
- Switch remote - Docking station for secure fitment when travelling or recharging



DA8862 | Optimill Number Plate Light with Camera
Defender | Black
Complete with HD 170 degree camera & LED number plate light. Billet machined from 6082 aluminium. Plug & Play to plug into factory Land Rover wiring loom. Fitted using the existing holes in the body. Supplied with foam gasket and stainless steel screws.

DA8862MONITOR | Optimill Rear View Mirror Camera Monitor
Practical high quality 4.3-inch TFT-LCD auto rear-view mirror monitor, which is suitable for car reverse cameras, DVD, VCD player, and supports 2-way video inputs. Works perfectly with the Optimill number plate light with reversing camera. The monitor will start up automatically, and synchronously display the video from the rear view camera when you're backing your Defender. It is easy to install without damaging to any parts of your vehicle - clip the monitor on the original one.

DA8862LOOM | Optimill Wiring Loom For Number Plate Light With Reversing Camera
Small piggy back wiring loom that fits between original plug and reversing light, enabling fitment of the new number pate light and provide the live power feed for the reversing camera.

OPTIMILL

DA4511 | Parking Sensor Kit
These bumper* mounted sensors will detect the distance between your vehicle and any rear obstruction and warn the driver to any potential obstructions. An advanced parking solution for obstacle detection at the rear of your vehicle. Reduce the risk of collision during reversing and reverse parking manoeuvres with this kit.

As the reverse gear is engaged, a sound indicates that the reverse sensors are activated. Any obstacle at the rear of the vehicle is then detected and signalled to the driver through a progressive sound whose frequency increases when moving closer to the obstacle.

Enhance your safety through obstacle detection, even when objects are out of the driver's field of vision. Improve comfort through easy parking manoeuvres. Suitable for 12v cars, SUVs and light commercial vehicles.

Kit contents include -
4 x Bumper fit sensors
1 x Warning buzzer
1 x Control unit
1 x Wiring harness
1 x Cutting tool
1 x Fitting accessories
1 x Installation instructions

Add an extra set of 'eyes' when reversing...

***Note:** Not suitable for vehicles with metal bumpers.

1430001 | ARB DVR Reverse Camera Mirror Kit NEW
Full display screen - 1080P (incl. touch control)
Front camera 1080P - (incl. dash camera)
Rear camera 1080P

Boasting high definition 1080P front and rear cameras viewable on a full 1080P screen, the DVR (Digital Video Recording) Reverse Camera Mirror kit from ARB provides the best technology available in the market today. This product seamlessly integrates with the common style of most four-wheel drive vehicles with an OE looking mirror housing and mounting arm for perfect fitment every time. Included in the package as well is a 64GB Micro SD card so it's ready for use.

Features & Specification
- 9.66-inch full display screen with touch control via mirror frame
- 1080P adjustable front recording dash camera with 140° field of vision
- 1080P fixed rear recording IP67 reverse camera with 120° field of vision
- In-built G-sensor automatically saves video from the front dash camera when it detects large changes in acceleration or gravity, such as in the event of an accident
- While parked, if movement of the vehicle is detected the front camera will record for 30 seconds and save the video
- Night mode to increase the sensitivity of the camera lens and take brighter, higher quality videos
- Inbuilt wi-fi connects with smartphone app to view and download recorded videos
- Additional settings to fine tune camera exposure, sound recording, camera flicker, volume, power saving mode, clock including time and date and more
- 8 built in languages
- Rear view mirror with 1080P front camera
- 1080P rear camera
- Wiring harnesses
- User & installation manual
- Installation accessories
- 64GB Micro SD card
- Approximately 2 hours installation time
- Full colour installation guide included

Photo by Bogdan Muscalu

DA1174 | Microprocessor Controlled Dual Battery Management System
This fully automatic battery management system separates the starter and auxiliary batteries when the vehicle is off and links them while running. It features a 200A power relay and a manual override function for emergencies. The manual link (load sharing) is useful for jump-starting or powering high-current appliances like winches, inverters, or compressors. The kit includes a 4.7m wiring loom, sealed automotive plug, and terminals for easy installation. The battery monitor shows charge levels, alternator voltage, solar input, and relay status. The system includes low battery and link failure alarms, with manual link options for 30 and 120 minutes, automatically returning afterward.

Functions
Display of Battery Voltage (Energy Level)
LED Indicators
Green: Batteries are in the safe working range
Yellow: Check batteries
Red: Batteries should be charged
The LED's show the energy level if all loads are switched off: 12.6V = 100% / 12.4V = 75% / 12.2V = 50% / 12.0V = 25%. 11.0V = flashing and beeping indicates low battery situation.
Display of Charge Voltage While Charging
LED Indicators
Red: >14.5V: High loading of batteries, may be present at cold ambient temp. for a longer time.
Yellow: >14.0V: Proper charge mode.
Green: <14.0V: Save charge mode, no damage to batteries.

Bi-directional Automatic Battery Link
When the engine is running, the main and auxiliary batteries charge in parallel from the alternator (green LED on). When the engine stops, the batteries disconnect automatically after a brief delay. Appliances like fridges, lights, and inverters draw power from the auxiliary battery. With solar, charger, or generator support, both batteries charge automatically together (green LED "link" on).

Manual Battery "Link"
In emergencies (defective or empty main battery) or high power consumption, the main and auxiliary batteries can be linked by pressing the button (red LED on). After 30 minutes (or immediately with the auto button), the system returns to automatic mode. For electric winch use, the link stays active for 120 minutes, with a beep every 30 seconds as a reminder. This reduces load on the alternator, wiring, and batteries while using the winch.

Alarm Functions:
Low Battery Alarm - If battery voltage drops below 12V for an extended period, the corresponding battery's LED ("Low Battery") flashes, and a beep sounds. Press the display button to mute the beep. The LED resets when voltage exceeds 12V.
Link Failure Alarm - Monitors battery charging. If one battery fails to charge (from alternator, solar, charger), a green LED flashes, and a beep sounds. Check wiring (relay, terminals, contacts). The alarm resets after fixing the issue.
Deactivation of Automatic & Manual Battery Link - If the auxiliary battery has a fault (short circuit, defective housing), press the link button for 6 seconds to deactivate the link. The system operates in basic mode (alternator, starter battery) without connecting to the auxiliary battery. Press the auto button for 6 seconds to reset and restore full functionality.

Specifications
Supply voltage: 4 - 16V
System voltage: 12V
Measuring range (sense wire blue): 8 - 16V
Display range (battery voltage): 11.0V - 12.8V
Alarm level main and aux: 12.0V
Display range (charge): 13.0V - 14.5V
Accuracy: +/-1%
Consumption monitor: 1mA
Consumption max. display active (30 sec): 20mA
Isolator link-on/off threshold: 13.1V/13.0V
Consumption on-state (relay): 0.6A
Relay continuous load current: 200A
Relay current inrush: 500A
Relay contact material: Silver (AG SnO2)
Free combination of batteries possible: Yes
Operating temperature: -40°C - +80°C
Housing: ABS black
Sealing level: IP40
Size, dimensions: 100 x 65 x 24mm
Weight: 800g
Cabling Red - Supply/sense (main battery)
Black - GND (main battery)
Blue - Sense (aux battery)
Green - Control relay (open collector)

Protected against
Wrong polarity & against overload of solenoid driving circuit on PC board with SMD electronically security devices, no fuses have to be replaced.

Winch Application
Connect an electrical recovery winch to the main battery as shown in the wiring diagram.

DA3648 | Polybush Rear Light Boot
Defender - 1987 - 2016
The Defender's rear lights have no protection from water ingress via the rear of the vehicle, Anything from rain to wading can cause damage, which leads to rust and corrosion of the electrical system, resulting in short circuits and malfunctioning lights and indicators.

The Polybush Rear Light Boot saves your Defender from corrosion, its designed to specifically to fit around the O.E lights on your Defender. The boot provides an effective barrier against water ingress and wheel spray, protecting the connections and preventing rust and corrosion ensuring that the rear lights

Indicator Lights
Freelander 2 / Discovery 3 / Discovery 4
Range Rover Sport - 2005 - 2013
Single

LR007954	Clear with orange bulb
DA7611	Smoked with orange bulb
XGB000073LEDSM	Smoked with LED lights

and indicators remain functional, improving visibility and reducing the risk of accidents. The boot is made from a durable and long-lasting Polyurethane, which is unaffected by oil, fuel, and road contaminants. Unlike rubber, Polyurethane remains flexible and pliable, ensuring that the boot maintains its protective qualities for decades. Installation of the boot is a straightforward process. Cost-effective as it saves Defender owners time and money by eliminating the need for expensive repairs due to water damage. The boot is an affordable and practical solution that provides peace of mind for Land Rover Defender owners who enjoy off-road adventures.

DA3829 | Dynamic Sweep Wing Mirror Indicators
Defender - 2020 onwards
Sweeping from top to bottom, these dynamic indicators replace the standard on/off indicators. The LED lights are easy to fit and have a smoked finish to match the original factory fitted ones. E-marked (E4).

LR004088 | Fog Light Upgrade Kit
Freelander 2 - up to AH999999
Upgrade your Freelander 2 with this genuine driving and fog light upgrade kit. Adds driving lights to Freelander 2 models with fog lights, giving you better all-round night vision. The kit comes with everything you need to upgrade to driving lights (vehicle must have bumper fog lights already fitted).

DA1410

DA1409

Comfort Connectors
Custom adaptors, using genuine CTEK comfort connect adaptors allows a vehicle's battery to be charged through the caravan towing electric socket. The vehicle must have fully populated towing electrics for these adaptors to work. For use with CTEK Multi-XS7000 universal battery charger.

DA1409	**7-Pin Charging Adaptor**
DA1410	**13-Pin Charging Adaptor**

DB1500 | Heavy-Duty 200A Split Charge Relay

Optima Batteries
With it's patented Spiralcell® Technology, Optima batteries offer 15 times the vibration resistance and up to twice the life of ordinary batteries. The Optima is like no other battery found in today's market. Optima's unique patented Spiralcell® design offers the best technology by providing a strong and clean power source that far surpasses any of today's traditional lead acid batteries. With Optima as your choice, you can count on a longer lasting battery.

DB1021	Top & side terminals

Demand more from your vehicle? Then get more from your battery. Optima Yellow Top batteries are made for the extremes. If your vehicle is designed to take the abuse of off-road driving, you need increased performance and reliability from your battery. Optima batteries combine patented Spiralcell® Technology to deliver that performance. The deep cycle characteristics of this technology coupled with its extreme resistance to vibration provides performance vehicles with the repetitive power they need, packaged in a spill-proof compact design. If your vehicle is fitted with high drain accessories such as additional lighting, tracking devices, ICE systems, winches, hydraulics etc, then this ultimately demands more from your battery. Optima Yellow Top batteries provide the extra performance and deep cycling capability that your vehicle demands.

Optima Red Top batteries are built to withstand the abuse 4x4's experience on and off-road. Spiralcell® Technology immobilises the internal components of the battery, enabling Optima batteries to withstand incredible amounts of vibration. Vehicles modified for improved engine performance demand more from a battery. Optima batteries withstand the high engine bay temperatures associated with these performance vehicles. The sealed construction makes the battery spill-proof, even if you install it on its side! This prevents external gassing and leaking which can damage engine components and reduce battery performance. If your battery is used in applications that demand extra reliability endurance and performance, or if you just take pride in getting the best performance out of your vehicle, Optima Red Top batteries deliver the performance you demand.

DA3868 | Stinger 10-Inch Intergated Multimedia System With Integrated Bespoke Installation Kit
Defender - 2007 - 2016
Upgrade your Defender with the Stinger HEIGH10 10-inch infotainment system. Retain all OEM features, vehicle settings, and more including off-road and performance gauges. All in one easy to install, plug-and-play package.

10-inch Touchscreen
Features a giant high-resolution, 10-inch capacitive touchscreen with 16.7 million colors for a full visual experience
Adds Apple CarPlay & Android Auto
Access your smartphone's music, maps, and hands-free calling easily on your dash.
Plug & Play Installation
Complete plug-n-play system: No vehicle modifications needed!
Complete Integration
Retain the look, feel and functionality of your vehicle with our complete integration kit

Vehicle Off-Road
- Pitch
- Roll
- GPS coordinates
- Compass
- Altitude

Vehicle Gauges
- Eight gauges on the screen
- Save two display presets
- Battery voltage
- Oil temperature
- Fuel level
- Coolant temperature... and many more

Vehicle Performance
- Speed
- RPM
- Current/best 0-60mph time
- Current/best 60-0mph brake distance
- Current/best 1/4-mile time

DA4995 NEW | AHD Rear Camera Kit
Defender - 2007 - 2016
Upgrade your Defender with a reverse camera kit for a safer and more convenient driving experience. Suitable for any unit that has an AHD input, this innovative camera is uniquely designed to be installed directly over the rear washer, offering a high central location for optimal visibility. The result? A clear, natural view of what's behind you, ensuring easier parking and trailer hookup along with enhanced vehicle safety. Ideal to use with DA3868 - Stinger 10-Inch Integrated Multimedia System.

A safer & more convenient driving experience!

High Central Position: Mounted over the rear washer, this unique placement provides a superior, centralised viewing angle for better perspective and accuracy.
Wide-Angle High-Resolution Camera: Offers a crisp, expansive view to help you spot obstacles with ease.
Seamless Factory-Finished Design: Blends perfectly with your Defender's exterior for a clean, professional appearance.
Specification:
- AHD 720P
- Minimum Illumination: 0.1 Lux
- Dimension: 25mm cut out
- TV System: NSTC
- Waterproof Rating: IP68
- Horizontal Angle: 150 Degrees
- Parking Lines: Yes (Removable)
- Adjustable Image: Yes (Mirror/Normal)
- Operating Voltage 12-24V DC

DA4996 | Stinger Two DIN Head Unit
Vibrant 6.8" HD Touchscreen
Enjoy stunning visuals with a 1024x600 capacitive display.
Wireless Smartphone Connectivity
Compatible with Apple CarPlay and Android Auto, and phone mirroring (wireless or wired connection) to make it possible to access map navigation, phone contacts, notifications, music, and much more.
Bluetooth Connectivity
Hands-free calling and music streaming with Bluetooth V4.2 A2DP AVRCP.
Steering Wheel Control Ready
Effortless control with SWI-RC compatibility.
Camera Inputs
Supports up to 4 camera inputs with adjustable parking guidelines for effortless manoeuvring.
Superior Audio Performance
Enjoy powerful sound with a 4 x 26W (45 x 4max) amplifier, expandable with external amplifiers. Experience advanced audio processing with a 24-bit DSP, 13-band EQ, time correction, independent subwoofer control and selectable crossovers

Extra Enhancements
Charge and control your phone with a high-power 1.5A USB input, and personalize your screen with custom backgrounds.
DAB Digital Radio: Stream the latest digital radio

- 8" Active ultra Ultra compact subwoofer
- 80W RMS 240W Max
- AutoStart on high-level input
- Remote gain control
- High and low level input
- Power & high-level cable quick connector
- Aluminium casing
- Subsonic filter at 20Hz
- Phase control
- Variable Bass boost 0-12 Boost
- Dimensions - 290mm x 210mm x 70mm

DA2882 | Ultra-compact Subwoofer
The Z880 is an 8-inch, ultra-compact, fully aluminium subwoofer from Phoenix Gold. It is designed to fit into a variety of small spaces within any vehicle, including under seats or limited boots. The powerful MOSFET amplifier delivers 80Watt RMS and up to 240W maximum. The Z880 is a plug & play unit with a complete wiring kit for high-level installation. The wiring kit includes power, ground and high-level input quick connectors and includes a wired bass remote. The design of the subwoofer is up to 60% smaller than a standard under seat subwoofer.

DA1922 | Fast Rings
Defender - and other 5" / 5¼" speakers
A 3-piece foam ring speaker enhancement system solves the problem of acoustically coupling aftermarket speakers to factory speaker openings. The RoadKill Fast Rings kit increases speaker output, improves the projection of the audio into the car cabin and reduces unwanted rear reflections that can degrade the sound.

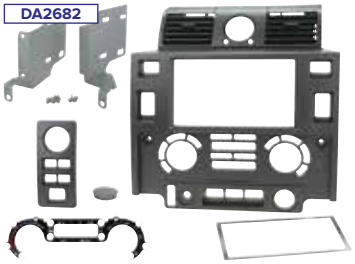
Benefits
- Reduce panel vibration
- Increase mid-bass response
- Enhanced audio output efficiency
- Minimize destructive wave interference
- Help prevent front and rear wave cancellation
- Easy installation with peel & stick application
- Maximize performance for speaker installations

- 3-Ring DNA
- Gasket for speaker mounting to the baffle plate surface
- Middle ring to mount around the outer edge of the speaker
- Circular foam pad goes behind the speaker to absorb unwanted reflections on hard surfaces, such as inside a car door

DA2608

Double DIN Fascia Plate
Defender - 2007 - 2016
DA2608 Piano gloss black
This fascia kit allows the installation of a double DIN head unit into a non-double DIN size aperture. High quality finish designed to match the vehicle dashboard. Complete fascia kit, supplied with brackets to mount the aftermarket double DIN head unit.

DA2682



Double DIN Fascia Plate With Retention Of OEM Clock
Defender - 2007 - 2016
DA2681 Piano gloss black
DA2682 Matt black
For double DIN stereo installation. Retains OEM clock, all dash buttons and button detail. Fascia kit allows the installation of an aftermarket head unit into a non-DIN sized aperture. High quality finish designed to match the vehicle dashboard. Allows for relocation and retention of OEM clock. Fascia kit supplied with brackets or cage if required.

DA2898

Defender Td5 Double DIN Console
DA2898 Black
Corresponds to single DIN - FWJ000110PMA
DA2899 Brunel Silver
Corresponds to single DIN - FWJ000110LQV
These Double DIN Consoles provide an upgrade for your Defender - Td5, replacing the standard radio fascia with a stylish, one-piece design. This upgrade allows you to switch from the factory single DIN radio to a modern double DIN head unit with ease. The original fascia is known for its fragility, constructed from a lightweight, two-piece design that struggles to support the weight of the single DIN unit. The central panel that holds the radio can often separate from the main console, leading to failures. Installing the new console is simple. It uses the existing factory fittings and doesn't require any modifications to the dashboard. Just remove the old unit, attach the new console, and enjoy the enhanced functionality and larger displays offered by double DIN head units. Engineered with precision, the console is crafted through injection moulding, ensuring a perfect fit and a seamless factory-like appearance. Additionally, the design includes an enlarged recess for the 12v cigar lighter socket, accommodating popular Bluesea marine-grade power sockets for added convenience.

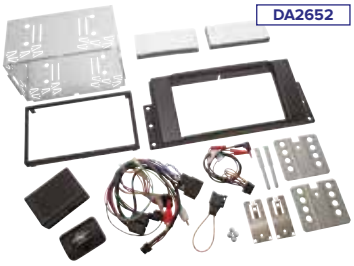
DA4691 | Single DIN Dashboard Mount
Defender - 2007 - 2016
The MUD dashboard mount creates a quick and easy method of mounting a single DIN accessory into the Puma dashboard. You will however have to route any wiring through the back of the dashboard. Ideal for mounting any DIN sized CB/HAM radio unit into your Defender. Mic extension leads are an inexpensive accessory and commonly available so that mic can reach the driver. The single DIN mount also comes with a handy 'coin tray' which sits behind the grab handle. The dashboard mount is also suitable as a digital tachograph mount. EU customers should be aware that mounting a tachograph on the passenger side of the dashboard does now meet EEC legislation. Supplied with all fixings required to provide a quick and easy installation. Fits both right-hand drive and left-hand drive vehicles.

DA2611

DA2652



Double DIN Radio Install Fascia
Freelander 2 / Discovery 3
Range Rover Sport - 2005 - 2013
DA2611 Non-amplified vehicles only
DA2652 Fibre optic amplified vehicles only
Double DIN radio install fascia, steering wheel control interface and antenna adapter
- Allows you to upgrade to an aftermarket head unit whilst maintaining use of your factory steering wheel controls
- Plug and play, no cutting of wires required
- Maintains the original features of the vehicle such as date, time and temperature display
- Choose the relevant head unit connection lead according to the make of aftermarket head unit you wish to fit
- Contains universal patchlead

DA2604

DA2616

Double DIN Radio Install Fascia, Steering Wheel Control Interface & Antenna Adapter
Range Rover - 2002 - 2012
DA2604 Excludes amplified
DA2616 Amplified
- Allows you to upgrade to an aftermarket head unit whilst maintaining use of your factory steering wheel controls
- Plug and play, no cutting of wires required. Contains universal patchlead
- Maintains the original features of the vehicle such as date, time and temperature display
- Choose the relevant head unit connection lead according to the make of aftermarket head unit you wish to fit

DA3744 | Side Window & Windscreen Demister Kit
Defender
The Defender Demister is an amazing product that fits most Defenders, wide vent versions from approximately 1983 - 2016. Fitted in about 30 seconds using a couple of screws, no drilling or complicated processes. All you need to fit them is a screwdriver! It works by controlling the existing air flow, distributing it to the areas that need it most... your front and side windows. Safety for both yourself and anybody travelling in your vehicle is the most important consideration for any driver. The Defender Demister ensures that both side windows are mist and condensation free thus ensuring visibility even in the worst weather conditions.

DA1205 | Demister Kit
Defender - 1987 - 2007
Fitting this Defender demister kit will help demist your windscreen more effectively than the standard fitted demister and has the added bonus that it will also demist your side windows too. With full fitting instructions.

DA4599 | Heater Deflector
Defender - 2007 - 2016
The MUD Heater Deflector solves the problem of that crude and annoying blast of hot air to your lower legs in all Puma engine Defenders. The Heater Deflector redirects the flow of air from the lower heater outlets forwards into the footwell, rather than directly at your legs to create a more comfortable driving environment. The Heater Deflector moulding fixes easily in place using the supplied push-fit fasteners & can be fitted in 5-minutes. All you need is a 4.5mm drill. Position Heater Deflector, drill the fixing holes in the lower dash section & fix the Heater Deflector in place using the push-fit fasteners.

DA4598 | Heated Mirror Kit
MUD-UK Defender heated mirror elements use advanced carbon-impregnated glasscloth technology - similar to that in underfloor heating and premium bathroom mirrors. Unlike traditional printed circuit elements, these provide even heat across the entire surface, avoiding "striping" and offering greater durability with no delicate circuits.
Each element has a self-adhesive backing for easy installation- just peel and stick to the back of the mirror glass. A fitting kit is included (4m twin core wire, assorted terminals, and a relay), but a switch is required and not supplied. Wiring can be neatly routed through the mirror arm. Dimensions: 115 x 167mm.

DA5717 | Retrofit Insert Seat Heaters
Complete set for driver and passenger seats
- Two stages of heating
- Kit includes four heating elements and items needed for installation
- Pre-assembled cable set with switching relay and buttons included
- Temperature guard to prevent overheating
- Heating elements are durable and extremely flexible
- For use on seats which have a removable cover
- Includes fitting materials and instructions
- Test mark: e-approved to 95/54/EC (EMC guidelines for vehicles)

Full details in the Seats & Trim section

DA5717W

DA1390 | Fuel Burning Heater
Discovery 3 - 2.7
Discovery 4 - 3.0 - when timed climate is activated
Range Rover Sport - 2.7 / 3.6
Range Rover Sport - 3.0 - when timed climate is activated
Fuel burning heater is ideal for warming your engine on cold winter mornings while sat in the comfort of your house, no need to go outside and start your engine to defrost the car. The heater is triggered using one of two main options. The first is your Land Rover original blip using its 3rd button, secondly by sending an SMS. As well as a FBH this controller can do a host of other functions including - clear faults, fuel pump prime, diagnostic and statuses on SMS, various run modes, SMS controlled GPS tracking and so much more.

DA8076SQ

Dynamat Xtreme Sound Deadening
Dynamat Xtreme is the highest efficiency sound deadening material available and the most effective product for stopping noise and vibration. Xtreme can be used on any and all interior sheet metal and fibreglass body panels. The aluminium constraining layer is very moldable and conforms easily to all interior surfaces. The patented extra sticky butyl layer is formulated with VECTOR chemistry for the most amazing energy conversion capabilities ever. Use it on your doors, floor, roof, bonnet and loadspace for a quiet, cool and incredibly solid ride.

- Create a solid, luxury car feel with a reduction in road noise
- Stop resonance & vibrations, reduces buzzes & rattles
- Improved sound. Get more bass. Hear more of your music
- For use throughout your vehicle interior, the first step to a great car

Use it for a quiet, cool and incredibly solid ride

CAMPING

802200 | ARB Esperance Rooftop Tent

Compact. Hardshell. Lightweight. Contemporary Design.

Drawing heritage from the beautiful beaches and crystal-clear waters of one of Western Australia's most renowned coastal environments, the Esperance tent now expands the ARB rooftop tent family into a super lightweight, slimline and contemporary looking hard shell.

With the brief focused on quick and effortless setup/pack up times, features like an internal telescopic ladder, gas strut assisted opening and only 3 push lock ratchet straps keep travelling a breeze. Not only does Esperance look great at camp but the unique shell design and colour tone also compliments vehicles while packed up.

Lift, Pull & Rest

- Setting up is as simple as unclamping the cover, lifting it up, and folding out the tent via a pull
- Can be packed up with compact bedding left inside
- Internally stored telescopic ladder

Roomy & Comfy Interior

- When set-up, enjoy a large overall internal bed space: 1,520mm (L) x 2,000mm (W) x 1,200mm (H at centre)
- 40mm thick, high-density sponge with a quilted polyester peach skin mattress cover that's removable for washing
- Manage airflow via the 3 zippered windows featuring dual midge-proof mesh screen
- Stargazing moonroof

Extra Protection

- Wind resistant, slimline shell design that has been designed with a streamlined mould
- Stainless steel hardware for long term durability
- Canvas is made from 200GSM poly cotton fire retardant with a silver coated 2m water head
- Fly is made from removable 210D fire retardant canvas, with silver coated 3m water head

Handy Features

- Features an internal dimmable LED strip light with concealed cables
- External LED strip lighting to help you out late at night
- Includes internal storage pockets, shoe pockets, cargo pockets, mounting kit and hardware

Specifications

- Packed Dimensions - 1,520mm (L) x 1,220mm (W) x 330mm (H)
- Open Dimensions - 1,520mm (L) x 2,000mm (W) x 1,200mm (H)
- Weight - 56kg dry (approximately)
- Sleep Persons - 2 adults & 1 child
- Tent Weight Limit - 500kg
- Ladder Weight Limit - 150kg
- Shell Material - ABS with acrylic compound material
- Mattress - 40mmm, high density sponge
- Mattress Cover - 3-layers quilt polyester peach skin
  Fabric of Rain Cover - PU300mm, UV50+, PU+silver plating, Oxford, 210D, FR free
- Fabric of Main Tent - PU300mm, UV50+, PU+silver plating, poly-cotton canvas, 200g, FR free
- Mesh - 100% polyester, 50g/m2, 68D
- Roof Rack/Cross Bars requirement - Your roof rack and cross bars MUST have load limit over 75kg. Your cross bars MUST be at least 760mm apart and height is less than 40mm. Please consult your vehicle's manufacturer regarding the load limit.
- Speed Limit - The recommended speed limit to not exceed when having the tent on your vehicle is 68 mph. Driving speed should always be adjusted according to the current driving conditions, such as road type and quality, weather (wind conditions, rain), and applicable state speed limits.

804200 | ARB Esperance Annexe Removable Zip On Room

The annex for the ARB Esperance enhances comfort and convenience, turning your tent into a complete home. It features glow-in-the-dark zipper pulls, twist-lock poles, ARB guy ropes, and insect-proof mesh with solid canvas doors. Key features: Reduces wind noise. 210D Oxford canvas with HD PVC floor skirt. Silver-coated, 3M water head. Magnetic window/door loops. Hanging shoe and accessory organiser.

803300 | ARB Flinders Rooftop Tent

Compact Without Compromising On Camping Comfort

With a quick set-up and pack-up as well as the added practicality of storing all your bedding inside, with the ARB Flinders rooftop tent you're one fold away from a good night's sleep in a comfortable space that'll go wherever you and your 4WD take it!

Spacious inside with 3 surrounding zipper windows, a skylight-style roof and built-in internal light and USB charging port, the Flinders rooftop tent is conveniently compact on the outside with a lower packed height for reduced wind drag and less added height to your vehicle.

Easy Set-Up & Hassle-Free Pack Down

- Set up and pack down is simplified thanks to the zipped cover which does not have to be removed
- Setting up is as simple as unzipping the cover, opening out the tent using the ladder and sliding the expendable poles into position - all internal poles will intuitively fan out into place
- Packing down is easy via 2 internal bungee lines to help pull the sides of the tent in as it folds down

Internal Light, USB Charging Points & Storage Pockets

- Features an LED touch lamp and 2 x USB charging points that can connect to a vehicle's 12V outlet
- Includes 4 storage pockets, shoe pockets, pack down bungee cords, 5m lighting cable extension, mounting kit and hardware

Compact & Lower Profile

- The lower packed height of 200mm (without ladder affixed) results in reduced wind drag and adds less overall height to the vehicle
- Compact size allows for improved aerodynamics as well as improved access to low roof areas and tracks with low canopies
- Removable ladder

Large Internal Space With Windows

- When set-up, enjoy a large overall internal bed space: 2,400mm (L) x 1,400mm (W) x 1,200mm (H at centre)
- Manage airflow via the 5 zippered windows featuring dual midge-proof mesh screen
- Rain and sun awning shelters to side windows and entrance
- Integrated vent ensures maximum airflow and reduced condensation
- Includes comfy 50mm high-density foam mattress with bedding retention straps

Weight - 14kg

SW002 | ARB SkyDome Peg & Pole Kit
Replacement peg & pole for SDS200

The ARB SkyDome swag offers generous dimensions to reduce claustrophobia and provide freedom of movement. It features large mesh areas for ventilation, insect-proof mesh, and canvas flaps for airflow. The free-standing design requires no pegs or ropes, while the waterproof canvas and 75mm foam mattress ensure comfort in all conditions. Key features: 500gsm rot & mildew-proof canvas. 135gsm midge-proof mesh. 970gsm PVC base. 75mm foam mattress with anti-microbial treatment. Improved ventilation and rain gutters. No#10 YKK anti-corrosion zippers. 11mm aluminium poles.

BSWAG | ARB BootSwag
Replaces traditional boot mats, which can soil swags when rolled up. Features a zippered front flap, waterproof boot mat, & dome section made of PU coated Oxford polyester for water resistance. This standalone item also works with other touring products, like roof top tents. Protects footwear from weather. Free-standing with 4 pegs. Fibreglass bows and rods for durability. YKK zippers and corrosion-resistant eyelets. Includes storage bag.

10100385

ARB Cargo Gear SkyDome Swag Bags
Designed for storing and transporting ARB SkyDome Swags. They feature moulded rubber handles, a removable shoulder strap, and integrated tie-down straps for roof rack securing without extra straps. Tough Oxford PU coated fabric with rubber panelling. Heat-sealed, taped seams for storm proofing. Roll-top closure with 'Sure Grip' buckles for water resistance. Removable shoulder strap. Grab handles on both ends.
10100385 Single SkyDome Swag
1,000mm L x 450mm D
10100390 Double SkyDome Swag
1,500mm L x 450mm D

DA8981 | ARB Simpson Rooftop Tent & Annex
1,400 W x 2,400 L x 1,300mm H
The ARB Simpson III rooftop tent will provide the ultimate in ease and convenience when travelling. Unfolding in minutes, a rooftop tent provides sleeping quarters off the ground, protected from the elements. Spacious and comfortable, all bedding can remain inside the tent during the journey, freeing up vital storage space in the vehicle, and allowing the tent to be quickly and easily packed away. More images available online.

Features

- Incorporates an updated design and new materials for better strength, rigidity and water resistance
- Manufactured from high quality, poly/cotton fabric
- Incorporates Oxford polyester flysheet with excellent water shedding ability
- Sturdy aluminium retractable ladder
- High density bonded chip foam mattress with removable cover for increased comfort and durability
- Incorporates pull out veranda
- Insect screened windows and door
- UV stabilised laminated PVC cover
- Bungee cord system to assist when closing
- Easily mounted to ARB's purpose designed roof rack
- Can be configured to unfold off either the side or off the rear of the vehicle
- All aluminium components feature an anodized finish for improved corrosion resistance and appearance
- Comes complete with mounting hardware, wrenches, ladder, travel cover and comprehensive instructions
- ARB awnings can also be paired with the rooftop tent

815118

ARB4158A | ARB Supergrip Sand Pegs
The ARB Super Grip Sand Pegs offer superior grip in soft soil, sand, and snow. Made from durable polycarbonate with multiple attachment points, they withstand strong winds. The bright orange colour improves visibility and reduces tripping hazards. Key features: 4 pegs per pack, 370mm length.

ARB4159A | ARB Guy Rope Set With Carabiner
Each pack includes 2 spring-loaded tensioners with aluminium toggles and carabiners rated at 50kg. The reflective rope ensures visibility at night. The heavy-duty spring absorbs shocks, keeping guy ropes taut and pegs secure in windy conditions. Ideal for ARB awnings.

ARB AWNINGS & ACCESSORIES

ARB Aluminium Encased Awnings
The awning features quick-release bungee cords for easy setup, with a strong aluminum housing with flip-up lid for added convenience. The 300gsm PU-coated ripstop canvas is waterproof, UV-protected, and reinforced with abrasion-resistant material. Supported by 25mm anodized aluminum poles for corrosion resistance, it's ideal for beach setups. Compatible with awning rooms and wind breaks. **Note:** You may also need awning fitting brackets - 813401 or 813402 or quick release brackets.

814102	Natural Aluminium Finish | 2,500mm wide x 2,500mm deep
814408	Natural Aluminium Finish | 2,500mm wide x 2,500mm deep - with LED lights
814415 NEW	Black Aluminium Finish | 3,000mm wide x 2,500mm deep - with LED lights
814414	Black Aluminium Finish | 2,000mm wide x 2,500mm deep - with LED lights
814412	Black Aluminium Finish | 2,500mm wide x 2,500mm deep - with LED lights

Awnings & LED Light Kits
These kits provide essential outdoor lighting with an integrated LED strip in the awning roof, offering up to 1,200 lumens in cool white or amber mode. The dimmable LED light stays in place for easy setup and pack-up. Amber mode minimizes bug attraction, and the light is powered by a fused cigarette lighter plug with 4m waterproof cables. 300gsm heavy-duty, UV-resistant awning roof. Water-resistant digital dimmer (IP56). Includes cable storage bag and durable carry bag. 25mm aluminium poles with flexible joints for strength and stability. **Note:** You may also need awning fitting brackets - 813401 or 813402 or quick release brackets.

814406	2,000mm wide x 2,500mm deep
814407	2,500mm wide x 2,500mm deep

LED light strip is incorporated into the awning roof

DA6828 | ARB Awning
1,250mm wide x 2,100mm deep
Retractable, self-standing awning easily mounts to roof racks for quick setup. Designed for tough conditions, they feature height-adjustable telescopic legs and provide fast protection from the elements. Stored in a heavy-duty nylon reinforced PVC bag, they are made from durable, waterproof 300gsm poly/cotton ripstop canvas with UVP 50+ protection. **Note:** You may also need awning fitting brackets - 813401 or 813402 or quick release brackets.

ARB Windbreaks
ARB wind breaks attach to awnings for added rain protection, shade, and extra storage space for items like swags and chairs. Made from lightweight, waterproof 300gsm poly/cotton canvas with UVP 50+ protection, they include tie-down points for securing the awning. Awning not included.

DA6829	Front wind break | 2,500mm wide
DA6840	Front wind break | 2,000mm wide
813300	Front wind break | 1,250mm wide
DA6844	Side wind break | 2,400mm wide

Suitable for 2,000mm & 2,500mm awnings only. Not suitable for 1,250mm awning (DA6828).

ARB Deluxe Awning Alcoves
This alcove offers versatile protection from sun, rain, wind, and light, ideal for use as a shelter, verandah, or storage space. Made from fire-retardant 175GSM polyester ripstop canvas, it includes a durable mesh mat and complements ARB's Touring lineup. More details available online.

ARB Quick Release Awning Brackets
The ARB quick release awning brackets allow easy removal and re-installation of your awning for storage or moving between vehicles. These brackets fit ARB awnings to roof racks without drilling and can be removed with a single bolt. They offer versatile mounting options, allowing quick setup at the side or rear of the vehicle. Key features: 3mm powder-coated steel with zinc plating. No drilling required. Easy setup and removal. Supports 2.5m awnings for dual cabs. Compatible with ARB and some other awnings. Kit 3 - Allows a 2.5m awning to be mounted on dual cabs with a 700mm overhang. ARB quick release brackets also offer strong, durable mounting options for vehicles. Kit 4 - Allows you to quickly move your awning from the side to the rear of the vehicle for camping, offering up to 2.5m of rear awning space. The awning must be returned to the side for transit.

ARB Awning Brackets

813402
Designed with welded gussets to provide additional strength when awnings are mounted to roof bars on vehicles used off-road or under extreme conditions. Single.

813401
Galvanised bracket bolts directly to roof bar or flat roof rack panel for a simple awning fitment. Single.

813402

813401

10100388 | ARB Tool Roll Bag
Keep your tools secure with the ARB Tool Roll Bag. It features four removable pouches, a wheel guard cover with magnets, and space for spanners. Easy-clean PVC shell. Cordura lining for compact storage. 4 removable pouches. Removable magnetic wheel guard cover. Space for spanners (tools not included).

ARB Stormproof Bags
The ARB Stormproof bags offer a roll-up, non-zip opening for easy access and waterproof, dustproof protection, making them ideal for outdoor storage or roof rack transport. Featuring tie-down loops, gear loops, and quick-release buckles, they securely attach to your roof rack. The polyester shell, abrasion-resistant PVC base, and strong double-stitched handles ensure durability. Mesh quick-access pocket. Double-stitched handles and shoulder strap.

ARB4345 | ARB Camp Kitchen Organiser
Streamline your camp kitchen with the ARB Camp Kitchen Organiser. It features utensil sleeves, an internal pocket, paper towel holder, and rubber mesh outer pocket to keep essentials in one place. Made with a durable PVC shell and flexible neoprene sides, it offers multiple mounting options: eyelets, hook loop straps, and sail track compatibility. Compact and easy to clean, it's perfect for your kitchen on the road. Dimensions: 450mm x 375mm x 8mm (closed), 810mm x 375mm (open). Key features: Easy clean PVC shell. Flexible neoprene sides. Compact, zippable design. Multiple utensil sleeves. Paper towel holder. 3 mounting options

4X4 ACCESSORIES

ARB products available in the UK only.

Photo by Bart Bouma

Stay organised & keep your equipment protected with these durable, stackable storage units.

Boxes shown stacked - supplied as singles

Britpart XS Expedition Boxes
Manufactured from super tough black high density polyethylene plastic, the boxes lock tight with catches and feature a ribbed structure for additional strength. The boxes can be stacked on top of each other, with the base fitting firmly with the lid below reducing shifting of cargo in transit. Given the rigid structure of the boxes, ratchet straps can be used to hold boxes in position without damaging any of the contents. The storage capabilities of these boxes are limitless - from camping equipment, food supplies, recovery equipment, camera supplies and much more. Enabling you to keep your packing space organised and easy to access, whether that be in the boot or on the roof rack. The boxes are big enough to hold your supplies, whilst still being easy to lift in and out of your vehicle and are available in low and high lid options.

Features

- Durable high density polyethylene plastic
- Lock tight with catches
- Integrated grab handles
- Water resistant
- Drainage holes
- Stackable
- Ribbed structure

DA9993 | Low Lid Expedition Box

Internal - 450mm L x 340mm W x 293.5mm H

DA9994

10500140 | ARB Quick Fold Stretcher Single Bed
Perfect for use under a swag or on its own, offering a quick-fold design for fast setup and easy pack-up. Its padded 600D nylon top ensures comfort, while the heavy-duty steel frame supports up to 150kg. An included boot bag keeps items off the ground, and the anti-rock feature ensures stability all night. Weight: 12kg. Open size: 2,110 x 820 x 460mm.

10500181 | ARB Double Swag Stretcher NEW
Perfect to pair with your ARB Skydome Double Swag. Features a sturdy black steel frame with contrasted charcoal crossbars. The durable skin is made from 600D polyester and features contrasted beige piping for visual appeal. On the underside of the stretcher, you will find built-in buckles which keep the frame securely closed when not in use. To top it all off the stretcher comes with a sturdy 600D polyester carry bag featuring double webbing straps and a premium padded handle for easy transport and storage. Weight: 16kg. Open size: 2,150 x 1,400.

10500161 | ARB Pinnacle Camp Chair NEW
A premium seating experience with a sturdy black steel frame & 600D polyester body with 420D ripstop panels. Features wide armrests, a rear mesh pocket, and a built-in side panel with a cup holder and extra pockets. Folds easily with a quick-release bracket. Includes a carry bag. Supports up to 150kg.

10500151 | ARB Base Camp Chair NEW
A versatile travel chair with a sturdy black steel frame and 600D polyester body with 420D ripstop panels. It features padded armrests, a rear mesh pocket, and a swivel cup holder. The chair comes with a spacious carry bag with webbing straps and a padded shoulder pad for easy transport. Supports up to 150kg.

10500131 | ARB Compact Directors Chair
Rated to 130kg. The ARB compact directors chair is the luxurious camping chair solution! Features Old Man Emu colours, full high back support, auto folding table with cup holder, padded armrests, safety lock out button, unique any-terrain legs, integrated fully PVC welded no leak cooler bag and an abundance of pockets and organisers which all fold neatly down into an easy pack carry bag.

DA8929 | ARB Air Locker Camping Chair
Rated to 120kg and has a host of features, including a padded seat and backrest, convenient drink holder pouch, side pocket with Velcro flap for your keys, wallet or other small items, and a mesh magazine pocket on the rear of the backrest. Manufactured from durable nylon Oxford weave material, the chair also comes with a matching carry bag for compact storage and transportation.

217938 | ARB Camper Tumbler
Your drink companion, the Camper Tumbler, is just what you need on warm summer days out on the tracks. The insulated 304 stainless steel inner holds 300ml of your chosen beverage. The Camper Tumbler has bold ARB branding on the outer, a modern black finish with a flat base for stability.

10500130 | ARB Compact Camping Table
This compact aluminium table is perfect for packing into your vehicle but large enough for a family of four. Its sturdy slats resist heat, making it ideal for meals or keeping gear off the ground. Cross braces add extra support, ensuring stability. It folds neatly into a 600D PVC nylon carry bag for easy transport. Table size: 860 L x 700 W x 700mm H. Holds up to 30kg. Black anodized legs. Unique pins for stability when moved. Folds compactly to 880 L x 210 W x 125mm H.

10500171 | ARB Pinnacle Camp Table NEW
Ideal for cooking and dining on the go. It features a durable black aluminium frame with adjustable legs for stability on uneven surfaces. The large tabletop provides ample space, and a mesh basket adds storage. It packs into a carry bag with an internal divider for easy transport. Height adjustable from 790mm to 990mm. Large tabletop: 1140mm x 700mm. Storage basket under the tabletop. 30kg weight capacity.

217751 | ARB Topo Umbrella
This stylish golf-sized umbrella features ARB's iconic topo print, with alternative ARB branding and ADVENTURE AWAITS panels. Mounted on a sturdy pole, the black rubber handle features an ARB logo on the grip. Perfect for getting out and about on rainy days, this umbrella will easily provide shelter for a few bodies!

TORCHES & LIGHTS

More information about these ARB torches is available online at www.britpart.com

10500070 | ARB Pureview 800 Torch
The ARB Pureview Torch 800 is a rugged, versatile torch with a 300m beam distance and up to 800 lumens. It features an LUMINUS® SST40 LED with a 50,000-hour lifespan, multiple brightness modes, and a strobe function. Powered by a 2600mAh li-ion battery, it offers up to 7 hours of runtime on low and charges via a hidden micro USB port. IP55 dust/mud/water resistant. Shatter-proof polycarbonate lens. USB charging with indicator. Includes lanyard and magnetic belt pouch. Aircraft-grade anodized aluminium.

10500050 | ARB LED Head Light
The headlight offers up to 7 hours of runtime with an adjustable elastic band and vertical beam hinge. It features focus adjustment for wide or narrow beams, 3 lighting modes (300 lumens, 180 lumens, and flashing), and is powered by 3 AAA batteries. Made of anodized aluminium with a 5W, 6500K Cree LED. Weighs 162g.

10500073 | ARB Horizon Flash Light
This light is perfect for night walks, with a battery indicator to prevent flat batteries and a power bank feature for phone charging during emergencies. It has a 4000mAh Li-Ion battery, 60-600 lumens, smooth dimming control, and a 180m beam. With 2-20 hours of runtime, it includes a Type-C & A braided cord that doubles as a handle. IP54 water and dust resistant.

10500085 | ARB Horizon Area Light
Ideal for campsite lighting or breakdowns, this light allows simultaneous charging and operation, removing battery limits. It features a 4000mAh power bank, 1000/2000 lumen COB LED, and a durable die-cast aluminium body. With 2 - 4 hours of runtime, it includes an in-car charger and has a magnetic swivel base. IP67 water and dust resistant.

10500080 | ARB Horizon Work Light
This work light includes a wireless charging base with rare earth magnets for secure mounting and charging, compatible with any QI-certified device. It has a 3200mAh Li-Ion battery, COB work light (50-500Lm), and torch light (150Lm). Features include smooth dimming, dual function switch, magnetic mounting, and hooks. It offers 2-20 hours of runtime and includes Type-C USB charging, IP54 water and dust resistance, and touch tape straps for extra security on bumpy roads. Suitable for wireless charging of phones and earphones.

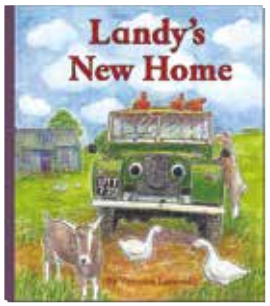
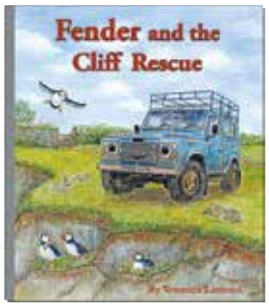
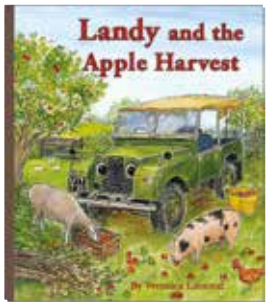
LANDY BOOKS



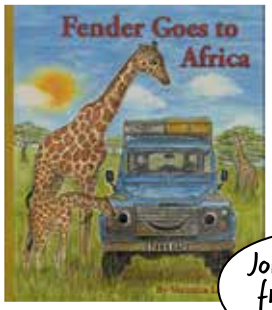
LANDY NEW HOME
"Jack & Landy are busy setting up their small holding but Landy feels left out. When Fender arrives, Landy realises he hasn't been forgotten after all..."



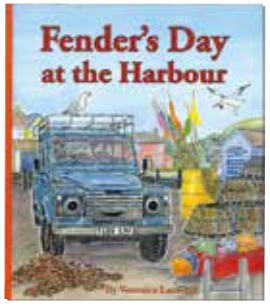
FENDER RESCUE
"Dan and Fender spend a day working up on the cliff top. Then Jack calls for help and they drive off to the rescue..."



LANDY HARVEST
"After a very windy night, Jack decides it's time to gather up all the fallen apples. Landy helps him bring the harvest home..."



FENDER AFRICA
"Fender and Dan are on their long trip through Africa, from Cairo to Cape Town. Come and join them on their exciting adventure..."



These charming hardback books, which are beautifully written & illustrated by Veronica Lamond, are an excellent gift idea for any Land Rover fan - whatever their age!

FENDER HARBOUR
"Fender watched the fishermen fixing their boats and the swing shovel at work. Meanwhile, Dan and Jack weren't having much luck...."

LAND ROVER ORIGINAL TECHNICAL PUBLICATIONS

ORIGINAL TECHNICAL PUBLICATIONS

The days of hunting around auto-jumbles for grubby and damaged workshop manuals, parts lists and owner manuals are over! At least they are if you own one of the many classic Land Rover and Range Rover models covered in the range of Original Technical Publications compilations. Carefully reproduced from the extensive historical archives in England and in the USA, we are pleased to give you access to the original Land Rover publications needed to run and maintain your classic Land Rover, including parts catalogues (most models), service manuals and owner's literature. Original parts books, workshop manuals and handbooks for Land Rovers and Range Rovers have always been greatly sought after, and rightly so: nothing compares to a Land Rover workshop manual compiled by the car's manufacturer. Now owners and enthusiasts have the opportunity to effortlessly collect all the original publications for their favourite Land Rover or Range Rover, on one handy and cost-effective title. These publications are the original publications used by the Land Rover parts department, service garages and sales departments when these cars were still in production and being serviced. Each section provides detailed information on major systems, diagnostics, troubleshooting, overhaul, as well as the removal and installation of major components. Compiled in an easy to understand format, these publications contain step by step processes designed for the mechanic and the enthusiast. In addition most manuals are filled with detailed illustrations and sometimes photographs and diagrams to help with identification of components and proper assembly. What's more, you can find information and links to Land Rover Cars, Land Rover Heritage, Land Rover Clubs and Original Technical Publications. Check out the latest picture galleries, video and media archives - even download classic Land Rover and Range Rover wallpaper to personalize your computer, tablet or phone.

Online eBook*

The online eBook wallet includes additional text and instructions as well as the web address required to access the interface and content from a personal computer (Mac OSX or Windows) as well as tablets or handheld devices (Mac iOS, Windows or Android). The eBook product provides each registered customer with a single license for one device. In other words, if a customer registers their personal computer they would be able to access BOTH the USB (if applicable) as well as access the information online on that device. If a customer registers their handheld device (iPad, tablet or hybrid) they would ONLY have access on that device once the viewer is installed and the license is authenticated.

***Note:** The 'online access' option does not apply to the Portable USB. See opposite.

Product Features

- Printable (Windows only) - print only the pages you need
- Viewable & zoomable
- Searchable - search the entire section in seconds
- Bookmarked - manuals are bookmarked to quickly locate sections

Both products are Handy & Easy to use!

System Requirements

- User must have administration rights to allow installation.
- PC Windows 10 or later, Safeguard Windows PDC viewer
- Mac OS X 10.8 (64 bit) or above, Safeguard OS X PDC viewer*
- iOS 9.1 and above Safeguard Mac iOS viewer
- Android 5.0 and above Safeguard Android viewer
- Printing not available for Apple OSX or iOS applications unless running Windows emulator

LTP3001	Series - 1948 - 1985. Includes military Land Rover 90 / 110 / 127
LTP3003	Defender 90 / 110 / 130 - 1983 - 2011. Includes military
LTP3004	Discovery 1 - 1989 - 1999
LTP3006	Discovery 2 - 1999 - 2004
LTP3016	Discovery 3 - 2004 - 2008
LTP3017	Discovery 4 - 2009 - 2012
LTP3007	Freelander 1 / Freelander 2 - 1998 - 2011
LTP3002	Range Rover Classic - 1970 - 1995
LTP3005	Range Rover P38 - 1994 - 2001
LTP3008	Range Rover - 2002 - 2010
LTP3015	Range Rover Sport - 2005 - 2009

Portable USB

USB for Windows PCs. Installation of viewer on host computer is all that is required as the user license is bound to the USB. Internet access is not required for use or activation unless the user is prompted to check for a viewer update for the particular device where the USB is being used. Each (Portable USB ebook) product is a portable software product, no registration or activation is required. DRM license is bound to the supplied USB enabling product access only to that particular.

Product Features

- Printable - print only the pages you need
- Viewable & zoomable
- Searchable - search the entire section in seconds
- Bookmarked - manuals are bookmarked to quickly locate sections
- Internet not required
- Portable between Windows computers
- Secure documents are instantly accessible just like ordinary files

System Requirements

- PC - Windows 10 or later. USB port, Safeguard Windows PDC viewer. Must have administration rights to allow installation.
- USB port

See www.britpart.com/otp for much more in depth information about what is included with each product. Far too much to list here!

LTP3001USB	Series - 1948 - 1985. Includes military Land Rover 90 / 110 / 127
LTP3003USB	Defender 90 / 110 / 130 - 1983 - 2011. Includes military
LTP3004USB	Discovery 1 - 1989 - 1999

LTP3015USB	Range Rover Sport - 2005 - 2009

Which OTP Product is best for me?

The Original Technical Publications are available in two formats - Online eBook & Portable USB.

Windows PC

User has 2 choices - Portable USB or Online eBook. Windows 10 or a later version. Requirements - USB port & Safeguard Windows PDC viewer. **Note:** Portable USB recommended as it can be easily moved from computer to computer - internet not required.

Apple OSX

Online eBook access via the online access URL. Mac OSX 10.8 (64 bit) & above. Requirements - Internet access & Safeguard OSX PDC viewer.

Apple iOS

Online eBook via the online access URL. iOS 9.1 & above. Requirements - Safeguard Mac iOS viewer. **Note:** Online eBook is recommended as it is everything you need when using from your iPad - works best with internet

Android

Online eBook via the online access via the online access URL - works best with internet. Android 5.0 or later. Requirements - Safeguard Android viewer.

Note: - Printing not available for Apple OSX or iOS applications unless running a Windows emulation software. The Portable USB option is for use on Windows PCs only. (This option is considered to be multi-license because it can be moved between Windows PCs simply by installing the PDC viewer). The Online eBook is for use on all Operating Systems except Linux. (This option is supplied with a single license for one device.)

LTP3010 | OTP Land Rover Master Collection

The ultimate Land Rover Technical Publication Collection covering models from 1948 up to 2012. A must for any Land Rover specialist, garage, restoration facility or aficionado.

Models Covered

Series - 1948 to 1985 / Land Rover 90 / 110 /127 / Defender 90 / 110 / 130 - 1983 to 2011 / Discovery 1 - 1989 to 1999 / Discovery 2 - 1999 to 2004 / Discovery 3 - 2005 to 2009 / Discovery 4 - 2009 to 2012 Freelander 1 - 1998 to 2011 / Range Rover Classic - 1970 to 1995 / Range Rover P38 - 1994 to 200 1 Range Rover - 2002 to 2010 / Range Rover Sport - 2005 to 2010

*A **must** for any Land Rover aficionado!*

Contents

Parts Publications - Parts catalogues, parts index (where available, approximately 1948 to 2004).

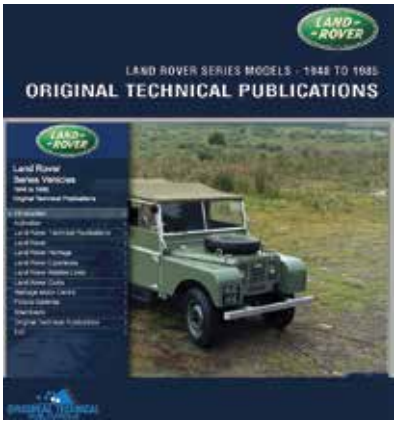
PDI & Maintenance - Workshop manual - pre-delivery inspection, pre-delivery inspection sheet, oil service, annual inspection.
Owners Literature - Owners handbook, additional handbooks:- In-car entertainment/audio/TV and navigation system/audio and navigation system/in-car telephone.
Supplementary Information - Sales brochures, accessory fitting instructions, photo gallery, downloads and various links.

LTP3010



POWER PACKS

- Small and lightweight high capacity nano lithium polymer portable power pack with the latest battery technology
- Supports fast charging with low self-discharge cycle

DA1239 kit contents

- Charging cycles can reach more than 1,000 times
- Supports 12V jump starts as well as back up charging or many brands of mobile phones, laptops, tablets, portable refrigerators etc

XS PowerPack

DA1239EU	XS PowerPack with EU mains plug
DA1255	Replacement 12V adaptor

Not suitable for DA1239 & DA1239EU purchased before 18/06/2018

The XS PowerPack is handy to keep with you on your travels to ensure you never run out of 'juice'!

- Supports 3 different types of charging modes
- Built in redundant electronic control safety protection for jump starter over-charging and over-discharging

Technical Specifications
Battery volume: 8,000mAh
Starting current: 350A
Size: 230 x 87 x 27mm
Weight: 615g
Output:
5V = 2.1A - (smart phone/tablet fast charge)
12V = 10A
19V = 3.5A (laptops/notebooks)
Input: 14V = 1A
Peak current: 700A

See it in action at
www.britpart.com/powerpack

DA5188 | Sealey Power Pack NEW
Easily fits in a glove box or backpack and benefits from being compact and lightweight. Powered by lithium-ion technology and fully protected against short circuit, overload and reverse polarity. Fitted with 10,000mAh lithium-ion battery with 5V/1.5A micro USB input and 5V/2.1A USB type A outlet for powering or charging a variety of small electronic devices. Capable of starting an average 6.0 petrol or 4.0 diesel engine. Integral LED flashlight. Waterproof to IP66 rating. Supplied in a sturdy hard-shell zip-up case.

Auxiliary Output: USB (x1) - 5V/2.1A
Voltage: 12V
Cable & Clamp Length: 385mm
Capacity:
10Ah @ 3.7V or 2.5Ah @ 14.8V (37Wh)
Maximum Current: 800A Peak, 400A Cranking
Maximum Starting Capacity:
6.0 Petrol / 4.0 Diesel
Size (W x D x H): 88 x 33 x 158mm

DOG RAMP

See it in action at
www.britpart.com/DA1631

Make life easier for you & Rover!

DA1631 | Telescopic lightweight Dog Ramp
This handy dog ramp is perfect for dogs who have difficulty jumping into the back of your Land Rover. With an anti-slip coating the ramp is quick and safe to use even in wet conditions. The ramp is perfect for aging & injured dogs as well as puppies and smaller dogs who can't reach!
No more hurting your back lifting up your dog!

Features
- Telescopic lightweight design for quick and easy storage
- Rubber feet to hold ramp in position
- Catch to hold together when stored
- Anti-slip coating

Specifications
- Maximum weight capacity - 90kg
- Weight - 7kg
- Length compressed - 1,000mm
- Length extended - 1,850mm
- Width at widest point - 450mm
- Deck width - 390mm

Starting handle for Series vehicles

SKYTAG

DA9012 | Skytag

- Pinpoint GPS tracking
- Worldwide coverage
- 24/7 service
- Tamper alerts
- Intelligent movement alerts
- Direct police access and liaison
- Simple to install and transferable
- Internal backup battery
- 5 year warranty

Skytag: Leading Stolen Vehicle Recovery
Skytag is the UK's largest independent stolen vehicle recovery company, using advanced tracking technology to locate and recover vehicles quickly. With an outstanding recovery record and an 11-minute fastest retrieval, Skytag offers top-tier service, including monthly operation checks and direct police access to live location data.

A small, covert GPS tracker, easily self-installed to enhance security. Its compact size makes it nearly impossible to find, while GPS pinpoints location within 5 meters. The device transmits real-time data via GPRS and includes a backup battery lasting 3 days if disconnected. It's IP65 waterproof and offers global coverage.

Subscription Plans - payments to Skytag
Standard Tracking (£7.99/month)

- Battery & low-power alerts
- Monthly health checks
- Worldwide coverage
- 24/7 crime line & police liaison

Active Monitoring (£11.99/month)

- Includes Standard Tracking
- Movement alerts

LeisureSafe: Alerts if the vehicle moves unexpectedly from its usual storage area
NightSafe: Protects vehicles during night hours

Live Tracking (£13.99/month)**

- Includes Active Monitoring
- User-defined zones & speed alerts
- Live updates every 5-20 minutes
- Unlimited email alerts & 10 phone alerts per week

Stay protected with Skytag's reliable and affordable tracking solutions. More details available at **www.britpart.com/skytag**

LOCKING FUEL CAPS

DA1227
Defender - XA159807 onwards
Discovery 2
Supplied with 2 keys
Add some extra protection to your fuel.

Optimill Locking Fuel Caps

DA8876	Silver
DA8875 NEW	Black

Defender - 1998 - 2016
Direct replacement for original using genuine Land Rover locking mechanism with 2 keys. Manufactured from billet aluminium.

TAMPER PROOF NUTS & BOLTS

DA7333

Ensure your precious accessories remain firmly on your Land Rover by using a set of these stainless steel tamper proof nuts and bolts. Ideal for securing your winch and front bumper. Each set contains either 4 nuts or bolts and 1 key.

SECURITY MARKING KIT

DA8533
The International Security Register (ISR) system has proved successful in deterring and detecting theft and fraud for over 30 years. It works on the principle that if a vehicle's windows and parts are marked using robust techniques and details are recorded on a secure database - supported by a 24/7 verification service - criminals stealing the vehicle will run a real risk of being caught and prosecuted. Each mark applied to a vehicle will contain a unique 8-digit code, the ISR logo and www.isrcodecheck.com

Pack Components

- Full instructions on marking and registering a Land Rover are in the security marking kit.
- 8 vinyl stencils, fluid and brush for marking windows.
- 2 warning decals.
- 2 sets of 6 UV self-etch labels for application to painted metal body panels.
- 2 sets of 7 ultra-destruct labels with UV fluid and applicator for identifying plastic parts.
- A set of three Britpart branded security tags for increasing the chance of items that are so often mislaid, being returned to the owner.
- A Britpart branded ISR customer contact card.

Registration of Vehicle and Owner Data on the ISR
The vehicle owner - or the stockist - would complete the registration process online via the Britpart registration page at www.TheISR.org then select "All Vehicles" then "Vehicles" followed by "Britpart Registration Form" entering the unique code together with the vehicle make, model, colour, VIN and VRM together with the owners name and contact details. If an email address is supplied, an automated acknowledgement of registration would be sent. The code for the security tags would be automatically recorded.

X-COLUMN

Nothing to lock or unlock

DA9013
One thing that is common to virtually all stolen Land Rovers is that the column steering lock has been broken. It is normally broken by removing the lock barrel as this is surprisingly quick - the vehicle can then often be started with a screwdriver. This neat solution is a sleeve for the lock barrel assembly machined out of steel. It is strong enough to prevent the barrel being removed or the end broken off. The best thing about this solution is it's completely passive - i.e. nothing to lock or unlock. It stays permanently fitted to the vehicle providing 24 hour protection and deterrent value. The column lock will fit all Defenders LHD or RHD - up to 2014, including Puma/Tdci. One exception is that some ex-military vehicles do not have a steering lock. While the column lock will fit - it serves no purpose as there is nothing for it to protect.

DA5231 NEW
Supplied with 2 keys
Discovery 5

X-DEFEND PEDAL LOCK

DA6601

Defender - up to Td5 without air-con

DA6601	Right hand drive
DA6602	Left hand drive

The X-Defend Pedal Lock prevents the clutch, brake and throttle pedal from being operated, making a vehicle almost impossible to drive! Unlike other pedal locks, this remains bolted to the floor of the vehicle. When not in use, it folds flat on the floor and seat box, forming the floor of the cab. In this position it can be covered with your usual floor mat. This means you don't have to store a 20kg lump of metal which could be lethal if it hit you in the event of an accident or while off-roading. It also means that locking is incredibly quick. Just release the catch which holds it against the seat box and lock into position.

A 10mm thick steel claw grabs the brake pedal shaft and ratchets in tight against it. It can be locked in a couple of seconds! To unlock turn the key which releases the pedal and fold flat on the floor. The Pedal Lock is supplied in tough, corrosion proof 304 stainless steel and uses formed hinges with a 6mm stainless pin. It is supplied with an anti-drill, British made Lowe & Fletcher RPT Lock.

Note: This does NOT fit Series / Defender - 2007 - 2016. As not all Defenders are the same and build tolerances are at best acceptable it may be necessary to either relocate the bonnet pull bracket (you can drill out the spot welds and re-attach with pop rivets) or better still replace with the later Td5 type bonnet pull (FSC000050PMA). We have discovered that because Land Rover had no set place to fit the early type bracket it sometimes fouls the pedal lock.

QUICK RELEASE STEERING WHEEL BOSSES & LOCKS

DA8883

DA8884

DA8884DOCK

Optimill Steering Wheel Bosses
Optimill slimline boss fits directly to your steering column, without the need for multiple bosses to be used. Manufactured to the highest standard, hard anodised to prevent wear and designed to give an extra level of security to your vehicle.

DA8883	Slimline boss with quick release | 48 splines
DA8882	Slimline boss with quick release | 36 splines

OPTIMILL

DA8884 | Optimill Quick Release Security Lock
Produced as a swivel locking cover to fit over an Optimill Quick Release Boss (36 or 48 spline).

DA8884DOCK | Optimill Quick Release Security Lock Docking Station
Manufactured to screw into your cubby box or where you choose to store your Optimill quick release swivel lock.

DASH CAMERAS

DA5202

DA5202 | Ring Dash Camera

Have a third eye on the road for those unexpected moments!
Drive with a security expert by your side with the Ring Smart Dash Camera and Ring Connect. Save, download and share your dash cam footage easily in one place, making it easier to look back on your journeys, and if the worst was to occur, gather crucial evidence in one place.

A full HD 1080p resolution dash cam with 32GB storage capacity. A 120° field of view and 30fps create a high quality, full HD image to see more of what is happening outside your vehicle. Includes an interior trim installation/ removal tool and a quick and easy to use magnetic mount for a stronger, more secure fitting. The dark colours and compact size help keep the camera discreet in the car, avoiding any distractions.

- Full HD 1080p 30fps recording for clear, high recording quality
- 120° field of view to capture a wide view of the road
- Ring Connect and wi-fi enabled - works with Ring Connect App
- Easy installation and removal with a magnetic mount and trim tool included
- G-sensor to automatically save files in the event of a collision
- 32GB memory capacity with micro SD card
- 2" screen
- Auto start/stop - prevents vehicle battery for being drained
- Trim installation/removal tool included
- Dimensions - 45 x 76 x 34mm (HxWxD)
- Weight - 188g
- Voltage - 12V - 24V DC
- Wattage - 5
- Amps Output - 0.35
- Batteries included - Rechargeable lithium-ion

DA5203

DA5203 | Ring Smart Dash Camera & Ring Connect

- Ultra Slim Compact
- Smart Dash Camera
- App and Wi-Fi enabled
- Voltage - 12V DC
- Wattage - 5W
- Amps Output - 0.35A

Front Dash Camera

Be sure of your safety with the Ring RSDC4000 Smart Dash Camera and Ring Connect. Share, save and download your dash cam footage easily, making it easier to look back on your journeys, and gather crucial evidence in one place. A full HD 1440p resolution dash cam with micro-SD slot allowing for 128GB storage (not included).

A 140° field of view and 30fps create a high quality, full HD image, for a wide view of the road. Includes a GPS feature to track your vehicle and where collisions occur to help with insurance claims. Compatible with the RSDCR1000 Rear Camera (included in the kit) for a full view of the outside of your vehicle. Comes with a magnetic mount and interior trim installation/removal tool for a more secure fitting. Without a screen and dark colours help keep the camera discreet in the car, avoiding any distractions.

- Full HD 1440p 30fps recording for clear, high recording quality.
- 140° field of view to capture a wide view of the road.
- Ring Connect and WiFi enabled - works with Ring Connect App
- GPS feature to keep track of and locate vehicle in the event of a collision
- Screenless for compact design
- Compatible with RSDCR1000 Rear Dash Cam (included) for full view of outside of vehicle
- Easy installation and removal with a magnetic mount and trim tool included
- G-sensor to automatically save files in the event of a collision
- 128GB memory capacity with microSD card.
- H x W x D - 45 x 90 x 38mm
- Weight - 0.188kg

Rear Dash Camera

Ring RSDCR1000 Smart Dash Camera is a full HD 1080p resolution dash cam. A 140° field of view and 30fps create a high quality image. Compatible with the Ring RSDC4000 Smart Dash Cam (included in the kit) for a full picture of what is going around the whole vehicle. Includes a quick and easy to use clip mount for a stronger, more secure fitting. The dark colours and compact size help keep the camera discreet in the car, avoiding any distractions. Interior trim tool included.

- Full HD 1080p 30fps recording for clear, high recording quality
- Compatible with the RSDC4000 Smart Dash Cams
- Slot in adjustable mount and compact design for ease of installation
- Interior trim tool included
- H x W x D - 47 x 59 x 29mm
- Weight - 0.158kg

VPLKV0134LR

VPLKV0134LR | Front & Rear Camera

Defender - 2020 onwards / Discovery Sport / Discovery 5
Range Rover Evoque - 2019 onwards / Range Rover Velar
Range Rover Sport - 2014 - 2022 / Range Rover Sport - 2023 onwards
Range Rover - 2013 - 2022 / Range Rover - 2022 onwards

Drive with peace of mind that events and incidents will be captured with the Land Rover dash cam. Designed to seamlessly integrate with your Land Rovers cabin and electrical system.

With low power consumption for extended use and full HD front and rear video camera, the camera makes it easy to look back in journeys, and if the worst occurs, to gather crucial evidence.

- Removeable front camera with fixed viewing angle
- Fixed rear camera with adjustable viewing angle
- G-sensors trigger recording in the event of an accident or heavy braking
- An integrated radar system* to enable recording when your parked vehicle is approached
- Record additional events with a manual record option
- Onboard GPS allows used to optionally add speed and location data to the linked video files to create a detailed record of each event
- Includes 32GB SD card
- Recordings can be accessed and controlled by optional Apple of Android apps, or via a web browser

Note: Not compatible with windscreen sun shield. To preserve the 12V battery life it may be necessary to disable this feature on some vehicles.
*Only available on certain vehicles

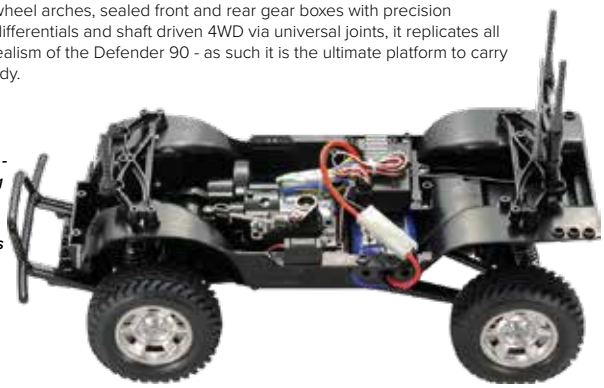
REMOTE CONTROL DEFENDER MODEL

DA1626 | Tamiya 1/10 Scale Remote Control Defender 90

- 457 L x 200 W x 214mm H and Wheelbase - 242mm
- The Defender 90 form is accurately captured by the polycarbonate body, with slide moulding used for great detail such as rear panel surfaces.
- Includes separately moulded parts for grille, side mirrors, light cases and tyre cover.
- Compatible with 5mm diameter LEDs (white) x 2 for headlights and 5mm diameter LEDs x 6 for the rear.
- Matt plated wheels are paired with realistic tyres featuring authentic tread pattern.
- Highly reliable CC-01 chassis features a full-time 4WD system and front double wishbone, rear 4-link rigid suspension equipped with 4 CVA oil dampers.
- An expansive range of option parts is available to customise the CC-01 chassis. The CC-01 chassis is Tamiya's ultimate platform for mounting precise scale renditions of off road chassis. With built in wheel arches, sealed front and rear gear boxes with precision engineered differentials and shaft driven 4WD via universal joints, it replicates all the rugged realism of the Defender 90 - as such it is the ultimate platform to carry this iconic body.

The model's bodywork needs painting - ideal for having the chance to match your own Defender's colour!



Superbly detailed 1/10 scale remote control model assembly kit

DA1627 | Remote Control System

The remote control is not supplied with the model and needs to be purchased separately.

- Operating voltage transmitter 4.8 - 6V
- 2.4GHz system
- Two continuously variable, fully proportional channels
- Servo reverse for both channels (change of running direction)
- Trimming function for acceleration and steering
- Power supply of the BEC receiver possible via driving battery with 4.8 - 7.2V
- Connector system for Futaba and Graupner JR
- Charging socket (positive pole inside)
- Battery charge level display by means of LED
- 4 Channel receiver
- Transmitter batteries
- Battery pack NiMh 7.2V/2100 mAh
- Plug charge (Output 9V/300 mA)

DA3643

Watch them go and find out more - **www.britpart.com/traxxas-10**

DA3642	TRX-4M Defender 1:18 | Blue
DA3643	TRX-4M Defender 1:18 | Grey

Big Fun And Adventure In A Smaller Trx-4

Introducing TRX-4M, a new way to experience all the fun, adventure, and scale realism of the TRX-4 in a 1/18 platform. TRX-4M bridges the gap between the small crawler scene and 1/10 scale quality and performance. Oil-filled shocks, steel frame rails, and a smooth running drivetrain give it true outdoor capability over rocks and through grass and streams. The tight turning radius and precise throttle control give it fantastic indoor manoeuvrability.

What's In The Box

- TRX-4M® Ready-To-Race® model
- Licensed ABS hard body

*Requires accessory Pro Scale LED Light Kit, sold separately

Features

The Right Size For Fun - TRX-4M is the perfect size to fit in a backpack for fun on the go. It's small, powerful, and manoeuvrable so just about any space becomes an instant trail or crawling course. Whether it's a mountain of books indoors or a rock garden in the backyard, TRX-4M is always ready for big fun and adventure.

All-Terrain Versatility - TRX-4M is equipped to take on tough off-road terrain with grippy soft-compound tires, precision-engineered 4-link suspension geometry, and smooth oil-filled shocks.

45° Steering Angle - A full 45° steering angle gives TRX-4M an exceptionally tight turning radius and extreme manoeuvrability in small spaces where every inch counts.

Oil-Filled GTM™ Shocks - TRX-4M's oil-filled GTM shocks offer smooth suspension damping to keep the wheels firmly planted on uneven surfaces.

Detailed ABS Body With Clipless Mounting - The innovative clipless body removes and installs in just seconds with no clips to lose or frustrating hook and loop tabs.

Waterproof Electronics - TRX-4M is the truck that goes where you want to go, without boundaries or restrictions. Only Traxxas' fully-waterproof innovation gives you the freedom to drive through wet grass, puddles, and streams that force others to turn around.

SIT ON DEFENDERS

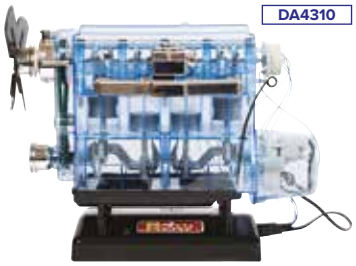
Features
- 6V 4.5AH battery
- Power indicator display
- Working LED headlights
- Seat belt for added safety
- Realistic engine sounds
- MP3 connection
- Forward and reverse gears
- 2.4GHz radio control
- Easy to assemble

Equipped with working LED lights & realistic engine sounds.

DA1518 Orange
DA1520 Red
Maximum load capacity - 20kg
Size - 780 x 410 x 490mm / Weight - 10kg
For smaller Land Rover fans we have these! Fully licensed by Land Rover, these Defender 6V electric toys are suitable for children aged 3 to 7. These toys are equipped with working LED lights and realistic engine sounds. MP3 connectivity means your little ones can listen to their favourite music as they drive around. The cars can be controlled by either the child driving or by a parent with the remote control handset. 2.4GHz radio control ensures each car has its own frequency so can't be controlled by anything else - ideal if you have two Defenders in the same location.

HAYNES INTERNAL COMBUSTION ENGINES

DA4310



DA4310 | Haynes 4-Cylinder Engine
Build a realistic working model of a combustion engine. Includes light and sound features, light up spark plugs, moving pistons, valve gear, fan belt and 'Haynes Manual'.
Finished model size -
180 H x 270 W x 140mm D

Build a working model of an engine.

DA4817

DA4817 | Haynes V8 Engine
Build a fully functional, motorised model of a V8 petrol engine. Features sound recorded from a real V8 and illuminating spark plugs. The kit contains nearly 300 pieces and all that you need to assemble the model. It is supplied with a Haynes style manual giving you clear step-by-step instructions as well as interesting information about real V8 engines.

CASTROL CLASSIC OILS MERCHANDISE

Castrol Pouring Jugs
DA6271 Half pint
DA6272 Pint
DA6273 Quart (two pints)
Use either to decorate your workshop or study or to accurately measure lubricant quantities shown in imperial measures in vehicle handbooks.

DA3926

DA3927

Classic Pump Oil Cans
DA3926 200ml
DA3927 500ml
The classic Castrol oil applicator. Pump action screw top cans, supplied with exchangeable fixed & flexible applicators. With printed 1946 logo on one side. These period style oil cans are great for lubricating hard to reach places.

DA6275 | Window Service Sticker
Never forget to change your oil with this self-cling window sticker with Castrol logo on one side & Change Due boxes on the other. 3" diameter.

DA6270 | Castrol Tin Mug
Drink your tea in a nostalgic way with this large tin mug

DA6274 | Baseball Cap
Smart green cap with embroidered Castrol logo. One-size fits all

RIDE ON SUITCASES

Make travelling with kids fun with the Range Rover Sport SVR convertible kid's ride on and suitcase! This beautifully crafted officially licensed scale model of a real Range Rover can be used as a pull along suitcase but the really clever bit is that it also converts quickly and easily into a fun kids' ride on toy. Ideal for parents travelling with kids as it is will keep kids amused while travelling - perfect for planes, trains or cars and for playing on when you get to your destination too. It is a must have accessory for all little Range Rover fans! It is big enough to hold everything you need in your hand luggage including toys, clothes and games but also not too bulky to be pulled along using the pull-out handle. It is quick and easy to convert it into a kids' ride on car toy with the clever fold up handle - kids can push themselves around plus it makes a great seat for kids to sit on while in queues for check in too! Suitable for age 2+ years.

DA1835 White
Max recommended user weight: 23kg.
Product size: 548 L x 296 W x 223mm D

Converts quickly and easily into a fun kids' ride

BRITPART
The quality parts for Land Rovers

DA1511 | Defender Exhaust Mug
Manufactured using a metal spinning technique from sheets of 304 stainless steel then spun into 3" diameter. The exposed lip gets outward rolled to replicate a Defender exhaust. The handle, also of 304 grade (8mm) round bar, pressed into shape. This resembles an exhaust hanger. Each Britpart branded mug is finished by hand polishing. This weighty mug (300g and 420ml capacity) is perfect for use in any workshop.

DA8014 | USB Flash Drive
Diecast metal Defender with working headlights. 16GB. Simple, portable, personal storage with a high reading & writing speed.

DA8112 | Insulated Water Bottle
500ml double walled, stainless steel, drinks bottle with a matching coloured lid and silicone carry handle. Keeps hot and cold drinks at the perfect temperature. BPA & PVC free. Britpart branded.

DA8130 | Britpart Travel Mug NEW
470ml capacity. Tea or coffee stays hot for up to 6 hours or cold for up to 12 hours thanks to Theralock vacuum insulation. With a quick snap of the lid, the mug seals for 100% leak-proof performance.

Hiclone
Hilcone is a simple non-moving stainless steel device that sits inside the air induction system of an engine. Like a static mixer, it vigorously swirls the air; improving the fuel/air mixture and atomisation, promoting more complete combustion as more of the available fuel is consumed. More efficient burning of the fuel cuts smoke and other hydrocarbon emissions. Hiclone also smooths out the engine torque curse, resulting in a reduction in gear changes and a quieter engine, especially on the motorway. With Hiclone fitted you can corner and go uphill in a higher gear, this makes the vehicle easier to drive, improves the ride and reduces engine wear. Additionally Hiclone improves low down grunt of turbo charged engines making towing and hauling heavy loads more effective.
